#	ARTICLE	IF	CITATIONS
1	“If they can do it, I can do it” experiences of older women who engage in powerlifting training. <i>Journal of Women and Aging</i> , 2022, 34, 54-64.	1.0	6
2	Player chronotype does not affect shooting accuracy at different times of the day in a professional, male basketball team: a pilot study. <i>Sleep Science</i> , 2022, 15, 149-155.	1.0	4
3	Validity of the PUSH band 2.0 and Speed4lifts to measure velocity during upper and lower body free-weight resistance exercises. <i>Journal of Sports Sciences</i> , 2022, 40, 968-975.	2.0	2
4	Competing in Hot Conditions at the Tokyo Olympic Games: Preparation Strategies Used by Australian Race Walkers. <i>Frontiers in Physiology</i> , 2022, 13, 836858.	2.8	4
5	Back squat velocity to assess neuromuscular status of rugby league players following a match. <i>Journal of Science and Medicine in Sport</i> , 2021, 24, 36-40.	1.3	9
6	Measuring Decrement in Change-of-Direction Speed Across Repeated Sprints in Basketball: Novel vs. Traditional Approaches. <i>Journal of Strength and Conditioning Research</i> , 2021, 35, 841-845.	2.1	7
7	A Comparison of PlayerLoad™ and Heart Rate during Backwards and Forwards Locomotion during Intermittent Exercise in Rugby League Players. <i>Sports</i> , 2021, 9, 21.	1.7	1
8	Validity and Reliability of Using Load-Velocity Relationship Profiles to Establish Back Squat 1 m/s Load. <i>Journal of Strength and Conditioning Research</i> , 2021, 35, 340-346.	2.1	4
9	Hot, Tired and Hungry: The Snacking Behaviour and Food Cravings of Firefighters during Multi-Day Simulated Wildfire Suppression. <i>Nutrients</i> , 2020, 12, 1160.	4.1	9
10	An exploration of goal scoring strategies in an elite beach soccer tournament. <i>Science and Medicine in Football</i> , 2020, 4, 192-195.	2.0	3
11	A systematic review examining the physiological, perceptual, and performance effects of active and passive recovery modes applied between repeated-sprints. <i>Journal of Sports Medicine and Physical Fitness</i> , 2019, 59, 1492-1502.	0.7	5
12	Reduced Fatigue in Passive Versus Active Recovery: An Examination of Repeated-Change-of-Direction Sprints in Basketball Players. <i>International Journal of Sports Physiology and Performance</i> , 2018, 13, 1034-1041.	2.3	8
13	Dribble Deficit: A novel method to measure dribbling speed independent of sprinting speed in basketball players. <i>Journal of Sports Sciences</i> , 2018, 36, 2596-2602.	2.0	16
14	Nutrition and Supplementation Considerations to Limit Endotoxemia When Exercising in the Heat. <i>Sports</i> , 2018, 6, 12.	1.7	17
15	Impact of active and passive social facilitation on self-paced endurance and sprint exercise: encouragement augments performance and motivation to exercise. <i>BMJ Open Sport and Exercise Medicine</i> , 2018, 4, e000368.	2.9	39
16	Short-term reliability of inflammatory mediators and response to exercise in the heat. <i>Journal of Sports Sciences</i> , 2017, 35, 1-7.	2.0	8
17	Acclimation Training Improves Endurance Cycling Performance in the Heat without Inducing Endotoxemia. <i>Frontiers in Physiology</i> , 2016, 7, 318.	2.8	26
18	Oxford and Cambridge Boat Race: Performance, Pacing and Tactics Between 1890 and 2014. <i>Sports Medicine</i> , 2016, 46, 1553-1562.	6.5	15

#	ARTICLE	IF	CITATIONS
19	Immune and inflammatory responses of Australian firefighters after repeated exposures to the heat. Ergonomics, 2015, 58, 2032-2039.	2.1	28
20	Managing Heat and Immune Stress in Athletes With Evidence-Based Strategies. International Journal of Sports Physiology and Performance, 2014, 9, 744-750.	2.3	15
