#	ARTICLE	IF	CITATIONS
1	Latin American Study of Nutrition and Health (ELANS): rationale and study design. BMC Public Health, 2015, 16, 93.	1.2	103
2	Total and Added Sugar Intake: Assessment in Eight Latin American Countries. Nutrients, 2018, 10, 389.	1.7	70
3	Latin American consumption of major food groups: Results from the ELANS study. PLoS ONE, 2019, 14, e0225101.	1.1	56
4	Standardization of the Food Composition Database Used in the Latin American Nutrition and Health Study (ELANS). Nutrients, 2015, 7, 7914-7924.	1.7	49
5	Comparison of self-report versus accelerometer "measured physical activity and sedentary behaviors and their association with body composition in Latin American countries. PLoS ONE, 2020, 15, e0232420.	1.1	46
6	Socio-demographic patterning of objectively measured physical activity and sedentary behaviours in eight Latin American countries: Findings from the ELANS study. European Journal of Sport Science, 2020, 20, 670-681.	1.4	45
7	Diet Quality and Diet Diversity in Eight Latin American Countries: Results from the Latin American Study of Nutrition and Health (ELANS). Nutrients, 2019, 11, 1605.	1.7	38
8	Dietary Diversity and Micronutrients Adequacy in Women of Childbearing Age: Results from ELANS Study. Nutrients, 2020, 12, 1994.	1.7	34
9	Is the perceived neighborhood built environment associated with domain-specific physical activity in Latin American adults? An eight-country observational study. International Journal of Behavioral Nutrition and Physical Activity, 2020, 17, 125.	2.0	25
10	Socioeconomic Status Impact on Diet Quality and Body Mass Index in Eight Latin American Countries: ELANS Study Results. Nutrients, 2021, 13, 2404.	1.7	25
11	Original research Socio-demographic patterning of self-reported physical activity and sitting time in Latin American countries: findings from ELANS. BMC Public Health, 2019, 19, 1723.	1.2	24
12	Nutritional risk is associated with an increase of in-hospital mortality and a reduction of being discharged home: Results of the 2009-2015 nutritionDay survey. Clinical Nutrition ESPEN, 2020, 38, 138-145.	0.5	21
13	Methodological design for the assessment of physical activity and sedentary time in eight Latin American countries - The ELANS study. MethodsX, 2020, 7, 100843.	0.7	21
14	Prevalence and determinants of misreporting of energy intake among Latin American populations: results from ELANS study. Nutrition Research, 2019, 68, 9-18.	1.3	19
15	Socio-demographic patterns of public, private and active travel in Latin America: Cross-sectional findings from the ELANS study. Journal of Transport and Health, 2020, 16, 100788.	1.1	15
16	Cheese fortification through the incorporation of UFA-rich sources: A review of recent (2010-2020) evidence. Heliyon, 2021, 7, e05785.	1.4	15
17	Association between Perceived Neighborhood Built Environment and Walking and Cycling for Transport among Inhabitants from Latin America: The ELANS Study. International Journal of Environmental Research and Public Health, 2020, 17, 6858.	1.2	14
18	Anthropometry, dietary intake, physical activity and sitting time patterns in adolescents aged 15-17 years: an international comparison in eight Latin American countries. BMC Pediatrics, 2020, 20, 24.	0.7	14

#	ARTICLE	IF	CITATIONS
19	Intake of Vitamin E and C in Women of Reproductive Age: Results from the Latin American Study of Nutrition and Health (ELANS). <i>Nutrients</i> , 2021, 13, 1954.	1.7	11
20	Socio-Demographic Correlates of Total and Domain-Specific Sedentary Behavior in Latin America: A Population-Based Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5587.	1.2	9
21	Active Transportation and Obesity Indicators in Adults from Latin America: ELANS Multi-Country Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6974.	1.2	9
22	Sociodemographic inequities and active transportation in adults from Latin America: an eight-country observational study. <i>International Journal for Equity in Health</i> , 2021, 20, 190.	1.5	9
23	Accelerometer-Measured Daily Step Counts and Adiposity Indicators among Latin American Adults: A Multi-Country Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4641.	1.2	8
24	Contribution of food groups to energy, grams and nutrients-to-limit: the Latin American Study of Nutrition and Health/Estudio Latino Americano de Nutrici3n y Salud (ELANS). <i>Public Health Nutrition</i> , 2021, 24, 1-13.	1.1	8
25	Childbearing Age Women Characteristics in Latin America. Building Evidence Bases for Early Prevention. Results from the ELANS Study. <i>Nutrients</i> , 2021, 13, 45.	1.7	8
26	Food Sources of Shortfall Nutrients among Latin Americans: Results from the Latin American Study of Health and Nutrition (ELANS). <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4967.	1.2	6
27	Total and whole grain intake in Latin America: findings from the multicenter cross-sectional Latin American Study of Health and Nutrition (ELANS). <i>European Journal of Nutrition</i> , 2022, 61, 489-501.	1.8	6
28	Anthropometric Profile of Latin American Population: Results From the ELANS Study. <i>Frontiers in Nutrition</i> , 2021, 8, 740361.	1.6	6
29	Correlation between Neck Circumference and Other Anthropometric Measurements in Eight Latin American Countries. Results from ELANS Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 11975.	1.2	6
30	Association of moderate-to-vigorous physical activity with neck circumference in eight Latin American countries. <i>BMC Public Health</i> , 2019, 19, 809.	1.2	5
31	Association between built environment and physical activity in Latin American countries: a multicentre cross-sectional study. <i>BMJ Open</i> , 2021, 11, e046271.	0.8	5
32	Co-Occurrence and Clustering of Sedentary Behaviors, Diet, Sugar-Sweetened Beverages, and Alcohol Intake among Adolescents and Adults: The Latin American Nutrition and Health Study (ELANS). <i>Nutrients</i> , 2021, 13, 1809.	1.7	4
33	Meeting 24-h movement guidelines and markers of adiposity in adults from eight Latin America countries: the ELANS study. <i>Scientific Reports</i> , 2022, 12, .	1.6	4
34	Energy Imbalance Gap, Anthropometric Measures, Lifestyle, and Sociodemographic Correlates in Latin American Adults3Results from the ELANS Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 1129.	1.2	3
35	Alcohol Contribution to Total Energy Intake and Its Association with Nutritional Status and Diet Quality in Eight Latina American Countries. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 13130.	1.2	3
36	Developing a cooperative multicenter study in Latin America: Lessons learned from the Latin American Study of Nutrition and Health Project. <i>Revista Panamericana De Salud Publica/Pan American Journal of Public Health</i> , 2017, 41, 1.	0.6	2

#	ARTICLE	IF	CITATIONS
37	Relationship between socio-demographic correlates and human development index with physical activity and sedentary time in a cross-sectional multicenter study. BMC Public Health, 2022, 22, 669.	1.2	2
38	Are traditional screening tools adequate for monitoring the nutrition risk of in-hospital patients? An analysis of the nutritionDay database. Journal of Parenteral and Enteral Nutrition, 2021, , .	1.3	1
39	Association between Active Transportation and Public Transport with an Objectively Measured Meeting of Moderate-to-Vigorous Physical Activity and Daily Steps Guidelines in Adults by Sex from Eight Latin American Countries. International Journal of Environmental Research and Public Health, 2021, 18, 11553.	1.2	1
40	Principales alimentos con azúcares añadidos y su variación geográfica y sociodemográfica: estudio latinoamericano de nutrición y salud (ELANS). Archivos Latinoamericanos De Nutricion, 2021, 71, 164-177.	0.3	0
