

Olli Pietilinen

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8504508/olli-pietilainen-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

61 papers	677 citations	13 h-index	24 g-index
81 ext. papers	878 ext. citations	3.6 avg, IF	3.96 L-index

#	Paper	IF	Citations
61	Pairwise association of key lifestyle factors and risk of colorectal cancer: a prospective pooled multicohort study.. <i>Cancer Reports</i> , 2022 , e1612	1.5	0
60	Associations between low parental education, childhood adversities and sickness absence in midlife public sector employees.. <i>Scandinavian Journal of Public Health</i> , 2022 , 14034948221087996	3	
59	Intervention targeted at physiciansatreatment of musculoskeletal disorders and sickness certification: an interrupted time series analysis. <i>BMJ Open</i> , 2021 , 11, e047018	3	1
58	Physical working conditions and subsequent sickness absence: a record linkage follow-up study among 19-39-year-old municipal employees. <i>International Archives of Occupational and Environmental Health</i> , 2021 , 1	3.2	
57	The contribution of physical working conditions to sickness absence of varying length among employees with and without common mental disorders. <i>Scandinavian Journal of Public Health</i> , 2021 , 49, 141-148	3	2
56	Intergenerational social mobility and body mass index trajectories - A follow-up study from Finland. <i>SSM - Population Health</i> , 2021 , 13, 100723	3.8	1
55	Frequent short sickness absence, occupational health service utilisation and long-term sickness absence due to mental disorders among young employees. <i>International Archives of Occupational and Environmental Health</i> , 2021 , 94, 1549-1558	3.2	0
54	Predictors of working days lost due to sickness absence and disability pension. <i>International Archives of Occupational and Environmental Health</i> , 2021 , 94, 843-854	3.2	4
53	Contributions of childhood adversities to chronic pain among mid-life employees. <i>Scandinavian Journal of Public Health</i> , 2021 , 1403494820981509	3	1
52	Cognitive stimulation in the workplace, plasma proteins, and risk of dementia: three analyses of population cohort studies. <i>BMJ, The</i> , 2021 , 374, n1804	5.9	5
51	Seeing an occupational health psychologist reduces sickness absence due to mental disorders: A quasi-experimental study. <i>Preventive Medicine</i> , 2021 , 149, 106611	4.3	
50	Multiple Socioeconomic Circumstances and Initiation of Cardiovascular Medication among Ageing Employees. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	1
49	Working conditions and antidepressant medication use: A prospective study among 18 to 39-year-old municipal employees. <i>Psychiatry Research</i> , 2021 , 305, 114213	9.9	0
48	Life-course socioeconomic circumstances in acute, chronic and disabling pain among young employees: a double suffering.. <i>Scandinavian Journal of Public Health</i> , 2021 , 14034948211062314	3	
47	Timing of Entry into Paid Employment, Adverse Physical Work Exposures and Health: The Young Helsinki Health Study. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	1
46	Who maintains good health functioning? The contribution of social, work-related and behavioural factors to mental and physical health functioning trajectories in ageing employees. <i>Occupational and Environmental Medicine</i> , 2020 , 77, 478-487	2.1	3
45	Changes in fruit, vegetable and fish consumption after statutory retirement: a prospective cohort study. <i>British Journal of Nutrition</i> , 2020 , 123, 1390-1395	3.6	8

44	Factors associated with health survey response among young employees: a register-based study using online, mailed and telephone interview data collection methods. <i>BMC Public Health</i> , 2020 , 20, 184	4.1	18
43	Socioeconomic Differences in Occupational Health Service Utilization and Sickness Absence Due to Mental Disorders: A Register-Based Retrospective Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	8
42	Favourable changes in physical working conditions and the risk of all-cause sickness absence: a pseudo-experiment. <i>European Journal of Public Health</i> , 2020 , 30, 253-259	2.1	2
41	Trajectories of multisite musculoskeletal pain in midlife: Associations with common mental disorders. <i>European Journal of Pain</i> , 2020 , 24, 364-373	3.7	4
40	Physical working conditions and subsequent disability retirement due to any cause, mental disorders and musculoskeletal diseases: does the risk vary by common mental disorders?. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2020 , 55, 1021-1029	4.5	7
39	Recurrent pain and work disability: a record linkage study. <i>International Archives of Occupational and Environmental Health</i> , 2020 , 93, 421-432	3.2	6
38	Long working hours and change in body weight: analysis of individual-participant data from 19 cohort studies. <i>International Journal of Obesity</i> , 2020 , 44, 1368-1375	5.5	7
37	Associations of changes in diet and leisure-time physical activity with employers' direct cost of short-term sickness absence. <i>European Journal of Sport Science</i> , 2020 , 20, 240-248	3.9	2
36	Joint contribution of rotation of the back and repetitive movements to disability pension using job exposure matrix data. <i>European Journal of Public Health</i> , 2019 , 29, 1079-1084	2.1	1
35	Long-term exposure to heavy physical work, disability pension due to musculoskeletal disorders and all-cause mortality: 20-year follow-up-introducing Helsinki Health Study job exposure matrix. <i>International Archives of Occupational and Environmental Health</i> , 2019 , 92, 337-345	3.2	24
34	Within-individual analysis of pain and sickness absence among employees from low and high occupational classes: a record linkage study. <i>BMJ Open</i> , 2019 , 9, e026994	3	4
33	Childhood adversities, parental education and disability retirement among Finnish municipal employees. <i>PLoS ONE</i> , 2019 , 14, e0219421	3.7	2
32	Work participation trajectories among 1,098,748 Finns: reasons for premature labour market exit and the incidence of sickness absence due to mental disorders and musculoskeletal diseases. <i>BMC Public Health</i> , 2019 , 19, 1418	4.1	4
31	36-year trends in educational inequalities in self-rated health among Finnish adults. <i>SSM - Population Health</i> , 2019 , 9, 100504	3.8	7
30	Changes in common mental disorders and diagnosis-specific sickness absence: a register-linkage follow-up study among Finnish municipal employees. <i>Occupational and Environmental Medicine</i> , 2019 , 76, 230-235	2.1	5
29	Effectiveness of internet-delivered cognitive behavioural therapy in reducing sickness absence among young employees with depressive symptoms: study protocol for a large-scale pragmatic randomised controlled trial. <i>BMJ Open</i> , 2019 , 9, e032119	3	1
28	Association between socioeconomic position and occupational health service utilisation trajectories among young municipal employees in Finland. <i>BMJ Open</i> , 2019 , 9, e028742	3	2
27	Monitoring inequalities in self-rated health over 36 years among Finnish women and men. <i>European Journal of Public Health</i> , 2019 , 29,	2.1	1

26	Occupational social class trajectories in physical functioning among employed women from midlife to retirement. <i>BMC Public Health</i> , 2019 , 19, 1525	4.1	6
25	Common mental disorders and trajectories of work disability among midlife public sector employees - A 10-year follow-up study. <i>Journal of Affective Disorders</i> , 2019 , 247, 66-72	6.6	8
24	The joint contribution of physical activity, insomnia symptoms, and smoking to the cost of short-term sickness absence. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2019 , 29, 440-449	4.6	0
23	Sickness absence due to different musculoskeletal diagnoses by occupational class: a register-based study among 1.2 million Finnish employees. <i>Occupational and Environmental Medicine</i> , 2018 , 75, 296-302	2.1	17
22	Occupational class inequalities in disability retirement after hospitalisation. <i>Scandinavian Journal of Public Health</i> , 2018 , 46, 331-339	3	4
21	Obesity and loss of disease-free years owing to major non-communicable diseases: a multicohort study. <i>Lancet Public Health</i> , 2018 , 3, e490-e497	22.4	138
20	The joint contribution of cardiovascular disease and socioeconomic status to disability retirement: A register linkage study. <i>International Journal of Cardiology</i> , 2017 , 230, 222-227	3.2	18
19	Short sickness absence and subsequent sickness absence due to mental disorders - a follow-up study among municipal employees. <i>BMC Public Health</i> , 2017 , 17, 15	4.1	12
18	Occupational class differences in diagnostic-specific sickness absence: a register-based study in the Finnish population, 2005-2014. <i>BMC Public Health</i> , 2017 , 17, 670	4.1	24
17	Changes in psychosocial and physical working conditions and psychotropic medication in ageing public sector employees: a record-linkage follow-up study. <i>BMJ Open</i> , 2017 , 7, e015573	3	10
16	Physical and mental health functioning after all-cause and diagnosis-specific sickness absence: a register-linkage follow-up study among ageing employees. <i>BMC Public Health</i> , 2017 , 17, 114	4.1	8
15	10-year trends of educational differences in long sickness absence due to mental disorders. <i>Journal of Occupational Health</i> , 2017 , 59, 352-355	2.3	5
14	Occupational class differences in long sickness absence: a register-based study of 2.1 million Finnish women and men in 1996-2013. <i>BMJ Open</i> , 2017 , 7, e014325	3	17
13	The Magnitude of Occupational Class Differences in Sickness Absence: 15-Year Trends among Young and Middle-Aged Municipal Employees. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	7
12	Self-Certified Sickness Absence among Young Municipal Employees-Changes from 2002 to 2016 and Occupational Class Differences. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	3
11	Educational differences in sickness absence trends among young employees from 2002 to 2013 in Helsinki, Finland. <i>BMJ Open</i> , 2016 , 6, e008550	3	13
10	Mental symptoms and cause-specific mortality among midlife employees. <i>BMC Public Health</i> , 2016 , 16, 1142	4.1	3
9	Educational differences in disability retirement among young employees in Helsinki, Finland. <i>European Journal of Public Health</i> , 2016 , 26, 318-22	2.1	8

8	Changes Over Time in Absolute and Relative Socioeconomic Differences in Smoking: A Comparison of Cohort Studies From Britain, Finland, and Japan. <i>Nicotine and Tobacco Research</i> , 2016 , 18, 1697-704	4.9	19
7	Sickness absence among young employees: trends from 2002 to 2013. <i>Journal of Occupational Health</i> , 2015 , 57, 474-81	2.3	15
6	Interrelationships between education, occupational class and income as determinants of sickness absence among young employees in 2002-2007 and 2008-2013. <i>BMC Public Health</i> , 2015 , 15, 332	4.1	19
5	Social class inequalities in health among occupational cohorts from Finland, Britain and Japan: a follow up study. <i>Health and Place</i> , 2015 , 31, 173-9	4.6	10
4	Common mental disorders and cause-specific disability retirement. <i>Occupational and Environmental Medicine</i> , 2015 , 72, 181-7	2.1	28
3	Working conditions as risk factors for disability retirement: a longitudinal register linkage study. <i>BMC Public Health</i> , 2012 , 12, 309	4.1	88
2	Changes of occupational class differences in physical functioning: a panel study among employees (2000-2007). <i>Journal of Epidemiology and Community Health</i> , 2012 , 66, 265-70	5.1	10
1	Self-rated health as a predictor of disability retirement--the contribution of ill-health and working conditions. <i>PLoS ONE</i> , 2011 , 6, e25004	3.7	54
