

Jacqueline M Wallace

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8664805/jacqueline-m-wallace-publications-by-year.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
58	Perinatal complications and maximising lamb survival in an adolescent paradigm characterised by premature delivery and low birthweight. <i>PLoS ONE</i> , 2021 , 16, e0259890	3.7	
57	Does interpregnancy BMI change affect the risk of complications in the second pregnancy? Analysis of pooled data from Aberdeen, Finland and Malta. <i>International Journal of Obesity</i> , 2021 ,	5.5	1
56	Early pregnancy weight gain and fat accrual predict pregnancy outcome in growing adolescent sheep. <i>Reproduction</i> , 2021 , 161, 227-238	3.8	1
55	iThe Importance of Nutrition in Pregnancy and Lactation: Lifelong Consequences.. <i>American Journal of Obstetrics and Gynecology</i> , 2021 ,	6.4	9
54	Ovine prenatal growth-restriction and sex influence fetal adipose tissue phenotype and impact postnatal lipid metabolism and adiposity in vivo from birth until adulthood. <i>PLoS ONE</i> , 2020 , 15, e0228732	3.7	6
53	A new customised placental weight standard redefines the relationship between maternal obesity and extremes of placental size and is more closely associated with pregnancy complications than an existing population standard. <i>Journal of Developmental Origins of Health and Disease</i> , 2020 , 11, 350-359	2.4	1
52	Ovine prenatal growth-restriction and sex influence fetal adipose tissue phenotype and impact postnatal lipid metabolism and adiposity in vivo from birth until adulthood 2020 , 15, e0228732		
51	Ovine prenatal growth-restriction and sex influence fetal adipose tissue phenotype and impact postnatal lipid metabolism and adiposity in vivo from birth until adulthood 2020 , 15, e0228732		
50	Ovine prenatal growth-restriction and sex influence fetal adipose tissue phenotype and impact postnatal lipid metabolism and adiposity in vivo from birth until adulthood 2020 , 15, e0228732		
49	Ovine prenatal growth-restriction and sex influence fetal adipose tissue phenotype and impact postnatal lipid metabolism and adiposity in vivo from birth until adulthood 2020 , 15, e0228732		
48	Competition for nutrients in pregnant adolescents: consequences for maternal, conceptus and offspring endocrine systems. <i>Journal of Endocrinology</i> , 2019 , 242, T1-T19	4.7	15
47	Ovine prenatal growth restriction impacts glucose metabolism and body composition throughout life in both sexes. <i>Reproduction</i> , 2018 , 156, 103-119	3.8	11
46	Impact of donor and recipient adiposity on placental and fetal growth in adolescent sheep. <i>Reproduction</i> , 2017 , 153, 381-394	3.8	3
45	Weight change across the start of three consecutive pregnancies and the risk of maternal morbidity and SGA birth at the second and third pregnancy. <i>PLoS ONE</i> , 2017 , 12, e0179589	3.7	13
44	Young Maternal Age, Body Composition and Gestational Intake Impact Pregnancy Outcome: Translational Perspectives 2016 , 57-80		1
43	Inter-Pregnancy Weight Change and the Risk of Recurrent Pregnancy Complications. <i>PLoS ONE</i> , 2016 , 11, e0154812	3.7	24
42	Peri- and Postnatal Effects of Prenatal Adenoviral VEGF Gene Therapy in Growth-Restricted Sheep. <i>Biology of Reproduction</i> , 2016 , 94, 142	3.9	32

41	Placental vascularity and markers of angiogenesis in relation to prenatal growth status in overnourished adolescent ewes. <i>Placenta</i> , 2016 , 46, 79-86	3.4	13
40	Undernutrition and stage of gestation influence fetal adipose tissue gene expression. <i>Journal of Molecular Endocrinology</i> , 2015 , 54, 263-75	4.5	20
39	Inter-pregnancy weight change impacts placental weight and is associated with the risk of adverse pregnancy outcomes in the second pregnancy. <i>BMC Pregnancy and Childbirth</i> , 2014 , 14, 40	3.2	36
38	Influence of birth weight and gender on lipid status and adipose tissue gene expression in lambs. <i>Journal of Molecular Endocrinology</i> , 2014 , 53, 131-44	4.5	16
37	Impact of embryo donor adiposity, birthweight and gender on early postnatal growth, glucose metabolism and body composition in the young lamb. <i>Reproduction, Fertility and Development</i> , 2014 , 26, 665-81	1.8	9
36	Uteroplacental adenovirus vascular endothelial growth factor gene therapy increases fetal growth velocity in growth-restricted sheep pregnancies. <i>Human Gene Therapy</i> , 2014 , 25, 375-84	4.8	56
35	Gestational age, gender and parity specific centile charts for placental weight for singleton deliveries in Aberdeen, UK. <i>Placenta</i> , 2013 , 34, 269-74	3.4	53
34	Decreasing maternal nutrient intake during the final third of pregnancy in previously overnourished adolescent sheep: effects on maternal nutrient partitioning and feto-placental development. <i>Placenta</i> , 2012 , 33, 114-21	3.4	11
33	Fetoplacental biometry and umbilical artery Doppler velocimetry in the overnourished adolescent model of fetal growth restriction. <i>American Journal of Obstetrics and Gynecology</i> , 2012 , 207, 141.e6-15	6.4	32
32	In vivo changes in central and peripheral insulin sensitivity in a large animal model of obesity. <i>Endocrinology</i> , 2012 , 153, 3147-57	4.8	15
31	Placental weight and efficiency in relation to maternal body mass index and the risk of pregnancy complications in women delivering singleton babies. <i>Placenta</i> , 2012 , 33, 611-8	3.4	99
30	Monitoring for potential adverse effects of prenatal gene therapy: use of large animal models with relevance to human application. <i>Methods in Molecular Biology</i> , 2012 , 891, 291-328	1.4	4
29	Adverse metabolic phenotype in low-birth-weight lambs and its modification by postnatal nutrition. <i>British Journal of Nutrition</i> , 2012 , 107, 510-22	3.6	18
28	Ultrasonographic assessment of growth and estimation of birthweight in late gestation fetal sheep. <i>Ultrasound in Medicine and Biology</i> , 2011 , 37, 1588-95	3.5	26
27	Postnatal hypothalamic-pituitary-adrenal function in sheep is influenced by age and sex, but not by prenatal growth restriction. <i>Reproduction, Fertility and Development</i> , 2011 , 23, 275-84	1.8	8
26	Influence of Maternal Dietary Intake, Intrauterine Growth Restriction (IUGR), and Estrogen Replacement on Placental Development and Vascularity.. <i>Biology of Reproduction</i> , 2011 , 85, 801-801	3.9	2
25	Effect of weight and adiposity at conception and wide variations in gestational dietary intake on pregnancy outcome and early postnatal performance in young adolescent sheep. <i>Biology of Reproduction</i> , 2010 , 82, 320-30	3.9	41
24	Liver iron status and associated haematological parameters in relation to fetal growth and pregnancy outcome in rapidly growing adolescent sheep carrying a singleton lamb derived by embryo transfer. <i>Reproduction, Fertility and Development</i> , 2010 , 22, 1230-6	1.8	4

23	Fetoplacental growth and vascular development in overnourished adolescent sheep at day 50, 90 and 130 of gestation. <i>Reproduction</i> , 2009 , 137, 749-57	3.8	47
22	Expression of energy balance regulatory genes in the developing ovine fetal hypothalamus at midgestation and the influence of hyperglycemia. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2008 , 294, R1895-900	3.2	18
21	An immunohistochemical study of the localization and developmental expression of ghrelin and its functional receptor in the ovine placenta. <i>Reproductive Biology and Endocrinology</i> , 2007 , 5, 25	5	28
20	Sensitivity to metabolic signals in late-gestation growth-restricted fetuses from rapidly growing adolescent sheep. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 2007 , 293, E1233-41	6	30
19	Placental growth, angiogenic gene expression, and vascular development in undernourished adolescent sheep. <i>Biology of Reproduction</i> , 2007 , 77, 351-7	3.9	17
18	The expression of ovine placental lactogen, StAR and progesterone-associated steroidogenic enzymes in placentae of overnourished growing adolescent ewes. <i>Reproduction</i> , 2007 , 133, 785-96	3.8	34
17	Maternal and fetal growth, body composition, endocrinology, and metabolic status in undernourished adolescent sheep. <i>Biology of Reproduction</i> , 2007 , 77, 343-50	3.9	48
16	Late but not early gestational maternal growth hormone treatment increases fetal adiposity in overnourished adolescent sheep. <i>Biology of Reproduction</i> , 2006 , 75, 231-9	3.9	29
15	Effect of diet composition on pregnancy outcome in overnourished rapidly growing adolescent sheep. <i>British Journal of Nutrition</i> , 2006 , 96, 1060-8	3.6	32
14	Evidence for altered placental blood flow and vascularity in compromised pregnancies. <i>Journal of Physiology</i> , 2006 , 572, 51-8	3.9	233
13	Overnourishing pregnant adolescent ewes preserves perirenal fat deposition in their growth-restricted fetuses. <i>Reproduction, Fertility and Development</i> , 2006 , 18, 357-64	1.8	25
12	Developmental indices of nutritionally induced placental growth restriction in the adolescent sheep. <i>Pediatric Research</i> , 2005 , 57, 599-604	3.2	26
11	Nutritional paradigms of ovine fetal growth restriction: implications for human pregnancy. <i>Human Fertility</i> , 2005 , 8, 179-87	1.9	34
10	The effect of overnourishing singleton-bearing adult ewes on nutrient partitioning to the gravid uterus. <i>British Journal of Nutrition</i> , 2005 , 94, 533-9	3.6	41
9	Influence of maternal nutrition on messenger RNA expression of placental angiogenic factors and their receptors at midgestation in adolescent sheep. <i>Biology of Reproduction</i> , 2005 , 72, 1004-9	3.9	88
8	Maternal growth hormone treatment from day 35 to 80 of gestation alters nutrient partitioning in favor of uteroplacental growth in the overnourished adolescent sheep. <i>Biology of Reproduction</i> , 2004 , 70, 1277-85	3.9	48
7	Nutritionally mediated placental growth restriction in the growing adolescent: consequences for the fetus. <i>Biology of Reproduction</i> , 2004 , 71, 1055-62	3.9	109
6	Placental glucose transport in growth-restricted pregnancies induced by overnourishing adolescent sheep. <i>Journal of Physiology</i> , 2003 , 547, 85-94	3.9	55

5	Blood flows and nutrient uptakes in growth-restricted pregnancies induced by overnourishing adolescent sheep. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2002 , 282, R1027-36	3.2	84
4	Nutrient partitioning during pregnancy: adverse gestational outcome in overnourished adolescent dams. <i>Proceedings of the Nutrition Society</i> , 2000 , 59, 107-17	2.9	37
3	Switching maternal dietary intake at the end of the first trimester has profound effects on placental development and fetal growth in adolescent ewes carrying singleton fetuses. <i>Biology of Reproduction</i> , 1999 , 61, 101-10	3.9	79
2	Growth and metabolism of fetal and maternal muscles of adolescent sheep on adequate or high feed intake: possible role of protein kinase C-alpha in fetal muscle growth. <i>British Journal of Nutrition</i> , 1998 , 79, 351-7	3.6	8
1	Adaptive maternal, placental and fetal responses to nutritional extremes in the pregnant adolescent: lessons from sheep112-127		4
