#	ARTICLE	IF	CITATIONS
1	Correlates of preschool children's objectively measured physical activity and sedentary behavior: a cross-sectional analysis of the SPLASHY study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 1.	4.6	283
2	Childhood maternal care is associated with DNA methylation of the genes for brain-derived neurotrophic factor (<i>BDNF</i>) and oxytocin receptor (<i>OXTR</i>) in peripheral blood cells in adult men and women. <i>Stress</i> , 2015, 18, 451-461.	1.8	148
3	Lifestyle choices and mental health: a representative population survey. <i>BMC Psychology</i> , 2014, 2, 58.	2.1	106
4	Binge eating in binge eating disorder: A breakdown of emotion regulatory process?. <i>Psychiatry Research</i> , 2012, 195, 118-124.	3.3	87
5	Daytime variation in ambient temperature affects skin temperatures and blood pressure: Ambulatory winter/summer comparison in healthy young women. <i>Physiology and Behavior</i> , 2015, 149, 203-211.	2.1	70
6	Maternal adversities during pregnancy and cord blood oxytocin receptor (<i>OXTR</i>) DNA methylation. <i>Social Cognitive and Affective Neuroscience</i> , 2016, 11, 1460-1470.	3.0	59
7	The efficacy of a short version of a cognitive-behavioral treatment followed by booster sessions for binge eating disorder. <i>Behaviour Research and Therapy</i> , 2009, 47, 628-635.	3.1	52
8	IMPACT OF SPECIFIC PHOBIA ON THE RISK OF ONSET OF MENTAL DISORDERS: A 10-YEAR PROSPECTIVE-LONGITUDINAL COMMUNITY STUDY OF ADOLESCENTS AND YOUNG ADULTS. <i>Depression and Anxiety</i> , 2016, 33, 667-675.	4.1	50
9	Efficacy and predictors of long-term treatment success for Cognitive-Behavioral Treatment and Behavioral Weight-Loss-Treatment in overweight individuals with binge eating disorder. <i>Behaviour Research and Therapy</i> , 2012, 50, 775-785.	3.1	48
10	Daily stress, presleep arousal, and sleep in healthy young women: a daily life computerized sleep diary and actigraphy study. <i>Sleep Medicine</i> , 2014, 15, 359-366.	1.6	46
11	Physical activity and sedentary behavior in preschoolers: a longitudinal assessment of trajectories and determinants. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 35.	4.6	41
12	The importance of physical activity and sleep for affect on stressful days: Two intensive longitudinal studies.. <i>Emotion</i> , 2016, 16, 488-497.	1.8	38
13	Short-term Cognitive-Behavioral Therapy for Binge Eating Disorder: Long-term efficacy and predictors of long-term treatment success. <i>Behaviour Research and Therapy</i> , 2014, 58, 36-42.	3.1	36
14	Relation of Heart Rate and its Variability during Sleep with Age, Physical Activity, and Body Composition in Young Children. <i>Frontiers in Physiology</i> , 2017, 8, 109.	2.8	35
15	Mental disorders and the risk for the subsequent first suicide attempt: results of a community study on adolescents and young adults. <i>European Child and Adolescent Psychiatry</i> , 2018, 27, 839-848.	4.7	34
16	Prospective prediction of suicide attempts in community adolescents and young adults, using regression methods and machine learning. <i>Journal of Affective Disorders</i> , 2020, 265, 570-578.	4.1	34
17	Initial Development and Reliability of a Motivation for Weight Loss Scale. <i>Obesity Facts</i> , 2010, 3, 7-7.	3.4	33
18	Well-Being From the Knife? Psychological Effects of Aesthetic Surgery. <i>Clinical Psychological Science</i> , 2013, 1, 239-252.	4.0	33

#	ARTICLE	IF	CITATIONS
19	Ecological momentary assessment to evaluate cognitive-behavioral treatment for binge eating disorder. <i>International Journal of Eating Disorders</i> , 2009, 42, 648-657.	4.0	32
20	A model of disturbed eating behavior in men: The role of body dissatisfaction, emotion dysregulation and cognitive distortions. <i>Psychiatry Research</i> , 2016, 246, 9-15.	3.3	32
21	A prospective study of associations among helping, health, and longevity. <i>Social Science and Medicine</i> , 2017, 187, 109-117.	3.8	29
22	Well-being in major depression and social phobia with and without comorbidity. <i>International Journal of Clinical and Health Psychology</i> , 2018, 18, 201-208.	5.1	29
23	The Swiss Preschoolers™ health study (SPLASHY): objectives and design of a prospective multi-site cohort study assessing psychological and physiological health in young children. <i>BMC Pediatrics</i> , 2016, 16, 85.	1.7	28
24	Motor Competence and Physical Activity in Early Childhood: Stability and Relationship. <i>Frontiers in Public Health</i> , 2020, 8, 39.	2.7	28
25	Separation Anxiety Avoidance Inventory-Child and Parent Version: Psychometric Properties and Clinical Utility in a Clinical and School Sample. <i>Child Psychiatry and Human Development</i> , 2013, 44, 689-697.	1.9	26
26	Daily fluctuation of emotions and memories thereof: Design and methods of an experience sampling study of major depression, social phobia, and controls. <i>International Journal of Methods in Psychiatric Research</i> , 2017, 26, .	2.1	24
27	How Health Behaviors Relate to Academic Performance via Affect: An Intensive Longitudinal Study. <i>PLoS ONE</i> , 2014, 9, e111080.	2.5	23
28	Associations of specific phobia and its subtypes with physical diseases: an adult community study. <i>BMC Psychiatry</i> , 2016, 16, 155.	2.6	23
29	Self-help for stress and burnout without therapist contact: An online randomised controlled trial. <i>Work and Stress</i> , 2018, 32, 189-208.	4.5	23
30	Accelerometer-derived physical activity estimation in preschoolers – comparison of cut-point sets incorporating the vector magnitude vs the vertical axis. <i>BMC Public Health</i> , 2019, 19, 513.	2.9	23
31	Alternative Model of Personality Disorders (DSM-5) Predicts Dropout in Inpatient Psychotherapy for Patients With Personality Disorder. <i>Frontiers in Psychology</i> , 2019, 10, 952.	2.1	22
32	Emotional eating is related with temperament but not with stress biomarkers in preschool children. <i>Appetite</i> , 2018, 120, 256-264.	3.7	21
33	Obsessive-compulsive disorder and the risk of subsequent mental disorders: A community study of adolescents and young adults. <i>Depression and Anxiety</i> , 2018, 35, 339-345.	4.1	20
34	A Non-Randomized Direct Comparison of Cognitive-Behavioral Short- and Long-Term Treatment for Binge Eating Disorder. <i>Obesity Facts</i> , 2010, 3, 4-4.	3.4	19
35	Who gets afraid in the MRI-scanner? Neurogenetics of state-anxiety changes during an fMRI experiment. <i>Neuroscience Letters</i> , 2014, 583, 81-86.	2.1	19
36	Acceptance of a structured diagnostic interview in children, parents, and interviewers. <i>International Journal of Methods in Psychiatric Research</i> , 2017, 26, .	2.1	19

#	ARTICLE	IF	CITATIONS
37	The validity of parental reports on motor skills performance level in preschool children: a comparison with a standardized motor test. <i>European Journal of Pediatrics</i> , 2018, 177, 715-722.	2.7	19
38	Predictors of Executive Functions in Preschoolers: Findings From the SPLASHY Study. <i>Frontiers in Psychology</i> , 2018, 9, 2060.	2.1	19
39	Comorbidity of Infectious Diseases and Anxiety Disorders in Adults and Its Association with Quality of Life: A Community Study. <i>Frontiers in Public Health</i> , 2014, 2, 80.	2.7	18
40	A Cross-Lag Panel Analysis of Low Self-Esteem as a Predictor of Adolescent Internalizing Symptoms in a Prospective Longitudinal Study. <i>Child Psychiatry and Human Development</i> , 2017, 48, 411-422.	1.9	18
41	Public Awareness and Use of German Physician Ratings Websites: Cross-Sectional Survey of Four North German Cities. <i>Journal of Medical Internet Research</i> , 2017, 19, e387.	4.3	18
42	Day-to-day variations in health behaviors and daily functioning: two intensive longitudinal studies. <i>Journal of Behavioral Medicine</i> , 2017, 40, 307-319.	2.1	17
43	General or specific? The memory“experience gap for individuals diagnosed with a major depressive disorder or a social phobia diagnosis, and individuals without such diagnoses. <i>Memory</i> , 2019, 27, 1194-1203.	1.7	17
44	“Choose change“ design and methods of an acceptance and commitment therapy effectiveness trial for transdiagnostic treatment-resistant patients. <i>BMC Psychiatry</i> , 2019, 19, 173.	2.6	17
45	Increasing prosocial behavior and decreasing selfishness in the lab and everyday life. <i>Scientific Reports</i> , 2020, 10, 21220.	3.3	16
46	Patterns of older and younger prisoners“ primary healthcare utilization in Switzerland. <i>International Journal of Prisoner Health</i> , 2016, 12, 173-184.	0.9	14
47	BED“online: Acceptance and efficacy of an internet“based treatment for binge“eating disorder: A randomized clinical trial including waitlist conditions. <i>European Eating Disorders Review</i> , 2021, 29, 937-954.	4.1	14
48	Childcare Correlates of Physical Activity, Sedentary Behavior, and Adiposity in Preschool Children: A Cross-Sectional Analysis of the SPLASHY Study. <i>Journal of Environmental and Public Health</i> , 2018, 2018, 1-12.	0.9	11
49	Specific traumatic events elevate the risk of a suicide attempt in a 10-year longitudinal community study on adolescents and young adults. <i>European Child and Adolescent Psychiatry</i> , 2020, 29, 179-186.	4.7	11
50	Regional sociocultural differences as important correlate of physical activity and sedentary behaviour in Swiss preschool children. <i>Swiss Medical Weekly</i> , 2016, 146, w14377.	1.6	11
51	Self-reported emotion regulation difficulties are associated with mood but not with the biological stress response to thin ideal exposure. <i>PLoS ONE</i> , 2018, 13, e0199769.	2.5	10
52	The Role of the Subgenual Anterior Cingulate Cortex and Amygdala in Environmental Sensitivity to Infant Crying. <i>PLoS ONE</i> , 2016, 11, e0161181.	2.5	10
53	The Association between Depressive Symptoms and Physical Diseases in Switzerland: A Cross-Sectional General Population Study. <i>Frontiers in Public Health</i> , 2015, 3, 47.	2.7	8
54	Social Interaction in Major Depressive Disorder, Social Phobia, and Controls: the Importance of Affect. <i>Journal of Technology in Behavioral Science</i> , 2020, 5, 139-148.	2.3	8

#	ARTICLE	IF	CITATIONS
55	Improving Ambulatory Saliva-Sampling Compliance in Pregnant Women: A Randomized Controlled Study. PLoS ONE, 2014, 9, e86204.	2.5	7
56	“I feel better when I think”: An analysis of the memory-experience gap for people’s estimates of the relationship between health behaviours and experiences. Psychology and Health, 2017, 32, 1152-1166.	2.2	7
57	Association of physical activity with adiposity in preschoolers using different clinical adiposity measures: a cross-sectional study. BMC Pediatrics, 2019, 19, 397.	1.7	7
58	Increased sensitivity to social exclusion during the luteal phase: Progesterone as resilience factor buffering against ostracism?. Psychoneuroendocrinology, 2019, 107, 217-224.	2.7	7
59	Temporal Patterns of Infant Regulatory Behaviors in Relation to Maternal Mood and Soothing Strategies. Child Psychiatry and Human Development, 2019, 50, 566-579.	1.9	7
60	The Association of Sensory Responsiveness with Somatic Symptoms and Illness Anxiety. International Journal of Behavioral Medicine, 2016, 23, 39-48.	1.7	6
61	Relevance of the Thought-Shape Fusion Questionnaire for healthy women and women presenting symptoms of eating disorders and mixed mental disorders. Clinical Psychology and Psychotherapy, 2018, 25, 601-607.	2.7	6
62	Prior Beliefs About the Importance and Control of Thoughts are Predictive But Not Specific to Subsequent Intrusive Unwanted Thoughts and Neutralizing Behaviors. Cognitive Therapy and Research, 2020, 44, 360-375.	1.9	6
63	Stability and prediction of motor performance and cognitive functioning in preschoolers: A latent variable approach. Infant and Child Development, 2020, 29, e2185.	1.5	6
64	Cognitive Distortions Associated with Imagination of the Thin Ideal: Validation of the Thought-Shape Fusion Body Questionnaire (TSF-B). Frontiers in Psychology, 2017, 8, 2194.	2.1	5
65	Psychological Health and Aims of Aesthetic Surgery Seekers. Clinical Psychological Science, 2015, 3, 877-891.	4.0	4
66	Contralateral Associated Movements Correlate with Poorer Inhibitory Control, Attention and Visual Perception in Preschool Children. Perceptual and Motor Skills, 2017, 124, 885-899.	1.3	4
67	Prevalence and Predictors of Behavioral Problems in Healthy Swiss Preschool Children Over a One Year Period. Child Psychiatry and Human Development, 2019, 50, 439-448.	1.9	4
68	The everyday lives of in- and outpatients when beginning therapy: The importance of values-consistent behavior. International Journal of Clinical and Health Psychology, 2020, 20, 91-99.	5.1	4
69	Vulnerable narcissism as beneficial factor for the therapeutic alliance in borderline personality disorder. Clinical Psychology and Psychotherapy, 2021, 28, 1222-1229.	2.7	4
70	Does Self-focused Attention in Social Anxiety Depend on Self-construal? Evidence from a Probe Detection Paradigm. Journal of Experimental Psychopathology, 2016, 7, 18-30.	0.8	3
71	Polypharmacy and drug-drug interactions among older and younger male prisoners in Switzerland. International Journal of Prisoner Health, 2019, 15, 250-261.	0.9	3
72	Impulsiveness in borderline personality disorder predicts the long-term outcome of a psychodynamic treatment programme. Clinical Psychology and Psychotherapy, 2020, 28, 633-641.	2.7	3

#	ARTICLE	IF	CITATIONS
73	Walking onset: a poor predictor for motor and cognitive skills in healthy preschool children. BMC Pediatrics, 2021, 21, 367.	1.7	3
74	Modeling circadian and sleep-homeostatic effects on short-term interval timing. Frontiers in Integrative Neuroscience, 2015, 9, 15.	2.1	2
75	Age-Adapted Stress Task in Preschoolers Does not Lead to Uniform Stress Responses. Journal of Abnormal Child Psychology, 2019, 47, 571-587.	3.5	2
76	Cardiac vagal tone in preschool children: Interrelations and the role of stress exposure. International Journal of Psychophysiology, 2020, 152, 102-109.	1.0	2
77	Nonadherence with ambulatory saliva sampling is associated with biased salivary testosterone estimates. Psychoneuroendocrinology, 2014, 44, 13-19.	2.7	1
78	The role of exposure in the treatment of anxiety in children and adolescents: protocol of a systematic review and meta-analysis. Systematic Reviews, 2020, 9, 96.	5.3	1
79	The spatiotemporal movement of patients in and out of a psychiatric hospital: an observational GPS study. BMC Psychiatry, 2021, 21, 165.	2.6	1
80	Having versus not having social interactions in patients diagnosed with depression or social phobia and controls. PLoS ONE, 2021, 16, e0249765.	2.5	1
81	The governmental ranking of class and the academic performance of Indian adolescents. PLoS ONE, 2020, 15, e0241483.	2.5	1
82	Is intuition allied with jumping to conclusions in decision-making? An intensive longitudinal study in patients with delusions and in non-clinical individuals. PLoS ONE, 2021, 16, e0261296.	2.5	1
83	Testing the Two-Factor Model of Musical Obsessions: Can They Be Predicted by the Interaction Between Frequency and Dysfunctional Interpretations of Common Earworms?. International Journal of Cognitive Therapy, 0, , 1.	2.2	1
84	The effect of anticipatory stress and openness and engagement on subsequently perceived sleep quality—An Experience Sampling Method study. Journal of Sleep Research, 2020, 29, e12957.	3.2	0
85	The governmental ranking of class and the academic performance of Indian adolescents. , 2020, 15, e0241483.		0
86	The governmental ranking of class and the academic performance of Indian adolescents. , 2020, 15, e0241483.		0
87	The governmental ranking of class and the academic performance of Indian adolescents. , 2020, 15, e0241483.		0
88	The governmental ranking of class and the academic performance of Indian adolescents. , 2020, 15, e0241483.		0
89	The governmental ranking of class and the academic performance of Indian adolescents. , 2020, 15, e0241483.		0
90	The governmental ranking of class and the academic performance of Indian adolescents. , 2020, 15, e0241483.		0
