#	ARTICLE	IF	CITATIONS
1	A cognitive-motivational analysis of anxiety. Behaviour Research and Therapy, 1998, 36, 809-848.	3.1	1,362
2	Amygdala and Ventrolateral Prefrontal Cortex Activation to Masked Angry Faces in Children and Adolescents With Generalized Anxiety Disorder. Archives of General Psychiatry, 2008, 65, 568.	12.3	595
3	Selective Attention to Angry Faces in Clinical Social Phobia.. Journal of Abnormal Psychology, 2004, 113, 160-165.	1.9	478
4	Attentional bias in anxiety and depression: The role of awareness. British Journal of Clinical Psychology, 1995, 34, 17-36.	3.5	465
5	Obese adults have visual attention bias for food cue images: evidence for altered reward system function. International Journal of Obesity, 2009, 33, 1063-1073.	3.4	454
6	Attentional Bias in Generalized Anxiety Disorder Versus Depressive Disorder. Cognitive Therapy and Research, 2005, 29, 29-45.	1.9	447
7	Subliminal processing of emotional information in anxiety and depression.. Journal of Abnormal Psychology, 1993, 102, 304-311.	1.9	414
8	BRIEF REPORT Time course of attentional bias for threat scenes: Testing the vigilance-avoidance hypothesis. Cognition and Emotion, 2004, 18, 689-700.	2.0	398
9	Orienting of Attention to Threatening Facial Expressions Presented under Conditions of Restricted Awareness. Cognition and Emotion, 1999, 13, 713-740.	2.0	391
10	Selective orienting of attention to masked threat faces in social anxiety. Behaviour Research and Therapy, 2002, 40, 1403-1414.	3.1	389
11	Ventrolateral Prefrontal Cortex Activation and Attentional Bias in Response to Angry Faces in Adolescents With Generalized Anxiety Disorder. American Journal of Psychiatry, 2006, 163, 1091-1097.	7.2	384
12	Eye movements to smoking-related pictures in smokers: relationship between attentional biases and implicit and explicit measures of stimulus valence. Addiction, 2003, 98, 825-836.	3.3	379
13	Attentional Bias for Threatening Facial Expressions in Anxiety: Manipulation of Stimulus Duration. Cognition and Emotion, 1998, 12, 737-753.	2.0	374
14	Time course of attentional bias for threat information in non-clinical anxiety. Behaviour Research and Therapy, 1997, 35, 297-303.	3.1	371
15	Biases in eye movements to threatening facial expressions in generalized anxiety disorder and depressive disorder.. Journal of Abnormal Psychology, 2000, 109, 695-704.	1.9	371
16	Attention Bias to Threat in Maltreated Children: Implications for Vulnerability to Stress-Related Psychopathology. American Journal of Psychiatry, 2005, 162, 291-296.	7.2	362
17	Attentional bias for emotional faces in generalized anxiety disorder. British Journal of Clinical Psychology, 1999, 38, 267-278.	3.5	354
18	Covert and overt orienting of attention to emotional faces in anxiety. Cognition and Emotion, 2000, 14, 789-808.	2.0	347

#	ARTICLE	IF	CITATIONS
19	Attentional biases for negative information in induced and naturally occurring dysphoria. Behaviour Research and Therapy, 1997, 35, 911-927.	3.1	338
20	When a minor head injury results in enduring symptoms: a prospective investigation of risk factors for postconcussional syndrome after mild traumatic brain injury. Journal of Neurology, Neurosurgery and Psychiatry, 2012, 83, 217-223.	1.9	312
21	Orienting and maintenance of gaze to facial expressions in social anxiety.. Journal of Abnormal Psychology, 2006, 115, 760-770.	1.9	296
22	Some methodological issues in assessing attentional biases for threatening faces in anxiety: a replication study using a modified version of the probe detection task. Behaviour Research and Therapy, 1999, 37, 595-604.	3.1	266
23	Implicit and explicit memory for emotion-congruent information in clinical depression and anxiety. Behaviour Research and Therapy, 1995, 33, 755-770.	3.1	262
24	Selective attention to food-related stimuli in hunger: are attentional biases specific to emotional and psychopathological states, or are they also found in normal drive states?. Behaviour Research and Therapy, 1998, 36, 227-237.	3.1	251
25	Attentional bias for drug cues in opiate dependence. Psychological Medicine, 2000, 30, 169-175.	4.5	244
26	Attentional biases for alcohol cues in heavy and light social drinkers: the roles of initial orienting and maintained attention. Psychopharmacology, 2004, 176, 88-93.	3.1	233
27	Attention Bias Toward Threat in Pediatric Anxiety Disorders. Journal of the American Academy of Child and Adolescent Psychiatry, 2008, 47, 1189-1196.	0.5	227
28	Selective processing of negative information: Effects of clinical anxiety, concurrent depression, and awareness.. Journal of Abnormal Psychology, 1995, 104, 532-536.	1.9	224
29	Anxiety and attention to threat: Cognitive mechanisms and treatment with attention bias modification. Behaviour Research and Therapy, 2016, 87, 76-108.	3.1	223
30	Negative self-schemata in clinical depression. British Journal of Clinical Psychology, 1983, 22, 173-181.	3.5	222
31	Attentional Biases for Emotional Faces. Cognition and Emotion, 1997, 11, 25-42.	2.0	221
32	Can(not) take my eyes off it: Attention bias for food in overweight participants.. Health Psychology, 2011, 30, 561-569.	1.6	217
33	Effects of threat cues on attentional shifting, disengagement and response slowing in anxious individuals. Behaviour Research and Therapy, 2008, 46, 656-667.	3.1	215
34	Rejection sensitivity and disruption of attention by social threat cues. Journal of Research in Personality, 2009, 43, 1064-1072.	1.7	206
35	Eye movements to smoking-related cues: effects of nicotine deprivation. Psychopharmacology, 2004, 173, 116-123.	3.1	192
36	Selective attention to threat: A test of two cognitive models of anxiety. Cognition and Emotion, 2000, 14, 375-399.	2.0	181

#	ARTICLE	IF	CITATIONS
37	Attentional and approach biases for smoking cues in smokers: an investigation of competing theoretical views of addiction. <i>Psychopharmacology</i> , 2005, 180, 333-341.	3.1	175
38	Biases in eye movements to threatening facial expressions in generalized anxiety disorder and depressive disorder.. <i>Journal of Abnormal Psychology</i> , 2000, 109, 695-704.	1.9	175
39	Attentional bias in drug dependence: Vigilance for cigarette-related cues in smokers.. <i>Psychology of Addictive Behaviors</i> , 2003, 17, 66-72.	2.1	169
40	A follow-up study of cognitive bias in generalized anxiety disorder. <i>Behaviour Research and Therapy</i> , 1995, 33, 927-935.	3.1	166
41	Attentional and approach biases for pictorial food cues. Influence of external eating. <i>Appetite</i> , 2009, 52, 299-306.	3.7	165
42	Attention Bias Modification (ABM): Review of Effects of Multisession ABM Training on Anxiety and Threat-Related Attention in High-Anxious Individuals. <i>Clinical Psychological Science</i> , 2017, 5, 698-717.	4.0	165
43	Attentional and evaluative biases for smoking cues in nicotine dependence: component processes of biases in visual orienting. <i>Behavioural Pharmacology</i> , 2004, 15, 29-36.	1.7	163
44	Attentional Bias to Threat: Roles of Trait Anxiety, Stressful Events, and Awareness. <i>Quarterly Journal of Experimental Psychology Section A: Human Experimental Psychology</i> , 1994, 47, 841-864.	2.3	162
45	Attentional Bias for Emotional Faces in Children With Generalized Anxiety Disorder. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2008, 47, 435-442.	0.5	160
46	Trait anxiety, defensiveness and selective processing of threat: an investigation using two measures of attentional bias. <i>Personality and Individual Differences</i> , 2000, 28, 1063-1077.	2.9	156
47	Biases in visual orienting to negative and positive scenes in dysphoria: An eye movement study.. <i>Journal of Abnormal Psychology</i> , 2007, 116, 491-497.	1.9	155
48	Selective processing of cannabis cues in regular cannabis users. <i>Drug and Alcohol Dependence</i> , 2006, 85, 75-82.	3.2	152
49	Anxiety and orienting of gaze to angry and fearful faces. <i>Biological Psychology</i> , 2007, 76, 163-169.	2.2	151
50	Relationship between trait anxiety, prefrontal cortex, and attention bias to angry faces in children and adolescents. <i>Biological Psychology</i> , 2008, 79, 216-222.	2.2	150
51	Time course of attentional bias for fear-relevant pictures in spider-fearful individuals. <i>Behaviour Research and Therapy</i> , 2006, 44, 1241-1250.	3.1	140
52	External eating, impulsivity and attentional bias to food cues. <i>Appetite</i> , 2011, 56, 424-427.	3.7	139
53	CRAVING AND COGNITIVE BIASES FOR ALCOHOL CUES IN SOCIAL DRINKERS. <i>Alcohol and Alcoholism</i> , 2005, 40, 504-510.	1.6	138
54	Attentional shifts to smoking cues in smokers. <i>Addiction</i> , 2003, 98, 1409-1417.	3.3	136

#	ARTICLE	IF	CITATIONS
55	Interpretation of ambiguous information in clinical depression. Behaviour Research and Therapy, 2006, 44, 1411-1419.	3.1	128
56	Selective processing of smoking-related cues in smokers: manipulation of deprivation level and comparison of three measures of processing bias. Journal of Psychopharmacology, 2002, 16, 385-392.	4.0	127
57	Anxiety and Threat-Related Attention: Cognitive-Motivational Framework and Treatment. Trends in Cognitive Sciences, 2018, 22, 225-240.	7.8	127
58	Attentional selectivity for emotional faces: Evidence from human electrophysiology. Psychophysiology, 2009, 46, 62-68.	2.4	126
59	Negative mood increases selective attention to food cues and subjective appetite. Appetite, 2010, 54, 134-142.	3.7	121
60	Effects of anxiety and awareness on colour-identification latencies for emotional words. Behaviour Research and Therapy, 1993, 31, 559-567.	3.1	116
61	Cognitive bias and drug craving in recreational cannabis users. Drug and Alcohol Dependence, 2004, 74, 105-111.	3.2	115
62	Attention training towards positive stimuli in clinically anxious children. Developmental Cognitive Neuroscience, 2013, 4, 77-84.	4.0	115
63	Biased attention to threat in paediatric anxiety disorders (generalized anxiety disorder, social phobia,) Tj ETQq1 1 0.784314 rgBT /Ove categorization. Psychological Medicine, 2014, 44, 607-616.	4.5	113
64	A Preliminary Investigation of Neural Correlates of Treatment in Adolescents with Generalized Anxiety Disorder. Journal of Child and Adolescent Psychopharmacology, 2010, 20, 105-111.	1.3	112
65	Attentional bias towards angry faces in childhood anxiety disorders. Journal of Behavior Therapy and Experimental Psychiatry, 2010, 41, 158-164.	1.2	110
66	Threat bias in attention orienting: evidence of specificity in a large community-based study. Psychological Medicine, 2013, 43, 733-745.	4.5	110
67	Selective Processing of Smoking-Related Cues in Current Smokers, Ex-Smokers and Never-Smokers on the Modified Stroop Task. Journal of Psychopharmacology, 2003, 17, 310-316.	4.0	109
68	The Influence of Psychological Factors on the Opiate Withdrawal Syndrome. British Journal of Psychiatry, 1986, 149, 235-238.	2.8	105
69	Implicit memory bias in clinical and non-clinical depression. Behaviour Research and Therapy, 1996, 34, 865-879.	3.1	99
70	Effects of anxiety and attention control on processing pictorial and linguistic emotional information. Behaviour Research and Therapy, 2009, 47, 410-417.	3.1	97
71	Opiate Withdrawal Symptoms in Response to 10-Day and 21-Day Methadone Withdrawal Programmes. British Journal of Psychiatry, 1989, 154, 360-363.	2.8	93
72	Circumstances Surrounding the Initial Lapse to Opiate Use Following Detoxification. British Journal of Psychiatry, 1989, 154, 354-359.	2.8	90

#	ARTICLE	IF	CITATIONS
73	Attentional biases in abstinent alcoholics and their association with craving.. Psychology of Addictive Behaviors, 2013, 27, 71-80.	2.1	90
74	An investigation of withdrawal symptoms shown by opiate addicts during and subsequent to a 21-day in-patient methadone detoxification procedure. Addictive Behaviors, 1987, 12, 1-6.	3.0	89
75	Identification of angry faces in the attentional blink. Cognition and Emotion, 2008, 22, 1340-1352.	2.0	88
76	Patterns of Neural Connectivity During an Attention Bias Task Moderate Associations Between Early Childhood Temperament and Internalizing Symptoms in Young Adulthood. Biological Psychiatry, 2013, 74, 273-279.	1.3	87
77	ATTENTION BIAS TO THREAT FACES IN SEVERE MOOD DYSREGULATION. Depression and Anxiety, 2014, 31, 559-565.	4.1	86
78	Attention control: Relationships between self-report and behavioural measures, and symptoms of anxiety and depression. Cognition and Emotion, 2013, 27, 430-440.	2.0	80
79	Implicit and explicit memory for emotional information in non-clinical subjects. Behaviour Research and Therapy, 1994, 32, 65-78.	3.1	76
80	Alcohol increases cognitive biases for smoking cues in smokers. Psychopharmacology, 2005, 180, 63-72.	3.1	69
81	Do the affective properties of smoking-related cues influence attentional and approach biases in cigarette smokers?. Journal of Psychopharmacology, 2008, 22, 737-745.	4.0	69
82	The Development of an Opiate Withdrawal Scale (OWS). Addiction, 1987, 82, 1139-1142.	3.3	66
83	Classical conditioning and cognitive determinants of subjective craving for opiates: an investigation of their relative contributions. Addiction, 1992, 87, 1133-1144.	3.3	66
84	Effect of short-term SSRI treatment on cognitive bias in generalised anxiety disorder. Psychopharmacology, 2004, 176, 466-470.	3.1	64
85	Look for good and never give up: A novel attention training treatment for childhood anxiety disorders. Behaviour Research and Therapy, 2015, 73, 111-123.	3.1	64
86	Time course of attentional bias to drug cues in opioid dependence.. Psychology of Addictive Behaviors, 2016, 30, 601-606.	2.1	64
87	Health anxiety, anxiety sensitivity, and attentional biases for pictorial and linguistic health threat cues. Cognition and Emotion, 2005, 19, 453-462.	2.0	62
88	Coarse threat images reveal theta oscillations in the amygdala: A magnetoencephalography study. Cognitive, Affective and Behavioral Neuroscience, 2009, 9, 133-143.	2.0	62
89	Subjective craving for opiates: Evaluation of a cue exposure protocol for use with detoxified opiate addicts. British Journal of Clinical Psychology, 1993, 32, 39-53.	3.5	60
90	Direction of threat attention bias predicts treatment outcome in anxious children receiving cognitive-behavioural therapy. Behaviour Research and Therapy, 2012, 50, 428-434.	3.1	59

#	ARTICLE	IF	CITATIONS
91	Augmenting one-session treatment of children's specific phobias with attention training to positive stimuli. Behaviour Research and Therapy, 2014, 62, 107-119.	3.1	59
92	Factors predicting outcome among opiate addicts after treatment. British Journal of Clinical Psychology, 1990, 29, 209-216.	3.5	57
93	Timeâ€course of attentional bias for painâ€related cues in chronic daily headache sufferers. European Journal of Pain, 2009, 13, 963-969.	2.8	55
94	Neural and behavioral responses to threatening emotion faces in children as a function of the short allele of the serotonin transporter gene. Biological Psychology, 2010, 85, 38-44.	2.2	55
95	Mood and personality in recall of positive and negative information. Behaviour Research and Therapy, 1994, 32, 137-141.	3.1	54
96	Attention bias for food is independent of restraint in healthy weight individualsâ€An eye tracking study. Eating Behaviors, 2013, 14, 397-400.	2.0	52
97	The effects of the dopamine D3 receptor antagonist GSK598809 on attentional bias to palatable food cues in overweight and obese subjects. International Journal of Neuropsychopharmacology, 2012, 15, 149-161.	2.1	51
98	Electrophysiological evidence for greater attention to threat when cognitive control resources are depleted. Cognitive, Affective and Behavioral Neuroscience, 2014, 14, 827-835.	2.0	50
99	The Clinical Effectiveness of Electrostimulation vs Oral Methadone in Managing Opiate Withdrawal. British Journal of Psychiatry, 1984, 144, 203-208.	2.8	48
100	Fear-relevant selective associations and social anxiety: Absence of a positive bias. Behaviour Research and Therapy, 2006, 44, 201-217.	3.1	48
101	Attention Bias to Threat Faces in Children with Bipolar Disorder and Comorbid Lifetime Anxiety Disorders. Biological Psychiatry, 2007, 61, 819-821.	1.3	48
102	Emotional Conditioning to Masked Stimuli and Modulation of Visuospatial Attention.. Emotion, 2005, 5, 67-79.	1.8	47
103	Influence of negative affect on selective attention to smoking-related cues and urge to smoke in cigarette smokers. Behavioural Pharmacology, 2007, 18, 255-263.	1.7	43
104	Effects of yohimbine and hydrocortisone on panic symptoms, autonomic responses, and attention to threat in healthy adults. Psychopharmacology, 2009, 204, 445-455.	3.1	43
105	Vigilance for threat: effects of anxiety and defensiveness. Personality and Individual Differences, 2004, 36, 1879-1891.	2.9	39
106	Attention Bias for Angry Faces in Children with Social Phobia. Journal of Experimental Psychopathology, 2011, 2, 475-489.	0.8	38
107	Impaired identification of fearful faces in Generalised Social Phobia. Journal of Affective Disorders, 2009, 115, 460-465.	4.1	36
108	Association between irritability and bias in attention orienting to threat in children and adolescents. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2017, 58, 595-602.	5.2	36

#	ARTICLE	IF	CITATIONS
109	Interpretation of homophones related to threat: Anxiety or response bias effects?. Cognitive Therapy and Research, 1994, 18, 461-477.	1.9	35
110	Attentional biases for threat in at-risk daughters and mothers with lifetime panic disorder.. Journal of Abnormal Psychology, 2012, 121, 852-862.	1.9	34
111	Attention processes in chronic fatigue syndrome: Attentional bias for health-related threat and the role of attentional control. Behaviour Research and Therapy, 2014, 52, 9-16.	3.1	34
112	Interpretation of Emotionally Ambiguous Faces in Older Adults. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2008, 63, P337-P343.	3.9	33
113	Attentional bias towards health-threat information in chronic fatigue syndrome. Journal of Psychosomatic Research, 2008, 65, 47-50.	2.6	32
114	Effect of dopamine D3 receptor antagonism on approach responses to food cues in overweight and obese individuals. Behavioural Pharmacology, 2012, 23, 603-608.	1.7	32
115	A Preliminary Evaluation of a Home-based, Computer-delivered Attention Training Treatment for Anxious Children Living in Regional Communities. Journal of Experimental Psychopathology, 2016, 7, 511-527.	0.8	31
116	The influence of emotional stimuli on attention orienting and inhibitory control in pediatric anxiety. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2012, 53, 856-863.	5.2	29
117	Normative data on development of neural and behavioral mechanisms underlying attention orienting toward socialâ€“emotional stimuli: An exploratory study. Brain Research, 2009, 1292, 61-70.	2.2	28
118	Neural activity associated with attention orienting triggered by gaze cues: A study of lateralized ERPs. Social Neuroscience, 2010, 5, 285-295.	1.3	27
119	The time course of attentional bias for emotional faces in anxious children. Cognition and Emotion, 2010, 24, 1173-1181.	2.0	27
120	Relationships between insomnia, negative emotionality and attention control. Sleep and Biological Rhythms, 2012, 10, 237-243.	1.0	27
