#	Paper	IF	Citations
150	Clinical features, management, and prognosis of spontaneous coronary artery dissection. <i>Circulation</i> , 2012 , 126, 579-88	16.7	567
149	National study of physician awareness and adherence to cardiovascular disease prevention guidelines. <i>Circulation</i> , 2005 , 111, 499-510	16.7	548
148	Evidence-based guidelines for cardiovascular disease prevention in women. <i>Circulation</i> , 2004 , 109, 672-936.7	16.7	526
147	Spontaneous Coronary Artery Dissection: Current State of the Science: A Scientific Statement From the American Heart Association. <i>Circulation</i> , 2018 , 137, e523-e557	16.7	445
146	Spontaneous coronary artery dissection: revascularization versus conservative therapy. <i>Circulation: Cardiovascular Interventions</i> , 2014 , 7, 777-86	6	352
145	Effective mitral regurgitant orifice area: clinical use and pitfalls of the proximal isovelocity surface area method. <i>Journal of the American College of Cardiology</i> , 1995 , 25, 703-9	15.1	320
144	Longitudinal Study Evaluating the Association Between Physician Burnout and Changes in Professional Work Effort. <i>Mayo Clinic Proceedings</i> , 2016 , 91, 422-31	6.4	319
143	Dual-chamber pacing for hypertrophic cardiomyopathy: a randomized, double-blind, crossover trial. <i>Journal of the American College of Cardiology</i> , 1997 , 29, 435-41	15.1	285
142	Pericardial disease: diagnosis and management. <i>Mayo Clinic Proceedings</i> , 2010 , 85, 572-93	6.4	204
141	Coronary artery tortuosity in spontaneous coronary artery dissection: angiographic characteristics and clinical implications. <i>Circulation: Cardiovascular Interventions</i> , 2014 , 7, 656-62	6	174
140	Role of noninvasive testing in the clinical evaluation of women with suspected ischemic heart disease: a consensus statement from the American Heart Association. <i>Circulation</i> , 2014 , 130, 350-79	16.7	170
139	Barriers to participation in cardiac rehabilitation. <i>American Heart Journal</i> , 2009 , 158, 852-9	4.9	144
138	Speaker Introductions at Internal Medicine Grand Rounds: Forms of Address Reveal Gender Bias. <i>Journal of Women's Health</i> , 2017 , 26, 413-419	3	143
137	Spontaneous Coronary Artery Dissection Associated With Pregnancy. <i>Journal of the American College of Cardiology</i> , 2017 , 70, 426-435	15.1	139
136	Prevalence of extracoronary vascular abnormalities and fibromuscular dysplasia in patients with spontaneous coronary artery dissection. <i>American Journal of Cardiology</i> , 2015 , 115, 1672-7	3	117
135	Clinical and echocardiographic characteristics of significant pericardial effusions following cardiothoracic surgery and outcomes of echo-guided pericardiocentesis for management: Mayo Clinic experience, 1979-1998. <i>Chest</i> , 1999 , 116, 322-31	5.3	116
134	Outcomes of primary and secondary treatment of pericardial effusion in patients with malignancy. <i>Mayo Clinic Proceedings</i> , 2000 , 75, 248-53	6.4	111

133	Spontaneous coronary artery dissection and its association with heritable connective tissue disorders. <i>Heart</i> , 2016 , 102, 876-81	5.1	98
132	Association of the PHACTR1/EDN1 Genetic Locus With Spontaneous Coronary Artery Dissection. <i>Journal of the American College of Cardiology</i> , 2019 , 73, 58-66	15.1	86
131	Spontaneous coronary artery dissection: a disease-specific, social networking community-initiated study. <i>Mayo Clinic Proceedings</i> , 2011 , 86, 845-50	6.4	85
130	Outcomes of Primary and Secondary Treatment of Pericardial Effusion in Patients With Malignancy. <i>Mayo Clinic Proceedings</i> , 2000 , 75, 248-253	6.4	84
129	Evidence-based guidelines for cardiovascular disease prevention in women. <i>Journal of the American College of Cardiology</i> , 2004 , 43, 900-21	15.1	80
128	Gender distribution of U.S. medical school faculty by academic track type. <i>Academic Medicine</i> , 2014 , 89, 312-7	3.9	75
127	Back to the Future: Achieving Health Equity Through Health Informatics and Digital Health. <i>JMIR MHealth and UHealth</i> , 2020 , 8, e14512	5.5	70
126	Familial spontaneous coronary artery dissection: evidence for genetic susceptibility. <i>JAMA Internal Medicine</i> , 2015 , 175, 821-6	11.5	66
125	Multimodality Imaging for Spontaneous Coronary Artery Dissection in Women. <i>JACC: Cardiovascular Imaging</i> , 2016 , 9, 436-50	8.4	66
124	Pericardiectomy vs medical management in patients with relapsing pericarditis. <i>Mayo Clinic Proceedings</i> , 2012 , 87, 1062-70	6.4	60
123	Spontaneous Coronary Artery Dissection: JACC State-of-the-Art Review. <i>Journal of the American College of Cardiology</i> , 2020 , 76, 961-984	15.1	60
122	Prevalence and predictors of depression and anxiety among survivors of myocardial infarction due to spontaneous coronary artery dissection. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2014 , 34, 138-42	3.6	58
121	Low rate of sex-specific result reporting in cardiovascular trials. <i>Mayo Clinic Proceedings</i> , 2007 , 82, 166-70	6.4	57
120	Effectiveness and Safety of Anakinra for Management of Refractory Pericarditis. <i>American Journal of Cardiology</i> , 2015 , 116, 1277-9	3	50
119	A novel application of CT angiography to detect extracoronary vascular abnormalities in patients with spontaneous coronary artery dissection. <i>Journal of Cardiovascular Computed Tomography</i> , 2014 , 8, 189-97	2.8	50
118	Usefulness of Cardiac Rehabilitation After Spontaneous Coronary Artery Dissection. <i>American Journal of Cardiology</i> , 2016 , 117, 1604-1609	3	49
117	Quality and Equitable Health Care Gaps for Women: Attributions to Sex Differences in Cardiovascular Medicine. <i>Journal of the American College of Cardiology</i> , 2017 , 70, 373-388	15.1	47
116	What Clinicians Should Know Bout Spontaneous Coronary Artery Dissection. <i>Mayo Clinic Proceedings</i> , 2015 , 90, 1125-30	6.4	46

115	Low Rate of Sex-Specific Result Reporting in Cardiovascular Trials. <i>Mayo Clinic Proceedings</i> , 2007 , 82, 166-170	6.4	46
114	Assessing and Mitigating Bias in Medical Artificial Intelligence: The Effects of Race and Ethnicity on a Deep Learning Model for ECG Analysis. <i>Circulation: Arrhythmia and Electrophysiology</i> , 2020 , 13, e007988	6.4	43
113	Early Natural History of Spontaneous Coronary Artery Dissection. <i>Circulation: Cardiovascular Interventions</i> , 2018 , 11, e006772	6	43
112	Hypertension in women: current understanding of gender differences. <i>Mayo Clinic Proceedings</i> , 1998 , 73, 157-65	6.4	41
111	A survey of attitudes and experiences of women with heart disease. <i>Women's Health Issues</i> , 2003 , 13, 23-31	2.6	38
110	Spontaneous coronary artery dissection: challenges of coronary computed tomography angiography. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2018 , 7, 609-613	4.3	37
109	Pregnancy after spontaneous coronary artery dissection: a case series. <i>Annals of Internal Medicine</i> , 2015 , 162, 598-600	8	36
108	Cardiac rehabilitation after spontaneous coronary artery dissection. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2015 , 35, 328-33	3.6	35
107	Focused Cardiovascular Care for Women: The Need and Role in Clinical Practice. <i>Mayo Clinic Proceedings</i> , 2016 , 91, 226-40	6.4	32
106	Spontaneous coronary artery dissection (SCAD): new insights into this not-so-rare condition. <i>Texas Heart Institute Journal</i> , 2014 , 41, 295-8	0.8	32
105	Identification of Susceptibility Loci for Spontaneous Coronary Artery Dissection. <i>JAMA Cardiology</i> , 2020 , 5, 929-938	16.2	28
104	Fostering African-American Improvement in Total Health (FAITH!): An Application of the American Heart Association's Life is Simple 7 among Midwestern African-Americans. <i>Journal of Racial and Ethnic Health Disparities</i> , 2017 , 4, 269-281	3.5	27
103	African American women's perceptions and attitudes regarding participation in medical research: the Mayo Clinic/The Links, Incorporated partnership. <i>Journal of Women's Health</i> , 2014 , 23, 681-7	3	27
102	Self-reported weight, weight goals, and weight control strategies of a midwestern population. <i>Mayo Clinic Proceedings</i> , 2002 , 77, 114-21	6.4	27
101	Spontaneous Coronary Artery Dissection. <i>Current Cardiology Reports</i> , 2016 , 18, 60	4.2	27
100	Prevalence and Clinical Factors of Migraine in Patients With Spontaneous Coronary Artery Dissection. <i>Journal of the American Heart Association</i> , 2018 , 7, e010140	6	27
99	Spontaneous coronary artery dissection in women: What is known and what is yet to be understood. <i>Clinical Cardiology</i> , 2018 , 41, 203-210	3.3	26
98	Spontaneous coronary artery dissection: Acute findings on coronary computed tomography angiography. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2019 , 8, 467-475	4.3	26

97	Self-reported Weight, Weight Goals, and Weight Control Strategies of a Midwestern Population. <i>Mayo Clinic Proceedings</i> , 2002 , 77, 114-121	6.4	25
96	Fibrin d-dimer concentration, deep vein thrombosis symptom duration, and venous thrombus volume. <i>Angiology</i> , 2011 , 62, 253-6	2.1	23
95	Sex and Gender Disparities in the Management and Outcomes of Acute Myocardial Infarction-Cardiogenic Shock in Older Adults. <i>Mayo Clinic Proceedings</i> , 2020 , 95, 1916-1927	6.4	23
94	mHealth Intervention Promoting Cardiovascular Health Among African-Americans: Recruitment and Baseline Characteristics of a Pilot Study. <i>JMIR Research Protocols</i> , 2018 , 7, e31	2	22
93	A Structured Compensation Plan Results in Equitable Physician Compensation: A Single-Center Analysis. <i>Mayo Clinic Proceedings</i> , 2020 , 95, 35-43	6.4	22
92	Rare Missense Variants in TLN1 Are Associated With Familial and Sporadic Spontaneous Coronary Artery Dissection. <i>Circulation Genomic and Precision Medicine</i> , 2019 , 12, e002437	5.2	21
91	A perspective on the New American College of Cardiology/American Heart Association guidelines for cardiovascular risk assessment. <i>Mayo Clinic Proceedings</i> , 2014 , 89, 1244-56	6.4	21
90	Outpatient two-dimensional echocardiography-guided pericardiocentesis. <i>Journal of the American Society of Echocardiography</i> , 1998 , 11, 433-5	5.8	20
89	Menstrual Chest Pain in Women With History of Spontaneous Coronary Artery Dissection. <i>Journal of the American College of Cardiology</i> , 2017 , 70, 2308-2309	15.1	19
88	Improving Cardiovascular Health Among African-Americans Through Mobile Health: the FAITH! App Pilot Study. <i>Journal of General Internal Medicine</i> , 2019 , 34, 1376-1378	4	19
87	How does preeclampsia predispose to future cardiovascular disease?. <i>Current Hypertension Reports</i> , 2014 , 16, 472	4.7	19
86	Promoting cardiovascular health and wellness among African-Americans: Community participatory approach to design an innovative mobile-health intervention. <i>PLoS ONE</i> , 2019 , 14, e0218724	3.7	18
85	The Evidence on Estrogen, Progesterone, and Spontaneous Coronary Artery Dissection. <i>JAMA Cardiology</i> , 2019 , 4, 403-404	16.2	18
84	Analysis of Posttraumatic Stress Disorder, Depression, Anxiety, and Resiliency Within the Unique Population of Spontaneous Coronary Artery Dissection Survivors. <i>Journal of the American Heart Association</i> , 2020 , 9, e014372	6	18
83	Gender Differences in Physician Service Provision Using Medicare Claims Data. <i>Mayo Clinic Proceedings</i> , 2017 , 92, 870-880	6.4	18
82	Emergency Department Presentation of Patients with Spontaneous Coronary Artery Dissection. <i>Journal of Emergency Medicine</i> , 2017 , 52, 286-291	1.5	18
81	Does Patient-Physician Gender Concordance Influence Patient Perceptions or Outcomes?. <i>Journal of the American College of Cardiology</i> , 2021 , 77, 1135-1138	15.1	18
80	Usefulness of Cardiac Magnetic Resonance Imaging in Patients With Acute Spontaneous Coronary Artery Dissection. <i>American Journal of Cardiology</i> , 2018 , 122, 1624-1629	3	18

79	Taking a Giant Step Toward Women's Heart Health: Finding Policy Solutions to Unanswered Research Questions. <i>Women's Health Issues</i> , 2015 , 25, 429-32	2.6	17
78	Gender disparities in managed care: it's time for action. <i>Women's Health Issues</i> , 2007 , 17, 116-9	2.6	17
77	Impact of a History of Hypertension in Pregnancy on Later Diagnosis of Atrial Fibrillation. <i>Journal of the American Heart Association</i> , 2018 , 7,	6	17
76	10 Recommendations to Enhance Recruitment, Retention, and Career Advancement of Women Cardiologists. <i>Journal of the American College of Cardiology</i> , 2019 , 74, 1839-1842	15.1	16
75	Spontaneous Coronary Artery Dissection in Pregnancy: What Every Obstetrician Should Know. <i>Obstetrics and Gynecology</i> , 2016 , 128, 731-738	4.9	16
74	Preventing cardiovascular disease in women. <i>American Family Physician</i> , 2006 , 74, 1331-40	1.3	16
73	Association of Pregnancy With Recurrence of Spontaneous Coronary Artery Dissection Among Women With Prior Coronary Artery Dissection. <i>JAMA Network Open</i> , 2020 , 3, e2018170	10.4	13
72	Gender Distribution Among American Board of Medical Specialties Boards of Directors. <i>Mayo Clinic Proceedings</i> , 2016 , 91, 1590-1593	6.4	13
71	Women With Nonalcoholic Fatty Liver Disease Lose Protection Against Cardiovascular Disease: A Longitudinal Cohort Study. <i>American Journal of Gastroenterology</i> , 2019 , 114, 1764-1771	0.7	13
70	Pregnancy and Parenting During Cardiology Fellowship. <i>Journal of the American Heart Association</i> , 2019 , 8, e012137	6	12
69	Dispelling the Myths: Calling for Sex-Specific Reporting of Trial Results. <i>Mayo Clinic Proceedings</i> , 2008 , 83, 523-525	6.4	12
68	The CardioVision 2020 baseline community report card. <i>Mayo Clinic Proceedings</i> , 2000 , 75, 1153-9	6.4	12
67	Gender Differences in Publication Authorship During COVID-19: A Bibliometric Analysis of High-Impact Cardiology Journals. <i>Journal of the American Heart Association</i> , 2021 , 10, e019005	6	12
66	Broken-hearted women: the complex relationship between depression and cardiovascular disease. <i>Women's Health</i> , 2009 , 5, 709-25	3	11
65	Lack of Association of Spontaneous Coronary Artery Dissection With Autoimmune Disease. <i>Journal of the American College of Cardiology</i> , 2020 , 76, 2226-2234	15.1	11
64	Working Agenda for Black Mothers: A Position Paper From the Association of Black Cardiologists on Solutions to Improving Black Maternal Health. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2021 , 14, e007643	5.8	11
63	Representation of Women Among Invited Speakers for Grand Rounds. <i>Journal of Women's Health</i> , 2020 , 29, 1268-1272	3	10
62	Care of the adult Hodgkin lymphoma survivor. <i>American Journal of Medicine</i> , 2011 , 124, 1106-12	2.4	10

61	Preventing cardiovascular disease: Participant perspectives of the FAITH! Program. <i>Journal of Health Psychology</i> , 2019 , 24, 1710-1723	3.1	10
60	Addressing Sexual Harassment in the #MeToo Era: An Institutional Approach. <i>Mayo Clinic Proceedings</i> , 2020 , 95, 749-757	6.4	9
59	Mayo Clinic's 5-Step Policy for Responding to Bias Incidents. <i>AMA Journal of Ethics</i> , 2019 , 21, E521-529	1.4	9
58	Unique Presentations and Etiologies of Myocardial Infarction in Women. <i>Current Treatment Options in Cardiovascular Medicine</i> , 2017 , 19, 66	2.1	9
57	CardioVision 2020: program acceptance and progress after 4 years. <i>American Journal of Preventive Medicine</i> , 2006 , 30, 137-43	6.1	9
56	Authentic Connections Groups: A Pilot Test of an Intervention Aimed at Enhancing Resilience Among Nurse Leader Mothers. <i>Worldviews on Evidence-Based Nursing</i> , 2020 , 17, 39-48	2.9	8
55	Association between history of psychosis and cardiovascular disease in bipolar disorder. <i>Bipolar Disorders</i> , 2015 , 17, 518-27	3.8	8
54	Multivessel spontaneous coronary artery dissection associated with hormonal infertility therapy in a 39-year-old female. <i>Journal of Cardiology Cases</i> , 2012 , 5, e69-e72	0.6	8
53	Advancing Women's Heart Health through Policy and Science: Highlights from the First National Policy and Science Summit on Women's Cardiovascular Health. <i>Women's Health Issues</i> , 2016 , 26, 251-5	2.6	8
52	A multicenter, prospective study to evaluate the use of contrast stress echocardiography in early menopausal women at risk for coronary artery disease: trial design and baseline findings. <i>Journal of Women's Health</i> , 2013 , 22, 173-83	3	7
51	Attitudes of Olmsted County, Minnesota, residents about tobacco smoke in restaurants and bars. <i>Mayo Clinic Proceedings</i> , 2001 , 76, 134-7	6.4	7
50	Coronary endothelial function and spontaneous coronary artery dissection. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2020 , 9, 90-95	4.3	7
49	Global Prevalence and Impact of Hostility, Discrimination, and Harassment in the Cardiology Workplace. <i>Journal of the American College of Cardiology</i> , 2021 , 77, 2398-2409	15.1	6
48	Where are the women in academic cardiology?. <i>Lancet, The</i> , 2018 , 392, 2152-2153	4.0	6
47	A Cardiovascular Health and Wellness Mobile Health Intervention Among Church-Going African Americans: Formative Evaluation of the FAITH! App. <i>JMIR Formative Research</i> , 2020 , 4, e21450	2.5	5
46	Current Parental Leave Policies for Medical Students at U.S. Medical Schools: A Comparative Study. <i>Academic Medicine</i> , 2021 , 96, 1315-1318	3.9	5
45	Prevalent Health Concerns Among African American Women Belonging to a National Volunteer Service Organization (The Links, Incorporated). <i>Journal of Racial and Ethnic Health Disparities</i> , 2017 , 4, 19-24	3.5	4
44	Linking Education to Action: A Program to Increase Research Participation Among African American Women. <i>Journal of Women's Health</i> , 2018 , 27, 1242-1249	3	4

43	Cardiovascular care for women: the 10-Q Report and beyond. <i>American Journal of Cardiology</i> , 2013 , 112, S2	3	4
42	Hormone replacement therapy and risk of acute myocardial infarction in postmenopausal women with diabetes mellitus. <i>American Journal of Cardiology</i> , 2003 , 91, 1275-7	3	4
41	The Jacobs Institute of Women's Health report on the prevention of heart disease in women: findings and recommendations from the "Women and Heart Disease: Putting Prevention into Primary Care" conference. <i>Women's Health Issues</i> , 2003 , 13, 115-21	2.6	4
40	Community-based, cluster-randomized pilot trial of a cardiovascular mHealth intervention: Rationale, design, and baseline findings of the FAITH! Trial.. <i>American Heart Journal</i> , 2022 , 247, 1-1	4.9	4
