#	ARTICLE	IF	CITATIONS
1	The five-factor model and personality disorder empirical literature: A meta-analytic review. <i>Clinical Psychology Review</i> , 2004, 23, 1055-1085.	6.0	775
2	Psychometric properties of the Depression Anxiety Stress Scales (DASS) in depressed clinical samples. <i>British Journal of Clinical Psychology</i> , 2007, 46, 283-297.	1.7	205
3	Blood-injury phobia. <i>Clinical Psychology Review</i> , 1994, 14, 443-461.	6.0	192
4	The Perinatal Anxiety Screening Scale: development and preliminary validation. <i>Archives of Women's Mental Health</i> , 2014, 17, 443-454.	1.2	144
5	The benefits and risks of asking research participants about suicide: A meta-analysis of the impact of exposure to suicide-related content. <i>Clinical Psychology Review</i> , 2018, 64, 1-12.	6.0	111
6	Detecting the severity of perinatal anxiety with the Perinatal Anxiety Screening Scale (PASS). <i>Journal of Affective Disorders</i> , 2015, 186, 18-25.	2.0	99
7	Attention to phobic stimuli during exposure: the effect of distraction on anxiety reduction, self-efficacy and perceived control. <i>Behaviour Research and Therapy</i> , 2004, 42, 249-275.	1.6	95
8	Determinants of antenatal depression and postnatal depression in Australia. <i>BMC Psychiatry</i> , 2018, 18, 49.	1.1	93
9	Assessing clinical significance of treatment outcomes using the DASS-21.. <i>Psychological Assessment</i> , 2013, 25, 1103-1110.	1.2	91
10	Confirming the Three-Factor Structure of the Disgust Scale"Revised in Eight Countries. <i>Journal of Cross-Cultural Psychology</i> , 2009, 40, 234-255.	1.0	87
11	Influenza epidemics and incidence of schizophrenia, affective disorders and mental retardation in Western Australia: no evidence of a major effect. <i>Schizophrenia Research</i> , 1997, 26, 25-39.	1.1	85
12	Evaluating the clinical significance of responses by psychiatric inpatients to the mental health subscales of the SF-36. <i>Journal of Affective Disorders</i> , 2007, 98, 91-97.	2.0	80
13	Bridging the gap between best evidence and best practice in mental health. <i>Clinical Psychology Review</i> , 2010, 30, 127-142.	6.0	77
14	The role of disgust in faintness elicited by blood and injection stimuli. <i>Journal of Anxiety Disorders</i> , 2003, 17, 45-58.	1.5	75
15	Monitoring treatment response and outcomes using the World Health Organization's Wellbeing Index in psychiatric care. <i>Journal of Affective Disorders</i> , 2010, 122, 133-138.	2.0	74
16	Therapist Effects on and Predictors of Non"Consensual Dropout in Psychotherapy. <i>Clinical Psychology and Psychotherapy</i> , 2017, 24, 312-321.	1.4	72
17	Progress monitoring and feedback in psychiatric care reduces depressive symptoms. <i>Journal of Affective Disorders</i> , 2010, 127, 139-146.	2.0	70
18	The Blood-Injection Symptom Scale (BISS): Assessing a structure of phobic symptoms elicited by blood and injections. <i>Behaviour Research and Therapy</i> , 1997, 35, 457-464.	1.6	61

#	ARTICLE	IF	CITATIONS
19	Readmission: A useful indicator of the quality of inpatient psychiatric care. <i>Journal of Affective Disorders</i> , 2010, 126, 206-213.	2.0	60
20	Measuring Mental Health Outcomes in a Private Psychiatric Clinic: Health of the Nation Outcome Scales and Medical Outcomes Short Form SF-36. <i>Australian and New Zealand Journal of Psychiatry</i> , 2001, 35, 377-381.	1.3	54
21	Fear reduction during in vivo exposure to blood-injection stimuli: Distraction vs. attentional focus. <i>British Journal of Clinical Psychology</i> , 2003, 42, 13-25.	1.7	49
22	Interpersonal problems across anxiety, depression, and eating disorders: A transdiagnostic examination. <i>British Journal of Clinical Psychology</i> , 2013, 52, 129-147.	1.7	46
23	Multifacet assessment of capability for suicide: Development and prospective validation of the Acquired Capability With Rehearsal for Suicide Scale.. <i>Psychological Assessment</i> , 2016, 28, 1452-1464.	1.2	43
24	“Painting a path to wellness”: correlations between participating in a creative activity group and improved measured mental health outcome. <i>Journal of Psychiatric and Mental Health Nursing</i> , 2012, 19, 327-333.	1.2	41
25	Warm Turkey: Other routes to abstinence. <i>Journal of Substance Abuse Treatment</i> , 1991, 8, 227-232.	1.5	36
26	Testing a genetic structure of blood-injury-injection fears. , 1998, 81, 377-384.		36
27	An Online Measure of Thought Suppression.. <i>Journal of Personality and Social Psychology</i> , 2005, 88, 421-431.	2.6	35
28	Effects of internal and external distraction and focus during exposure to blood-injury-injection stimuli. <i>Journal of Anxiety Disorders</i> , 2008, 22, 283-291.	1.5	34
29	The value of adding the Quality of Life Enjoyment and Satisfaction Questionnaire to outcome assessments of psychiatric inpatients with mood and affective disorders. <i>Quality of Life Research</i> , 2009, 18, 647-655.	1.5	34
30	Mindfulness and zest for life buffer the negative effects of experimentally-induced perceived burdensomeness and thwarted belongingness: Implications for theories of suicide.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 704-714.	2.0	34
31	Do Specific Anxiety Disorders Show Specific Drug Problems?. <i>Australian and New Zealand Journal of Psychiatry</i> , 1996, 30, 410-414.	1.3	32
32	Predicting Outcomes of Group Cognitive Behavior Therapy for Patients with Affective and Neurotic Disorders. <i>Behavior Modification</i> , 2002, 26, 648-658.	1.1	32
33	The structure of emotional symptoms in the postpartum period: Is it unique?. <i>Journal of Affective Disorders</i> , 2013, 151, 686-694.	2.0	30
34	Distinguishing Panic Disorder and Agoraphobia from Social Phobia. <i>Journal of Nervous and Mental Disease</i> , 1994, 182, 611-617.	0.5	28
35	Daily assessment of interpersonal factors to predict suicidal ideation and non-suicidal self-injury in psychiatric inpatients.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 556-567.	1.6	28
36	Effects of images about fear and disgust upon responses to blood-injury phobic stimuli. <i>Behavior Therapy</i> , 1999, 30, 63-77.	1.3	27

#	ARTICLE	IF	CITATIONS
37	Identifying and targeting predictors of drop-out from group cognitive behaviour therapy. Australian Journal of Psychology, 2006, 58, 48-56.	1.4	27
38	The subscale structure and clinical utility of the Health of the Nation Outcome Scale. Journal of Mental Health, 2009, 18, 326-334.	1.0	27
39	The effects of progress monitoring on subsequent readmission to psychiatric care: A six-month follow-up. Journal of Affective Disorders, 2012, 137, 113-116.	2.0	27
40	The effect of distraction on within-session anxiety reduction during brief in vivo exposure for mild blood-injection fears. Behavior Therapy, 1999, 30, 607-621.	1.3	26
41	Outcome Measurement, Outcome Management and Monitoring. Australian and New Zealand Journal of Psychiatry, 2005, 39, 649-651.	1.3	25
42	Modifiability of Neuroticism, Extraversion, and Agreeableness by Group Cognitive Behaviour Therapy for Social Anxiety Disorder. Behaviour Change, 2010, 27, 42-52.	0.6	25
43	Toward science-informed supervision of clinical case formulation: A training model and supervision method. Australian Psychologist, 2008, 43, 88-95.	0.9	24
44	Daily monitoring of temporal trajectories of suicidal ideation predict self-injury: A novel application of patient progress monitoring. Psychotherapy Research, 2015, 25, 705-713.	1.1	24
45	Eye-Movement Desensitisation: A Simple Treatment for Post-Traumatic Stress Disorder?. Australian and New Zealand Journal of Psychiatry, 1993, 27, 288-293.	1.3	23
46	Anxiety reactivity and anxiety perseveration represent dissociable dimensions of trait anxiety.. Emotion, 2012, 12, 903-907.	1.5	23
47	Outcomes for Depressed and Anxious Inpatients Discharged Before or After Group Cognitive Behavior Therapy. Journal of Nervous and Mental Disease, 2003, 191, 653-659.	0.5	22
48	Does the Edinburgh Postnatal Depression Scale measure the same constructs across time?. Archives of Women's Mental Health, 2015, 18, 793-804.	1.2	22
49	Post-migration treatment targets associated with reductions in depression and PTSD among survivors of torture seeking asylum in the USA. Psychiatry Research, 2019, 271, 565-572.	1.7	22
50	How consistent are clinical significance classifications when calculation methods and outcome measures differ?. Clinical Psychology: Science and Practice, 2012, 19, 167-179.	0.6	20
51	Development and psychometrics of the five item daily index in a psychiatric sample. Journal of Affective Disorders, 2014, 152-154, 409-415.	2.0	20
52	Effects of providing domain specific progress monitoring and feedback to therapists and patients on outcome. Psychotherapy Research, 2016, 26, 297-306.	1.1	19
53	Mind full of life: Does mindfulness confer resilience to suicide by increasing zest for life?. Journal of Affective Disorders, 2018, 226, 100-107.	2.0	19
54	Assessing interpersonal and mood factors to predict trajectories of suicidal ideation within an inpatient setting. Journal of Affective Disorders, 2019, 252, 315-324.	2.0	19

#	ARTICLE	IF	CITATIONS
55	Validity of clinically significant change classifications yielded by Jacobson-Truax and Hageman-Arrindell methods. <i>BMC Psychiatry</i> , 2016, 16, 187.	1.1	17
56	Prevalence and predictors of suicidal thoughts and behaviours among Australian police and emergency services employees. <i>Australian and New Zealand Journal of Psychiatry</i> , 2021, 55, 180-195.	1.3	17
57	An assessment of structured diagnostic interviews for adult anxiety disorders. <i>International Review of Psychiatry</i> , 1991, 3, 265-278.	1.4	16
58	Health Related Quality of Life after ECT for depression: A study exploring the role of different electrode-placements and pulse-widths. <i>Journal of Affective Disorders</i> , 2016, 206, 268-272.	2.0	16
59	Impaired memory updating associated with impaired recall of negative words in dysphoric rumination—Evidence for a removal deficit. <i>Behaviour Research and Therapy</i> , 2017, 93, 22-28.	1.6	16
60	Improving clinical outcomes in psychiatric care with touch-screen technology.. <i>Psychological Services</i> , 2012, 9, 221-223.	0.9	15
61	A Brief Mindfulness Intervention Attenuates Desire to Escape Following Experimental Induction of the Interpersonal Adversity Implicated in Suicide Risk. <i>Mindfulness</i> , 2017, 8, 1096-1105.	1.6	15
62	Blood—“injury”—injection fears in medical practice. <i>Medical Journal of Australia</i> , 1996, 164, 189-189.	0.8	14
63	The role of cognitions, trait anxiety and disgust sensitivity in generating faintness around blood—“injury phobic stimuli. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2006, 37, 41-52.	0.6	13
64	Identifying risk of deliberate self-harm through longitudinal monitoring of psychological distress in an inpatient psychiatric population. <i>BMC Psychiatry</i> , 2015, 15, 81.	1.1	13
65	Speaker overestimation of communication effectiveness and fear of negative evaluation: Being realistic is unrealistic. <i>Psychonomic Bulletin and Review</i> , 2008, 15, 1160-1165.	1.4	12
66	Best Practices: Increased Attendance in Inpatient Group Psychotherapy Improves Patient Outcomes. <i>Psychiatric Services</i> , 2009, 60, 426-8.	1.1	12
67	Assessment of panic disorder. <i>Current Opinion in Psychiatry</i> , 1998, 11, 137-141.	3.1	11
68	Assessment of Distress and Burden in Australian Private Psychiatric Inpatients. <i>Australasian Psychiatry</i> , 2006, 14, 285-290.	0.4	10
69	Effectiveness of Cognitive-Behavioral Therapy Modified for Inpatients with Depression. , 2012, 2012, 1-7.		10
70	The influence of individual, group, and relative self-esteem on outcome for patients undergoing group cognitive-behavioural therapy treatment. <i>British Journal of Clinical Psychology</i> , 2013, 52, 450-463.	1.7	10
71	Using daily monitoring of psychiatric symptoms to evaluate hospital length of stay. <i>BJPsych Open</i> , 2016, 2, 341-345.	0.3	10
72	Allowing nondisclosure in surveys with suicide content: Characteristics of nondisclosure in a national survey of emergency services personnel.. <i>Psychological Assessment</i> , 2020, 32, 1106-1117.	1.2	10

#	ARTICLE	IF	CITATIONS
73	The Scientist-practitioner model: More faces than eve. <i>Australian Psychologist</i> , 1996, 31, 103-108.	0.9	9
74	Can trait measures diagnose personality disorders?. <i>Current Opinion in Psychiatry</i> , 2003, 16, 83-88.	3.1	9
75	Client-Focused Research: New Directions in Outcome Assessment. <i>Behaviour Change</i> , 2007, 24, 1-6.	0.6	9
76	Best Practices: Increased Attendance in Inpatient Group Psychotherapy Improves Patient Outcomes. <i>Psychiatric Services</i> , 2009, 60, 426-428.	1.1	9
77	Attempted suppression of social threat thoughts: Differential effects for social phobia and healthy controls?. <i>Behaviour Research and Therapy</i> , 2010, 48, 653-660.	1.6	9
78	Methods of Delivering Progress Feedback to Optimise Patient Outcomes: The Value of Expected Treatment Trajectories. <i>Cognitive Therapy and Research</i> , 2018, 42, 204-211.	1.2	9
79	Simple phobias. <i>International Review of Psychiatry</i> , 1991, 3, 175-187.	1.4	8
80	Management of fear of radiation exposure in carers of outpatients treated with iodine-131. <i>Annals of Nuclear Medicine</i> , 2012, 26, 508-514.	1.2	8
81	Not wallowing in misery â€” retractions of negative misinformation are effective in depressive rumination. <i>Cognition and Emotion</i> , 2019, 33, 991-1005.	1.2	8
82	Severity of borderline personality disorder symptoms as a moderator of the association between the use of dialectical behaviour therapy skills and treatment outcomes. <i>Psychotherapy Research</i> , 2020, 30, 920-933.	1.1	8
83	To whom should cognitive-behaviour therapies be taught?. <i>Australian Psychologist</i> , 1993, 28, 51-54.	0.9	7
84	Panic Provocation in the Treatment of Agoraphobia: A Preliminary Investigation. <i>Australian and New Zealand Journal of Psychiatry</i> , 1994, 28, 82-86.	1.3	7
85	Blood-Injury-Injection Fears and Fainting: Nature, Assessment, and Management. <i>Behaviour Change</i> , 1998, 15, 160-164.	0.6	7
86	Deficits in joint action explain why socially anxious individuals are less well liked. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 50, 147-151.	0.6	7
87	Progress monitoring and feedback delivered in routine psychiatric care: Beneficial but not reaching those thought to need it most. <i>Psychotherapy Research</i> , 2020, 30, 843-856.	1.1	7
88	Prediction and network modelling of self-harm through daily self-report and history of self-injury. <i>Psychological Medicine</i> , 2021, 51, 1992-2002.	2.7	7
89	Survey of West Australian anxiety support group participants' views on treatment processes and outcomes. <i>Australian Psychologist</i> , 2004, 39, 208-211.	0.9	6
90	An Experimental Test of the â€”Interpersonalâ€”™ in the Interpersonal Theory of Suicide. <i>Journal of Experimental Psychopathology</i> , 2017, 8, 332-346.	0.4	6

#	ARTICLE	IF	CITATIONS
91	Neuroticism confers vulnerability in response to experimentally induced feelings of thwarted belongingness and perceived burdensomeness: Implications for suicide risk. <i>Journal of Personality</i> , 2019, 87, 566-578.	1.8	6
92	Distress tolerance as a moderator of the dynamic associations between interpersonal needs and suicidal thoughts. <i>Suicide and Life-Threatening Behavior</i> , 2022, 52, 159-170.	0.9	6
93	Constant Versus Rhythmic Muscle Tension in Applied Tension. <i>Behaviour Change</i> , 2000, 17, 97-102.	0.6	5
94	A Methodology for Timing Reviews of Inpatient Hospital Stay. <i>Australian and New Zealand Journal of Psychiatry</i> , 2005, 39, 198-201.	1.3	5
95	Assessment of Distress and Burden in Australian Private Psychiatric Inpatients. , 0, .		5
96	Listeners influence speakersâ€™ perceived communication effectiveness. <i>Journal of Experimental Social Psychology</i> , 2010, 46, 689-692.	1.3	4
97	The structure of negative emotional states in a postpartum inpatient sample. <i>Journal of Affective Disorders</i> , 2016, 192, 11-21.	2.0	4
98	Delivering cognitive behaviour therapy informed by a contemporary framework of psychotherapy treatment selection and adaptation. <i>Psychotherapy Research</i> , 2019, 29, 971-973.	1.1	4
99	Dynamic Changes in a Desire to Escape from Interpersonal Adversity: A Fluid Experimental Assessment of the Interpersonal Theory of Suicide. <i>Cognitive Therapy and Research</i> , 2019, 43, 926-936.	1.2	4
100	An exploration of the relationships between patient application of CBT skills and therapeutic outcomes during a two-week CBT treatment. <i>Psychotherapy Research</i> , 2021, 31, 778-788.	1.1	4
101	A comprehensive groupâ€based cognitive behavioural treatment for bloodâ€injectionâ€injury phobia. <i>British Journal of Clinical Psychology</i> , 2022, 61, 494-509.	1.7	4
102	Determinants of treatment non-attendance among those referred to primary mental health care services in Western Sydney, Australia: a retrospective cohort study. <i>BMJ Open</i> , 2020, 10, e039858.	0.8	4
103	Teaching developmentally disabled people self-regulation in sexual behaviour. <i>Journal of Intellectual & Developmental Disability</i> , 1991, 17, 81-88.	0.3	3
104	Effects of Images on the Renewal of Blood-Injury Fear. <i>Behaviour Change</i> , 1999, 16, 105-110.	0.6	3
105	Failure to replicate the effects of gender and season on the length of hospitalisation in unipolar depressives. <i>Journal of Affective Disorders</i> , 2004, 81, 275-278.	2.0	3
106	Performance-Related Beliefs in Social Phobia: Why Social Phobics Perceive Performance Requirements as Exceeding Their Abilities. <i>Behaviour Change</i> , 2005, 22, 1-12.	0.6	3
107	Experimentally-enhanced perceptions of meaning confer resilience to the interpersonal adversity implicated in suicide risk. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 61, 142-149.	0.6	3
108	A comparison between the clinical significance and growth mixture modelling early change methods at predicting negative outcomes. <i>Psychotherapy Research</i> , 2019, 29, 947-958.	1.1	3
