

Rudi De Raedt

List of Publications by Citations

Source: <https://exaly.com/author-pdf/852456/rudi-de-raedt-publications-by-citations.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
277	Understanding depressive rumination from a cognitive science perspective: the impaired disengagement hypothesis. <i>Clinical Psychology Review</i> , 2011 , 31, 138-45	10.8	480
276	The Karolinska Directed Emotional Faces: A validation study. <i>Cognition and Emotion</i> , 2008 , 22, 1094-1118	8.3	434
275	Understanding vulnerability for depression from a cognitive neuroscience perspective: A reappraisal of attentional factors and a new conceptual framework. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2010 , 10, 50-70	3.5	370
274	Mood-congruent attentional bias in dysphoria: maintained attention to and impaired disengagement from negative information. <i>Emotion</i> , 2005 , 5, 446-55	4.1	260
273	Deficient inhibition of emotional information in depression. <i>Journal of Affective Disorders</i> , 2006 , 93, 149-57	5.7	217
272	The default mode network and recurrent depression: a neurobiological model of cognitive risk factors. <i>Neuropsychology Review</i> , 2012 , 22, 229-51	7.7	200
271	Being moved: valence activates approach-avoidance behavior independently of evaluation and approach-avoidance intentions. <i>Psychological Science</i> , 2010 , 21, 607-13	7.9	152
270	Cognitive control therapy and transcranial direct current stimulation for depression: a randomized, double-blinded, controlled trial. <i>Journal of Affective Disorders</i> , 2014 , 162, 43-9	6.6	146
269	Attentional bias training in depression: therapeutic effects depend on depression severity. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2010 , 41, 265-74	2.6	143
268	Attentional biases for angry faces in unipolar depression. <i>Psychological Medicine</i> , 2007 , 37, 393-402	6.9	132
267	The association between depressive symptoms and executive control impairments in response to emotional and non-emotional information. <i>Cognition and Emotion</i> , 2010 , 24, 264-280	2.3	130
266	Rumination mediates the relationship between impaired cognitive control for emotional information and depressive symptoms: A prospective study in remitted depressed adults. <i>Behaviour Research and Therapy</i> , 2012 , 50, 292-7	5.2	118
265	Psychometric Properties of the Dutch Rosenberg Self-Esteem Scale. <i>Psychologica Belgica</i> , 2013 , 48, 25	0.6	111
264	Self-esteem and depression revisited: implicit positive self-esteem in depressed patients?. <i>Behaviour Research and Therapy</i> , 2006 , 44, 1017-28	5.2	110
263	The (neuro)cognitive mechanisms behind attention bias modification in anxiety: proposals based on theoretical accounts of attentional bias. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 119	3.3	105
262	Cognitive control moderates the association between stress and rumination. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2012 , 43, 519-25	2.6	101
261	Mood-congruent attention and memory bias in dysphoria: Exploring the coherence among information-processing biases. <i>Behaviour Research and Therapy</i> , 2010 , 48, 219-25	5.2	101

260	Dorsolateral prefrontal cortex and Stroop performance: tackling the lateralization. <i>Psychonomic Bulletin and Review</i> , 2009 , 16, 609-12	4.1	101
259	Accelerated HF-rTMS in treatment-resistant unipolar depression: Insights from subgenual anterior cingulate functional connectivity. <i>World Journal of Biological Psychiatry</i> , 2014 , 15, 286-97	3.8	96
258	The relationship between cognitive/neuropsychological factors and car driving performance in older adults. <i>Journal of the American Geriatrics Society</i> , 2000 , 48, 1664-8	5.6	93
257	Neurocognitive effects of HF-rTMS over the dorsolateral prefrontal cortex on the attentional processing of emotional information in healthy women: an event-related fMRI study. <i>Biological Psychology</i> , 2010 , 85, 487-95	3.2	92
256	Accelerated intermittent theta burst stimulation treatment in medication-resistant major depression: A fast road to remission?. <i>Journal of Affective Disorders</i> , 2016 , 200, 6-14	6.6	89
255	Why ruminators won't stop: the structural and resting state correlates of rumination and its relation to depression. <i>Journal of Affective Disorders</i> , 2012 , 141, 352-60	6.6	88
254	Reaction times and performance variability in normal aging, mild cognitive impairment, and Alzheimer's disease. <i>Journal of Geriatric Psychiatry and Neurology</i> , 2008 , 21, 204-18	3.8	84
253	Intensive HF-rTMS treatment in refractory medication-resistant unipolar depressed patients. <i>Journal of Affective Disorders</i> , 2013 , 151, 625-631	6.6	83
252	The influence of rTMS over the left dorsolateral prefrontal cortex on Stroop task performance. <i>Experimental Brain Research</i> , 2006 , 169, 279-82	2.3	81
251	Self-esteem reconsidered: unstable self-esteem outperforms level of self-esteem as vulnerability marker for depression. <i>Behaviour Research and Therapy</i> , 2007 , 45, 1531-41	5.2	80
250	Neurostimulation as an intervention for treatment resistant depression: From research on mechanisms towards targeted neurocognitive strategies. <i>Clinical Psychology Review</i> , 2015 , 41, 61-9	10.8	79
249	Implicit but not explicit self-esteem predicts future depressive symptomatology. <i>Behaviour Research and Therapy</i> , 2007 , 45, 2448-55	5.2	76
248	Worrying and rumination are both associated with reduced cognitive control. <i>Psychological Research</i> , 2014 , 78, 651-60	2.5	74
247	Can strategic and tactical compensation reduce crash risk in older drivers?. <i>Age and Ageing</i> , 2000 , 29, 517-21	3	73
246	Individual differences in local gray and white matter volumes reflect differences in temperament and character: a voxel-based morphometry study in healthy young females. <i>Brain Research</i> , 2011 , 1371, 32-42	3.7	71
245	Implicit and explicit self-esteem in currently depressed individuals with and without suicidal ideation. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2007 , 38, 75-85	2.6	71
244	The Impact of Accelerated HF-rTMS on the Subgenual Anterior Cingulate Cortex in Refractory Unipolar Major Depression: Insights From 18FDG PET Brain Imaging. <i>Brain Stimulation</i> , 2015 , 8, 808-15	5.1	70
243	To be or want to be: disentangling the role of actual versus ideal self in implicit self-esteem. <i>PLoS ONE</i> , 2014 , 9, e108837	3.7	68

242	No influence of one right-sided prefrontal HF-rTMS session on alcohol craving in recently detoxified alcohol-dependent patients: results of a naturalistic study. <i>Drug and Alcohol Dependence</i> , 2012 , 120, 209-13	4.9	67
241	Right prefrontal HF-rTMS attenuates right amygdala processing of negatively valenced emotional stimuli in healthy females. <i>Behavioural Brain Research</i> , 2010 , 214, 450-5	3.4	66
240	Transcranial electric stimulation and neurocognitive training in clinically depressed patients: a pilot study of the effects on rumination. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2015 , 57, 93-9	5.5	64
239	Inter-individual differences in the habitual use of cognitive reappraisal and expressive suppression are associated with variations in prefrontal cognitive control for emotional information: an event related fMRI study. <i>Biological Psychology</i> , 2013 , 92, 433-9	3.2	64
238	Healthy brooders employ more attentional resources when disengaging from the negative: an event-related fMRI study. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2011 , 11, 207-16	3.5	64
237	Depressive symptoms and cognitive control in a mixed antisaccade task: specific effects of depressive rumination. <i>Cognition and Emotion</i> , 2011 , 25, 886-97	2.3	64
236	Impact of Anodal and Cathodal Transcranial Direct Current Stimulation over the Left Dorsolateral Prefrontal Cortex during Attention Bias Modification: An Eye-Tracking Study. <i>PLoS ONE</i> , 2015 , 10, e0124182	3.7	62
235	Impairments in cognitive control persist during remission from depression and are related to the number of past episodes: an event related potentials study. <i>Biological Psychology</i> , 2009 , 81, 169-76	3.2	62
234	tDCS over the left prefrontal cortex enhances cognitive control for positive affective stimuli. <i>PLoS ONE</i> , 2013 , 8, e62219	3.7	62
233	HF-rTMS treatment in medication-resistant melancholic depression: results from 18FDG-PET brain imaging. <i>CNS Spectrums</i> , 2009 , 14, 439-48	1.8	61
232	Predicting at-fault car accidents of older drivers. <i>Accident Analysis and Prevention</i> , 2001 , 33, 809-19	6.1	60
231	Emotional Interference in Working Memory is Related to Rumination. <i>Cognitive Therapy and Research</i> , 2012 , 36, 348-357	2.7	57
230	Neurobiological mechanisms of repetitive transcranial magnetic stimulation on the underlying neurocircuitry in unipolar depression. <i>Dialogues in Clinical Neuroscience</i> , 2011 , 13, 139-45	5.7	57
229	Impact of transcranial direct current stimulation on attentional bias for threat: a proof-of-concept study among individuals with social anxiety disorder. <i>Social Cognitive and Affective Neuroscience</i> , 2017 , 12, 251-260	4	56
228	Influence of high-frequency repetitive transcranial magnetic stimulation over the dorsolateral prefrontal cortex on the inhibition of emotional information in healthy volunteers. <i>Psychological Medicine</i> , 2009 , 39, 1019-28	6.9	55
227	Middle Childhood Support-Seeking Behavior During Stress: Links With Self-Reported Attachment and Future Depressive Symptoms. <i>Child Development</i> , 2016 , 87, 326-40	4.9	53
226	Self-esteem revisited: performance on the implicit relational assessment procedure as a measure of self- versus ideal self-related cognitions in dysphoria. <i>Cognition and Emotion</i> , 2013 , 27, 1441-9	2.3	53
225	The impact of HF-rTMS treatment on serotonin(2A) receptors in unipolar melancholic depression. <i>Brain Stimulation</i> , 2011 , 4, 104-11	5.1	53

224	Attention for emotional facial expressions in dysphoria: an eye-movement registration study. <i>Cognition and Emotion</i> , 2011 , 25, 111-20	2.3	53
223	Internal cognitive control in clinical depression: general but no emotion-specific impairments. <i>Psychiatry Research</i> , 2012 , 199, 124-30	9.9	51
222	The Relationship Between Time Perspective and Subjective Well-being of Older Adults. <i>Psychologica Belgica</i> , 2013 , 52, 19	0.6	51
221	'Put on your poker face': neural systems supporting the anticipation for expressive suppression and cognitive reappraisal. <i>Social Cognitive and Affective Neuroscience</i> , 2013 , 8, 903-10	4	50
220	The influence of rTMS over the right dorsolateral prefrontal cortex on top-down attentional processes. <i>Brain Research</i> , 2007 , 1137, 111-6	3.7	50
219	Using 3D-MRI to localize the dorsolateral prefrontal cortex in TMS research. <i>World Journal of Biological Psychiatry</i> , 2010 , 11, 425-430	3.8	49
218	Reduced intra-individual reaction time variability during a Go-NoGo task in detoxified alcohol-dependent patients after one right-sided dorsolateral prefrontal HF-rTMS session. <i>Alcohol and Alcoholism</i> , 2013 , 48, 552-7	3.5	48
217	The impact of the COVID-19 pandemic on wellbeing and cognitive functioning of older adults. <i>Scientific Reports</i> , 2021 , 11, 4636	4.9	48
216	Happy but still focused: failures to find evidence for a mood-induced widening of visual attention. <i>Psychological Research</i> , 2013 , 77, 320-32	2.5	47
215	Effects of repetitive transcranial magnetic stimulation of the dorsolateral prefrontal cortex on the attentional processing of emotional information in major depression: a pilot study. <i>Psychiatry Research</i> , 2011 , 185, 102-7	9.9	46
214	Attentional retraining procedures: manipulating early or late components of attentional bias?. <i>Emotion</i> , 2010 , 10, 230-6	4.1	45
213	Rumination is characterized by valence-specific impairments in switching of attention. <i>Acta Psychologica</i> , 2013 , 144, 563-70	1.7	44
212	Activation of latent self-schemas as a cognitive vulnerability factor for depression: The potential role of implicit self-esteem. <i>Cognition and Emotion</i> , 2008 , 22, 1588-1599	2.3	44
211	Positive emotion broadens attention focus through decreased position-specific spatial encoding in early visual cortex: evidence from ERPs. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2013 , 13, 60-79 ^{3.5}	3.5	42
210	The influence of rTMS over the right dorsolateral prefrontal cortex on intentional set switching. <i>Experimental Brain Research</i> , 2006 , 172, 561-5	2.3	42
209	Happy heart, smiling eyes: A systematic review of positive mood effects on broadening of visuospatial attention. <i>Neuroscience and Biobehavioral Reviews</i> , 2016 , 68, 816-837	9	42
208	Left and right amygdala - mediofrontal cortical functional connectivity is differentially modulated by harm avoidance. <i>PLoS ONE</i> , 2014 , 9, e95740	3.7	41
207	Changes in Attentional Processing of Emotional Information Following Mindfulness-Based Cognitive Therapy in People with a History of Depression: Towards an Open Attention for all Emotional Experiences. <i>Cognitive Therapy and Research</i> , 2012 , 36, 612-620	2.7	41

206	Attachment security and attentional breadth toward the attachment figure in middle childhood. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2009 , 38, 872-82	5.4	41
205	Association between changes in heart rate variability during the anticipation of a stressful situation and the stress-induced cortisol response. <i>Psychoneuroendocrinology</i> , 2018 , 94, 63-71	5	41
204	Cueing of visual attention by emotional facial expressions: The influence of individual differences in anxiety and depression. <i>Personality and Individual Differences</i> , 2006 , 41, 329-339	3.3	40
203	Differentiation between mild cognitive impairment, Alzheimer's disease and depression by means of cued recall. <i>Psychological Medicine</i> , 2007 , 37, 747-55	6.9	40
202	The impact of one HF-rTMS session on mood and salivary cortisol in treatment resistant unipolar melancholic depressed patients. <i>Journal of Affective Disorders</i> , 2009 , 113, 100-8	6.6	39
201	The Impact of Accelerated Right Prefrontal High-Frequency Repetitive Transcranial Magnetic Stimulation (rTMS) on Cue-Reactivity: An fMRI Study on Craving in Recently Detoxified Alcohol-Dependent Patients. <i>PLoS ONE</i> , 2015 , 10, e0136182	3.7	39
200	Acute effects of repetitive transcranial magnetic stimulation on attentional control are related to antidepressant outcomes. <i>Journal of Psychiatry and Neuroscience</i> , 2009 , 34, 119-26	4.5	39
199	Short cognitive/neuropsychological test battery for first-tier fitness-to-drive assessment of older adults. <i>Clinical Neuropsychologist</i> , 2001 , 15, 329-36	4.4	38
198	One left dorsolateral prefrontal cortical HF-rTMS session attenuates HPA-system sensitivity to critical feedback in healthy females. <i>Neuropsychologia</i> , 2014 , 57, 112-21	3.2	36
197	Mindwandering heightens the accessibility of negative relative to positive thought. <i>Consciousness and Cognition</i> , 2012 , 21, 1517-25	2.6	35
196	Verbal cued recall as a predictor of conversion to Alzheimer's disease in Mild Cognitive Impairment. <i>International Journal of Geriatric Psychiatry</i> , 2009 , 24, 1094-100	3.9	35
195	Differential effects of 5-HTTLPR genotypes on inhibition of negative emotional information following acute stress exposure and tryptophan challenge. <i>Neuropsychopharmacology</i> , 2011 , 36, 819-26	8.7	35
194	Decreased cognitive control in response to negative information in patients with remitted depression: an event-related potential study. <i>Journal of Psychiatry and Neuroscience</i> , 2012 , 37, 250-8	4.5	35
193	Modification of Information-Processing Biases in Emotional Disorders: Clinically Relevant Developments in Experimental Psychopathology. <i>International Journal of Cognitive Therapy</i> , 2011 , 4, 208-222	1.4	34
192	Nosce te ipsum--Socrates revisited? Controlling momentary ruminative self-referent thoughts by neuromodulation of emotional working memory. <i>Neuropsychologia</i> , 2013 , 51, 2581-9	3.2	33
191	Amygdala responses to positively and negatively valenced baby faces in healthy female volunteers: influences of individual differences in harm avoidance. <i>Brain Research</i> , 2009 , 1296, 94-103	3.7	33
190	Does a single neurostimulation session really affect mood in healthy individuals? A systematic review. <i>Neuropsychologia</i> , 2016 , 85, 184-98	3.2	31
189	Subgenual Anterior Cingulate-Medial Orbitofrontal Functional Connectivity in Medication-Resistant Major Depression: A Neurobiological Marker for Accelerated Intermittent Theta Burst Stimulation Treatment?. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2017 , 2, 556-565	3.4	30

188	Mindful attention and awareness mediate the association between age and negative affect. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2015 , 70, 181-90	4.6	30
187	The effect of counterconditioning on evaluative responses and harm expectancy in a fear conditioning paradigm. <i>Behavior Therapy</i> , 2012 , 43, 757-67	4.8	30
186	Baseline 'state anxiety' influences HPA-axis sensitivity to one sham-controlled HF-rTMS session applied to the right dorsolateral prefrontal cortex. <i>Psychoneuroendocrinology</i> , 2011 , 36, 60-7	5	30
185	Lack of impact of repetitive High Frequency Transcranial Magnetic Stimulation on mood in healthy female subjects. <i>Journal of Affective Disorders</i> , 2006 , 90, 63-6	6.6	29
184	Does neuroscience hold promise for the further development of behavior therapy? The case of emotional change after exposure in anxiety and depression. <i>Scandinavian Journal of Psychology</i> , 2006 , 47, 225-36	2.2	29
183	Depression-related difficulties disengaging from negative faces are associated with sustained attention to negative feedback during social evaluation and predict stress recovery. <i>PLoS ONE</i> , 2017 , 12, e0175040	3.7	28
182	The effect of a single HF-rTMS session over the left DLPFC on the physiological stress response as measured by heart rate variability. <i>Neuropsychology</i> , 2016 , 30, 756-766	3.8	28
181	The neural basis of unwanted thoughts during resting state. <i>Social Cognitive and Affective Neuroscience</i> , 2014 , 9, 1320-4	4	28
180	Attentional control in depression: A translational affective neuroscience approach. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2010 , 10, 1-7	3.5	28
179	Children's Attentional Processing of Mother and Proximity Seeking. <i>PLoS ONE</i> , 2015 , 10, e0124038	3.7	28
178	Neurocognitive mechanisms behind emotional attention: Inverse effects of anodal tDCS over the left and right DLPFC on gaze disengagement from emotional faces. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2018 , 18, 485-494	3.5	27
177	Abnormal proactive and reactive cognitive control during conflict processing in major depression. <i>Journal of Abnormal Psychology</i> , 2014 , 123, 68-80	7	27
176	A single session of rTMS over the left dorsolateral prefrontal cortex influences attentional control in depressed patients. <i>World Journal of Biological Psychiatry</i> , 2009 , 10, 34-42	3.8	27
175	The role of expectancy and proactive control in stress regulation: A neurocognitive framework for regulation expectation. <i>Clinical Psychology Review</i> , 2016 , 45, 45-55	10.8	27
174	Effects of tDCS over the right DLPFC on attentional disengagement from positive and negative faces: An eye-tracking study. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2016 , 16, 1027-1038	3.5	27
173	How brooding minds inhibit negative material: an event-related fMRI study. <i>Brain and Cognition</i> , 2013 , 81, 352-9	2.7	26
172	The positivity effect in older adults: the role of affective interference and inhibition. <i>Aging and Mental Health</i> , 2010 , 14, 129-37	3.5	26
171	Negative information enhances the attentional blink in dysphoria. <i>Depression and Anxiety</i> , 2009 , 26, E16-21	2.4	26

170	Adaptive cognitive emotion regulation moderates the relationship between dysfunctional attitudes and depressive symptoms during a stressful life period: a prospective study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014 , 45, 291-6	2.6	25
169	Effects of positive mood on probabilistic learning: behavioral and electrophysiological correlates. <i>Biological Psychology</i> , 2014 , 103, 223-32	3.2	25
168	Mental imagery of positive and neutral memories: A fMRI study comparing field perspective imagery to observer perspective imagery. <i>Brain and Cognition</i> , 2017 , 111, 13-24	2.7	25
167	HF-rTMS treatment decreases psychomotor retardation in medication-resistant melancholic depression. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2010 , 34, 684-7	5.5	25
166	Is the relationship between frontal EEG alpha asymmetry and depression mediated by implicit or explicit self-esteem?. <i>Biological Psychology</i> , 2008 , 77, 89-92	3.2	25
165	Left and right High Frequency repetitive Transcranial Magnetic Stimulation of the dorsolateral prefrontal cortex does not affect mood in female volunteers. <i>Clinical Neurophysiology</i> , 2008 , 119, 568-575 ³	4.3	25
164	Eye-gaze contingent attention training (ECAT): Examining the causal role of attention regulation in reappraisal and rumination. <i>Biological Psychology</i> , 2019 , 142, 116-125	3.2	24
163	A novel attention training paradigm based on operant conditioning of eye gaze: Preliminary findings. <i>Emotion</i> , 2016 , 16, 110-6	4.1	24
162	The effects of high frequency rTMS on negative attentional bias are influenced by baseline state anxiety. <i>Neuropsychologia</i> , 2011 , 49, 1824-30	3.2	24
161	Diversity, dispersion and inconsistency of reaction time measures: effects of age and task complexity. <i>Aging Clinical and Experimental Research</i> , 2006 , 18, 407-17	4.8	24
160	Cortisol response to stress: The role of expectancy and anticipatory stress regulation. <i>Hormones and Behavior</i> , 2020 , 117, 104587	3.7	23
159	Vulnerability for new episodes in recurrent major depressive disorder: protocol for the longitudinal DELTA-neuroimaging cohort study. <i>BMJ Open</i> , 2016 , 6, e009510	3	23
158	Negative influences of Facebook use through the lens of network analysis. <i>Computers in Human Behavior</i> , 2019 , 96, 13-22	7.7	22
157	Accelerated HF-rTMS Protocol has a Rate-Dependent Effect on dACC Activation in Alcohol-Dependent Patients: An Open-Label Feasibility Study. <i>Alcoholism: Clinical and Experimental Research</i> , 2016 , 40, 196-205	3.7	22
156	Feeling happy enhances early spatial encoding of peripheral information automatically: electrophysiological time-course and neural sources. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2014 , 14, 951-69	3.5	22
155	Effects of positive mood on attention broadening for self-related information. <i>Psychological Research</i> , 2014 , 78, 566-73	2.5	22
154	Passively viewing negatively valenced baby faces attenuates left amygdala activity in healthy females scoring high on 'Harm Avoidance'. <i>Neuroscience Letters</i> , 2010 , 478, 97-101	3.3	22
153	Depression-related attentional bias: The influence of symptom severity and symptom specificity. <i>Cognition and Emotion</i> , 2010 , 24, 1044-1052	2.3	22

152	Social media use and well-being: A prospective experience-sampling study. <i>Computers in Human Behavior</i> , 2021 , 114, 106510	7.7	22
151	The Effects of Rumination Induction on Attentional Breadth for Self-Related Information. <i>Clinical Psychological Science</i> , 2015 , 3, 607-618	6	21
150	Mild cognitive impairment: what's in a name?. <i>Gerontology</i> , 2007 , 53, 28-35	5.5	21
149	Attentional processes discriminate between patients with mild Alzheimer's disease and cognitively healthy elderly. <i>International Psychogeriatrics</i> , 2006 , 18, 539-49	3.4	21
148	The role of self-esteem instability in the development of postnatal depression: A prospective study testing a diathesis-stress account. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016 , 50, 15-22	2.6	20
147	The regulation of positive and negative social feedback: A psychophysiological study. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2015 , 15, 553-63	3.5	20
146	Attentional disengagement from emotional information predicts future depression via changes in ruminative brooding: A five-month longitudinal eye-tracking study. <i>Behaviour Research and Therapy</i> , 2019 , 118, 30-42	5.2	19
145	Positive memory enhancement training for individuals with major depressive disorder. <i>Cognitive Behaviour Therapy</i> , 2018 , 47, 155-168	4.4	19
144	The interplay between the anticipation and subsequent online processing of emotional stimuli as measured by pupillary dilatation: the role of cognitive reappraisal. <i>Frontiers in Psychology</i> , 2014 , 5, 207	3.4	19
