Version: 2024-02-01

A"SCAP CONASALVES

#	Article	IF	CITATIONS
1	Mind wandering and musical creativity in jazz improvisation. Psychology of Music, 2022, 50, 1212-1224.	1.6	2
2	Offline tDCS modulates prefrontal-cortical–subcortical-cerebellar fear pathways in delayed fear extinction. Experimental Brain Research, 2022, 240, 221-235.	1.5	4
3	Modulation of the cognitive event-related potential P3 by transcranial direct current stimulation: Systematic review and meta-analysis. Neuroscience and Biobehavioral Reviews, 2022, 132, 894-907.	6.1	12
4	Cortical auditory evoked potentials in 1â€monthâ€old infants predict language outcomes at 12Âmonths. Infancy, 2022, 27, 324-340.	1.6	0
5	Viability Study of Machine Learning-Based Prediction of COVID-19 Pandemic Impact in Obsessive-Compulsive Disorder Patients. Frontiers in Neuroinformatics, 2022, 16, 807584.	2.5	4
6	Towards a (Neuro)Science Based Clinical & Health Psychology. International Journal of Clinical and Health Psychology, 2022, 22, 100300.	5.1	0
7	Revisiting consciousness: Distinguishing between states of conscious focused attention and mind wandering with EEG. Consciousness and Cognition, 2022, 101, 103332.	1.5	10
8	Alterations in functional connectivity are associated with white matter lesions and information processing efficiency in multiple sclerosis. Brain Imaging and Behavior, 2021, 15, 375-388.	2.1	7
9	Callous-Unemotional Traits Moderate Anticipated Guilt and Wrongness Judgments to Everyday Moral Transgressions in Adolescents. Frontiers in Psychiatry, 2021, 12, 625328.	2.6	8
10	The effects of direct current stimulation and random noise stimulation on attention networks. Scientific Reports, 2021, 11, 6201.	3.3	16
11	Behavioral response to tactile stimuli relates to brain response to affective touch in 12â€monthâ€old infants. Developmental Psychobiology, 2020, 62, 107-115.	1.6	11
12	Transcranial Direct Current Stimulation as an Add-on Treatment to Cognitive-Behavior Therapy in First Episode Drug-NaÃ⁻ve Major Depression Patients: The ESAP Study Protocol. Frontiers in Psychiatry, 2020, 11, 563058.	2.6	9
13	Changes in the Effective Connectivity of the Social Brain When Making Inferences About Close Others vs. the Self. Frontiers in Human Neuroscience, 2020, 14, 151.	2.0	16
14	Mind wandering: Tracking perceptual decoupling, mental improvisation, and mental navigation Psychology and Neuroscience, 2020, 13, 493-502.	0.8	7
15	Executive impairments in Obsessive Compulsive Disorder: A systematic review with emotional and non-emotional paradigms. Psicothema, 2020, 32, 24-32.	0.9	2
16	Psychophysiological Synchrony During Verbal Interaction in Romantic Relationships. Family Process, 2019, 58, 716-733.	2.6	42
17	The effect of cathodal tDCS on fear extinction: A cross-measures study. PLoS ONE, 2019, 14, e0221282.	2.5	24
18	Measuring Vulnerability to Anxiety: Factorial Structure, Reliability, Validity, and Discriminatory Accuracy of the Anxiety Sensitivity Index–3–PT. Measurement and Evaluation in Counseling and Development, 2019, 52, 223-238.	2.3	5

#	Article	IF	CITATIONS
19	Functional and structural connectivity of the executive control network in college binge drinkers. Addictive Behaviors, 2019, 99, 106009.	3.0	21
20	Using resting-state DMN effective connectivity to characterize the neurofunctional architecture of empathy. Scientific Reports, 2019, 9, 2603.	3.3	26
21	Brain circuits involved in understanding our own and other's internal states in the context of romantic relationships. Social Neuroscience, 2019, 14, 729-738.	1.3	11
22	Infant brain response to affective and discriminative touch: A longitudinal study using fNIRS. Social Neuroscience, 2019, 14, 571-582.	1.3	20
23	Brain mechanisms for processing discriminative and affective touch in 7-month-old infants. Developmental Cognitive Neuroscience, 2019, 35, 20-27.	4.0	55
24	Increased Nucleus Accumbens Volume in College Binge Drinkers - Preliminary Evidence From Manually Segmented MRI Analysis. Frontiers in Psychiatry, 2019, 10, 1005.	2.6	12
25	Insights on Social Behavior From Studying Williams Syndrome. Child Development Perspectives, 2018, 12, 98-103.	3.9	6
26	The differential effects of unihemispheric and bihemispheric tDCS over the inferior frontal gyrus on proactive control. Neuroscience Research, 2018, 130, 39-46.	1.9	24
27	Developmental trajectory of the prefrontal cortex: a systematic review of diffusion tensor imaging studies. Brain Imaging and Behavior, 2018, 12, 1197-1210.	2.1	31
28	Vagal modulation of 1â€monthâ€old infants to auditory stimuli is associated with selfâ€regulatory behavior. Social Development, 2018, 27, 322-334.	1.3	3
29	Neuromodulating attention and mind-wandering processes with multi-session real-time electroencephalogram. Porto Biomedical Journal, 2018, 3, e17.	1.0	3
30	Stimulus complexity matters when you hear your own voice: Attention effects on self-generated voice processing. International Journal of Psychophysiology, 2018, 133, 66-78.	1.0	17
31	Mind Wandering and Task-Focused Attention: ERP Correlates. Scientific Reports, 2018, 8, 7608.	3.3	40
32	Neuromodulating Attention and Mind-Wandering Processes with a Single Session Real Time EEG. Applied Psychophysiology Biofeedback, 2018, 43, 143-151.	1.7	15
33	Polarity Specific Effects of Cross-Hemispheric tDCS Coupled With Approach-Avoidance Training on Chocolate Craving. Frontiers in Pharmacology, 2018, 9, 1500.	3.5	11
34	Empathy by default: Correlates in the brain at rest. Psicothema, 2018, 30, 97-103.	0.9	5
35	Psychopathology and behavior problems in children and adolescents with Williams syndrome: Distinctive relationships with cognition. Child Neuropsychology, 2017, 23, 631-641.	1.3	9
36	Is there a T.R.U.M.P. brain? Implications for mental health and world peace. Porto Biomedical Journal, 2017, 2, 247-249.	1.0	0

#	Article	IF	CITATIONS
37	Combining transcranial direct current stimulation (tDCS) and classical extinction to persistently erase avoidance tendencies. Brain Stimulation, 2017, 10, 407.	1.6	1
38	Patterns of Default Mode Network Deactivation in Obsessive Compulsive Disorder. Scientific Reports, 2017, 7, 44468.	3.3	33
39	Psychophysiological Reactivity in Couples During a Marital Interaction Task. Applied Psychophysiology Biofeedback, 2017, 42, 335-346.	1.7	14
40	Mind wandering and the attention network system. Acta Psychologica, 2017, 172, 49-54.	1.5	9
41	PO2-6EVALUATION OF A COGNITIVE REHABILITATION PROGRAM IN 491 PATIENTS. Alcohol and Alcoholism, 2017, 52, i31-i49.	1.6	Ο
42	Gray Matter Abnormalities in the Inhibitory Circuitry of Young Binge Drinkers: A Voxel-Based Morphometry Study. Frontiers in Psychology, 2017, 8, 1567.	2.1	15
43	Real-time functional magnetic resonance imaging in obsessive-compulsive disorder. Neuropsychiatric Disease and Treatment, 2017, Volume 13, 1825-1834.	2.2	11
44	The influence of skin colour on the experience of ownership in the rubber hand illusion. Scientific Reports, 2017, 7, 15745.	3.3	31
45	Is the relationship between mind wandering and attention culture-specific?. Psychology and Neuroscience, 2017, 10, 132-143.	0.8	6
46	Morphometric and Connectivity White Matter Abnormalities in Obsessive Compulsive Disorder. Principles and Practice of Clinical Research Journal, 2017, 3, .	0.1	1
47	Alterations of gray and white matter morphology in obsessive compulsive disorder. Psicothema, 2017, 29, 35-42.	0.9	10
48	A neurobiologia da psicopatologia e psicoterapia e as implicaçÃμes práticas de uma perspectiva materialista na definição de mente. Universitas Psychologica, 2017, 15, .	0.6	0
49	Validity evidence of the Portuguese version of the Interpersonal Reactivity Index for Couples. Avaliacao Psicologica, 2016, 14, 309-317.	0.1	5
50	Cognitive and emotional impairments in obsessive–compulsive disorder: Evidence from functional brain alterations. Porto Biomedical Journal, 2016, 1, 92-105.	1.0	37
51	Alterations of the default mode network connectivity in obsessive–compulsive personality disorder: A pilot study. Psychiatry Research - Neuroimaging, 2016, 256, 1-7.	1.8	13
52	Hemispheric asymmetries in subcortical visual and auditory relay structures in congenital deafness. European Journal of Neuroscience, 2016, 44, 2334-2339.	2.6	15
53	Altered functional connectivity of the default mode network in Williams syndrome: a multimodal approach. Developmental Science, 2016, 19, 686-695.	2.4	10
54	Neuro-Ophthalmic Syndromes and Processing Speed in Multiple Sclerosis. Journal of Neuro-Ophthalmology, 2016, 36, 23-28.	0.8	1

#	Article	IF	CITATIONS
55	The Temporal Dynamics of Visual Processing in Multiple Sclerosis. Applied Neuropsychology Adult, 2016, 23, 133-140.	1.2	11
56	A Cognitive Neuroscience View of Voice-Processing Abnormalities in Schizophrenia. Harvard Review of Psychiatry, 2016, 24, 148-163.	2.1	21
57	The effects of stimulus complexity on the preattentive processing of self-generated and nonself voices: An ERP study. Cognitive, Affective and Behavioral Neuroscience, 2016, 16, 106-123.	2.0	9
58	Cognitive Development, Learning and Drug Use. , 2016, , 13-21.		0
59	Default mode network dissociation in depressive and anxiety states. Brain Imaging and Behavior, 2016, 10, 147-157.	2.1	145
60	Gray Matter Morphological Alteration in Obsessive Compulsive Disorder: Evidence for an Inhibitory Control and Emotional Regulation Disorder. Principles and Practice of Clinical Research Journal, 2016, 2, .	0.1	1
61	Inferior frontal gyrus white matter abnormalities in obsessive–compulsive disorder. NeuroReport, 2015, 26, 495-500.	1.2	12
62	A VEP study in sleeping and awake oneâ€monthâ€old infants and its relation with social behavior. International Journal of Developmental Neuroscience, 2015, 41, 37-43.	1.6	6
63	Cognitive Rehabilitation in a Visual Variant of Alzheimer's Disease. Applied Neuropsychology Adult, 2015, 22, 73-78.	1.2	9
64	Hemispheric dorsolateral prefrontal cortex lateralization in the regulation of empathy for pain. Neuroscience Letters, 2015, 594, 12-16.	2.1	51
65	Decoding Visual Location From Neural Patterns in the Auditory Cortex of the Congenitally Deaf. Psychological Science, 2015, 26, 1771-1782.	3.3	29
66	Abnormal interactions between context, memory structure, and mood in schizophrenia: An <scp>ERP</scp> investigation. Psychophysiology, 2015, 52, 20-31.	2.4	8
67	Sustained Effects of a Neural-based Intervention in a Refractory Case of Tourette Syndrome. Brain Stimulation, 2015, 8, 657-659.	1.6	28
68	Paying attention to my voice or yours: An ERP study with words. Biological Psychology, 2015, 111, 40-52.	2.2	25
69	Transcranial Direct Current Stimulation Based Metaplasticity Protocols in Working Memory. Brain Stimulation, 2015, 8, 289-294.	1.6	38
70	The music of language: An ERP investigation of the effects of musical training on emotional prosody processing. Brain and Language, 2015, 140, 24-34.	1.6	28
71	Volumetric alterations in the nucleus accumbens and caudate nucleus in bulimia nervosa: A structural magnetic resonance imaging study. International Journal of Eating Disorders, 2015, 48, 206-214.	4.0	30
72	Brain activation of the defensive and appetitive survival systems in obsessive compulsive disorder. Brain Imaging and Behavior, 2015, 9, 255-263.	2.1	15

#	Article	IF	CITATIONS
73	Differential activation of the default mode network in jet lagged individuals. Chronobiology International, 2015, 32, 143-149.	2.0	12
74	Are cognitive interventions for Multiple Sclerosis effective and feasible?. Restorative Neurology and Neuroscience, 2014, 32, 623-638.	0.7	7
75	A neuroscience agenda for counseling psychology research Journal of Counseling Psychology, 2014, 61, 507-512.	2.0	14
76	Biological Markers in Noninvasive Brain Stimulation Trials in Major Depressive Disorder. Journal of ECT, 2014, 30, 47-61.	0.6	54
77	A psicologia como neurociência cognitiva: Implicações para a compreensão dos processos básicos e suas aplicações. Analise Psicologica, 2014, 32, 3-25.	0.2	Ο
78	The Big Five default brain: functional evidence. Brain Structure and Function, 2014, 219, 1913-1922.	2.3	87
79	Improved functional abilities of the life-extended Drosophila mutant Methuselah are reversed at old age to below control levels. Age, 2014, 36, 213-221.	3.0	11
80	Effects of Empathy and Conflict Resolution Strategies on Psychophysiological Arousal and Satisfaction in Romantic Relationships. Applied Psychophysiology Biofeedback, 2014, 39, 19-25.	1.7	42
81	Cognitive Stimulation for Portuguese Older Adults With Cognitive Impairment. American Journal of Alzheimer's Disease and Other Dementias, 2014, 29, 503-512.	1.9	31
82	Cerebral and cerebellar MRI volumes in Williams syndrome. Research in Developmental Disabilities, 2014, 35, 922-928.	2.2	19
83	Facilitative effects of bi-hemispheric tDCS in cognitive deficits of Parkinson disease patients. Medical Hypotheses, 2014, 82, 138-140.	1.5	7
84	Abnormalities in the processing of emotional prosody from single words in schizophrenia. Schizophrenia Research, 2014, 152, 235-241.	2.0	30
85	Uma abordagem multimétodo do desenvolvimento pessoal com estudantes do ensino superior. Psicologia, 2014, 13, 209.	0.3	0
86	Posterior cortical atrophy and Alzheimer's disease: a meta-analytic review of neuropsychological and brain morphometry studies. Brain Imaging and Behavior, 2013, 7, 353-361.	2.1	36
87	Visual emotional information processing in male schizophrenia patients: Combining ERP, clinical and behavioral evidence. Neuroscience Letters, 2013, 550, 75-80.	2.1	17
88	Morphometry of corpus callosum in Williams syndrome: shape as an index of neural development. Brain Structure and Function, 2013, 218, 711-720.	2.3	12
89	Enhanced Optomotor Efficiency by Expression of the Human Gene <i>Superoxide Dismutase</i> Primarily in <i>Drosophila</i> Motorneurons. Journal of Neurogenetics, 2013, 27, 59-67.	1.4	2
90	The Effects of Cross-Hemispheric Dorsolateral Prefrontal Cortex Transcranial Direct Current Stimulation (tDCS) on Task Switching. Brain Stimulation, 2013, 6, 660-667.	1.6	65

#	Article	IF	CITATIONS
91	Brain correlates of pro-social personality traits: a voxel-based morphometry study. Brain Imaging and Behavior, 2013, 7, 293-299.	2.1	44
92	Sensory-based and higher-order operations contribute to abnormal emotional prosody processing in schizophrenia: an electrophysiological investigation. Psychological Medicine, 2013, 43, 603-618.	4.5	64
93	Is There Evidence for Cognitive Intervention in Alzheimer Disease? A Systematic Review of Efficacy, Feasibility, and Cost-Effectiveness. Alzheimer Disease and Associated Disorders, 2013, 27, 195-203.	1.3	49
94	Interactions between mood and the structure of semantic memory: event-related potentials evidence. Social Cognitive and Affective Neuroscience, 2013, 8, 579-594.	3.0	45
95	Non-pharmacological cognitive intervention for aging and dementia: Current perspectives. World Journal of Clinical Cases, 2013, 1, 233.	0.8	34
96	Importance of web-based intervention in minimizing depressive symptoms and associated stigma in depressed medical students. Revista Brasileira De Psiquiatria, 2013, 35, 334-334.	1.7	0
97	Domain-Specific and Generalization Effects of Cognitive Intervention in Diffuse Axonal Injury: A Case Report. Journal of Neuropsychiatry and Clinical Neurosciences, 2012, 24, E19-E20.	1.8	2
98	From Semantics to Feelings: How Do Individuals with Schizophrenia Rate the Emotional Valence of Words?. Schizophrenia Research and Treatment, 2012, 2012, 1-12.	1.5	4
99	Uncommon genetic syndromes and narrative production - Case Studies with Williams, Smith-Magenis and Prader-Willi Syndromes?. International Journal of Developmental Disabilities, 2012, 58, 48-65.	2.0	3
100	The Emotional Movie Database (EMDB): A Self-Report and Psychophysiological Study. Applied Psychophysiology Biofeedback, 2012, 37, 279-294.	1.7	151
101	Psycholinguistic abilities of children with Williams syndrome. Research in Developmental Disabilities, 2012, 33, 819-824.	2.2	3
102	How executive functions are related to intelligence in Williams syndrome. Research in Developmental Disabilities, 2012, 33, 1169-1175.	2.2	23
103	Affective picture modulation: Valence, arousal, attention allocation and motivational significance. International Journal of Psychophysiology, 2012, 83, 375-381.	1.0	70
104	Poster #81 THE INTERACTIONS BETWEEN HIGHER-ORDER AND SENSORY-BASED OPERATIONS DURING ABNORMAL EMOTIONAL PROSODY PROCESSING IN SCHIZOPHRENIA: AN ELECTROPHYSIOLOGICAL INVESTIGATION. Schizophrenia Research, 2012, 136, S214.	2.0	0
105	Biological and physiological markers of tactile sensorial processing in healthy newborns. Infant Mental Health Journal, 2012, 33, 535-542.	1.8	3
106	Obsessive Compulsive Disorder as a functional interhemispheric imbalance at the thalamic level. Medical Hypotheses, 2011, 77, 445-447.	1.5	29
107	Observer weighting of interaural cues in positive and negative envelope slopes of amplitude-modulated waveforms. Hearing Research, 2011, 277, 143-151.	2.0	5
108	Abnormal processing of emotional prosody in Williams syndrome: An event-related potentials study. Research in Developmental Disabilities, 2011, 32, 133-147.	2.2	30

#	Article	IF	CITATIONS
109	Williams syndrome hypersociability: A neuropsychological study of the amygdala and prefrontal cortex hypotheses. Research in Developmental Disabilities, 2011, 32, 1169-1179.	2.2	27
110	Analysis of speech fluency in Williams syndrome. Research in Developmental Disabilities, 2011, 32, 2957-2962.	2.2	15
111	MRI amygdala volume in Williams Syndrome. Research in Developmental Disabilities, 2011, 32, 2767-2772.	2.2	35
112	Psychophysiological Correlates of Sexually and Non-Sexually Motivated Attention to Film Clips in a Workload Task. PLoS ONE, 2011, 6, e29530.	2.5	15
113	Autobiographical Narratives in Williams Syndrome: Structural, Process and Content Dimensions. Journal of Developmental and Physical Disabilities, 2011, 23, 289-302.	1.6	2
114	Responding Empathically: A Question of Heart, not a Question of Skin. Applied Psychophysiology Biofeedback, 2011, 36, 201-207.	1.7	43
115	Longitudinal Assessment of Narrative Profile in a Williams Syndrome Patient. British Journal of Developmental Disabilities, 2011, 57, 91-99.	0.1	2
116	Task-Specific Effects of tDCS-Induced Cortical Excitability Changes on Cognitive and Motor Sequence Set Shifting Performance. PLoS ONE, 2011, 6, e24140.	2.5	79
117	Sentence-final word completion norms for European Portuguese children and adolescents. Behavior Research Methods, 2010, 42, 1022-1029.	4.0	9
118	Williams Syndrome and Memory: A Neuroanatomic and Cognitive Approach. Journal of Autism and Developmental Disorders, 2010, 40, 870-877.	2.7	11
119	Cross-Modulation Interference With Lateralization of Mixed-Modulated Waveforms. Journal of Speech, Language, and Hearing Research, 2010, 53, 1417-1428.	1.6	4
120	The Narrative Profile in Williams Syndrome: There is more to Storytelling than Just Telling a Story. British Journal of Developmental Disabilities, 2010, 56, 89-109.	0.1	20
121	Obsessive–compulsive disorder as a visual processing impairment. Medical Hypotheses, 2010, 74, 107-109.	1.5	29
122	[P2.27]: Electrophysiological correlates of prosody processing abnormalities in atypical developmental pathways: The example of Williams Syndrome and schizophrenia. International Journal of Developmental Neuroscience, 2010, 28, 695-696.	1.6	1
123	P2.84: Brain volumetry in Williams syndrome. International Journal of Developmental Neuroscience, 2010, 28, 716-716.	1.6	Ο
124	Electrophysiological correlates of semantic processing in Williams syndrome. Research in Developmental Disabilities, 2010, 31, 1412-1425.	2.2	18
125	Cognitive functioning in Williams Syndrome: A study in Portuguese and Spanish patients. European Journal of Paediatric Neurology, 2009, 13, 337-342.	1.6	17
126	Narrative change in psychotherapy: differences between good and bad outcome cases in cognitive, narrative, and prescriptive therapies. Journal of Clinical Psychology, 2008, 64, 1181-1194.	1.9	18

#	Article	IF	CITATIONS
127	Memory abilities in Williams syndrome: Dissociation or developmental delay hypothesis?. Brain and Cognition, 2008, 66, 290-297.	1.8	37
128	MRI Assessment of Superior Temporal Gyrus in Williams Syndrome. Cognitive and Behavioral Neurology, 2008, 21, 150-156.	0.9	19
129	Cognitive Profile in Williams Syndrome: A Case Study. British Journal of Developmental Disabilities, 2005, 51, 143-153.	0.1	3
130	Neurociencias y psicoterapia: retorno a lo básico. Revista De Psicoterapia, 2005, 16, 65-75.	0.0	1
131	Nurturing Nature: Cognitive Narrative Strategies. , 2004, , 102-117.		11
132	From Reactive to Proactive Dreaming: A Cognitive-Narrative Dream Manual. Journal of Cognitive Psychotherapy, 2002, 16, 65-74.	0.4	1
133	Emotions, narrative and change. European Journal of Psychotherapy and Counselling, 2000, 3, 349-360.	0.4	6
134	Introduction: Narrative in psychotherapy: The emerging metaphor. , 1999, 55, 1175-1177.		14
135	Cognitive narrative psychotherapy: Research foundations. , 1999, 55, 1179-1191.		51
136	Cognitive narrative psychotherapy: Research foundations. Journal of Clinical Psychology, 1999, 55, 1179-1191.	1.9	0
137	Postmodern Cognitive Psychotherapy: From the University to the Multiversity. Journal of Cognitive Psychotherapy, 1997, 11, 105-112.	0.4	5
138	Narrativas prototipo y psicopatologÃa : un estudios con pacientes alcohólicos, anoréxicas y opiáceo-dependientes. Revista De Psicopatologia Y Psicologia Clinica, 1996, 1, 105.	0.2	1
139	From cultural to existential diversity: The impossibility of psychotherapy integration within a traditional framework. Applied and Preventive Psychology, 1996, 5, 235-247.	0.8	3
140	From epistemological truth to existential meaning in cognitive narrative psychotherapy. Journal of Constructivist Psychology, 1994, 7, 107-118.	1.1	24
141	Cognitive Narrative Psychotherapy: The Hermeneutic Construction of Alternative Meanings. Journal of Cognitive Psychotherapy, 1994, 8, 105-125.	0.4	38
142	Psicoterapia Hoje: PrÃitica e perspectivas. Psicologia, 1994, 9, 123-125.	0.3	0
143	The Use of Metaphors in Cognitive Therapy. Journal of Cognitive Psychotherapy, 1990, 4, 135-149.	0.4	25
144	The Multilevel Conception of Intentionality: Implications for counselor training. Counselling Psychology Quarterly, 1988, 1, 377-386.	2.3	4

#	Article	IF	CITATIONS
145	Developmental Therapy: Integrating Developmental Processes into the Clinical Practice. Journal of Counseling and Development, 1988, 66, 406-413.	2.4	76
146	Toward a Developmental Counseling Curriculum. Counselor Education and Supervision, 1987, 26, 270-278.	1.8	12
147	The effects of unconscious presentation of information on therapist conceptualizations, intentions, and responses. Journal of Clinical Psychology, 1987, 43, 237-245.	1.9	5
148	Hermeneutics, constructivism, and cognitive-behavioral therapies: From the object to the project , 0, , 195-230.		23
149	Constructing psychopathology from a cognitive narrative perspective , 0, , 265-284.		17
150	Assessing psychopathology: A narrative approach , 0, , 149-176.		12
151	Speed of Processing (SoP) Training Plus α-tACS in People With Mild Cognitive Impairment: A Double Blind, Parallel, Placebo Controlled Trial Study Protocol. Frontiers in Aging Neuroscience, 0, 14, .	3.4	0
