#	ARTICLE	IF	CITATIONS
1	Endoscopic closure of a large gastric mucosal defect after endoscopic submucosal dissection using a novel endoscopic string-with-knotter suture device. <i>Endoscopy</i> , 2022, 54, E19-E21.	1.0	3
2	Novel endoscopic tangential sawing technique in treatment of giant gastric bezoars: a retrospective single-center study (with video). <i>Gastrointestinal Endoscopy</i> , 2022, 96, 150-154.	0.5	1
3	Technically simplified peroral endoscopic myotomy: blunt dissection making submucosal tunneling fast and safe. <i>Endoscopy</i> , 2021, , .	1.0	0
4	Damage control strategies in gallbladder-preserving cholecystolithotomy: from incision to channel establishment to non-invasive procedure. <i>British Journal of Surgery</i> , 2021, 108, e65-e66.	0.1	1
5	Gastrointestinal: Countertraction using clip-attached rubber band facilitating endoscopic submucosal dissection of gastric lesser curvature lesion. <i>Journal of Gastroenterology and Hepatology (Australia)</i> , 2020, 35, 178-178.	1.4	2
6	Endoscopic Loop String-Assisted Clip Suturing Closure of Large Mucosal Defects After Endoscopic Submucosal Dissection in the Sigmoid Colon. <i>American Journal of Gastroenterology</i> , 2020, 115, 15-15.	0.2	7
7	The single-monitor trial: an embedded CADe system increased adenoma detection during colonoscopy: a prospective randomized study. <i>Therapeutic Advances in Gastroenterology</i> , 2020, 13, 175628482097916.	1.4	46
8	Single-operator cholangioscopy for the treatment of concomitant gallbladder stones and secondary common bile duct stones. <i>Journal of Gastroenterology and Hepatology (Australia)</i> , 2019, 34, 929-936.	1.4	7
9	Ultrasound-guided double-tract percutaneous cholecystostomy combined with a choledochoscope for performing cholecystolithotomies in high-risk surgical patients. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2014, 28, 2236-2242.	1.3	5
