#	Article	IF	Citations
1	Discontinuation and remission rates and social functioning in patients with schizophrenia receiving secondâ€generation antipsychotics: 52â€week evaluation of <scp>JUMPs</scp>, a randomized, openâ€label study. Psychiatry and Clinical Neurosciences, 2022, 76, 22-31.	1.8	4
2	Electroconvulsive Therapy on Treatment-resistant Mania in Bipolar Disorder with No Concurrent Antipsychotics: A Case Report. Clinical Psychopharmacology and Neuroscience, 2022, 20, 190-193.	2.0	2
3	Platelet-derived growth factor BB: A potential diagnostic blood biomarker for differentiating bipolar disorder from major depressive disorder. Journal of Psychiatric Research, 2021, 134, 48-56.	3.1	10
4	Efficacy and safety of the novel glycine transporter inhibitor BI 425809 once daily in patients with schizophrenia: a double-blind, randomised, placebo-controlled phase 2 study. Lancet Psychiatry,the, 2021, 8, 191-201.	7.4	58
5	Acceptability of escitalopram versus duloxetine in outpatients with depression who did not respond to initial second-generation antidepressants: A randomized, parallel-group, non-inferiority trial. Journal of Affective Disorders, 2021, 282, 1011-1020.	4.1	1
6	Serum levels of glial cell line-derived neurotrophic factor as a biomarker for mood disorders and lithium response. Psychiatry Research, 2021, 301, 113967.	3.3	5
7	Time estimation in a case of Tourette's syndrome: Effect of antipsychotic medications. Neuropsychopharmacology Reports, 2020, 40, 198-200.	2.3	4
8	Effects of multisession transcranial direct current stimulation as an augmentation to cognitive tasks in patients with neurocognitive disorders in Japan: a study protocol for a randomised controlled trial. BMJ Open, 2020, 10, e037654.	1.9	2
9	Acceptability of escitalopram versus duloxetine in outpatients with depression who did not respond to initial secondâ€generation antidepressants: Study protocol for a randomized, parallelâ€group, nonâ€inferiority trial. Neuropsychopharmacology Reports, 2019, 39, 262-272.	2.3	3
10	Safety and Feasibility of Transcranial Direct Current Stimulation for Cognitive Rehabilitation in Patients With Mild or Major Neurocognitive Disorders: A Randomized Sham-Controlled Pilot Study. Frontiers in Human Neuroscience, 2019, 13, 273.	2.0	14
11	The Feasibility and Efficacy of Social Cognition and Interaction Training for Outpatients With Schizophrenia in Japan: A Multicenter Randomized Clinical Trial. Frontiers in Psychiatry, 2019, 10, 589.	2.6	12
12	Discrete effect of each mild behavioural impairment category on dementia conversion or cognitive decline in patients with mild cognitive impairment. Psychogeriatrics, 2019, 19, 591-600.	1.2	15
13	Validation of the MUSIC Model of Motivation Inventory for use with cognitive training for schizophrenia spectrum disorders: A multinational study. Schizophrenia Research, 2019, 206, 142-148.	2.0	5
14	Comparison of prefrontal hemodynamic responses and cognitive deficits between adult patients with autism spectrum disorder and schizophrenia. Schizophrenia Research, 2019, 206, 420-427.	2.0	8
15	Effects of cognitive remediation on cognitive and social functions in individuals with schizophrenia. Neuropsychological Rehabilitation, 2019, 29, 1475-1487.	1.6	19
16	Evaluation of the Efficacy, Safety, and Tolerability of BI 409306, a Novel Phosphodiesterase 9 Inhibitor, in Cognitive Impairment in Schizophrenia: A Randomized, Double-Blind, Placebo-Controlled, Phase II Trial. Schizophrenia Bulletin, 2019, 45, 350-359.	4.3	28
17	Increased cerebrospinal fluid complement C5 levels in major depressive disorder and schizophrenia. Biochemical and Biophysical Research Communications, 2018, 497, 683-688.	2.1	34
18	Empirical evidence for discrete neurocognitive subgroups in patients with non-psychotic major depressive disorder: clinical implications. Psychological Medicine, 2018, 48, 2717-2729.	4.5	36

#	Article	IF	Citations
19	P2â€004: COGNITIVE REHABILITATION WITH TRANSCRANIAL DIRECT CURRENT STIMULATION: EFFECT ON COGNITION IN MAJOR OR MINOR NEUROCOGNITIVE DISORDERS â€"A RANDOMISED CONTROLLED PRELIMINARY STUDY. Alzheimer's and Dementia, 2018, 14, P666.	0.8	0
20	Resilience and depression/anxiety symptoms in multiple sclerosis and neuromyelitis optica spectrum disorder. Multiple Sclerosis and Related Disorders, 2018, 25, 309-315.	2.0	32
21	Right Frontotemporal Cortex Mediates the Relationship between Cognitive Insight and Subjective Quality of Life in Patients with Schizophrenia. Frontiers in Psychiatry, 2018, 9, 16.	2.6	4
22	Neural Correlates for Intrinsic Motivational Deficits of Schizophrenia; Implications for Therapeutics of Cognitive Impairment. Frontiers in Psychiatry, 2018, 9, 178.	2.6	6
23	Social cognition and metacognition contribute to accuracy for self-evaluation of real-world functioning in patients with schizophrenia. Schizophrenia Research, 2018, 202, 426-428.	2.0	7
24	Pisa syndrome associated with mirtazapine: a case report. BMC Pharmacology & Toxicology, 2018, 19, 82.	2.4	4
25	Restoring function in major depressive disorder: A systematic review. Journal of Affective Disorders, 2017, 215, 299-313.	4.1	108
26	Association of fronto-temporal function with cognitive ability in schizophrenia. Scientific Reports, 2017, 7, 42858.	3.3	9
27	Verbal memory impairments in bipolar disorder: <scp>E</scp>ffect of type of word learning tasks. Psychiatry and Clinical Neurosciences, 2017, 71, 570-571.	1.8	4
28	Cognitive impairment in psychiatric disorders. Psychiatry and Clinical Neurosciences, 2017, 71, 293-293.	1.8	6
29	Reliability and validity of the California Verbal Learning Testâ€‖ â€“ Japanese version. Psychiatry and Clinical Neurosciences, 2017, 71, 417-418.	1.8	3
30	Working memory and prefrontal/temporal hemodynamic responses during post-task period in patients with schizophrenia: AÂmulti-channel near-infrared spectroscopy study. Journal of Psychiatric Research, 2017, 95, 288-298.	3.1	15
31	Validation of brainâ€derived signals in nearâ€infrared spectroscopy through multivoxel analysis of concurrent functional magnetic resonance imaging. Human Brain Mapping, 2017, 38, 5274-5291.	3.6	38
32	Impaired prefrontal activity to regulate the intrinsic motivation-action link in schizophrenia. NeuroImage: Clinical, 2017, 16, 32-42.	2.7	16
33	A 6-Month Follow-up Case Study of Low-Frequency Right Prefrontal Repetitive Transcranial Magnetic Stimulation in Treatment-Resistant Bipolar Depression. Journal of ECT, 2017, 33, e43-e44.	0.6	3
34	Transcranial Magnetic Stimulation Modulates Resting EEG Functional Connectivity Between the Left Dorsolateral Prefrontal Cortex and Limbic Regions in Medicated Patients With Treatment-Resistant Depression. Journal of Neuropsychiatry and Clinical Neurosciences, 2017, 29, 155-159.	1.8	38
35	Verbal Memory Impairment in Patients with Subsyndromal Bipolar Disorder. Frontiers in Psychiatry, 2017, 8, 168.	2.6	12
36	Social cognition and prefrontal hemodynamic responses during a working memory task in schizophrenia. Scientific Reports, 2016, 6, 22500.	3.3	19

#	Article	IF	Citations
37	A randomized, double-blinded, placebo-controlled study to evaluate the efficacy and safety of venlafaxine extended release and a long-term extension study for patients with major depressive disorder in Japan. International Clinical Psychopharmacology, 2016, 31, 8-19.	1.7	13
38	Cognitive insight and functional outcome in schizophrenia; a multi-center collaborative study with the specific level of functioning scaleâ€“Japanese version. Schizophrenia Research: Cognition, 2016, 6, 9-14.	1.3	30
39	Associations between depressive symptoms and fronto-temporal activities during a verbal fluency task in patients with schizophrenia. Scientific Reports, 2016, 6, 30685.	3.3	6
40	The association between cognitive deficits and prefrontal hemodynamic responses during performance of working memory task in patients with schizophrenia. Schizophrenia Research, 2016, 172, 114-122.	2.0	18
41	Clinical impact of ¹¹<scp>C</scp>â€Pittsburgh compoundâ€<scp>B</scp> positron emission tomography carried out in addition to magnetic resonance imaging and singleâ€photon emission computed tomography on the diagnosis of <scp>A</scp>lzheimer's disease in patients with dementia and mild cognitive impairment. Psychiatry and Clinical Neurosciences, 2015, 69, 741-751.	1.8	11
42	Neurocognitive features in male patients with schizophrenia exhibiting serious violence: a case control study. Annals of General Psychiatry, 2015, 14, 46.	2.7	9
43	Facial expression perception correlates with verbal working memory function in schizophrenia. Psychiatry and Clinical Neurosciences, 2015, 69, 773-781.	1.8	13
44	Association between Fish Consumption and Prefrontal Function during a Cognitive Task in Male Japanese Workers: A Multi-Channel Near-Infrared Spectroscopy Study. PLoS ONE, 2015, 10, e0123972.	2.5	10
45	Relationship between hypothalamicâ€“pituitaryâ€“adrenal axis dysregulation and insulin resistance in elderly patients with depression. Psychiatry Research, 2015, 226, 494-498.	3.3	27
46	Suicidal ideation is associated with reduced prefrontal activation during a verbal fluency task in patients with major depressive disorder. Journal of Affective Disorders, 2015, 181, 9-17.	4.1	92
47	Prefrontal activation predicts social functioning improvement after initial treatment in late-onset depression. Journal of Psychiatric Research, 2015, 62, 62-70.	3.1	11
48	Self-reported social functioning and prefrontal hemodynamic responses during a cognitive task in schizophrenia. Psychiatry Research - Neuroimaging, 2015, 234, 121-129.	1.8	8
49	A Longitudinal Functional Neuroimaging Study in Medication-NaÃ¯ve Depression after Antidepressant Treatment. PLoS ONE, 2015, 10, e0120828.	2.5	86
50	Serotonin and dopamine receptors in motivational and cognitive disturbances of schizophrenia. Frontiers in Neuroscience, 2014, 8, 395.	2.8	31
51	Milnacipran influences the indexes of <scp>I</scp>â€metaiodobenzylguanidine scintigraphy in elderly depressed patients. Psychiatry and Clinical Neurosciences, 2014, 68, 169-175.	1.8	9
52	Association between prefrontal hemodynamic responses during a cognitive task and subjective quality of life in schizophrenia. Schizophrenia Research, 2014, 152, 319-321.	2.0	4
53	New instrument for measuring multiple domains of social cognition: Construct validity of the <scp>S</scp>ocial <scp>C</scp>ognition <scp>S</scp>creening <scp>Q</scp>uestionnaire (<scp>J</scp>apanese version). Psychiatry and Clinical Neurosciences, 2014, 68, 701-711.	1.8	34
54	Association between social functioning and prefrontal hemodynamic responses in elderly adults. Behavioural Brain Research, 2014, 272, 32-39.	2.2	14

#	Article	IF	Citations
55	A pilot study on the effects of cognitive remediation on hemodynamic responses in the prefrontal cortices of patients with schizophrenia: A multi-channel near-infrared spectroscopy study. Schizophrenia Research, 2014, 153, 87-95.	2.0	27
56	Perillyl alcohol suppresses antigen-induced immune responses in the lung. Biochemical and Biophysical Research Communications, 2014, 443, 266-271.	2.1	9
57	<scp>M</scp>easurement and <scp>T</scp>reatment <scp>R</scp>esearch to <scp>I</scp>mprove <scp>C</scp>ognition in <scp>S</scp>chizophrenia <scp>C</scp>onsensus <scp>C</scp>ognitive <scp>B</scp>attery: <scp>V</scp>alidation of the <scp>J</scp>apanese version. Psychiatry and Clinical Neurosciences, 2013, 67, 182-188.	1.8	34
58	Association between subjective well-being and prefrontal function during a cognitive task in schizophrenia: A multi-channel near-infrared spectroscopy study. Schizophrenia Research, 2013, 149, 180-185.	2.0	16
59	Association between cognitive insight and prefrontal function during a cognitive task in schizophrenia: A multichannel near-infrared spectroscopy study. Schizophrenia Research, 2013, 150, 81-87.	2.0	27
60	Japan useful medication program for schizophrenia (JUMPs)-long-term study on discontinuation rate, resolution and remission, and improvement in social functioning rate associated with atypical antipsychotic medications in patients with schizophrenia. BMC Psychiatry, 2013, 13, 243.	2.6	1
61	Relationship between prefrontal function during a cognitive task and social functioning in male Japanese workers: A multi-channel near-infrared spectroscopy study. Psychiatry Research - Neuroimaging, 2013, 214, 73-79.	1.8	14
62	Discriminant analysis of functional optical topography for schizophrenia diagnosis. Journal of Biomedical Optics, 2013, 19, 011006.	2.6	12
63	The relationship between the prefrontal activation during a verbal fluency task and stress-coping style in major depressive disorder: A near-infrared spectroscopy study. Journal of Psychiatric Research, 2012, 46, 1427-1434.	3.1	83
64	Reduced prefrontal cortex activation during the working memory task associated with poor social functioning in late-onset depression: Multi-channel near-infrared spectroscopy study. Psychiatry Research - Neuroimaging, 2012, 203, 222-228.	1.8	52
65	Fish consumption is positively associated with social functioning: A cross-sectional study in male Japanese workers. Psychiatry Research, 2012, 200, 1038-1040.	3.3	2
66	The pilot study of a Neuropsychological Educational Approach to Cognitive Remediation for patients with schizophrenia in Japan. Psychiatry Research, 2012, 195, 107-110.	3.3	15
67	Valproic acid improves the tolerance for the stress in learned helplessness rats. Neuroscience Research, 2012, 72, 355-363.	1.9	6
68	Depressive state due to isolated adrenocorticotropic hormone deficiency underlies school refusal. Psychiatry and Clinical Neurosciences, 2012, 66, 243-244.	1.8	6
69	Hippocampal astrocytes are necessary for antidepressant treatment of learned helplessness rats. Hippocampus, 2011, 21, 877-884.	1.9	50
70	A multi-channel near-infrared spectroscopy study of prefrontal cortex activation during working memory task in major depressive disorder. Neuroscience Research, 2011, 70, 91-97.	1.9	92
71	High Expression of IL-22 Suppresses Antigen-Induced Immune Responses and Eosinophilic Airway Inflammation via an IL-10â€“Associated Mechanism. Journal of Immunology, 2011, 187, 5077-5089.	0.8	66
72	THE TAKEDA THREE COLORS COMBINATION TEST: AN EASY AND QUICK SCREENING FOR ALZHEIMER'S DISEASE. Journal of the American Geriatrics Society, 2010, 58, 1199-1200.	2.6	8

#	Article	IF	Citations
73	Does daily Naikan therapy maintain the efficacy of intensive Naikan therapy against depression?. Psychiatry and Clinical Neurosciences, 2010, 64, 44-51.	1.8	9
74	Effectiveness of the Takeda Three Colors Combination Test as a screening test for dementia. Psychogeriatrics, 2009, 9, 4-10.	1.2	2
75	Thought Disorder and Executive Dysfunction in Patients with Schizophrenia. International Journal of Neuroscience, 2009, 119, 105-123.	1.6	6
76	Hypofrontality in panic disorder and major depressive disorder assessed by multi-channel near-infrared spectroscopy. Depression and Anxiety, 2008, 25, 1053-1059.	4.1	74
77	Reduced frontopolar activation during verbal fluency task associated with poor social functioning in lateâ€onset major depression: Multiâ€channel nearâ€infrared spectroscopy study. Psychiatry and Clinical Neurosciences, 2008, 62, 728-737.	1.8	103
78	Individual and additive effects of neuromodulators on the slow components of afterhyperpolarization currents in layer V pyramidal cells of the rat medial prefrontal cortex. Brain Research, 2008, 1229, 47-60.	2.2	25
79	Relationships of DEX/CRH and GHRH test results to the outcome of depression â€“ Preliminary results suggest the GHRH test may predict relapse after discharge. Journal of Psychiatric Research, 2008, 42, 356-364.	3.1	8
80	Longitudinal neuroendocrine changes assessed by dexamethasone/CRH and growth hormone releasing hormone tests in psychotic depression. Psychoneuroendocrinology, 2008, 33, 152-161.	2.7	25
81	Gender differences in lateralization of mismatch negativity in dichotic listening tasks. International Journal of Psychophysiology, 2008, 68, 41-50.	1.0	41
82	The Prevalence of Probable Delayed Sleep Phase Syndrome in Students from Junior High School to University in Tottori, Japan. Tohoku Journal of Experimental Medicine, 2008, 216, 95-98.	1.2	32
83	IL-5-Induced Hypereosinophilia Suppresses the Antigen-Induced Immune Response via a TGF-Î²-Dependent Mechanism. Journal of Immunology, 2007, 179, 284-294.	0.8	20
84	Phonetic mismatch negativity predicts social skills acquisition in schizophrenia. Psychiatry Research, 2007, 152, 261-265.	3.3	82
85	Infusion of neuropeptide Y into CA3 region of hippocampus produces antidepressant-like effect via Y1 receptor. Hippocampus, 2007, 17, 271-280.	1.9	58
86	Auditory P300 latency prolongation with age in schizophrenia: Gender and subcomponent effects. Schizophrenia Research, 2006, 88, 217-221.	2.0	9
87	Comparison between mismatch negativity amplitude and magnetic mismatch field strength in normal adults. Biological Psychology, 2006, 71, 54-62.	2.2	3
88	Phonetic mismatch negativity predicts verbal memory deficits in schizophrenia. NeuroReport, 2006, 17, 1043-1046.	1.2	55
89	Left frontotemporal hyperperfusion in a patient with post-stroke mania. Psychiatry Research - Neuroimaging, 2005, 139, 263-267.	1.8	24
90	A Comparative Study of the Efficacy and Safety Profiles Between Fluvoxamine and Nortriptyline in Japanese Patients with Major Depression. Pharmacopsychiatry, 2005, 38, 30-35.	3.3	12

#	Article	IF	Citations
91	In Vivo IL-10 Gene Delivery Suppresses Airway Eosinophilia and Hyperreactivity by Down-Regulating APC Functions and Migration without Impairing the Antigen-Specific Systemic Immune Response in a Mouse Model of Allergic Airway Inflammation. Journal of Immunology, 2005, 174, 6955-6966.	0.8	66
92	Delayed automatic detection of change in speech sounds in adults with autism: A magnetoencephalographic study. Clinical Neurophysiology, 2005, 116, 1655-1664.	1.5	71
93	Association between lower P300 amplitude and smaller anterior cingulate cortex volume in patients with posttraumatic stress disorder: a study of victims of Tokyo subway sarin attack. NeuroImage, 2005, 25, 43-50.	4.2	68
94	Brain electric activity for active inhibition of auditory irrelevant information. Neuroscience Letters, 2005, 374, 11-16.	2.1	9
95	Electrophysiological indices associated with social functioning outcome in schizophrenia: a 5-year follow-up study. Neuroscience Research, 2005, 51, 215-218.	1.9	4
96	Antigen-sensitized CD4+CD62Llow memory/effector T helper 2 cells can induce airway hyperresponsiveness in an antigen free setting. Respiratory Research, 2005, 6, 46.	3.6	26
97	Effects of corollary discharge on event-related potentials during selective attention task in healthy men and women. Neuroscience Research, 2004, 48, 59-64.	1.9	24
98	Executive and prefrontal dysfunction in unipolar depression: a review of neuropsychological and imaging evidence. Neuroscience Research, 2004, 50, 1-11.	1.9	405
99	Psychological factors and survival after bone marrow transplantation in patients with leukemia. Psychiatry and Clinical Neurosciences, 2003, 57, 91-96.	1.8	25
100	Comparison of hangover effects among triazolam, flunitrazepam and quazepam in healthy subjects: A preliminary report. Psychiatry and Clinical Neurosciences, 2003, 57, 303-309.	1.8	10
101	Neuromagnetic correlates of impaired automatic categorical perception of speech sounds in schizophrenia. Schizophrenia Research, 2003, 59, 159-172.	2.0	54
102	Impaired Cortical Network for Preattentive Detection of Change in Speech Sounds in Schizophrenia: A High-Resolution Event-Related Potential Study. American Journal of Psychiatry, 2002, 159, 546-553.	7.2	101
103	Do high or low doses of anxiolytics and hypnotics affect mismatch negativity in schizophrenic subjects? An EEG and MEG study. Clinical Neurophysiology, 2002, 113, 141-150.	1.5	67
104	Verbal and procedural memory in schizophrenia with milder symptoms: implications for psychosocial intervention. Schizophrenia Research, 2002, 53, 263-265.	2.0	5
105	Neuroanatomy and neurophysiology in schizophrenia. Neuroscience Research, 2002, 43, 93-110.	1.9	69
106	Psychophysiological index during auditory selective attention correlates with visual continuous performance test sensitivity in normal adults. International Journal of Psychophysiology, 2002, 45, 211-225.	1.0	14
107	The effects of benzodiazepines on event-related potential indices of automatic and controlled processing in schizophrenia. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2002, 26, 651-661.	4.8	15
108	No effect of gender on tonal and phonetic mismatch negativity in normal adults assessed by a high-resolution EEG recording. Cognitive Brain Research, 2002, 13, 305-312.	3.0	44

#	Article	IF	Citations
109	P300 amplitude over temporal regions in schizophrenia. European Archives of Psychiatry and Clinical Neuroscience, 2002, 252, 1-7.	3.2	12
110	Early components of event-related potentials related to semantic and syntactic processes in the Japanese language. Brain Topography, 2002, 14, 169-177.	1.8	16
111	Impaired suppression of processing in schizophrenic patients suggested by ERPs obtained in a selective attention task. Schizophrenia Research, 2001, 49, 213-221.	2.0	10
112	Brain lateralization for mismatch response to across- and within-category change of vowels. NeuroReport, 2001, 12, 2467-2471.	1.2	52
113	Neuropsychiatry and the auditory selective attention process. Current Opinion in Psychiatry, 2001, 14, 219-225.	6.3	3
114	A topographical study of ERP correlates of semantic and syntactic violations in the Japanese language using the multichannel EEG system. Psychophysiology, 2001, 38, 304-315.	2.4	27
115	Early Interleukin 4â€“Dependent Response Can Induce Airway Hyperreactivity before Development of Airway Inflammation in a Mouse Model of Asthma. Laboratory Investigation, 2001, 81, 1385-1396.	3.7	30
116	Effects of Risperidone on Event-related Potentials in Schizophrenic Patients. Pharmacopsychiatry, 2001, 34, 73-79.	3.3	26
117	Effects of zolpidem and zopiclone on cognitive and attentional function in young healthy volunteers: An event-related potential study. Psychiatry and Clinical Neurosciences, 2000, 54, 37-40.	1.8	7
118	Comparison of the effects of zolpidem and triazolam on nocturnal sleep and sleep latency in the morning: A cross-over study in healthy young volunteers. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2000, 24, 897-910.	4.8	20
119	Psychophysiological correlates of social skills deficits in persons with schizophrenia. Psychiatry Research - Neuroimaging, 2000, 100, 155-167.	1.8	14
120	Comparison of the effects of zolpidem and zopiclone on nocturnal sleep and sleep latency in the morning. Life Sciences, 2000, 67, 81-90.	4.3	22
121	Event-related potentials and thought disorder in schizophrenia. Schizophrenia Research, 2000, 42, 187-191.	2.0	26
122	Mismatch negativity and N2b attenuation as an indicator for dysfunction of the preattentive and controlled processing for deviance detection in schizophrenia: a topographic event-related potential study. Schizophrenia Research, 1999, 35, 141-156.	2.0	64
123	How do early stages of information processing influence social skills in patients with schizophrenia?. Schizophrenia Research, 1999, 35, 255-262.	2.0	17
124	Multiple generators in the auditory automatic discrimination process in humans. NeuroReport, 1999, 10, 2267-2271.	1.2	58
125	Electrophysiological evidence for sequential activation of multiple brain regions during the auditory selective attention process in humans. NeuroReport, 1999, 10, 3837-3842.	1.2	11
126	Decreased plasma cortisol level during alprazolam treatment of panic disorder: A case report. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 1998, 22, 909-915.	4.8	3

#	Article	IF	Citations
127	Overnight Effects of Triazolam on Cognitive Function: An Event-Related Potentials Study. Neuropsychobiology, 1998, 38, 232-240.	1.9	23
128	Behavioral and P3 amplitude enhancement in schizophrenia following feedback training. Schizophrenia Research, 1997, 25, 231-242.	2.0	18
129	What influences social skills in patients with schizophrenia? Preliminary study using the role play test, WAIS-R and event-related potential. Schizophrenia Research, 1996, 22, 143-150.	2.0	23
130	Exaggerated responsivity of brain dopaminergic system activity in schizophrenia: a preliminary finding of increased variance of plasma homovanillic acid level in a chronic patient. Schizophrenia Research, 1996, 20, 241-244.	2.0	2
131	Plasma vanillylmandelic acid level as an index of psychological stress response in normal subjects. Psychiatry Research, 1996, 63, 7-16.	3.3	24
132	Eventâ€related potential correlates of functional hearing loss: Reduced P3 amplitude with preserved Nl and N2 components in a unilateral case. Psychiatry and Clinical Neurosciences, 1996, 50, 85-88.	1.8	24
133	Shortening of N1 and P3 Latencies in Eventâ€Related Potentials Observed Coincidentally with Clinical Improvement during Nootropic Medication in a Demented Patient: Specific Effect of Nicergoline. Psychiatry and Clinical Neurosciences, 1992, 46, 919-925.	1.8	1
134	Distributions of the Nd and P300 in a normal sample. International Journal of Psychophysiology, 1992, 13, 233-239.	1.0	10
135	Effects of sodium valproate and phenytoin on cognitive functioning in normal volunteers using event related potentials.. Journal of the Japan Epilepsy Society, 1991, 9, 33-40.	0.2	0
136	Psychological Intervention Can Partly Alter P300â€Amplitude Abnormalities in Schizophrenics. Psychiatry and Clinical Neurosciences, 1989, 43, 633-638.	1.8	1
137	Effects of Sodium Valproate on Short-Term Memory Functioning in Epileptic Patients. Psychiatry and Clinical Neurosciences, 1987, 41, 489-490.	1.8	0
