#	Paper	IF	Citations
48	Clinical, individual and environmental factors related to children's health-related quality of life following treatment under general anaesthetic for dental caries: a path analysis.. <i>European Archives of Paediatric Dentistry: Official Journal of the European Academy of Paediatric Dentistry</i> , 2022 , 1	2.7	
47	Children's general anaesthesia – parental preferences and information needs. <i>Faculty Dental Journal</i> , 2022 , 13, 62-67	0.6	
46	National patterns in paediatric hospital admissions for dental extractions in England. <i>Community Dentistry and Oral Epidemiology</i> , 2021 , 49, 322-329	2.8	1
45	Discrete choice experiments or best-worst scaling? A qualitative study to determine the suitability of preference elicitation tasks in research with children and young people. <i>Journal of Patient-Reported Outcomes</i> , 2021 , 5, 26	2.6	6
44	Molar Incisor Hypomineralisation: Current Knowledge and Practice. <i>International Dental Journal</i> , 2021 , 71, 285-291	2.2	1
43	Patient-reported outcome measure for children and young people with amelogenesis imperfecta. <i>British Dental Journal</i> , 2021 ,	1.2	1
42	The Utility and Feasibility of Routine Use of a Patient-Reported Outcome Measure in Paediatric Dentistry. <i>Oral</i> , 2021 , 1, 290-299		
41	'I Would Rather Be Having My Leg Cut off Than a Little Needle': A Supplementary Qualitative Analysis of Dentally Anxious Children's Experiences of Needle Fear. <i>Dentistry Journal</i> , 2020 , 8,	3.1	1
40	A missense variant in specificity protein 6 (SP6) is associated with amelogenesis imperfecta. <i>Human Molecular Genetics</i> , 2020 , 29, 1417-1425	5.6	9
39	Selection and validation of a classification system for a child-centred preference-based measure of oral health-related quality of life specific to dental caries. <i>Journal of Patient-Reported Outcomes</i> , 2020 , 4, 105	2.6	4
38	Determinants of children's oral health-related quality of life following aesthetic treatment of enamel opacities. <i>Journal of Dentistry</i> , 2020 , 98, 103372	4.8	13
37	A rapid review of variation in the use of dental general anaesthetics in children. <i>British Dental Journal</i> , 2020 , 229, 31-39	1.2	4
36	COVID-19: implications for paediatric dental general anaesthetic services. <i>Faculty Dental Journal</i> , 2020 , 11, 114-119	0.6	5
35	COVID-2019 – Time to Use Silver Diamine Fluoride for Caries Arrest in General Dental Practice?. <i>Dental Update</i> , 2020 , 47, 662-668	0.3	1
34	Psychosocial Impacts Relating to Dental Injuries in Childhood: The Bigger Picture. <i>Dentistry Journal</i> , 2019 , 7,	3.1	9
33	In vivo validity of proximal caries detection in primary teeth, with histological validation. <i>International Journal of Paediatric Dentistry</i> , 2019 , 29, 429-438	3.1	9
32	'Message to Dentist': Facilitating Communication with Dentally Anxious Children. <i>Dentistry Journal</i> , 2019 , 7,	3.1	1

31	A trilogy of tragedies - paediatric dental tooth whitening. <i>British Dental Journal</i> , 2019 , 227, 959-960	1.2	3
30	Development and evaluation of the children's experiences of dental anxiety measure. <i>International Journal of Paediatric Dentistry</i> , 2018 , 28, 140-151	3.1	7
29	Your teeth you are in control. <i>Dental Nursing</i> , 2018 , 14, 292-293	0	
28	Change in Oral Health-Related Quality of Life Following Minimally Invasive Aesthetic Treatment for Children with Molar Incisor Hypomineralisation: A Prospective Study. <i>Dentistry Journal</i> , 2018 , 6,	3.1	28
27	Development and evaluation of CARIES-QC: a caries-specific measure of quality of life for children. <i>BMC Oral Health</i> , 2018 , 18, 202	3.7	18
26	Cognitive behavioural therapy and the adolescent patient. <i>Dental Update</i> , 2018 , 45, 311-318	0.3	1
25	Amelogenesis imperfecta caused by N-terminal enamelin point mutations in mice and men is driven by endoplasmic reticulum stress. <i>Human Molecular Genetics</i> , 2017 , 26, 1863-1876	5.6	11
24	Traumatic dental injury research: on children or with children?. <i>Dental Traumatology</i> , 2017 , 33, 153-159	4.5	8
23	Change in children's oral health-related quality of life following dental treatment under general anaesthesia for the management of dental caries: a systematic review. <i>International Journal of Paediatric Dentistry</i> , 2017 , 27, 302-312	3.1	40
22	Development of a decision aid for children faced with the decision to undergo dental treatment with sedation or general anaesthesia. <i>International Journal of Paediatric Dentistry</i> , 2017 , 27, 344-355	3.1	9
21	Children's experiences of dental anxiety. <i>International Journal of Paediatric Dentistry</i> , 2017 , 27, 87-97	3.1	38
20	Protocol for a feasibility study of a self-help cognitive behavioural therapy resource for the reduction of dental anxiety in young people. <i>Pilot and Feasibility Studies</i> , 2016 , 2, 13	1.9	5
19	How do children view other children who have visible enamel defects?. <i>International Journal of Paediatric Dentistry</i> , 2015 , 25, 399-408	3.1	26
18	The impact of dental caries on children and young people: what they have to say?. <i>International Journal of Paediatric Dentistry</i> , 2015 , 25, 327-38	3.1	53
17	Childhood dental injuries: a resiliency model of adaptation. <i>International Journal of Paediatric Dentistry</i> , 2015 , 25, 267-81	3.1	6
16	The Psychosocial Impacts of Developmental Enamel Defects in Children and Young People 2015 , 85-97		2
15	Seen and heard: towards child participation in dental research. <i>International Journal of Paediatric Dentistry</i> , 2015 , 25, 375-82	3.1	23
14	Asthma and congenital heart defects in children. <i>Dental Nursing</i> , 2013 , 9, 470-473	0	

13	Understanding children's dental anxiety and psychological approaches to its reduction. <i>International Journal of Paediatric Dentistry</i> , 2012 , 22, 397-405	3.1	45
12	Vital guide to Preventing dental caries. <i>Vital</i> , 2008 , 5, 21-24		0
11	Decision-making for children with traumatized permanent incisors: a holistic approach. <i>Dental Update</i> , 2008 , 35, 439-40, 442-4, 446-8 passim	0.3	3
10	Seen but not heard: a systematic review of the place of the child in 21st-century dental research. <i>International Journal of Paediatric Dentistry</i> , 2007 , 17, 320-7	3.1	28
9	Change in supporting tissue following loss of a permanent maxillary incisor in children. <i>Dental Traumatology</i> , 2007 , 23, 328-32	4.5	19
8	Management of postorthodontic demineralized white lesions with microabrasion: a quantitative assessment. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2007 , 131, 27-33	2.1	49
7	Pulpal status of hypomineralized permanent molars. <i>Pediatric Dentistry (discontinued)</i> , 2007 , 29, 514-20	1.2	38
6	Vascular status in human primary and permanent teeth in health and disease. <i>European Journal of Oral Sciences</i> , 2005 , 113, 128-34	2.3	14
5	Immunocytochemical investigation of neurovascular relationships in human tooth pulp. <i>Journal of Anatomy</i> , 2003 , 202, 195-203	2.9	24
4	Comparative immunohistochemical analysis of the peptidergic innervation of human primary and permanent tooth pulp. <i>Archives of Oral Biology</i> , 2002 , 47, 375-85	2.8	46
3	Survival of intentionally retained permanent incisor roots following crown root fractures in children. <i>Dental Traumatology</i> , 2002 , 18, 92-7	4.5	18
2	Substance P expression in human tooth pulp in relation to caries and pain experience. <i>European Journal of Oral Sciences</i> , 2000 , 108, 467-74	2.3	63
1	A little bit of LOGIC goes a long way: Multidisciplinary management of LOGIC Syndrome associated oral manifestations. <i>Oral Surgery</i> ,	0.6
