

Rudi De Raedt

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/852456/rudi-de-raedt-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

277
papers

9,609
citations

#	Paper	IF	Citations
277	The neural correlates of psychosocial stress: A systematic review and meta-analysis of spectral analysis EEG studies.. <i>Neurobiology of Stress</i> , 2022 , 18, 100452	7.6	1
276	Preventing Recurrence of Depression: Long-Term Effects of a Randomized Controlled Trial on Cognitive Control Training for Remitted Depressed Patients. <i>Clinical Psychological Science</i> , 2021 , 9, 615-633	6.33	8
275	Hostility in medication-resistant major depression and comorbid generalized anxiety disorder is related to increased hippocampal-amygdala 5-HT receptor density. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2021 , 271, 1369-1378	5.1	2
274	Cognitive behavioral based group psychotherapy focusing on repetitive negative thinking: Decreased uncontrollability of rumination is related to brain perfusion increases in the left dorsolateral prefrontal cortex. <i>Journal of Psychiatric Research</i> , 2021 , 136, 281-287	5.2	3
273	Effects of combined theta burst stimulation and transcranial direct current stimulation of the dorsolateral prefrontal cortex on stress. <i>Clinical Neurophysiology</i> , 2021 , 132, 1116-1125	4.3	1
272	Prefrontal tDCS attenuates counterfactual thinking in female individuals prone to self-critical rumination. <i>Scientific Reports</i> , 2021 , 11, 11601	4.9	3
271	Exposure to Criticism Modulates Left but Not Right Amygdala Functional Connectivity in Healthy Adolescents: Individual Influences of Perceived and Self-Criticism. <i>Frontiers in Psychiatry</i> , 2021 , 12, 673805	5	1
270	Early reduction of sensory processing within the visual cortex when switching from internal to external attention. <i>Biological Psychology</i> , 2021 , 163, 108119	3.2	1
269	Social media use and well-being: A prospective experience-sampling study. <i>Computers in Human Behavior</i> , 2021 , 114, 106510	7.7	22
268	Manipulating avoidance motivation to modulate attention bias for negative information in dysphoria: An eye-tracking study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2021 , 70, 101613	2.6	3
267	Combined transcranial direct current stimulation and psychological interventions: State of the art and promising perspectives for clinical psychology. <i>Biological Psychology</i> , 2021 , 158, 107991	3.2	12
266	Contextual goal-dependent attention flexibility or rule-based learning? An investigation of a new attention flexibility paradigm. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2021 , 71, 101632	2.6	6
265	Combined effects of tDCS over the left DLPFC and gaze-contingent training on attention mechanisms of emotion regulation in low-resilient individuals. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2021 , 108, 110177	5.5	5
264	Gratitude: A Resilience Factor for More Securely Attached Children. <i>Journal of Child and Family Studies</i> , 2021 , 30, 416-430	2.3	5
263	Looking for carrots, watching out for sticks: A gaze-contingent approach towards training contextual goal-dependent affective attention flexibility. <i>Behaviour Research and Therapy</i> , 2021 , 136, 103787	5.2	2
262	Combination of tDCS with Psychotherapy and Neurobehavioral Interventions: Systematic Review and Mechanistic Principles for Future Clinical Trials 2021 , 741-755		0
261	The impact of the COVID-19 pandemic on wellbeing and cognitive functioning of older adults. <i>Scientific Reports</i> , 2021 , 11, 4636	4.9	48

260	A Cognitive Control Training as Add-On Treatment to Usual Care for Depressed Inpatients. <i>Cognitive Therapy and Research</i> , 2021 , 45, 929-943	2.7	1
259	A multi-method assessment of attentional processes in chronic, treatment-resistant depression. <i>Journal of Psychiatric Research</i> , 2021 , 140, 68-76	5.2	
258	The relationship between affective flexibility, spontaneous emotion regulation and the response to induced stress. <i>Behaviour Research and Therapy</i> , 2021 , 143, 103891	5.2	0
257	Prefrontal tDCS Attenuates Self-Referential Attentional Deployment: A Mechanism Underlying Adaptive Emotional Reactivity to Social-Evaluative Threat. <i>Frontiers in Human Neuroscience</i> , 2021 , 15, 700557	3.3	1
256	The relationship between Instagram use and indicators of mental health: A systematic review. <i>Computers in Human Behavior Reports</i> , 2021 , 4, 100121	2.6	5
255	Attenuated beta-adrenergic response to stress and increased anticipation and perception of social threat in women high on perceived criticism. <i>Psychoneuroendocrinology</i> , 2021 , 133, 105421	5	
254	Are Emotion Regulation Strategies Associated With Visual Attentional Breadth for Emotional Information in Youth?. <i>Frontiers in Psychology</i> , 2021 , 12, 637436	3.4	0
253	The link between resting heart rate variability and affective flexibility. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2020 , 20, 746-756	3.5	9
252	The effect of HF-rTMS over the left DLPFC on stress regulation as measured by cortisol and heart rate variability. <i>Hormones and Behavior</i> , 2020 , 124, 104803	3.7	10
251	Mind the social feedback: effects of tDCS applied to the left DLPFC on psychophysiological responses during the anticipation and reception of social evaluations. <i>Social Cognitive and Affective Neuroscience</i> , 2020 ,	4	5
250	Effects of HF-rTMS over the left and right DLPFC on proactive and reactive cognitive control. <i>Social Cognitive and Affective Neuroscience</i> , 2020 ,	4	6
249	Children's Attention to Mother and Adolescent Stress Moderate the Attachment-Depressive Symptoms Link. <i>Psychologica Belgica</i> , 2020 , 60, 294-314	0.6	3
248	Cortisol response to stress: The role of expectancy and anticipatory stress regulation. <i>Hormones and Behavior</i> , 2020 , 117, 104587	3.7	23
247	Contributions from neuroscience to the practice of Cognitive Behaviour Therapy: Translational psychological science in service of good practice. <i>Behaviour Research and Therapy</i> , 2020 , 125, 103545	5.2	5
246	Contextual Changes Influence Attention Flexibility Towards New Goals. <i>Cognitive Therapy and Research</i> , 2020 , 44, 327-344	2.7	6
245	Bifrontal tDCS applied to the dorsolateral prefrontal cortex in heavy drinkers: Influence on reward-triggered approach bias and alcohol consumption. <i>Brain and Cognition</i> , 2020 , 138, 105512	2.7	11
244	Cognitive Control Training in Healthy Older Adults: A Proof of Concept Study on the Effects on Cognitive Functioning, Emotion Regulation and Affect. <i>Cognitive Therapy and Research</i> , 2020 , 45, 959	2.7	2
243	Cognitive Control Training as an Augmentation Strategy to CBT in the Treatment of Fear of Failure in Undergraduates. <i>Cognitive Therapy and Research</i> , 2020 , 44, 1199-1212	2.7	4

242	Testing the neurocognitive framework for regulation expectation: The relationship between actual/ideal self-esteem and proactive/reactive autonomic stress regulation. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2020 , 69, 101598	2.6	2
241	Flexibility as a Mediator between Personality and Well-Being in Older and Younger Adults: Findings from Questionnaire Data and a Behavioral Task. <i>Experimental Aging Research</i> , 2020 , 46, 446-468	1.7	1
240	Cognitive remediation following electroconvulsive therapy in patients with treatment resistant depression: randomized controlled trial of an intervention for relapse prevention - study protocol. <i>BMC Psychiatry</i> , 2020 , 20, 453	4.2	
239	Eight items of the ruminative response scale are sufficient to measure weekly within-person variation in rumination. <i>Current Psychology</i> , 2020 , 1	1.4	2
238	Opposite subgenual cingulate cortical functional connectivity and metabolic activity patterns in refractory melancholic major depression. <i>Brain Imaging and Behavior</i> , 2020 , 14, 426-435	4.1	2
237	The effect of neurostimulation applied to the left dorsolateral prefrontal cortex on post-stress adaptation as a function of depressive brooding. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2020 , 96, 109687	5.5	13
236	Abnormal approach-related motivation but spared reinforcement learning in MDD: Evidence from fronto-midline Theta oscillations and frontal Alpha asymmetry. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2019 , 19, 759-777	3.5	9
235	Switching attention from internal to external information processing: A review of the literature and empirical support of the resource sharing account. <i>Psychonomic Bulletin and Review</i> , 2019 , 26, 468-490	4.1	15
234	The relationship between attentional processing of emotional information and personality: A comparison between older and younger adults. <i>PLoS ONE</i> , 2019 , 14, e0217382	3.7	2
233	From trust in caregivers' support to exploration: The role of openness to negative affect and self-regulation. <i>Scandinavian Journal of Psychology</i> , 2019 , 60, 309-322	2.2	1
232	Inverse effects of tDCS over the left versus right DLPC on emotional processing: A pupillometry study. <i>PLoS ONE</i> , 2019 , 14, e0218327	3.7	12
231	Attachment-related attention bias plays a causal role in trust in maternal support. <i>Journal of Experimental Child Psychology</i> , 2019 , 185, 176-190	2.3	8
230	A novel process-based approach to improve resilience: Effects of computerized mouse-based (gaze)contingent attention training (MCAT) on reappraisal and rumination. <i>Behaviour Research and Therapy</i> , 2019 , 118, 110-120	5.2	16
229	Eye-gaze contingent attention training (ECAT): Examining the causal role of attention regulation in reappraisal and rumination. <i>Biological Psychology</i> , 2019 , 142, 116-125	3.2	24
228	Attentional disengagement from emotional information predicts future depression via changes in ruminative brooding: A five-month longitudinal eye-tracking study. <i>Behaviour Research and Therapy</i> , 2019 , 118, 30-42	5.2	19
227	Negative influences of Facebook use through the lens of network analysis. <i>Computers in Human Behavior</i> , 2019 , 96, 13-22	7.7	22
226	Prefrontal TDCS attenuates medial prefrontal connectivity upon being criticized in individuals scoring high on perceived criticism. <i>Brain Imaging and Behavior</i> , 2019 , 13, 1060-1070	4.1	9
225	Cognitive Bias Modification of Expectancies (CBM-E): Effects on Interpretation Bias and Autobiographical Memory, and Relations with Social and Attachment Anxiety. <i>Cognitive Therapy and Research</i> , 2019 , 43, 1028-1042	2.7	3

224	The road towards personalized medicine: Increasing the effects of brain stimulation using individual characteristics. <i>L'Encephale</i> , 2019 , 45, S59	2.9	2
223	Music to my ears, goal for my eyes? Music reward modulates gaze disengagement from negative stimuli in dysphoria. <i>Behaviour Research and Therapy</i> , 2019 , 120, 103434	5.2	3
222	When choosing means losing: Regret enhances repetitive negative thinking in high brooders. <i>Journal of Experimental Social Psychology</i> , 2019 , 85, 103850	2.6	4
221	The influence of personality on the effect of iTBS after being stressed on cortisol secretion. <i>PLoS ONE</i> , 2019 , 14, e0223927	3.7	7
220	Autonomic regulation in response to stress: The influence of anticipatory emotion regulation strategies and trait rumination. <i>Emotion</i> , 2019 , 19, 443-454	4.1	17
219	How is personality related to well-being in older and younger adults? The role of psychological flexibility. <i>International Psychogeriatrics</i> , 2019 , 31, 1355-1365	3.4	9
218	The effects of children's proximity-seeking to maternal attachment figures during mild stress exposure on mood and physiological responses: An experimental study. <i>Social Development</i> , 2019 , 28, 364-382	2.4	5
217	Attachment and self-regulation performance in preadolescence. <i>Journal of Social and Personal Relationships</i> , 2019 , 36, 706-716	1.9	5
216	The Role of Interference and Inhibition Processes in Dysphoric Early Adolescents. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2018 , 47, 608-619	5.4	8
215	Integration of reward with cost anticipation during performance monitoring revealed by ERPs and EEG spectral perturbations. <i>NeuroImage</i> , 2018 , 173, 153-164	7.9	17
214	Neurocognitive mechanisms behind emotional attention: Inverse effects of anodal tDCS over the left and right DLPFC on gaze disengagement from emotional faces. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2018 , 18, 485-494	3.5	27
213	Don't judge me: Psychophysiological evidence of gender differences to social evaluative feedback. <i>Biological Psychology</i> , 2018 , 135, 29-35	3.2	11
212	Assessment of Implicit Self-Esteem in Older Adults: The Role of Actual and Ideal Self-Esteem in Negative Mood. <i>Assessment</i> , 2018 , 25, 302-309	3.7	1
211	Can training change attentional breadth? Failure to find transfer effects. <i>Psychological Research</i> , 2018 , 82, 520-534	2.5	2
210	Children's attentional breadth around their mother: Comparing stimulus-driven vs. cognitively controlled processes. <i>Social Development</i> , 2018 , 27, 95-108	2.4	4
209	Positive memory enhancement training for individuals with major depressive disorder. <i>Cognitive Behaviour Therapy</i> , 2018 , 47, 155-168	4.4	19
208	One MRI-compatible tDCS session attenuates ventromedial cortical perfusion when exposed to verbal criticism: The role of perceived criticism. <i>Human Brain Mapping</i> , 2018 , 39, 4462-4470	5.9	8
207	The effect of positive mood on flexible processing of affective information. <i>Emotion</i> , 2018 , 18, 819-833	4.1	8

206	Dorsomedial frontal cortical metabolic differences of comorbid generalized anxiety disorder in refractory major depression: A [F] FDG PET brain imaging study. <i>Journal of Affective Disorders</i> , 2018 , 227, 550-553	6.6	12
205	The Role of Personality in the Assessment of Subjective and Physiological Emotional Reactivity: A Comparison Between Younger and Older Adults. <i>Assessment</i> , 2018 , 25, 285-301	3.7	9
204	Accelerated iTBS treatment in depressed patients differentially modulates reward system activity based on anhedonia. <i>World Journal of Biological Psychiatry</i> , 2018 , 19, 497-508	3.8	15
203	Remediation of depression-related cognitive impairment: cognitive control training as treatment augmentation. <i>Expert Review of Neurotherapeutics</i> , 2018 , 18, 907-913	4.3	12
202	Association between changes in heart rate variability during the anticipation of a stressful situation and the stress-induced cortisol response. <i>Psychoneuroendocrinology</i> , 2018 , 94, 63-71	5	41
201	Attachment and Effortful Control: Relationships With Maladjustment in Early Adolescence. <i>Journal of Early Adolescence</i> , 2017 , 37, 289-315	1.9	14
200	Subgenual Anterior Cingulate-Medial Orbitofrontal Functional Connectivity in Medication-Resistant Major Depression: A Neurobiological Marker for Accelerated Intermittent Theta Burst Stimulation Treatment?. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2017 , 2, 556-565	3.4	30
199	Examining a Novel Gamified Approach to Attentional Retraining: Effects of Single and Multiple Session Training. <i>Cognitive Therapy and Research</i> , 2017 , 41, 89-105	2.7	6
198	Identification of emotions in mixed disgusted-happy faces as a function of depressive symptom severity. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017 , 57, 96-102	2.6	5
197	Older adults' attentional deployment: Differential gaze patterns for different negative mood states. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017 , 55, 49-56	2.6	11
196	Repetitive thinking about the mother during distress moderates the link between children's attentional breadth around the mother and depressive symptoms in middle childhood. <i>Behaviour Research and Therapy</i> , 2017 , 90, 137-146	5.2	7
195	Anodal tDCS over the right dorsolateral prefrontal cortex modulates cognitive processing of emotional information as a function of trait rumination in healthy volunteers. <i>Biological Psychology</i> , 2017 , 123, 111-118	3.2	6
194	Depression-related difficulties disengaging from negative faces are associated with sustained attention to negative feedback during social evaluation and predict stress recovery. <i>PLoS ONE</i> , 2017 , 12, e0175040	3.7	28
193	Increased left prefrontal brain perfusion after MRI compatible tDCS attenuates momentary ruminative self-referential thoughts. <i>Brain Stimulation</i> , 2017 , 10, 1088-1095	5.1	17
192	The effect of transcranial direct current stimulation of the prefrontal cortex on implicit self-esteem is mediated by rumination after criticism. <i>Behaviour Research and Therapy</i> , 2017 , 99, 138-146	5.2	18
191	Spared internal but impaired external reward prediction error signals in major depressive disorder during reinforcement learning. <i>Depression and Anxiety</i> , 2017 , 34, 89-96	8.4	11
190	Mental imagery of positive and neutral memories: A fMRI study comparing field perspective imagery to observer perspective imagery. <i>Brain and Cognition</i> , 2017 , 111, 13-24	2.7	25
189	Impact of transcranial direct current stimulation on attentional bias for threat: a proof-of-concept study among individuals with social anxiety disorder. <i>Social Cognitive and Affective Neuroscience</i> , 2017 , 12, 251-260	4	56

188	Resilience at Information Processing Level in Older Adults: Maintained Attention for Happy Faces when Positive Mood is Low. <i>Spanish Journal of Psychology</i> , 2017 , 20, E53	1	0
187	Feeling happy when feeling down: The effectiveness of positive mental imagery in dysphoria. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017 , 57, 156-162	2.6	5
186	The role of self-esteem instability in the development of postnatal depression: A prospective study testing a diathesis-stress account. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016 , 50, 15-22	2.6	20
185	Co-variation between stressful events and rumination predicts depressive symptoms: An eighteen months prospective design in undergraduates. <i>Behaviour Research and Therapy</i> , 2016 , 87, 128-133	5.2	13
184	The effect of a single HF-rTMS session over the left DLPFC on the physiological stress response as measured by heart rate variability. <i>Neuropsychology</i> , 2016 , 30, 756-766	3.8	28
183	A novel attention training paradigm based on operant conditioning of eye gaze: Preliminary findings. <i>Emotion</i> , 2016 , 16, 110-6	4.1	24
182	Does a single neurostimulation session really affect mood in healthy individuals? A systematic review. <i>Neuropsychologia</i> , 2016 , 85, 184-98	3.2	31
181	Accelerated HF-rTMS Protocol has a Rate-Dependent Effect on dACC Activation in Alcohol-Dependent Patients: An Open-Label Feasibility Study. <i>Alcoholism: Clinical and Experimental Research</i> , 2016 , 40, 196-205	3.7	22
180	Middle Childhood Support-Seeking Behavior During Stress: Links With Self-Reported Attachment and Future Depressive Symptoms. <i>Child Development</i> , 2016 , 87, 326-40	4.9	53
179	Emotional reactivity to valence-loaded stimuli are related to treatment response of neurocognitive therapy. <i>Journal of Affective Disorders</i> , 2016 , 190, 443-449	6.6	5
178	Intermittent Theta Burst Stimulation Increases Reward Responsiveness in Individuals with Higher Hedonic Capacity. <i>Frontiers in Human Neuroscience</i> , 2016 , 10, 294	3.3	10
177	Happy heart, smiling eyes: A systematic review of positive mood effects on broadening of visuospatial attention. <i>Neuroscience and Biobehavioral Reviews</i> , 2016 , 68, 816-837	9	42
176	Vulnerability for new episodes in recurrent major depressive disorder: protocol for the longitudinal DELTA-neuroimaging cohort study. <i>BMJ Open</i> , 2016 , 6, e009510	3	23
175	The role of expectancy and proactive control in stress regulation: A neurocognitive framework for regulation expectation. <i>Clinical Psychology Review</i> , 2016 , 45, 45-55	10.8	27
174	Attentional Bias Moderates the Link Between Attachment-Related Expectations and Non-suicidal Self-Injury. <i>Cognitive Therapy and Research</i> , 2016 , 40, 540-548	2.7	11
173	Accelerated intermittent theta burst stimulation treatment in medication-resistant major depression: A fast road to remission?. <i>Journal of Affective Disorders</i> , 2016 , 200, 6-14	6.6	89
172	Effects of tDCS over the right DLPFC on attentional disengagement from positive and negative faces: An eye-tracking study. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2016 , 16, 1027-1038	3.5	27
171	Combining tDCS and Working Memory Training to Down Regulate State Rumination: A Single-Session Double Blind Sham-Controlled Trial. <i>Cognitive Therapy and Research</i> , 2015 , 39, 754-765	2.7	18

170	Mechanisms of Repetitive Thinking: Introduction to the Special Series. <i>Clinical Psychological Science</i> , 2015 , 3, 568-573	6	8
169	Happy and less inhibited? Effects of positive mood on inhibitory control during an antisaccade task revealed using topographic evoked potential mapping. <i>Biological Psychology</i> , 2015 , 110, 190-200	3.2	18
168	The regulation of positive and negative social feedback: A psychophysiological study. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2015 , 15, 553-63	3.5	20
167	The Effects of Rumination Induction on Attentional Breadth for Self-Related Information. <i>Clinical Psychological Science</i> , 2015 , 3, 607-618	6	21
166	Mindful attention and awareness mediate the association between age and negative affect. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2015 , 70, 181-90	4.6	30
165	Neurostimulation as an intervention for treatment resistant depression: From research on mechanisms towards targeted neurocognitive strategies. <i>Clinical Psychology Review</i> , 2015 , 41, 61-9	10.8	79
164	Transcranial electric stimulation and neurocognitive training in clinically depressed patients: a pilot study of the effects on rumination. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2015 , 57, 93-9	5.5	64
163	Children's attentional exploration of threatening information as related to trust in maternal support. <i>Developmental Psychology</i> , 2015 , 51, 1341-50	3.7	14
162	Social anxiety and narrowed attentional breadth toward faces. <i>Emotion</i> , 2015 , 15, 682-6	4.1	9
161	What is in the feedback? Effect of induced happiness vs. sadness on probabilistic learning with vs. without exploration. <i>Frontiers in Human Neuroscience</i> , 2015 , 9, 584	3.3	4
160	Impact of Anodal and Cathodal Transcranial Direct Current Stimulation over the Left Dorsolateral Prefrontal Cortex during Attention Bias Modification: An Eye-Tracking Study. <i>PLoS ONE</i> , 2015 , 10, e0124182	3.7	62
159	The influence of psychological resilience on the relation between automatic stimulus evaluation and attentional breadth for surprised faces. <i>Cognition and Emotion</i> , 2015 , 29, 146-57	2.3	3
158	The Impact of Accelerated HF-rTMS on the Subgenual Anterior Cingulate Cortex in Refractory Unipolar Major Depression: Insights From 18FDG PET Brain Imaging. <i>Brain Stimulation</i> , 2015 , 8, 808-15	5.1	70
157	Children's Attentional Processing of Mother and Proximity Seeking. <i>PLoS ONE</i> , 2015 , 10, e0124038	3.7	28
156	The Impact of Accelerated Right Prefrontal High-Frequency Repetitive Transcranial Magnetic Stimulation (rTMS) on Cue-Reactivity: An fMRI Study on Craving in Recently Detoxified Alcohol-Dependent Patients. <i>PLoS ONE</i> , 2015 , 10, e0136182	3.7	39
155	Feeling happy enhances early spatial encoding of peripheral information automatically: electrophysiological time-course and neural sources. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2014 , 14, 951-69	3.5	22
154	Adaptive cognitive emotion regulation moderates the relationship between dysfunctional attitudes and depressive symptoms during a stressful life period: a prospective study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014 , 45, 291-6	2.6	25
153	Accelerated HF-rTMS in treatment-resistant unipolar depression: Insights from subgenual anterior cingulate functional connectivity. <i>World Journal of Biological Psychiatry</i> , 2014 , 15, 286-97	3.8	96

152	The influence of working memory on the anger superiority effect. <i>Cognition and Emotion</i> , 2014 , 28, 1449-64	9	9
151	Self-directedness: an indicator for clinical response to the HF-rTMS treatment in refractory melancholic depression. <i>Psychiatry Research</i> , 2014 , 220, 269-74	9.9	11
150	The neural basis of unwanted thoughts during resting state. <i>Social Cognitive and Affective Neuroscience</i> , 2014 , 9, 1320-4	4	28
149	Effects of positive mood on probabilistic learning: behavioral and electrophysiological correlates. <i>Biological Psychology</i> , 2014 , 103, 223-32	3.2	25
148	Worrying and rumination are both associated with reduced cognitive control. <i>Psychological Research</i> , 2014 , 78, 651-60	2.5	74
147	Attentional modulation by reward and punishment cues in relation to depressive symptoms. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014 , 45, 351-9	2.6	14
146	Does the amygdala response correlate with the personality trait 'harm avoidance' while evaluating emotional stimuli explicitly?. <i>Behavioral and Brain Functions</i> , 2014 , 10, 18	4.1	14
145	One left dorsolateral prefrontal cortical HF-rTMS session attenuates HPA-system sensitivity to critical feedback in healthy females. <i>Neuropsychologia</i> , 2014 , 57, 112-21	3.2	36
