Jenalee R Doom

List of Publications by Year in Descending Order

45 papers	1,256 citations	18 h-index	35 g-index
52 ext. papers	1,710 ext. citations	4.1 avg, IF	5.4 L-index

#	Paper	IF	Citations
45	Advantages of a Developmental Psychopathology Approach to Studying the Antecedents of Physical Health.. *Infant and Child Development*, **2022**, 31, e2250	1.4	
44	Behavioral, cognitive, and socioemotional pathways from early childhood adversity to BMI: Evidence from two prospective, longitudinal studies.. *Development and Psychopathology*, **2022**, 1-17	4.3	0
43	Infant iron deficiency, iron supplementation, and psychosocial stress as predictors of neurocognitive development in Chilean adolescents. *Nutritional Neuroscience*, **2021**, 24, 520-529	3.6	7
42	Adverse and Benevolent Childhood Experiences Predict Mental Health During the COVID-19 Pandemic. *Adversity and Resilience Science*, **2021**, 2, 1-12	4.3	9
41	Iron deficiency in infancy and neurocognitive and educational outcomes in young adulthood. *Developmental Psychology*, **2021**, 57, 962-975	3.7	1
40	Life stress and cortisol reactivity: An exploratory analysis of the effects of stress exposure across life on HPA-axis functioning. *Development and Psychopathology*, **2021**, 33, 301-312	4.3	21
39	"I Hate This": A Qualitative Analysis of Adolescents' Self-Reported Challenges During the COVID-19 Pandemic. *Journal of Adolescent Health*, **2021**, 68, 262-269	5.8	41
38	Integrating anthropometric and cardiometabolic health methods in stress, early experiences, and development (SEED) science. *Developmental Psychobiology*, **2021**, 63, 593-621	3	1
37	Iron Deficiency in Infancy and Sluggish Cognitive Tempo and ADHD Symptoms in Childhood and Adolescence. *Journal of Clinical Child and Adolescent Psychology*, **2021**, 1-12	5.4	1
36	The Transdiagnostic Origins of Anxiety and Depression During the Pediatric Period: Linking NIMH Research Domain Criteria (RDoC) Constructs to Ecological Systems.. *Development and Psychopathology*, **2021**, 33, 1599-1619	4.3	1
35	Differential associations of parental harshness and parental disengagement with overall cortisol output at 15 years: Implications for adolescent mental health. *Development and Psychopathology*, **2020**, 1-18	4.3	6
34	Mapping future directions to test biopsychosocial pathways to health and well-being. *Social Science and Medicine*, **2020**, 258, 113083	5.1	
33	Sensitive periods for psychosocial risk in childhood and adolescence and cardiometabolic outcomes in young adulthood. *Development and Psychopathology*, **2020**, 32, 1864-1875	4.3	2
32	The effects of stress on early brain and behavioral development **2020**, 561-584		1
31	Stress and parenting during the global COVID-19 pandemic. *Child Abuse and Neglect*, **2020**, 110, 104699	4.3	378
30	Young adult outcomes associated with lower cognitive functioning in childhood related to iron-fortified formula in infancy. *Nutritional Neuroscience*, **2020**, 1-10	3.6	1
29	Pathways to inflammation in adolescence through early adversity, childhood depressive symptoms, and body mass index: A prospective longitudinal study of Chilean infants. *Brain, Behavior, and Immunity*, **2020**, 86, 4-13	16.6	10

28	Adolescent Internalizing, Externalizing, and Social Problems Following Iron Deficiency at 12-18 Months: The Role of Maternal Responsiveness. *Child Development*, **2020**, 91, e545-e562	4.9	2
27	Longitudinal associations between overweight/obesity and stress biology in low-income children. *International Journal of Obesity*, **2020**, 44, 646-655	5.5	7
26	Childhood socioeconomic hardship, family conflict, and young adult hypertension: The Santiago Longitudinal Study. *Social Science and Medicine*, **2020**, 253, 112962	5.1	8
25	Infant Psychosocial Environment Predicts Adolescent Cardiometabolic Risk: A Prospective Study. *Journal of Pediatrics*, **2019**, 209, 85-91.e1	3.6	6
24	Family conflict, chaos, and negative life events predict cortisol activity in low-income children. *Developmental Psychobiology*, **2018**, 60, 364-379	3	25
23	Infant Iron Deficiency and Iron Supplementation Predict Adolescent Internalizing, Externalizing, and Social Problems. *Journal of Pediatrics*, **2018**, 195, 199-205.e2	3.6	14
22	Oxytocin and parenting behavior among impoverished mothers with low vs. high early life stress. *Archives of Women's Mental Health*, **2018**, 21, 375-382	5	19
21	Social stress buffering by friends in childhood and adolescence: Effects on HPA and oxytocin activity. *Social Neuroscience*, **2017**, 12, 8-21	2	38
20	Pathways between childhood/adolescent adversity, adolescent socioeconomic status, and long-term cardiovascular disease risk in young adulthood. *Social Science and Medicine*, **2017**, 188, 166-175	5.1	43
19	Does striving to succeed come at a physiological or psychosocial cost for adults who experienced child maltreatment?. *Development and Psychopathology*, **2017**, 29, 1905-1919	4.3	2
18	Maternal relationship during adolescence predicts cardiovascular disease risk in adulthood. *Health Psychology*, **2016**, 35, 376-86	5	12
17	Institutional deprivation and neurobehavioral development in infancy **2016**, 185-214		0
16	Early unpredictability predicts increased adolescent externalizing behaviors and substance use: A life history perspective. *Development and Psychopathology*, **2016**, 28, 1505-1516	4.3	63
15	Differential DNA methylation in peripheral blood mononuclear cells in adolescents exposed to significant early but not later childhood adversity. *Development and Psychopathology*, **2016**, 28, 1385-1399	4.3	47
14	The roles of puberty and age in explaining the diminished effectiveness of parental buffering of HPA reactivity and recovery in adolescence. *Psychoneuroendocrinology*, **2015**, 59, 102-11	5	43
13	Stress in Infancy and Early Childhood: Effects on Development **2015**, 577-582		5
12	Institutional care and iron deficiency increase ADHD symptomology and lower IQ 2.5-5 years post-adoption. *Developmental Science*, **2015**, 18, 484-94	4.5	23
11	Psychoneuroendocrinology of Stress **2015**, 1-46		14

10	Longitudinal patterns of cortisol regulation differ in maltreated and nonmaltreated children. *Journal of the American Academy of Child and Adolescent Psychiatry*, **2014**, 53, 1206-15	7.2	63
9	Beyond stimulus deprivation: iron deficiency and cognitive deficits in postinstitutionalized children. *Child Development*, **2014**, 85, 1805-12	4.9	28
8	Striking while the iron is hot: Understanding the biological and neurodevelopmental effects of iron deficiency to optimize intervention in early childhood. *Current Pediatrics Reports*, **2014**, 2, 291-298	0.7	37
7	Child maltreatment and gender interactions as predictors of differential neuroendocrine profiles. *Psychoneuroendocrinology*, **2013**, 38, 1442-54	5	62
6	Teasing apart the effects of cognition, stress, and depression on health. *American Journal of Health Behavior*, **2013**, 37, 610-9	1.9	27
5	Stress physiology and developmental psychopathology: past, present, and future. *Development and Psychopathology*, **2013**, 25, 1359-73	4.3	145
4	I hate this A qualitative analysis of adolescents self-reported challenges during the COVID-19 pandemic		2
3	Stress and Parenting during the Global COVID-19 Pandemic		17
2	Adverse and Benevolent Childhood Experiences Predict Mental Health during the COVID-19 Pandemic		2
1	Timing of childhood adversities and self-injurious thoughts and behaviors in adolescence. *Development and Psychopathology*,1-11	4.3	0
