#	ARTICLE	IF	CITATIONS
1	Socioeconomic Inequalities in Health in 22 European Countries. <i>New England Journal of Medicine</i> , 2008, 358, 2468-2481.	13.9	2,464
2	Subjective health, symptom load and quality of life of children and adolescents in Europe. <i>International Journal of Public Health</i> , 2009, 54, 151-159.	1.0	159
3	Measuring mental health and well-being of school-children in 15 European countries using the KIDSCREEN-10 Index. <i>International Journal of Public Health</i> , 2009, 54, 160-166.	1.0	133
4	Prevalence and characteristics of noncompliant behaviour and its risk factors in kidney transplant recipients. <i>Transplant International</i> , 2005, 18, 1072-1078.	0.8	132
5	Self-esteem and resilience: The connection with risky behavior among adolescents. <i>Addictive Behaviors</i> , 2009, 34, 287-291.	1.7	122
6	Socio-economic inequality in multiple health complaints among adolescents: international comparative study in 37 countries. <i>International Journal of Public Health</i> , 2009, 54, 260-270.	1.0	102
7	Influence of social support on health among gender and socio-economic groups of adolescents. <i>European Journal of Public Health</i> , 2003, 13, 44-50.	0.1	96
8	When children play, they feel better: organized activity participation and health in adolescents. <i>BMC Public Health</i> , 2015, 15, 1090.	1.2	80
9	Does parental unemployment affect adolescents' health?. <i>Journal of Adolescent Health</i> , 2006, 38, 527-535.	1.2	75
10	Influence of Socio-Economic Status, Parents and Peers on Smoking Behaviour of Adolescents. <i>European Addiction Research</i> , 2005, 11, 204-209.	1.3	69
11	Structural properties and psychometric improvements of the Health Literacy Questionnaire in a Slovak population. <i>International Journal of Public Health</i> , 2017, 62, 591-604.	1.0	69
12	To what extent does socioeconomic status explain differences in health between Roma and non-Roma adolescents in Slovakia?. <i>Social Science and Medicine</i> , 2009, 68, 1279-1284.	1.8	59
13	Factors associated with educational aspirations among adolescents: cues to counteract socioeconomic differences?. <i>BMC Public Health</i> , 2010, 10, 154.	1.2	55
14	Are barriers in accessing health services in the Roma population associated with worse health status among Roma?. <i>International Journal of Public Health</i> , 2013, 58, 427-434.	1.0	50
15	Is the association between screen-based behaviour and health complaints among adolescents moderated by physical activity?. <i>International Journal of Public Health</i> , 2015, 60, 139-145.	1.0	50
16	Analysis of socioeconomic health inequalities using the concentration index. <i>International Journal of Public Health</i> , 2010, 55, 71-74.	2.7	46
17	Socio-economic differences in self-esteem of adolescents influenced by personality, mental health and social support. <i>European Journal of Public Health</i> , 2010, 20, 647-652.	0.1	46
18	Gender differences in the relationship between religiosity and health-related behaviour among adolescents. <i>Journal of Epidemiology and Community Health</i> , 2012, 66, 1122-1128.	2.0	45

#	ARTICLE	IF	CITATIONS
19	Adolescents' psychological well-being and self-esteem in the context of relationships at school. <i>Educational Research</i> , 2014, 56, 367-378.	0.9	45
20	Regional socioeconomic indicators and ethnicity as predictors of regional infant mortality rate in Slovakia. <i>International Journal of Public Health</i> , 2011, 56, 523-531.	1.0	42
21	Predictors of Perceived Health Status in Patients after Kidney Transplantation. <i>Transplantation</i> , 2006, 81, 1306-1310.	0.5	40
22	Regular energy drink consumption is associated with the risk of health and behavioural problems in adolescents. <i>European Journal of Pediatrics</i> , 2017, 176, 599-605.	1.3	40
23	Social inequalities in changes in health-related behaviour among Slovak adolescents aged between 15 and 19: A longitudinal study. <i>BMC Public Health</i> , 2008, 8, 57.	1.2	39
24	How parents can affect excessive spending of time on screen-based activities. <i>BMC Public Health</i> , 2014, 14, 1261.	1.2	39
25	Decomposing socioeconomic health inequalities. <i>International Journal of Public Health</i> , 2010, 55, 347-351.	1.0	36
26	Associations between assertiveness, psychological well-being, and self-esteem in adolescents. <i>Journal of Applied Social Psychology</i> , 2013, 43, 147-154.	1.3	35
27	Can organized leisure-time activities buffer the negative outcomes of unstructured activities for adolescents' health?. <i>International Journal of Public Health</i> , 2018, 63, 743-751.	1.0	35
28	Is Being a Boy and Feeling Fat a Barrier for Physical Activity? The Association between Body Image, Gender and Physical Activity among Adolescents. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 11167-11176.	1.2	34
29	Hepatitis B virus infection in patients with metabolic syndrome: A complicated relationship. Results of a population based study. <i>European Journal of Internal Medicine</i> , 2014, 25, 286-291.	1.0	34
30	Participation in organized leisure-time activities and risk behaviors in Czech adolescents. <i>International Journal of Public Health</i> , 2017, 62, 387-396.	1.0	34
31	The Spiritual Well-Being Scale: Psychometric Evaluation of the Shortened Version in Czech Adolescents. <i>Journal of Religion and Health</i> , 2017, 56, 697-705.	0.8	33
32	Is BMI a Valid Indicator of Overweight and Obesity for Adolescents?. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4815.	1.2	33
33	Is Participation in Organized Leisure-Time Activities Associated with School Performance in Adolescence?. <i>PLoS ONE</i> , 2016, 11, e0153276.	1.1	33
34	Do dialysis- and transplantation-related medical factors affect perceived health status?. <i>Nephrology Dialysis Transplantation</i> , 2005, 20, 2153-2158.	0.4	32
35	Socioeconomic Characteristics of the Population Living in Roma Settlements and Their Association with Health and Health-Related Behaviour. <i>Central European Journal of Public Health</i> , 2014, 22, S57-S64.	0.4	32
36	Factors modifying stress from adverse effects of immunosuppressive medication in kidney transplant recipients. <i>Clinical Transplantation</i> , 2005, 19, 70-76.	0.8	31

#	ARTICLE	IF	CITATIONS
37	Is the cardiovascular risk profile of people living in Roma settlements worse in comparison with the majority population in Slovakia?. <i>International Journal of Public Health</i> , 2013, 58, 417-425.	1.0	31
38	Is subjective perception of negative body image among adolescents associated with bullying?. <i>European Journal of Pediatrics</i> , 2015, 174, 1035-1041.	1.3	31
39	Psychological and behavioural factors associated with sexual risk behaviour among Slovak students. <i>BMC Public Health</i> , 2009, 9, 15.	1.2	30
40	Does Participation in Physical Education Reduce Sedentary Behaviour in School and throughout the Day among Normal-Weight and Overweight-to-Obese Czech Children Aged 9-11 Years?. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 1076-1093.	1.2	30
41	Does the Population Living in Roma Settlements Differ in Physical Activity, Smoking and Alcohol Consumption from the Majority Population in Slovakia?. <i>Central European Journal of Public Health</i> , 2014, 22, S22-S27.	0.4	30
42	Parental support and adolescents' health in the context of parental employment status. <i>Journal of Adolescence</i> , 2011, 34, 141-149.	1.2	28
43	Self-reported health problems of Slovak adolescents. <i>Journal of Adolescence</i> , 2001, 24, 635-645.	1.2	27
44	Mother's and father's monitoring is more important than parental social support regarding sexual risk behaviour among 15-year-old adolescents. <i>European Journal of Contraception and Reproductive Health Care</i> , 2013, 18, 95-103.	0.6	27
45	Socio-economic status and physical activity among adolescents: The mediating role of self-esteem. <i>Public Health</i> , 2011, 125, 763-768.	1.4	26
46	ActiTrainer-determined segmented moderate-to-vigorous physical activity patterns among normal-weight and overweight-to-obese Czech schoolchildren. <i>European Journal of Pediatrics</i> , 2014, 173, 321-329.	1.3	25
47	The Number of Adverse Childhood Experiences Is Associated with Emotional and Behavioral Problems among Adolescents. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2446.	1.2	25
48	HepaMeta - Prevalence of Hepatitis B/C and Metabolic Syndrome in Population Living in Separated and Segregated Roma Settlements: a Methodology for a Cross-sectional Population-Based Study Using Community-Based Approach. <i>Central European Journal of Public Health</i> , 2014, 22, S6-S11.	0.4	25
49	The impact of unemployment on school leavers' perception of health. Mediating effect of financial situation and social contacts?. <i>International Journal of Public Health</i> , 2007, 52, 180-187.	2.7	24
50	Predictors of health-endangering behaviour among Roma and non-Roma adolescents in Slovakia by gender. <i>Journal of Epidemiology and Community Health</i> , 2010, 64, 1043-1048.	2.0	24
51	Gender differences in adolescent health-related behaviour diminished between 1998 and 2006. <i>Public Health</i> , 2010, 124, 512-518.	1.4	24
52	Does social support mediate or moderate socioeconomic differences in self-rated health among adolescents?. <i>International Journal of Public Health</i> , 2012, 57, 609-617.	1.0	24
53	Does Life Satisfaction Mediate the Association between Socioeconomic Status and Excessive Internet Use?. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3914.	1.2	24
54	Socioeconomic indicators and ethnicity as determinants of regional mortality rates in Slovakia. <i>International Journal of Public Health</i> , 2009, 54, 274-282.	1.0	22
