

L Clifford Mcdonald

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8638479/l-clifford-mcdonald-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

157 papers	20,307 citations	64 h-index	142 g-index
168 ext. papers	22,965 ext. citations	8.8 avg, IF	6.59 L-index

#	Paper	IF	Citations
157	Clinical Course of SARS-CoV-2 Infection in Adults with ESKD Receiving Outpatient Hemodialysis.. <i>Kidney360</i> , 2021 , 2, 1917-1927	1.8	0
156	Research on the Epidemiology of SARS-CoV-2 in Essential Response Personnel (RECOVER): Protocol for a Multisite Longitudinal Cohort Study. <i>JMIR Research Protocols</i> , 2021 , 10, e31574	2	4
155	Framing Bacterial Genomics for Public Health (Care). <i>Journal of Clinical Microbiology</i> , 2021 , 59, e00135219.7	19.7	1
154	Diagnosed and Undiagnosed COVID-19 in US Emergency Department Health Care Personnel: A Cross-sectional Analysis. <i>Annals of Emergency Medicine</i> , 2021 , 78, 27-34	2.1	2
153	Infectious Period of Severe Acute Respiratory Syndrome Coronavirus 2 in 17 Nursing Home Residents-Arkansas, June-August 2020. <i>Open Forum Infectious Diseases</i> , 2021 , 8, ofab048	1	8
152	Performance Evaluation of Serial SARS-CoV-2 Rapid Antigen Testing During a Nursing Home Outbreak. <i>Annals of Internal Medicine</i> , 2021 , 174, 945-951	8	22
151	Repeated Antigen Testing Among SARS-CoV-2-Positive Nursing Home Residents. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-10	2	0
150	Advancing Diagnostic Stewardship for Healthcare Associated Infections, Antibiotic Resistance, and Sepsis. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	4
149	Trends in U.S. Burden of Infection and Outcomes. <i>New England Journal of Medicine</i> , 2020 , 382, 1320-1330	39.2	184
148	Multidrug-Resistant Bacterial Infections in U.S. Hospitalized Patients, 2012-2017. <i>New England Journal of Medicine</i> , 2020 , 382, 1309-1319	59.2	130
147	Detection of by Real-time PCR in Young Children Does Not Predict Disease. <i>Hospital Pediatrics</i> , 2020 , 10, 555-562	2.5	7
146	Digging Deep in the Microbiome to Diagnose Clostridioides difficile Infection. <i>Clinical Chemistry</i> , 2020 , 66, 641-643	5.5	2
145	Reinforcement of an infection control bundle targeting prevention practices for Clostridioides difficile in Veterans Health Administration nursing homes. <i>American Journal of Infection Control</i> , 2020 , 48, 626-632	3.8	2
144	Association Between Antibiotic Use and Hospital-onset Clostridioides difficile Infection in US Acute Care Hospitals, 2006-2012: An Ecologic Analysis. <i>Clinical Infectious Diseases</i> , 2020 , 70, 11-18	11.6	38
143	Hospital-level high-risk antibiotic use in relation to hospital-associated infections: Retrospective analysis of 2016-2017 data from US hospitals. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 1229 ² -1235 ¹³		
142	Toxin Enzyme Immunoassays Detect Clostridioides difficile Infection With Greater Severity and Higher Recurrence Rates. <i>Clinical Infectious Diseases</i> , 2019 , 69, 1667-1674	11.6	22
141	Assessing the social cost and benefits of a national requirement establishing antibiotic stewardship programs to prevent infection in US hospitals. <i>Antimicrobial Resistance and Infection Control</i> , 2019 , 8, 17	6.2	4

140	A national survey of testing and management of asymptomatic carriage of <i>C. difficile</i> . <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 801-803	2	5
139	Vital Signs: Epidemiology and Recent Trends in Methicillin-Resistant and in Methicillin-Susceptible <i>Staphylococcus aureus</i> Bloodstream Infections - United States. <i>Morbidity and Mortality Weekly Report</i> , 2019 , 68, 214-219	31.7	260
138	Clinical Practice Guidelines for <i>Clostridium difficile</i> Infection in Adults and Children: 2017 Update by the Infectious Diseases Society of America (IDSA) and Society for Healthcare Epidemiology of America (SHEA). <i>Clinical Infectious Diseases</i> , 2018 , 66, e1-e48	11.6	926
137	Risk of Subsequent Sepsis Within 90 Days After a Hospital Stay by Type of Antibiotic Exposure. <i>Clinical Infectious Diseases</i> , 2018 , 66, 1004-1012	11.6	65
136	Reply to Collins and Riley. <i>Clinical Infectious Diseases</i> , 2018 , 67, 1640	11.6	
135	Clinical Practice Guidelines for <i>Clostridium difficile</i> Infection in Adults and Children: 2017 Update by the Infectious Diseases Society of America (IDSA) and Society for Healthcare Epidemiology of America (SHEA). <i>Clinical Infectious Diseases</i> , 2018 , 66, 987-994	11.6	653
134	Intestinal Carriage of Third-Generation Cephalosporin-Resistant and Extended-Spectrum β -Lactamase-Producing Enterobacteriaceae in Healthy US Children. <i>Journal of the Pediatric Infectious Diseases Society</i> , 2018 , 7, 234-240	4.8	20
133	Vital Signs: Containment of Novel Multidrug-Resistant Organisms and Resistance Mechanisms - United States, 2006-2017. <i>Morbidity and Mortality Weekly Report</i> , 2018 , 67, 396-401	31.7	69
132	Point-Counterpoint: Active Surveillance for Carriers of Toxigenic <i>Clostridium difficile</i> Should Be Performed To Guide Prevention Efforts. <i>Journal of Clinical Microbiology</i> , 2018 , 56,	9.7	9
131	Transmission of <i>Clostridium difficile</i> from asymptotically colonized or infected long-term care facility residents. <i>Infection Control and Hospital Epidemiology</i> , 2018 , 39, 909-916	2	25
130	Reply to Fabre et al. <i>Clinical Infectious Diseases</i> , 2018 , 67, 1958-1959	11.6	3
129	Diagnosing an Infection Control Risk. <i>Clinical Infectious Diseases</i> , 2017 , 64, 1171-1173	11.6	1
128	Risk Factors for Community-Associated Infection in Adults: A Case-Control Study. <i>Open Forum Infectious Diseases</i> , 2017 , 4, ofx171	1	45
127	Assessment of the Overall and Multidrug-Resistant Organism Bioburden on Environmental Surfaces in Healthcare Facilities. <i>Infection Control and Hospital Epidemiology</i> , 2016 , 37, 1426-1432	2	50
126	Diagnosis and Treatment of Infection (CDI). <i>Infectious Diseases in Clinical Practice</i> , 2016 , 24, 3-10	0.2	18
125	Intestinal microbiome disruption in patients in a long-term acute care hospital: A case for development of microbiome disruption indices to improve infection prevention. <i>American Journal of Infection Control</i> , 2016 , 44, 830-6	3.8	33
124	Prevalence of probiotic use among inpatients: A descriptive study of 145 U.S. hospitals. <i>American Journal of Infection Control</i> , 2016 , 44, 548-53	3.8	34
123	Vital Signs: Preventing Antibiotic-Resistant Infections in Hospitals - United States, 2014. <i>Morbidity and Mortality Weekly Report</i> , 2016 , 65, 235-41	31.7	49

122	Burden of Nursing Home-Onset Clostridium difficile Infection in the United States: Estimates of Incidence and Patient Outcomes. <i>Open Forum Infectious Diseases</i> , 2016 , 3, ofv196	1	34
121	Letter in Response to "Questionable validity of the catheter-associated urinary tract infection metric used for value-based purchasing". <i>American Journal of Infection Control</i> , 2016 , 44, 369-70	3.8	1
120	Active Surveillance and Isolation of Asymptomatic Carriers of Clostridium difficile at Hospital Admission: Containing What Lies Under the Waterline. <i>JAMA Internal Medicine</i> , 2016 , 176, 805-6	11.5	4
119	Burden of Clostridium difficile infection in the United States. <i>New England Journal of Medicine</i> , 2015 , 372, 825-34	59.2	1768
118	Uncovering the role of antibiotics in the transmission of multidrug-resistant organisms. <i>JAMA Internal Medicine</i> , 2015 , 175, 633-4	11.5	0
117	Burden of Clostridium difficile infection in the United States. <i>New England Journal of Medicine</i> , 2015 , 372, 2369-70	59.2	203
116	Predicting the risk for hospital-onset Clostridium difficile infection (HO-CDI) at the time of inpatient admission: HO-CDI risk score. <i>Infection Control and Hospital Epidemiology</i> , 2015 , 36, 695-701	2	28
115	Association Between Outpatient Antibiotic Prescribing Practices and Community-Associated Clostridium difficile Infection. <i>Open Forum Infectious Diseases</i> , 2015 , 2, ofv113	1	52
114	Identification of population at risk for future Clostridium difficile infection following hospital discharge to be targeted for vaccine trials. <i>Vaccine</i> , 2015 , 33, 6241-9	4.1	10
113	A Potential Cellular Explanation for the Increased Risk of Clostridium difficile Infection Due to Hypoalbuminemia: Reply Di Bella et al. <i>Infection Control and Hospital Epidemiology</i> , 2015 , 36, 1480	2	1
112	The cost-benefit of federal investment in preventing Clostridium difficile infections through the use of a multifaceted infection control and antimicrobial stewardship program. <i>Infection Control and Hospital Epidemiology</i> , 2015 , 36, 681-7	2	21
111	Causes, Burden, and Prevention of Infection. <i>Infectious Diseases in Clinical Practice</i> , 2015 , 23, 281-288	0.2	7
110	Strategies to prevent Clostridium difficile infections in acute care hospitals: 2014 Update. <i>Infection Control and Hospital Epidemiology</i> , 2014 , 35, 628-45	2	122
109	Utility of a commercial PCR assay and a clinical prediction rule for detection of toxigenic Clostridium difficile in asymptomatic carriers. <i>Journal of Clinical Microbiology</i> , 2014 , 52, 315-8	9.7	19
108	Clostridium difficile infection among children across diverse US geographic locations. <i>Pediatrics</i> , 2014 , 133, 651-8	7.4	96
107	Strategies to prevent Clostridium difficile infections in acute care hospitals: 2014 update. <i>Infection Control and Hospital Epidemiology</i> , 2014 , 35 Suppl 2, S48-65	2	66
106	Strategies to Prevent Clostridium difficile Infections in Acute Care Hospitals: 2014 Update. <i>Infection Control and Hospital Epidemiology</i> , 2014 , 35, 628-645	2	99
105	CDC central-line bloodstream infection prevention efforts produced net benefits of at least \$640 Million during 1990-2008. <i>Health Affairs</i> , 2014 , 33, 1040-7	7	9

104	Determinants of Clostridium difficile Infection Incidence Across Diverse United States Geographic Locations. <i>Open Forum Infectious Diseases</i> , 2014 , 1, ofu048	1	28
103	Epidemiology of community-associated Clostridium difficile infection, 2009 through 2011. <i>JAMA Internal Medicine</i> , 2013 , 173, 1359-67	11.5	313
102	Attributable burden of hospital-onset Clostridium difficile infection: a propensity score matching study. <i>Infection Control and Hospital Epidemiology</i> , 2013 , 34, 588-96	2	65
101	Assessment of public health perspectives on responding to an emerging pathogen: carbapenem-resistant Enterobacteriaceae. <i>Journal of Public Health Management and Practice</i> , 2013 , 19, E27-32	1.9	4
100	Effect of nucleic acid amplification testing on population-based incidence rates of Clostridium difficile infection. <i>Clinical Infectious Diseases</i> , 2013 , 57, 1304-7	11.6	76
99	Virulence and clinical outcomes in Clostridium difficile infection: a complex business. <i>Clinical Infectious Diseases</i> , 2013 , 56, 906-7	11.6	10
98	Infection control in the multidrug-resistant era: tending the human microbiome. <i>Clinical Infectious Diseases</i> , 2012 , 54, 707-13	11.6	72
97	Evaluation of organizational culture among different levels of healthcare staff participating in the Institute for Healthcare Improvement's 100,000 Lives Campaign. <i>Infection Control and Hospital Epidemiology</i> , 2012 , 33, 135-43	2	15
96	Burden of Clostridium difficile infection in long-term care facilities in Monroe County, New York. <i>Infection Control and Hospital Epidemiology</i> , 2012 , 33, 1107-12	2	50
95	The roles of Clostridium difficile and norovirus among gastroenteritis-associated deaths in the United States, 1999-2007. <i>Clinical Infectious Diseases</i> , 2012 , 55, 216-23	11.6	224
94	Current status of Clostridium difficile infection epidemiology. <i>Clinical Infectious Diseases</i> , 2012 , 55 Suppl 2, S65-70	11.6	303
93	Hospital capacity during an influenza pandemic-Buenos Aires, Argentina, 2009. <i>Infection Control and Hospital Epidemiology</i> , 2011 , 32, 87-90	2	5
92	A case-control study of community-associated Clostridium difficile infection: no role for proton pump inhibitors. <i>American Journal of Medicine</i> , 2011 , 124, 276.e1-7	2.4	77
91	Clostridium difficile infection in outpatients, Maryland and Connecticut, USA, 2002-2007. <i>Emerging Infectious Diseases</i> , 2011 , 17, 1946-9	10.2	22
90	Clostridium difficile infection among children with cancer. <i>Pediatric Infectious Disease Journal</i> , 2011 , 30, 610-2	3.4	56
89	Automated surveillance of Clostridium difficile infections using BioSense. <i>Infection Control and Hospital Epidemiology</i> , 2011 , 32, 26-33	2	19
88	Using electronic health information to risk-stratify rates of Clostridium difficile infection in US hospitals. <i>Infection Control and Hospital Epidemiology</i> , 2011 , 32, 649-55	2	39
87	Healthcare personnel perceptions of hand hygiene monitoring technology. <i>Infection Control and Hospital Epidemiology</i> , 2011 , 32, 1091-6	2	45

86	Risk factors for and estimated incidence of community-associated Clostridium difficile infection, North Carolina, USA. <i>Emerging Infectious Diseases</i> , 2010 , 16, 197-204	10.2	168
85	Clostridium difficile infections among hospitalized children, United States, 1997-2006. <i>Emerging Infectious Diseases</i> , 2010 , 16, 604-9	10.2	194
84	Multicenter study of surveillance for hospital-onset Clostridium difficile infection by the use of ICD-9-CM diagnosis codes. <i>Infection Control and Hospital Epidemiology</i> , 2010 , 31, 262-8	2	58
83	Clinical practice guidelines for Clostridium difficile infection in adults: 2010 update by the society for healthcare epidemiology of America (SHEA) and the infectious diseases society of America (IDSA). <i>Infection Control and Hospital Epidemiology</i> , 2010 , 31, 431-55	2	2383
82	Cluster of necrotizing enterocolitis in a neonatal intensive care unit: New Mexico, 2007. <i>American Journal of Infection Control</i> , 2010 , 38, 144-8	3.8	17
81	Risk factors for SARS transmission from patients requiring intubation: a multicentre investigation in Toronto, Canada. <i>PLoS ONE</i> , 2010 , 5, e10717	3.7	189
80	Clostridium difficile in retail meat products, USA, 2007. <i>Emerging Infectious Diseases</i> , 2009 , 15, 819-21	10.2	219
79	Possible seasonality of Clostridium difficile in retail meat, Canada. <i>Emerging Infectious Diseases</i> , 2009 , 15, 802-5	10.2	103
78	Clostridium difficile strains from community-associated infections. <i>Journal of Clinical Microbiology</i> , 2009 , 47, 3004-7	9.7	53
77	Undiagnosed cases of fatal Clostridium-associated toxic shock in Californian women of childbearing age. <i>American Journal of Obstetrics and Gynecology</i> , 2009 , 201, 459.e1-7	6.4	31
76	Complete restriction of fluoroquinolone use to control an outbreak of Clostridium difficile infection at a community hospital. <i>Infection Control and Hospital Epidemiology</i> , 2009 , 30, 264-72	2	72
75	Multicenter study of the impact of community-onset Clostridium difficile infection on surveillance for C. difficile infection. <i>Infection Control and Hospital Epidemiology</i> , 2009 , 30, 518-25	2	23
74	Clostridium difficile infection in Ohio hospitals and nursing homes during 2006. <i>Infection Control and Hospital Epidemiology</i> , 2009 , 30, 526-33	2	92
73	Clostridium difficile infections in children. <i>Pediatric Infectious Disease Journal</i> , 2009 , 28, 145-6	3.4	69
72	Vancomycin-resistant Staphylococcus aureus in the United States, 2002-2006. <i>Clinical Infectious Diseases</i> , 2008 , 46, 668-74	11.6	348
71	The burden of vancomycin-resistant enterococcal infections in US hospitals, 2003 to 2004. <i>Diagnostic Microbiology and Infectious Disease</i> , 2008 , 62, 81-5	2.9	50
70	Assessment of Clostridium difficile-associated disease surveillance definitions, North Carolina, 2005. <i>Infection Control and Hospital Epidemiology</i> , 2008 , 29, 197-202	2	47
69	Outbreak of Enterococcus gallinarum infections after total knee arthroplasty. <i>Infection Control and Hospital Epidemiology</i> , 2008 , 29, 361-3	2	11

68	Impact of hydrogen peroxide vapor room decontamination on Clostridium difficile environmental contamination and transmission in a healthcare setting. <i>Infection Control and Hospital Epidemiology</i> , 2008 , 29, 723-9	2	203
67	Comparison of seven techniques for typing international epidemic strains of Clostridium difficile: restriction endonuclease analysis, pulsed-field gel electrophoresis, PCR-ribotyping, multilocus sequence typing, multilocus variable-number tandem-repeat analysis, amplified fragment length polymorphism, and surface layer protein A gene sequence typing. <i>Journal of Clinical Microbiology</i> , 2008 , 46, 497-504	9.7	269
66	Short- and long-term attributable costs of Clostridium difficile-associated disease in nonsurgical inpatients. <i>Clinical Infectious Diseases</i> , 2008 , 46, 497-504	11.6	154
65	The changing spectrum of clostridium difficile associated disease: implications for dentistry. <i>Journal of the American Dental Association</i> , 2008 , 139, 42-7	1.9	5
64	Vancomycin-resistant Staphylococcus aureus isolates associated with Inc18-like vanA plasmids in Michigan. <i>Antimicrobial Agents and Chemotherapy</i> , 2008 , 52, 452-7	5.9	106
63	Attributable outcomes of endemic Clostridium difficile-associated disease in nonsurgical patients. <i>Emerging Infectious Diseases</i> , 2008 , 14, 1031-8	10.2	132
62	Toxinotype V Clostridium difficile in humans and food animals. <i>Emerging Infectious Diseases</i> , 2008 , 14, 1039-45	10.2	173
61	Bench-to-bedside review: Clostridium difficile colitis. <i>Critical Care</i> , 2008 , 12, 203	10.8	43
60	Clostridium difficile-associated diarrhea: an emerging threat to pregnant women. <i>American Journal of Obstetrics and Gynecology</i> , 2008 , 198, 635.e1-6	6.4	76
59	Moxifloxacin therapy as a risk factor for Clostridium difficile-associated disease during an outbreak: attempts to control a new epidemic strain. <i>Infection Control and Hospital Epidemiology</i> , 2007 , 28, 198-201		79
58	Recommendations for surveillance of Clostridium difficile-associated disease. <i>Infection Control and Hospital Epidemiology</i> , 2007 , 28, 140-5	2	477
57	Clostridium difficile--associated disease in a setting of endemicity: identification of novel risk factors. <i>Clinical Infectious Diseases</i> , 2007 , 45, 1543-9	11.6	214
56	Increasing blood culture use at US hospital emergency department visits, 2001 to 2004. <i>Annals of Emergency Medicine</i> , 2007 , 50, 42-8, 48.e1-2	2.1	18
55	The challenges posed by reemerging Clostridium difficile infection. <i>Clinical Infectious Diseases</i> , 2007 , 45, 222-7	11.6	119
54	A multistate outbreak of Serratia marcescens bloodstream infection associated with contaminated intravenous magnesium sulfate from a compounding pharmacy. <i>Clinical Infectious Diseases</i> , 2007 , 45, 527-33	11.6	54
53	Multistate outbreak of Burkholderia cenocepacia colonization and infection associated with the use of intrinsically contaminated alcohol-free mouthwash. <i>Chest</i> , 2007 , 132, 1825-31	5.3	39
52	Evaluation of Clostridium difficile-associated disease pressure as a risk factor for C difficile-associated disease. <i>Archives of Internal Medicine</i> , 2007 , 167, 1092-7		102
51	Toxic shock associated with Clostridium sordellii and Clostridium perfringens after medical and spontaneous abortion. <i>Obstetrics and Gynecology</i> , 2007 , 110, 1027-33	4.9	80

50	Prevalence of Clostridium difficile environmental contamination and strain variability in multiple health care facilities. <i>American Journal of Infection Control</i> , 2007 , 35, 315-8	3.8	121
49	Changing Epidemiology of Clostridium difficile-Associated Disease. <i>Infectious Diseases in Clinical Practice</i> , 2006 , 14, 296-302	0.2	6
48	An association between reduced susceptibility to daptomycin and reduced susceptibility to vancomycin in Staphylococcus aureus. <i>Clinical Infectious Diseases</i> , 2006 , 42, 1652-3	11.6	145
47	A hospital outbreak of diarrhea due to an emerging epidemic strain of Clostridium difficile. <i>Archives of Internal Medicine</i> , 2006 , 166, 2518-24		92
46	Trends in antimicrobial resistance in health care-associated pathogens and effect on treatment. <i>Clinical Infectious Diseases</i> , 2006 , 42 Suppl 2, S65-71	11.6	106
45	Life-threatening sepsis caused by Burkholderia cepacia from contaminated intravenous flush solutions prepared by a compounding pharmacy in another state. <i>Pediatrics</i> , 2006 , 118, e212-5	7.4	23
44	Clostridium difficile-associated disease: new challenges from an established pathogen. <i>Cleveland Clinic Journal of Medicine</i> , 2006 , 73, 187-97	2.8	162
43	Changes in the epidemiology of methicillin-resistant Staphylococcus aureus in intensive care units in US hospitals, 1992-2003. <i>Clinical Infectious Diseases</i> , 2006 , 42, 389-91	11.6	403
42	Measurement of toxin production by Clostridium difficile [Authors'Reply. <i>Lancet, The</i> , 2006 , 367, 983-984]	4.0	1
41	Improving antimicrobial use in the hospital setting by providing usage feedback to prescribing physicians. <i>Infection Control and Hospital Epidemiology</i> , 2006 , 27, 378-82	2	48
40	Cluster of cases of severe acute respiratory syndrome among Toronto healthcare workers after implementation of infection control precautions: a case series. <i>Infection Control and Hospital Epidemiology</i> , 2006 , 27, 473-8	2	62
39	Clostridium difficile infection in patients discharged from US short-stay hospitals, 1996-2003. <i>Emerging Infectious Diseases</i> , 2006 , 12, 409-15	10.2	286
38	ICD-9 codes and surveillance for Clostridium difficile-associated disease. <i>Emerging Infectious Diseases</i> , 2006 , 12, 1576-9	10.2	154
37	Staphylococcus aureus-associated skin and soft tissue infections in ambulatory care. <i>Emerging Infectious Diseases</i> , 2006 , 12, 1715-23	10.2	224
36	Clostridium difficile Infection in Patients Discharged from US Short-stay Hospitals, 1996-2003. <i>Emerging Infectious Diseases</i> , 2006 , 12, 409-415	10.2	569
35	Severe community-acquired pneumonia due to Staphylococcus aureus, 2003-04 influenza season. <i>Emerging Infectious Diseases</i> , 2006 , 12, 894-9	10.2	309
34	Toxin production by an emerging strain of Clostridium difficile associated with outbreaks of severe disease in North America and Europe. <i>Lancet, The</i> , 2005 , 366, 1079-84	4.0	1149
33	Colonization of human immunodeficiency virus-infected outpatients in Taiwan with Candida species. <i>Journal of Clinical Microbiology</i> , 2005 , 43, 1600-3	9.7	45

32	An epidemic, toxin gene-variant strain of <i>Clostridium difficile</i> . <i>New England Journal of Medicine</i> , 2005 , 353, 2433-41	59.2	1674
31	Vancomycin-resistant staphylococci and enterococci: epidemiology and control. <i>Current Opinion in Infectious Diseases</i> , 2005 , 18, 300-5	5.4	138
30	Late recognition of SARS in nosocomial outbreak, Toronto. <i>Emerging Infectious Diseases</i> , 2005 , 11, 322-5	10.2	14
29	A national survey of severe influenza-associated complications among children and adults, 2003-2004. <i>Clinical Infectious Diseases</i> , 2005 , 40, 1693-6	11.6	43
28	Improving antimicrobial use: longitudinal assessment of an antimicrobial team including a clinical pharmacist. <i>Journal of Managed Care Pharmacy</i> , 2004 , 10, 152-8		15
27	Possible SARS coronavirus transmission during cardiopulmonary resuscitation. <i>Emerging Infectious Diseases</i> , 2004 , 10, 287-93	10.2	187
26	Wrestling SARS from uncertainty. <i>Emerging Infectious Diseases</i> , 2004 , 10, 167-70	10.2	24
25	Lack of SARS transmission and U.S. SARS case-patient. <i>Emerging Infectious Diseases</i> , 2004 , 10, 217-24	10.2	48
24	SARS and pregnancy: a case report. <i>Emerging Infectious Diseases</i> , 2004 , 10, 345-8	10.2	103
23	SARS in healthcare facilities, Toronto and Taiwan. <i>Emerging Infectious Diseases</i> , 2004 , 10, 777-81	10.2	121
22	Molecular epidemiology of emerging reduced susceptibility to fluoroquinolones in <i>Escherichia coli</i> . <i>Journal of Medical Microbiology</i> , 2004 , 53, 85-86	3.2	2
