Version: 2024-02-01

IÃODC KESSIED

#	Article	IF	CITATIONS
1	The influence of region of interest width in fetal 2D-speckle tracking echocardiography late in pregnancy. International Journal of Cardiovascular Imaging, 2022, 38, 719-725.	0.7	2
2	Placental histology predicted adverse outcomes in extremely premature neonates in Norway—populationâ€based study. Acta Paediatrica, International Journal of Paediatrics, 2022, 111, 546-553.	0.7	8
3	Metformin exposure, maternal PCOS status and fetal venous liver circulation: A randomized, placebo-controlled study. PLoS ONE, 2022, 17, e0262987.	1.1	1
4	Put your weight behind it—Effect of body mass index on the active second stage of labour: A retrospective cohort study. BJOC: an International Journal of Obstetrics and Gynaecology, 2022, 129, 2166-2174.	1.1	7
5	WHO's Robson platform for data-sharing on caesarean section rates. Bulletin of the World Health Organization, 2022, 100, 352-354.	1.5	5
6	Sleep and physical activity from before conception to the end of pregnancy in healthy women: a longitudinal actigraphy study. Sleep Medicine, 2021, 83, 89-98.	0.8	14
7	Pre-gestational diabetes: Maternal body mass index and gestational weight gain are associated with augmented umbilical venous flow, fetal liver perfusion, and thus birthweight. PLoS ONE, 2021, 16, e0256171.	1.1	1
8	Recurrence of postpartum hemorrhage in relatives: A populationâ€based cohort study. Acta Obstetricia Et Gynecologica Scandinavica, 2021, 100, 2278-2284.	1.3	4
9	Intrapartum Fetal Monitoring. , 2021, , 389-397.		Ο
10	Isolated single umbilical artery and the risk of adverse perinatal outcome and third stage of labor complications: A populationâ€based study. Acta Obstetricia Et Gynecologica Scandinavica, 2020, 99, 374-380.	1.3	13
11	True Cord Knot Means True Fetal Risk – Comment on the Title Image of Ultraschall in Med 2018; 39(02):127–128. Ultraschall in Der Medizin, 2020, 41, 80-81.	0.8	1
12	Fetal monitoring in term breech labor – A review. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2019, 239, 45-51.	0.5	0
13	Altered development of fetal liver perfusion in pregnancies with pregestational diabetes. PLoS ONE, 2019, 14, e0211788.	1.1	10
14	The fetal circadian rhythm in pregnancies complicated by pregestational diabetes is altered by maternal glycemic control and the morning cortisol concentration. Chronobiology International, 2019, 36, 481-492.	0.9	2
15	Estimated date of delivery based on second trimester fetal head circumference: A populationâ€based validation of 21Â451 deliveries. Acta Obstetricia Et Gynecologica Scandinavica, 2019, 98, 101-105.	1.3	2
16	Maternal diabetes alters the development of ductus venosus shunting in the fetus. Acta Obstetricia Et Gynecologica Scandinavica, 2018, 97, 1032-1040.	1.3	16
17	Extreme umbilical cord lengths, cord knot and entanglement: Risk factors and risk of adverse outcomes, a population-based study. PLoS ONE, 2018, 13, e0194814.	1.1	43
18	Biphasic ST should not be omitted from STAN clinical guidelines. Acta Obstetricia Et Gynecologica Scandinavica, 2016, 95, 116-116.	1.3	0

JöRG KESSLER

#	Article	IF	CITATIONS
19	Effect of uterine contractions on fetal heart rate in pregnancy: a prospective observational study. Acta Obstetricia Et Gynecologica Scandinavica, 2016, 95, 1129-1135.	1.3	22
20	Why did the authors perform a metaâ€analysis of studies with primary endpoints they consider clinically unimportant?. Acta Obstetricia Et Gynecologica Scandinavica, 2016, 95, 606-607.	1.3	2
21	QRS abnormalities of the fetal electrocardiogram, and their implications for ST-interval analysis during labor. Acta Obstetricia Et Gynecologica Scandinavica, 2015, 94, 1128-1135.	1.3	3
22	On the evidence for intrapartum fetal monitoring with <scp>ECG</scp> â€ <scp>ST</scp> analysis. Acta Obstetricia Et Gynecologica Scandinavica, 2015, 94, 117-118.	1.3	1
23	Intrapartum monitoring with cardiotocography and <scp>ST</scp> â€waveform analysis in breech presentation: an observational study. BJOG: an International Journal of Obstetrics and Gynaecology, 2015, 122, 528-535.	1.1	12
24	A critical appraisal of the evidence for using cardiotocography plus <scp>ECG ST</scp> interval analysis for fetal surveillance in labor. Part I: the randomized controlled trials. Acta Obstetricia Et Gynecologica Scandinavica, 2014, 93, 556-568.	1.3	22
25	A critical appraisal of the evidence for using cardiotocography plus <scp>ECG ST</scp> interval analysis for fetal surveillance in labor. Part <scp>II</scp> : the metaâ€analyses. Acta Obstetricia Et Gynecologica Scandinavica, 2014, 93, 571-586.	1.3	41
26	Delay in intervention increases neonatal morbidity in births monitored with cardiotocography and STâ€waveform analysis. Acta Obstetricia Et Gynecologica Scandinavica, 2014, 93, 175-181.	1.3	14
27	It is time to introduce <scp>ST</scp> analysis for fetal monitoring in the labor ward?. Acta Obstetricia Et Cynecologica Scandinavica, 2014, 93, 539-543.	1.3	2
28	Intrapartum monitoring of highâ€risk deliveries with ST analysis of the fetal electrocardiogram: an observational study of 6010 deliveries. Acta Obstetricia Et Gynecologica Scandinavica, 2013, 92, 75-84.	1.3	27
29	Admission <scp>CTG</scp> , is there any evidence from which to draw conclusions?. Acta Obstetricia Et Gynecologica Scandinavica, 2013, 92, 870-870.	1.3	1
30	What is the gold standard for intrapartum fetal monitoring?. Acta Obstetricia Et Gynecologica Scandinavica, 2012, 91, 1011-1014.	1.3	4
31	Venous liver blood flow and regulation of human fetal growth: evidence from macrosomic fetuses. American Journal of Obstetrics and Gynecology, 2011, 204, 429.e1-429.e7.	0.7	33
32	Fetal Growth Restriction Is Associated With Prioritization of Umbilical Blood Flow to the Left Hepatic Lobe at the Expense of the Right Lobe. Pediatric Research, 2009, 66, 113-117.	1,1	40
33	Longitudinal Study of Umbilical and Portal Venous Blood flow to the Fetal Liver: Low Pregnancy Weight Gain is Associated With Preferential Supply to the Fetal Left Liver Lobe. Pediatric Research, 2008, 63, 315-320.	1.1	57
34	The fetal portal vein: normal blood flow development during the second half of human pregnancy. Ultrasound in Obstetrics and Gynecology, 2007, 30, 52-60.	0.9	44
35	The left portal vein as an indicator of watershed in the fetal circulation: development during the second half of pregnancy and a suggested method of evaluation. Ultrasound in Obstetrics and Gynecology, 2007, 30, 757-764.	0.9	34
36	Letter to the Editor. Acta Obstetricia Et Gynecologica Scandinavica, 2007, 86, 638-638.	1.3	0

#	Article	IF	CITATIONS
37	Longitudinal reference ranges for ductus venosus flow velocities and waveform indices. Ultrasound in Obstetrics and Gynecology, 2006, 28, 890-898.	0.9	88
