#	Article	IF	Citations
1	A review of trial and realâ€world data applying elements of a realist approach to identify behavioural mechanisms supporting practitioners to taper opioids. British Journal of Clinical Pharmacology, 2022, , .	1.1	3
2	The role of behavioural science in changing deprescribing practice. British Journal of Clinical Pharmacology, 2021, 87, 39-41.	1.1	10
3	A practitioner behaviour change intervention for deprescribing in the hospital setting. Age and Ageing, 2021, 50, 581-586.	0.7	16
4	Anticholinergic burden in older adult inpatients: patterns from admission to discharge and associations with hospital outcomes. Therapeutic Advances in Drug Safety, 2021, 12, 204209862110125.	1.0	4
5	The feasibility of the APAM intervention to support treatment-adherence in people with hypertension in primary care: a randomised clinical controlled trial. Scientific Reports, 2021, 11, 8897.	1.6	1
6	Barriers and facilitators to reducing anticholinergic burden: a qualitative systematic review. International Journal of Clinical Pharmacy, 2021, 43, 1451-1460.	1.0	13
7	Barriers and facilitators to pharmacists integrating into the ward-based multidisciplinary team: A systematic review and meta-synthesis. Research in Social and Administrative Pharmacy, 2021, 17, 1923-1936.	1.5	11
8	Quantifying and characterising multi-compartment compliance aid provision. Research in Social and Administrative Pharmacy, 2020, 16, 560-567.	1.5	7
9	Development of a hospital deprescribing implementation framework: A focus group study with geriatricians and pharmacists. Age and Ageing, 2020, 49, 102-110.	0.7	37
10	Realist review protocol for understanding the real-world barriers and enablers to practitioners implementing self-management support to people living with and beyond cancer. BMJ Open, 2020, 10, e037636.	0.8	15
11	Do interventions to improve adherence to antiretroviral therapy recognise diversity? A systematic review. AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV, 2020, 33, 1-15.	0.6	4
12	Assessing the acceptability of a text messaging service and smartphone app to support patient adherence to medications prescribed for high blood pressure: a pilot study. Pilot and Feasibility Studies, 2020, 6, 134.	0.5	7
13	Deprescribing: routine pharmacy practice or an exciting research opportunity?. International Journal of Pharmacy Practice, 2019, 27, 406-407.	0.3	5
14	Barriers and facilitators to reducing anticholinergic burden from the perspectives of patients, their carers, and healthcare professionals: A protocol for qualitative evidence synthesis. Journal of Evidence-Based Medicine, 2019, 12, 227-231.	0.7	5
15	A systematic review exploring characteristics of lifestyle modification interventions in newly diagnosed type 2 diabetes for delivery in community pharmacyâ€. International Journal of Pharmacy Practice, 2019, 27, 3-16.	0.3	2
16	Attitudinal predictors of older peoples' and caregivers' desire to deprescribe in hospital. BMC Geriatrics, 2019, 19, 108.	1.1	36
17	Mapping of modifiable barriers and facilitators of medication adherence in bipolar disorder to the Theoretical Domains Framework: a systematic review protocol. BMJ Open, 2019, 9, e026980.	0.8	9

Role of nurses in supporting proactive deprescribing. Nursing Standard (Royal College of Nursing) Tj ETQq0.00 rgB $_{0.1}^{T}$ /Overlock 10 Tf 50

#	Article	IF	CITATIONS
19	Barriers to medication adherence in patients prescribed medicines for the prevention of cardiovascular disease: a conceptual framework. International Journal of Pharmacy Practice, 2019, 27, 223-231.	0.3	18
20	Validation and Feasibility of the Medication Acceptability Questionnaire to Investigate Tablet and Liquid Alendronic Acid with Older Hospital Patients. Pharmacy (Basel, Switzerland), 2018, 6, 84.	0.6	2
21	Deprescribing admission medication at a UK teaching hospital; a report on quantity and nature of activity. International Journal of Clinical Pharmacy, 2018, 40, 991-996.	1.0	24
22	Pharmacy led medicine reconciliation at hospital: A systematic review of effects and costs. Research in Social and Administrative Pharmacy, 2017, 13, 300-312.	1.5	38
23	What do patients need to know? A study to assess patients' satisfaction with information about medicines. International Journal of Pharmacy Practice, 2016, 24, 229-236.	0.3	19
24	Systematic review of the health and societal effects of medication organisation devices. BMC Health Services Research, 2016, 16, 202.	0.9	13
25	The feasibility of determining the effectiveness and cost-effectiveness of medication organisation devices compared with usual care for older people in a community setting: systematic review, stakeholder focus groups and feasibility randomised controlled trial. Health Technology Assessment, 2016. 20. 1-250.	1.3	15
26	Supervised pharmacy student-led medication review in primary care for patients with type 2 diabetes: a randomised controlled pilot study. BMJ Open, 2015, 5, e009246.	0.8	16
27	A drop-in clinic for patients with poorly-controlled diabetes: a community pharmacy feasibility study. International Journal of Clinical Pharmacy, 2015, 37, 395-402.	1.0	7
28	A comparison of measures used to describe adherence to glaucoma medication in a randomised controlled trial. Clinical Trials, 2015, 12, 608-617.	0.7	20
29	Optimal health literacy measurement for the clinical setting: A systematic review. Patient Education and Counseling, 2015, 98, 1295-1307.	1.0	65
30	What constitutes a high quality discharge summary? A comparison between the views of secondary and primary care doctors. International Journal of Medical Education, 2014, 5, 125-131.	0.6	41
31	Adherence to <scp>UK</scp> national guidance for discharge information: an audit in primary care. British Journal of Clinical Pharmacology, 2014, 78, 1453-1464.	1.1	37
32	Improving adherence to glaucoma medication: a randomised controlled trial of a patient-centred intervention (The Norwich Adherence Glaucoma Study). BMC Ophthalmology, 2014, 14, 32.	0.6	36
33	Abandoned Acid? Understanding Adherence to Bisphosphonate Medications for the Prevention of Osteoporosis among Older Women: A Qualitative Longitudinal Study. PLoS ONE, 2014, 9, e83552.	1.1	28
34	The current and future roles of community pharmacists: Views and experiences of patients with type 2 diabetes. Research in Social and Administrative Pharmacy, 2013, 9, 777-789.	1.5	32
35	Patterns of adherence behaviour for patients with glaucoma. Eye, 2013, 27, 545-553.	1.1	29
36	A meta-analysis of cognitive-based behaviour change techniques as interventions to improve medication adherence. BMJ Open, 2013, 3, e002749.	0.8	86
