#	Paper	IF	Citations
45	Stress and parenting during the global COVID-19 pandemic. <i>Child Abuse and Neglect</i> , 2020 , 110, 104699	4.3	378
44	Stress physiology and developmental psychopathology: past, present, and future. <i>Development and Psychopathology</i> , 2013 , 25, 1359-73	4.3	145
43	Longitudinal patterns of cortisol regulation differ in maltreated and nonmaltreated children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2014 , 53, 1206-15	7.2	63
42	Early unpredictability predicts increased adolescent externalizing behaviors and substance use: A life history perspective. <i>Development and Psychopathology</i> , 2016 , 28, 1505-1516	4.3	63
41	Child maltreatment and gender interactions as predictors of differential neuroendocrine profiles. <i>Psychoneuroendocrinology</i> , 2013 , 38, 1442-54	5	62
40	Differential DNA methylation in peripheral blood mononuclear cells in adolescents exposed to significant early but not later childhood adversity. <i>Development and Psychopathology</i> , 2016 , 28, 1385-1399	4.3	47
39	The roles of puberty and age in explaining the diminished effectiveness of parental buffering of HPA reactivity and recovery in adolescence. <i>Psychoneuroendocrinology</i> , 2015 , 59, 102-11	5	43
38	Pathways between childhood/adolescent adversity, adolescent socioeconomic status, and long-term cardiovascular disease risk in young adulthood. <i>Social Science and Medicine</i> , 2017 , 188, 166-175	5.1	43
37	"I Hate This": A Qualitative Analysis of Adolescents' Self-Reported Challenges During the COVID-19 Pandemic. <i>Journal of Adolescent Health</i> , 2021 , 68, 262-269	5.8	41
36	Social stress buffering by friends in childhood and adolescence: Effects on HPA and oxytocin activity. <i>Social Neuroscience</i> , 2017 , 12, 8-21	2	38
35	Striking while the iron is hot: Understanding the biological and neurodevelopmental effects of iron deficiency to optimize intervention in early childhood. <i>Current Pediatrics Reports</i> , 2014 , 2, 291-298	0.7	37
34	Beyond stimulus deprivation: iron deficiency and cognitive deficits in postinstitutionalized children. <i>Child Development</i> , 2014 , 85, 1805-12	4.9	28
33	Teasing apart the effects of cognition, stress, and depression on health. <i>American Journal of Health Behavior</i> , 2013 , 37, 610-9	1.9	27
32	Family conflict, chaos, and negative life events predict cortisol activity in low-income children. <i>Developmental Psychobiology</i> , 2018 , 60, 364-379	3	25
31	Institutional care and iron deficiency increase ADHD symptomology and lower IQ 2.5-5 years post-adoption. <i>Developmental Science</i> , 2015 , 18, 484-94	4.5	23
30	Life stress and cortisol reactivity: An exploratory analysis of the effects of stress exposure across life on HPA-axis functioning. <i>Development and Psychopathology</i> , 2021 , 33, 301-312	4.3	21
29	Oxytocin and parenting behavior among impoverished mothers with low vs. high early life stress. <i>Archives of Women's Mental Health</i> , 2018 , 21, 375-382	5	19

28	Stress and Parenting during the Global COVID-19 Pandemic		17
27	Infant Iron Deficiency and Iron Supplementation Predict Adolescent Internalizing, Externalizing, and Social Problems. <i>Journal of Pediatrics</i> , 2018 , 195, 199-205.e2	3.6	14
26	Psychoneuroendocrinology of Stress 2015 , 1-46		14
25	Maternal relationship during adolescence predicts cardiovascular disease risk in adulthood. <i>Health Psychology</i> , 2016 , 35, 376-86	5	12
24	Pathways to inflammation in adolescence through early adversity, childhood depressive symptoms, and body mass index: A prospective longitudinal study of Chilean infants. <i>Brain, Behavior, and Immunity</i> , 2020 , 86, 4-13	16.6	10
23	Adverse and Benevolent Childhood Experiences Predict Mental Health During the COVID-19 Pandemic. <i>Adversity and Resilience Science</i> , 2021 , 2, 1-12	4.3	9
22	Childhood socioeconomic hardship, family conflict, and young adult hypertension: The Santiago Longitudinal Study. <i>Social Science and Medicine</i> , 2020 , 253, 112962	5.1	8
21	Infant iron deficiency, iron supplementation, and psychosocial stress as predictors of neurocognitive development in Chilean adolescents. <i>Nutritional Neuroscience</i> , 2021 , 24, 520-529	3.6	7
20	Longitudinal associations between overweight/obesity and stress biology in low-income children. <i>International Journal of Obesity</i> , 2020 , 44, 646-655	5.5	7
19	Infant Psychosocial Environment Predicts Adolescent Cardiometabolic Risk: A Prospective Study. <i>Journal of Pediatrics</i> , 2019 , 209, 85-91.e1	3.6	6
18	Differential associations of parental harshness and parental disengagement with overall cortisol output at 15 years: Implications for adolescent mental health. <i>Development and Psychopathology</i> , 2020 , 1-18	4.3	6
17	Stress in Infancy and Early Childhood: Effects on Development 2015 , 577-582		5
16	Does striving to succeed come at a physiological or psychosocial cost for adults who experienced child maltreatment?. <i>Development and Psychopathology</i> , 2017 , 29, 1905-1919	4.3	2
15	I hate this! A qualitative analysis of adolescents' self-reported challenges during the COVID-19 pandemic		2
14	Sensitive periods for psychosocial risk in childhood and adolescence and cardiometabolic outcomes in young adulthood. <i>Development and Psychopathology</i> , 2020 , 32, 1864-1875	4.3	2
13	Adverse and Benevolent Childhood Experiences Predict Mental Health during the COVID-19 Pandemic		2
12	Adolescent Internalizing, Externalizing, and Social Problems Following Iron Deficiency at 12-18 Months: The Role of Maternal Responsiveness. <i>Child Development</i> , 2020 , 91, e545-e562	4.9	2
11	The effects of stress on early brain and behavioral development 2020 , 561-584		1

10	Young adult outcomes associated with lower cognitive functioning in childhood related to iron-fortified formula in infancy. <i>Nutritional Neuroscience</i> , 2020 , 1-10	3.6	1
9	Iron deficiency in infancy and neurocognitive and educational outcomes in young adulthood. <i>Developmental Psychology</i> , 2021 , 57, 962-975	3.7	1
8	Integrating anthropometric and cardiometabolic health methods in stress, early experiences, and development (SEED) science. <i>Developmental Psychobiology</i> , 2021 , 63, 593-621	3	1
7	Iron Deficiency in Infancy and Sluggish Cognitive Tempo and ADHD Symptoms in Childhood and Adolescence. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2021 , 1-12	5.4	1
6	The Transdiagnostic Origins of Anxiety and Depression During the Pediatric Period: Linking NIMH Research Domain Criteria (RDoC) Constructs to Ecological Systems.. <i>Development and Psychopathology</i> , 2021 , 33, 1599-1619	4.3	1
5	Institutional deprivation and neurobehavioral development in infancy 2016 , 185-214		0
4	Timing of childhood adversities and self-injurious thoughts and behaviors in adolescence. <i>Development and Psychopathology</i> , 1-11	4.3	0
3	Behavioral, cognitive, and socioemotional pathways from early childhood adversity to BMI: Evidence from two prospective, longitudinal studies.. <i>Development and Psychopathology</i> , 2022 , 1-17	4.3	0
2	Mapping future directions to test biopsychosocial pathways to health and well-being. <i>Social Science and Medicine</i> , 2020 , 258, 113083	5.1	
1	Advantages of a Developmental Psychopathology Approach to Studying the Antecedents of Physical Health.. <i>Infant and Child Development</i> , 2022 , 31, e2250	1.4
