#	ARTICLE	IF	CITATIONS
1	Effectiveness of Psychological Interventions to Improve the Mental Well-Being of Parents Who Have Experienced Traumatic Childbirth: A Systematic Review and Meta-Analysis. <i>Trauma, Violence, and Abuse</i> , 2023, 24, 1238-1253.	3.9	9
2	What women emphasise as important aspects of care in childbirth – an online survey. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2022, 129, 647-655.	1.1	18
3	“Putting the baby back in the body”: The re-embodiment of pregnancy to enhance safety in a free-standing birth center. <i>Midwifery</i> , 2022, 104, 103172.	1.0	4
4	“Stories of distress versus fulfilment”: A narrative inquiry of midwives’ experiences supporting alternative birth choices in the UK National Health Service. <i>Women and Birth</i> , 2022, 35, e446-e455.	0.9	9
5	Companionship for women/birthing people using antenatal and intrapartum care in England during COVID-19: a mixed-methods analysis of national and organisational responses and perspectives. <i>BMJ Open</i> , 2022, 12, e051965.	0.8	10
6	The Application of Salutogenesis in Birth, Neonatal, and Infant Care Settings. , 2022, , 465-477.		2
7	Protocol for the development of a core outcome set for stillbirth care research (iCHOOSE Study). <i>BMJ Open</i> , 2022, 12, e056629.	0.8	5
8	Cochrane Effective Practice and Organisation of Care (EPOC) Qualitative Evidence Syntheses, Differences From Reviews of Intervention Effectiveness and Implications for Guidance. <i>International Journal of Qualitative Methods</i> , The, 2022, 21, 160940692110619.	1.3	8
9	Informed consent should be obtained before vaginal birth. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2022, 129, 830-830.	1.1	0
10	Routine vaginal examinations compared to other methods for assessing progress of labour to improve outcomes for women and babies at term. <i>The Cochrane Library</i> , 2022, 2022, CD010088.	1.5	9
11	Giving birth and becoming a parent during the COVID-19 pandemic: A qualitative analysis of 806 women’s responses to three open-ended questions in an online survey. <i>Midwifery</i> , 2022, 109, 103321.	1.0	13
12	Intrapartum interventions and outcomes for women and children following induction of labour at term in uncomplicated pregnancies: a 16-year population-based linked data study. <i>BMJ Open</i> , 2021, 11, e047040.	0.8	27
13	“Watchful attendance” during labour and birth. <i>Sexual and Reproductive Healthcare</i> , 2021, 28, 100617.	0.5	19
14	Balancing restrictions and access to maternity care for women and birthing partners during the COVID-19 pandemic: the psychosocial impact of suboptimal care. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2021, 128, 1720-1725.	1.1	42
15	Cultural competence and experiences of maternity health care providers on care for migrant women: A qualitative meta-synthesis. <i>Birth</i> , 2021, 48, 458-469.	1.1	11
16	Normal labour and birth: A public health issue. <i>Sexual and Reproductive Healthcare</i> , 2021, 29, 100655.	0.5	0
17	“I know my place”; a meta-ethnographic synthesis of disadvantaged and vulnerable women's negative experiences of maternity care in high-income countries. <i>Midwifery</i> , 2021, 103, 103123.	1.0	19
18	Qualitative Evidence Syntheses Within Cochrane Effective Practice and Organisation of Care: Developing a Template and Guidance. <i>International Journal of Qualitative Methods</i> , The, 2021, 20, 160940692110419.	1.3	6

#	ARTICLE	IF	CITATIONS
19	Facilitating Perinatal Access to Resources and Support (PeARS): a feasibility study with external pilot of a novel intervention. <i>BMC Pregnancy and Childbirth</i> , 2021, 21, 769.	0.9	2
20	First and second trimester ultrasound in pregnancy: A systematic review and metasynthesis of the views and experiences of pregnant women, partners, and health workers. <i>PLoS ONE</i> , 2021, 16, e0261096.	1.1	8
21	Future directions for the concept of salutogenesis: a position article. <i>Health Promotion International</i> , 2020, 35, 187-195.	0.9	75
22	Which level of risk justifies routine induction of labor for healthy women?. <i>Sexual and Reproductive Healthcare</i> , 2020, 23, 100479.	0.5	8
23	Postpartum hemorrhage care bundles to improve adherence to guidelines: A <scp>WHO</scp> technical consultation. <i>International Journal of Gynecology and Obstetrics</i> , 2020, 148, 290-299.	1.0	54
24	Restraint minimisation in mental health care: legitimate or illegitimate force? An ethnographic study. <i>Sociology of Health and Illness</i> , 2020, 42, 449-464.	1.1	27
25	An ethnographic study of the interaction between philosophy of childbirth and place of birth. <i>Women and Birth</i> , 2020, 34, e557-e566.	0.9	5
26	Understanding childbirth as a complex salutogenic phenomenon: The EU COST BIRTH Action Special Collection. <i>PLoS ONE</i> , 2020, 15, e0236722.	1.1	4
27	Thermal imaging of the fetus: An empirical feasibility study. <i>PLoS ONE</i> , 2020, 15, e0226755.	1.1	4
28	A computational fluid dynamics modelling of maternal-fetal heat exchange and blood flow in the umbilical cord. <i>PLoS ONE</i> , 2020, 15, e0231997.	1.1	10
29	The role of midwifery and other international insights for maternity care in the United States: An analysis of four countries. <i>Birth</i> , 2020, 47, 332-345.	1.1	24
30	Are There Epigenetic Oxytocin-Mediated Effects on the Mother and Infant during Physiological Childbirth?. <i>International Journal of Molecular Sciences</i> , 2020, 21, 9503.	1.8	13
31	Sustaining quality midwifery care in a pandemic and beyond. <i>Midwifery</i> , 2020, 88, 102759.	1.0	88
32	Women's, partners' and healthcare providers' views and experiences of assisted vaginal birth: a systematic mixed methods review. <i>Reproductive Health</i> , 2020, 17, 83.	1.2	13
33	Challenges to and facilitators of occupational epidemiology research in the UK. <i>Health Policy</i> , 2020, 124, 772-780.	1.4	3
34	A Survey of University Students' Preferences for Midwifery Care and Community Birth Options in 8 High-Income Countries. <i>Journal of Midwifery and Women's Health</i> , 2020, 65, 131-141.	0.7	6
35	The initiation of labour at term gestation: Physiology and practice implications. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2020, 67, 4-18.	1.4	11
36	What matters to women in the postnatal period: A meta-synthesis of qualitative studies. <i>PLoS ONE</i> , 2020, 15, e0231415.	1.1	104

#	ARTICLE	IF	CITATIONS
37	Moral and mental health challenges faced by maternity staff during the COVID-19 pandemic.. Psychological Trauma: Theory, Research, Practice, and Policy, 2020, 12, S141-S142.	1.4	49
38	Understanding how midwives employed by the National Health Service facilitate women's alternative birthing choices: Findings from a feminist pragmatist study. PLoS ONE, 2020, 15, e0242508.	1.1	17
39	Non-clinical interventions to reduce unnecessary caesarean sections: WHO recommendations. Bulletin of the World Health Organization, 2020, 98, 66-68.	1.5	41
40	The AEDUCATE Collaboration. Comprehensive antenatal education birth preparation programmes to reduce the rates of caesarean section in nulliparous women. Protocol for an individual participant data prospective meta-analysis. BMJ Open, 2020, 10, e037175.	0.8	5
41	What matters to women in the postnatal period: A meta-synthesis of qualitative studies. , 2020, 15, e0231415.		0
42	What matters to women in the postnatal period: A meta-synthesis of qualitative studies. , 2020, 15, e0231415.		0
43	What matters to women in the postnatal period: A meta-synthesis of qualitative studies. , 2020, 15, e0231415.		0
44	What matters to women in the postnatal period: A meta-synthesis of qualitative studies. , 2020, 15, e0231415.		0
45	A cross-country survey of attitudes toward childbirth technologies and interventions among university students. Women and Birth, 2019, 32, 231-239.	0.9	5
46	Maternal plasma levels of oxytocin during physiological childbirth – a systematic review with implications for uterine contractions and central actions of oxytocin. BMC Pregnancy and Childbirth, 2019, 19, 285.	0.9	137
47	Intermittent auscultation fetal monitoring during labour: A systematic scoping review to identify methods, effects, and accuracy. PLoS ONE, 2019, 14, e0219573.	1.1	29
48	Focusing on what works for person-centred maternity care. The Lancet Global Health, 2019, 7, e10-e11.	2.9	3
49	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 3 – Using qualitative evidence syntheses to develop implementation considerations and inform implementation processes. Health Research Policy and Systems, 2019, 17, 74.	1.1	21
50	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 1 – Using qualitative evidence synthesis to inform guideline scope and develop qualitative findings statements. Health Research Policy and Systems, 2019, 17, 76.	1.1	33
51	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 2 – Using qualitative evidence synthesis findings to inform evidence-to-decision frameworks and recommendations. Health Research Policy and Systems, 2019, 17, 75.	1.1	15
52	“Catching your tail and firefighting”: The impact of staffing levels on restraint minimization efforts. Journal of Psychiatric and Mental Health Nursing, 2019, 26, 131-141.	1.2	51
53	Women's experiences of pharmacological and non-pharmacological pain relief methods for labour and childbirth: a qualitative systematic review. Reproductive Health, 2019, 16, 71.	1.2	94
54	What matters to women and healthcare providers in relation to interventions for the prevention of postpartum haemorrhage: A qualitative systematic review. PLoS ONE, 2019, 14, e0215919.	1.1	22

#	ARTICLE	IF	CITATIONS
55	Minimising the use of physical restraint in acute mental health services: The outcome of a restraint reduction programme (â€RESTRAIN YOURSELFâ€™). <i>International Journal of Nursing Studies</i> , 2019, 95, 40-48.	2.5	54
56	Caring for women making unconventional birth choices: A meta-ethnography exploring the views, attitudes, and experiences of midwives. <i>Midwifery</i> , 2019, 72, 50-59.	1.0	26
57	Inequalities and stillbirth in the UK: a meta-narrative review. <i>BMJ Open</i> , 2019, 9, e029672.	0.8	18
58	Provision and uptake of routine antenatal services: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2019, 2019, CD012392.	1.5	62
59	WHO model of intrapartum care for a positive childbirth experience: transforming care of women and babies for improved health and wellbeing. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2018, 125, 918-922.	1.1	110
60	Cost analysis of the CTLB Study, a multitherapy antenatal education programme to reduce routine interventions in labour. <i>BMJ Open</i> , 2018, 8, e017333.	0.8	11
61	The effect of medical and operative birth interventions on child health outcomes in the first 28Âdays and up to 5Âyears of age: A linked data populationâ€based cohort study. <i>Birth</i> , 2018, 45, 347-357.	1.1	63
62	New insights into maternity care design and delivery: editorial commentary. <i>Minerva Ginecologica</i> , 2018, 70, 647-649.	0.8	0
63	Interventions targeted at health professionals to reduce unnecessary caesarean sections: a qualitative evidence synthesis. <i>BMJ Open</i> , 2018, 8, e025073.	0.8	21
64	Asking Different Questions: A Call to Action for Research to Improve the Quality of Care for Every Woman, Every Child. <i>Journal of Midwifery and Women's Health</i> , 2018, 63, 516-517.	0.7	2
65	Interventions to reduce unnecessary caesarean sections in healthy women and babies. <i>Lancet</i> , The, 2018, 392, 1358-1368.	6.3	345
66	Non-clinical interventions to reduce unnecessary caesarean section targeted at organisations, facilities and systems: Systematic review of qualitative studies. <i>PLoS ONE</i> , 2018, 13, e0203274.	1.1	43
67	Womenâ€™s psychological experiences of physiological childbirth: a meta-synthesis. <i>BMJ Open</i> , 2018, 8, e020347.	0.8	109
68	Asking different questions: A call to action for research to improve the quality of care for every woman, every child. <i>Birth</i> , 2018, 45, 222-231.	1.1	61
69	Effectiveness of respectful care policies for women using routine intrapartum services: a systematic review. <i>Reproductive Health</i> , 2018, 15, 23.	1.2	89
70	Womenâ€™s and communitiesâ€™ views of targeted educational interventions to reduce unnecessary caesarean section: a qualitative evidence synthesis. <i>Reproductive Health</i> , 2018, 15, 130.	1.2	36
71	What matters to women during childbirth: A systematic qualitative review. <i>PLoS ONE</i> , 2018, 13, e0194906.	1.1	250
72	Findings from the Italian Babies Born Better Survey. <i>Minerva Ginecologica</i> , 2018, 70, 663-675.	0.8	13

#	ARTICLE	IF	CITATIONS
73	Finding a Partner With the International Confederation of Midwives Provided the Investment Required to Launch in January 2011. <i>International Journal of Childbirth</i> , 2018, 8, 2-3.	0.2	1
74	Optimal outcomes and women's positive pregnancy experience: a comparison between the World Health Organization guideline and recommendations in European national antenatal care guidelines. <i>Minerva Ginecologica</i> , 2018, 70, 650-662.	0.8	3
75	Variation in caesarean section rates in Cyprus, Italy and Iceland: an analysis of the role of the media. <i>Minerva Ginecologica</i> , 2018, 70, 676-686.	0.8	11
76	Factors that influence the provision of good-quality routine antenatal services: a qualitative evidence synthesis of the views and experiences of maternity care providers. <i>The Cochrane Library</i> , 2017, , .	1.5	3
77	Protocol for the development of a salutogenic intrapartum core outcome set (SIPCOS). <i>BMC Medical Research Methodology</i> , 2017, 17, 61.	1.4	17
78	“What matters to someone who matters to me” using media campaigns with young people to prevent interpersonal violence and abuse. <i>Health Expectations</i> , 2017, 20, 648-654.	1.1	13
79	Negative impressions of childbirth in a North-West England student population. <i>Journal of Psychosomatic Obstetrics and Gynaecology</i> , 2017, 38, 37-44.	1.1	25
80	Routine interventions in childbirth before and after initiation of an Action Research project. <i>Sexual and Reproductive Healthcare</i> , 2017, 11, 86-90.	0.5	5
81	Turning local knowledge and experience into innovative tools for quality care during labor and childbirth: The <scp>BOLD</scp> project experience. <i>International Journal of Gynecology and Obstetrics</i> , 2017, 139, 1-3.	1.0	1
82	Discrimination against childbearing Romani women in maternity care in Europe: a mixed-methods systematic review. <i>Reproductive Health</i> , 2017, 14, 1.	1.2	224
83	Beliefs and values moderate evidence in guideline development. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016, 123, 383-383.	1.1	2
84	What matters to women: a systematic scoping review to identify the processes and outcomes of antenatal care provision that are important to healthy pregnant women. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016, 123, 529-539.	1.1	139
85	“We make them feel special”: The experiences of voluntary sector workers supporting asylum seeking and refugee women during pregnancy and early motherhood. <i>Midwifery</i> , 2016, 34, 133-140.	1.0	17
86	Cross-cultural development and psychometric evaluation of a measure to assess fear of childbirth prior to pregnancy. <i>Sexual and Reproductive Healthcare</i> , 2016, 8, 49-54.	0.5	48
87	Emotions and support needs following a distressing birth: Scoping study with pregnant multigravida women in North-West England. <i>Midwifery</i> , 2016, 40, 32-39.	1.0	25
88	Setting the stage for health: Salutogenesis in midwifery professional knowledge in three European countries. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2016, 11, 33155.	0.6	18
89	Ethno-Specific Risk Factors for Adverse Pregnancy Outcomes: Findings from the Born in Bradford Cohort Study. <i>Maternal and Child Health Journal</i> , 2016, 20, 1394-1404.	0.7	11
90	Insider Action research as an approach and a method “ Exploring institutional encounters from within a birthing context. <i>Action Research</i> , 2016, 14, 217-233.	0.8	5

#	ARTICLE	IF	CITATIONS
91	Childbirth and consequent atopic disease: emerging evidence on epigenetic effects based on the hygiene and EPIIC hypotheses. <i>BMC Pregnancy and Childbirth</i> , 2016, 16, 4.	0.9	26
92	From grief, guilt pain and stigma to hope and pride – a systematic review and meta-analysis of mixed-method research of the psychosocial impact of stillbirth. <i>BMC Pregnancy and Childbirth</i> , 2016, 16, 9.	0.9	259
93	Stillbirths: economic and psychosocial consequences. <i>Lancet, The</i> , 2016, 387, 604-616.	6.3	464
94	Stillbirths: recall to action in high-income countries. <i>Lancet, The</i> , 2016, 387, 691-702.	6.3	481
95	Investigation of the use of thermography for research and clinical applications in pregnant women. <i>Infrared Physics and Technology</i> , 2016, 75, 59-64.	1.3	7
96	Preventing domestic abuse for children and young people: A review of school-based interventions. <i>Children and Youth Services Review</i> , 2015, 59, 120-131.	1.0	46
97	Unexpected consequences: women's experiences of a self-hypnosis intervention to help with pain relief during labour. <i>BMC Pregnancy and Childbirth</i> , 2015, 15, 229.	0.9	23
98	The feasibility and acceptability of using the Mother-Generated Index (MGI) as a Patient Reported Outcome Measure in a randomised controlled trial of maternity care. <i>BMC Medical Research Methodology</i> , 2015, 15, 100.	1.4	17
99	Self-hypnosis for intrapartum pain management in pregnant nulliparous women: a randomised controlled trial of clinical effectiveness. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2015, 122, 1226-1234.	1.1	50
100	The Importance of Evaluating Primary Midwifery Care for Improving the Health of Women and Infants. <i>Frontiers in Medicine</i> , 2015, 2, 17.	1.2	7
101	Systematic mixed-methods review of interventions, outcomes and experiences for imprisoned pregnant women. <i>Journal of Advanced Nursing</i> , 2015, 71, 1451-1463.	1.5	32
