#	ARTICLE	IF	CITATIONS
1	The Dutch 20 Item Centrality of Event Scale. <i>European Journal of Psychological Assessment</i> , 2023, 39, 211-221.	1.7	1
2	Imagery Rescripting Versus Extinction: Distinct and Combined Effects on Expectancy and Revaluation Learning. <i>Clinical Psychological Science</i> , 2022, 10, 622-639.	2.4	4
3	The Impact of Mindfulness-Based Interventions on Brain Functional Connectivity: a Systematic Review. <i>Mindfulness</i> , 2022, 13, 1857-1875.	1.6	10
4	Specificity and detail in autobiographical memory retrieval: a multi-site (re)investigation. <i>Memory</i> , 2021, 29, 1-10.	0.9	20
5	Influence of the Belgian Coast on Well-Being During the COVID-19 Pandemic. <i>Psychologica Belgica</i> , 2021, 61, 284-295.	1.0	5
6	Co-Rumination and Depressive Symptoms in Adolescence: Prospective Associations and the Mediating Role of Brooding Rumination. <i>Journal of Youth and Adolescence</i> , 2021, 50, 1003-1016.	1.9	12
7	Problem Talk in Adolescence: Temperament and Attachment as Predictors of Co-Rumination Trajectories in Boys and Girls. <i>Brain Sciences</i> , 2021, 11, 1157.	1.1	3
8	The current state of memory Specificity Training (MeST) for emotional disorders. <i>Current Opinion in Psychology</i> , 2021, 41, 28-33.	2.5	15
9	Mindfulness May Buffer Psychological Distress in Adolescents during the COVID-19 Pandemic: The Differential Role of Mindfulness Facets. <i>Psychologica Belgica</i> , 2021, 61, 356-376.	1.0	8
10	Effects of a mindfulness-based intervention on cancer-related cognitive impairment: Results of a randomized controlled functional magnetic resonance imaging pilot study. <i>Cancer</i> , 2020, 126, 4246-4255.	2.0	32
11	A mindfulness-based intervention for breast cancer patients with cognitive impairment after chemotherapy: study protocol of a three-group randomized controlled trial. <i>Trials</i> , 2020, 21, 290.	0.7	12
12	Remembering happy times instead of sticking to negative memories after social exclusion. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2020, 68, 101570.	0.6	0
13	The Dutch Version of the Centrality of Event Scale (CES). <i>European Journal of Psychological Assessment</i> , 2020, 36, 361-371.	1.7	9
14	Psychometric Evaluation of an Episodic Future Thinking Variant of the Autobiographical Memory Test – Episodic Future Thinking-Test (EFT-T). <i>European Journal of Psychological Assessment</i> , 2020, 36, 658-669.	1.7	13
15	Psychometric Properties of the Dutch Cognitive Avoidance Questionnaire. <i>Psychologica Belgica</i> , 2020, 60, 184-197.	1.0	1
16	Repetitive Negative Thinking outperforms loneliness and lack of social connectedness as a predictor of prospective depressive symptoms in adolescents. <i>Scandinavian Journal of Child and Adolescent Psychiatry and Psychology</i> , 2020, 8, 149-156.	0.3	3
17	The computerized scoring algorithm for the autobiographical memory test: updates and extensions for analyzing memories of English-speaking adults. <i>Memory</i> , 2019, 27, 306-313.	0.9	8
18	How do my parents react when I feel happy? Longitudinal associations with adolescent depressive symptoms, anhedonia, and positive affect regulation. <i>Social Development</i> , 2019, 28, 255-273.	0.8	26

#	ARTICLE	IF	CITATIONS
19	Decreasing Event Centrality in Undergraduates Using Cognitive Bias Modification of Appraisals. <i>Cognitive Therapy and Research</i> , 2019, 43, 214-225.	1.2	17
20	Social support from friends predicts changes in memory specificity following a stressful life event. <i>Memory</i> , 2019, 27, 1263-1272.	0.9	7
21	Temporal associations between social anxiety and depressive symptoms and the role of interpersonal stress in adolescents. <i>Depression and Anxiety</i> , 2019, 36, 960-967.	2.0	12
22	Efficacy of online Memory Specificity Training in adults with a history of depression, using a multiple baseline across participants design. <i>Internet Interventions</i> , 2019, 18, 100259.	1.4	10
23	A meta-analysis and systematic review of Memory Specificity Training (MeST) in the treatment of emotional disorders. <i>Behaviour Research and Therapy</i> , 2019, 116, 36-51.	1.6	67
24	Difficulty in updating positive beliefs about negative cognition is associated with increased depressed mood. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2019, 64, 22-30.	0.6	16
25	Reduced autobiographical memory specificity affects general distress through poor social support. <i>Memory</i> , 2019, 27, 916-923.	0.9	26
26	Validation of the Dutch Comprehensive Inventory of Mindfulness Experiences (CHIME) and Development of a Short Form (CHIME-SF). <i>Mindfulness</i> , 2019, 10, 1893-1904.	1.6	7
27	Computerised memory specificity training (c-MeST) for the treatment of major depression: a study protocol for a randomised controlled trial. <i>BMJ Open</i> , 2019, 9, e024508.	0.8	8
28	The transportability of Memory Specificity Training (MeST): adapting an intervention derived from experimental psychology to routine clinical practices. <i>BMC Psychology</i> , 2019, 7, 5.	0.9	0
29	Remediating reduced memory specificity in bipolar disorder: A case study using a Computerized Memory Specificity Training. <i>Brain and Behavior</i> , 2019, 9, e01468.	1.0	3
30	Depression diagnoses, but not individual differences in depression symptoms, are associated with reduced autobiographical memory specificity. <i>British Journal of Clinical Psychology</i> , 2019, 58, 173-186.	1.7	14
31	Lower Sleep Duration Is Associated With Reduced Autobiographical Memory Specificity. <i>Behavioral Sleep Medicine</i> , 2019, 17, 586-594.	1.1	10
32	An experience sampling study examining the potential impact of a mindfulness-based intervention on emotion differentiation.. <i>Emotion</i> , 2019, 19, 123-131.	1.5	53
33	Remediating Reduced Autobiographical Memory in Healthy Older Adults With Computerized Memory Specificity Training (c-MeST): An Observational Before-After Study. <i>Journal of Medical Internet Research</i> , 2019, 21, e13333.	2.1	10
34	Pre-sleep arousal can be associated with efficient processing of sleep-related information. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 60, 13-21.	0.6	4
35	A cluster randomized controlled platform trial comparing group Memory specificity training (MEST) to group psychoeducation and supportive counselling (PSC) in the treatment of recurrent depression. <i>Behaviour Research and Therapy</i> , 2018, 105, 1-9.	1.6	33
36	Meta-Analysis of the Association Between Autobiographical Memory Specificity and Exposure to Trauma. <i>Journal of Traumatic Stress</i> , 2018, 31, 35-46.	1.0	36

#	ARTICLE	IF	CITATIONS
37	Party Pooper or Life of the Party: Dampening and Enhancing of Positive Affect in a Peer Context. <i>Journal of Abnormal Child Psychology</i> , 2018, 46, 399-414.	3.5	17
38	Computerized scoring algorithms for the Autobiographical Memory Test.. <i>Psychological Assessment</i> , 2018, 30, 259-273.	1.2	16
39	Processes of change in a school-based mindfulness programme: cognitive reactivity and self-coldness as mediators. <i>Cognition and Emotion</i> , 2018, 32, 658-665.	1.2	22
40	Retrospective memory for symptoms in patients with medically unexplained symptoms. <i>Journal of Psychosomatic Research</i> , 2018, 105, 37-44.	1.2	8
41	Co-Brooding and Co-Reflection as Differential Predictors of Depressive Symptoms and Friendship Quality in Adolescents: Investigating the Moderating Role of Gender. <i>Journal of Youth and Adolescence</i> , 2018, 47, 1037-1051.	1.9	23
42	Subjective sleep disturbances are associated with intrinsic motivation toward sleep-related thinking. <i>Behaviour Research and Therapy</i> , 2018, 100, 30-36.	1.6	6
43	Sensory and affective components of symptom perception. <i>Journal of Experimental Psychopathology</i> , 2018, 9, jep.059716.	0.4	18
44	The Neurobiology of Reduced Autobiographical Memory Specificity. <i>Trends in Cognitive Sciences</i> , 2018, 22, 1038-1049.	4.0	36
45	Meta-analysis of the association between rumination and reduced autobiographical memory specificity. <i>Memory</i> , 2018, 26, 1323-1334.	0.9	14
46	Paul Eelen: Reflections on Life and Work. <i>Psychologica Belgica</i> , 2018, 58, 212-221.	1.0	2
47	Unraveling the linguistic nature of specific autobiographical memories using a computerized classification algorithm. <i>Behavior Research Methods</i> , 2017, 49, 835-852.	2.3	26
48	Feasibility and Effectiveness of Memory Specificity Training in Depressed Outpatients: A Pilot Study. <i>Clinical Psychology and Psychotherapy</i> , 2017, 24, 269-277.	1.4	28
49	Lost in distractors: Reduced Autobiographical Memory Specificity and dispersed activation spreading over distractors in working memory. <i>Behaviour Research and Therapy</i> , 2017, 94, 19-35.	1.6	15
50	Ways of encoding somatic information and their effects on retrospective symptom reporting. <i>British Journal of Health Psychology</i> , 2017, 22, 362-378.	1.9	14
51	Psychometric properties of the written version of the autobiographical memory test in a japanese community sample. <i>Psychiatry Research</i> , 2017, 248, 56-63.	1.7	25
52	A Mindfulness-Based Intervention for Adolescents and Young Adults After Cancer Treatment: Effects on Quality of Life, Emotional Distress, and Cognitive Vulnerability. <i>Journal of Adolescent and Young Adult Oncology</i> , 2017, 6, 307-317.	0.7	41
53	Potential Moderators of the Effects of a School-Based Mindfulness Program on Symptoms of Depression in Adolescents. <i>Mindfulness</i> , 2017, 8, 797-806.	1.6	19
54	Acceptance and Commitment Therapy (ACT) for Adolescents: Outcomes of a Large-Sample, School-Based, Cluster-Randomized Controlled Trial. <i>Mindfulness</i> , 2017, 8, 408-416.	1.6	20

#	ARTICLE	IF	CITATIONS
55	On the Integration of Need-related Autobiographical Memories among Late Adolescents and Late Adults: The Role of Depressive Symptoms and Self-congruence. <i>European Journal of Personality</i> , 2016, 30, 580-593.	1.9	19
56	I sleep with my Mind's eye open: Cognitive arousal and overgeneralization underpin the misperception of sleep. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 52, 157-165.	0.6	22
57	Effects of Childhood Abuse on Overgeneral Autobiographical Memory in Current Major Depressive Disorder. <i>Cognitive Therapy and Research</i> , 2016, 40, 774-782.	1.2	14
58	Mental Imagery in Depression: Phenomenology, Potential Mechanisms, and Treatment Implications. <i>Annual Review of Clinical Psychology</i> , 2016, 12, 249-280.	6.3	193
59	Post-Traumatic Stress Disorder after childbirth and the influence of maternity team care during labour and birth: A cohort study. <i>Midwifery</i> , 2016, 32, 87-92.	1.0	71
60	Overgeneral autobiographical memory predicts higher prospective levels of depressive symptoms and intrusions in borderline patients. <i>Memory</i> , 2016, 24, 1302-1310.	0.9	8
61	Impact of childhood trauma on postpartum depression: a prospective study. <i>Archives of Women's Mental Health</i> , 2016, 19, 337-342.	1.2	9
62	Is self-positive information more appealing than money? Individual differences in positivity bias according to depressive symptoms. <i>Cognition and Emotion</i> , 2016, 30, 1402-1414.	1.2	6
63	Initial and noninitial name-letter preferences as obtained through repeated letter rating tasks continue to reflect (different aspects of) self-esteem.. <i>Psychological Assessment</i> , 2015, 27, 905-914.	1.2	12
64	Autobiographical Memory Specificity and Non-Suicidal Self-Injury in Borderline Personality Disorder. <i>Journal of Experimental Psychopathology</i> , 2015, 6, 398-410.	0.4	0
65	A new approach for modeling generalization gradients: a case for hierarchical models. <i>Frontiers in Psychology</i> , 2015, 6, 652.	1.1	23
66	Response Styles to Positive Affect and Depression: Concurrent and Prospective Associations in a Community Sample. <i>Cognitive Therapy and Research</i> , 2015, 39, 480-491.	1.2	62
67	A Mindfulness-Based Intervention for Economically Disadvantaged People: Effects on Symptoms of Stress, Anxiety, and Depression and on Cognitive Reactivity and Overgeneralization. <i>Mindfulness</i> , 2015, 6, 1042-1052.	1.6	38
68	Thinking Back about a Positive Event: The Impact of Processing Style on Positive Affect. <i>Frontiers in Psychiatry</i> , 2015, 6, 3.	1.3	25
69	Reactivity at Different Levels of Cognitive Analysis: Products Versus Operations. <i>Journal of Clinical Psychiatry</i> , 2015, 76, e1318-e1319.	1.1	3
70	School-Based Prevention and Reduction of Depression in Adolescents: a Cluster-Randomized Controlled Trial of a Mindfulness Group Program. <i>Mindfulness</i> , 2014, 5, 477-486.	1.6	145
71	The Cross-Temporal Associations between Rumination Subtypes and Substance Use in Adolescence: Exploring the Moderating Role of Gender. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2014, 36, 143-154.	0.7	17
72	Turning the pink cloud grey: Dampening of positive affect predicts postpartum depressive symptoms. <i>Journal of Psychosomatic Research</i> , 2014, 77, 64-69.	1.2	39

#	ARTICLE	IF	CITATIONS
73	The relationship between borderline symptoms and vantage perspective during autobiographical memory retrieval in a community sample. <i>Borderline Personality Disorder and Emotion Dysregulation</i> , 2014, 1, 8.	1.1	2
74	“Food for Memory”: Pictorial Food-Related Memory Bias and the Role of Thought Suppression in High and Low Restrained Eaters. <i>Psychological Record</i> , 2014, 64, 105-114.	0.6	2
75	Reduced autobiographical memory specificity relates to weak resistance to proactive interference. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014, 45, 234-241.	0.6	6
76	The Attitudes to Chocolate Questionnaire. Psychometric properties and relationship with consumption, dieting, disinhibition and thought suppression. <i>Appetite</i> , 2014, 76, 137-143.	1.8	21
77	Mental imagery during daily life: Psychometric evaluation of the Spontaneous Use of Imagery Scale (SUIS). <i>Psychologica Belgica</i> , 2014, 54, 19-32.	1.0	69
78	Reduced memory specificity predicts the acquisition of problem solving skills in psychoeducation. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013, 44, 135-140.	0.6	12
79	Cognitive Reactivity to Success and Failure Relate Uniquely to Manic and Depression Tendencies and Combine in Bipolar Tendencies. <i>Depression Research and Treatment</i> , 2012, 2012, 1-4.	0.7	3
80	The Interplay between Rumination and Intrusions in the Prediction of Concurrent and Prospective Depressive Symptoms in Two Nonclinical Samples. <i>Psychological Record</i> , 2012, 62, 777-788.	0.6	10
81	The Mediation Role of Responses to Positive Affect in the Association Between Temperament and (Hypo)manic Symptoms in Children. <i>Cognitive Therapy and Research</i> , 2012, 36, 768-775.	1.2	17
82	Repetitive Negative Thinking Predicts Depressed Mood at 3-Year Follow-up in Students. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2012, 34, 497-501.	0.7	43
83	Dampening of positive affect prospectively predicts depressive symptoms in non-clinical samples. <i>Cognition and Emotion</i> , 2012, 26, 75-82.	1.2	134
84	Rumination relates to reduced autobiographical memory specificity in formerly depressed patients following a self-discrepancy challenge: The case of autobiographical memory specificity reactivity. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2012, 43, 1002-1007.	0.6	34
85	Depressed mood mediates the relationship between rumination and intrusions. <i>Australian Journal of Psychology</i> , 2012, 64, 209-216.	1.4	7
86	Greater Positive Affect Change after Mental Imagery than Verbal Thinking in a Student Sample. <i>Journal of Experimental Psychopathology</i> , 2012, 3, 178-188.	0.4	36
87	Context-dependent activation of reduced autobiographical memory specificity as an avoidant coping style. <i>Emotion</i> , 2011, 11, 1500-1506.	1.5	28
88	The Effect of Self-Compassion on the Development of Depression Symptoms in a Non-clinical Sample. <i>Mindfulness</i> , 2011, 2, 33-36.	1.6	141
89	The Relationship between Mindfulness and Uncontrollability of Ruminative Thinking. <i>Mindfulness</i> , 2010, 1, 199-203.	1.6	127
90	Brooding and Reflection as Subtypes of Rumination: Evidence from Confirmatory Factor Analysis in Nonclinical Samples using the Dutch Ruminative Response Scale. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2010, 32, 609-617.	0.7	190

#	ARTICLE	IF	CITATIONS
91	The Dutch version of the behavioral activation for depression scale (BADs): Psychometric properties and factor structure. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2010, 41, 246-250.	0.6	30
92	Inhibitory Control Mediates the Relationship Between Depressed Mood and Overgeneral Memory Recall in Children. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2010, 39, 276-281.	2.2	44
93	Mindfulness and reduced cognitive reactivity to sad mood: Evidence from a correlational study and a non-randomized waiting list controlled study. <i>Behaviour Research and Therapy</i> , 2009, 47, 623-627.	1.6	128
94	Reducing cognitive vulnerability to depression: A preliminary investigation of MEmory Specificity Training (MEST) in inpatients with depressive symptomatology. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2009, 40, 24-38.	0.6	341
95	A "Triple W" Model of Rumination on Sadness: Why Am I Feeling Sad, What's the Meaning of My Sadness, and Wish I Could Stop Thinking About my Sadness (But I Can't!). <i>Cognitive Therapy and Research</i> , 2008, 32, 526-541.	1.2	44
96	On the mediating role of subtypes of rumination in the relationship between childhood emotional abuse and depressed mood: brooding versus reflection. <i>Depression and Anxiety</i> , 2008, 25, 1067-1070.	2.0	120
97	Non-ruminative processing reduces overgeneral autobiographical memory retrieval in students. <i>Behaviour Research and Therapy</i> , 2008, 46, 748-756.	1.6	53
98	Overgeneral Memory Predicts Stability of Short-Term Outcome of Electroconvulsive Therapy for Depression. <i>Journal of ECT</i> , 2008, 24, 81-83.	0.3	16
99	A sentence completion procedure as an alternative to the Autobiographical Memory Test for assessing overgeneral memory in non-clinical populations. <i>Memory</i> , 2007, 15, 495-507.	0.9	134
100	Autobiographical memory specificity and emotional disorder.. <i>Psychological Bulletin</i> , 2007, 133, 122-148.	5.5	1,269
101	Reduced autobiographical memory specificity, avoidance, and repression. <i>Behavioral and Brain Sciences</i> , 2006, 29, 522-522.	0.4	7
102	Reduced autobiographical memory specificity and rumination in predicting the course of depression.. <i>Journal of Abnormal Psychology</i> , 2006, 115, 699-704.	2.0	174
103	Negative Bias in the Perception of Others' Facial Emotional Expressions in Major Depression. <i>Journal of Nervous and Mental Disease</i> , 2006, 194, 796-799.	0.5	55
104	Autobiographical memory specificity and emotional abuse. <i>British Journal of Clinical Psychology</i> , 2005, 44, 133-138.	1.7	22
105	Reduced autobiographical memory specificity as an avoidant coping style. <i>British Journal of Clinical Psychology</i> , 2005, 44, 583-589.	1.7	89
106	Reduced specificity of autobiographical memory: A mediator between rumination and ineffective social problem-solving in major depression?. <i>Journal of Affective Disorders</i> , 2005, 87, 331-335.	2.0	149
107	Autobiographical memory specificity and affect regulation: An experimental approach.. <i>Emotion</i> , 2003, 3, 201-206.	1.5	179
108	A Qualitative Study on Emotions Experienced at the Coast and Their Influence on Well-Being. <i>Frontiers in Psychology</i> , 0, 13, .	1.1	6
