#	ARTICLE	IF	CITATIONS
1	Complex tourism and season interactions contribute to disparate physiologies in an endangered rock iguana. , 2022, 10, coac001.		4
2	Glucose tolerance of iguanas is affected by high-sugar diets in the lab and supplemental feeding by ecotourists in the wild. <i>Journal of Experimental Biology</i> , 2022, 225, .	1.7	3
3	The correlated evolution of foraging mode and reproductive effort in lizards. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2022, 289, .	2.6	1
4	Genome Sequences of Microviruses Identified in Gila Monster Feces. <i>Microbiology Resource Announcements</i> , 2021, 10, .	0.6	6
5	A novel lineage of polyomaviruses identified in bark scorpions. <i>Virology</i> , 2021, 563, 58-63.	2.4	9
6	Reproductive state and water deprivation increase plasma corticosterone in a capital breeder. <i>General and Comparative Endocrinology</i> , 2020, 288, 113375.	1.8	5
7	Discovery of a New TLR Gene and Gene Expansion Event through Improved Desert Tortoise Genome Assembly with Chromosome-Scale Scaffolds. <i>Genome Biology and Evolution</i> , 2020, 12, 3917-3925.	2.5	8
8	Impact of anthropogenic disturbance and vegetation composition on ecophysiology and activity of <i>Uromastix aegyptia</i> (ForskÅl, 1775). <i>Journal of Arid Environments</i> , 2020, 181, 104232.	2.4	2
9	Fear-based aggression and its relationship to corticosterone responsiveness in three species of python. <i>General and Comparative Endocrinology</i> , 2020, 289, 113374.	1.8	6
10	Dehydration enhances cellular and humoral immunity in a mesic snake community. <i>Journal of Experimental Zoology Part A: Ecological and Integrative Physiology</i> , 2020, 333, 306-315.	1.9	7
11	Behavioral and corticosterone responses to carbon dioxide exposure in reptiles. <i>PLoS ONE</i> , 2020, 15, e0240176.	2.5	1
12	Rattlesnakes Must Drink: Meal Consumption Does Not Improve Hydration State. <i>Physiological and Biochemical Zoology</i> , 2019, 92, 381-385.	1.5	12
13	Dehydration enhances innate immunity in a semiaquatic snake from the wet&dry tropics. <i>Journal of Experimental Zoology Part A: Ecological and Integrative Physiology</i> , 2019, 331, 245-252.	1.9	6
14	Egg desiccation leads to dehydration and enhanced innate immunity in python embryos. <i>Developmental and Comparative Immunology</i> , 2019, 90, 147-151.	2.3	6
15	Hysterectomy Uniquely Impacts Spatial Memory in a Rat Model: A Role for the Nonpregnant Uterus in Cognitive Processes. <i>Endocrinology</i> , 2019, 160, 1-19.	2.8	34
16	Cane toads ( <i>Rhinella marina</i> ) rely on water access, not drought tolerance, to invade xeric Australian environments. <i>Oecologia</i> , 2019, 189, 307-316.	2.0	10
17	Energetic investment associated with vitellogenesis induces an oxidative cost of reproduction. <i>Journal of Animal Ecology</i> , 2019, 88, 461-472.	2.8	25
18	Dehydration during egg production alters egg composition and yolk immune function. <i>Comparative Biochemistry and Physiology Part A, Molecular &amp; Integrative Physiology</i> , 2019, 227, 68-74.	1.8	8

#	ARTICLE	IF	CITATIONS
19	Comparative Genomics Reveals Accelerated Evolution in Conserved Pathways during the Diversification of Anole Lizards. <i>Genome Biology and Evolution</i> , 2018, 10, 489-506.	2.5	43
20	Water restriction causes an intergenerational trade-off and delayed mother-offspring conflict in a viviparous lizard. <i>Functional Ecology</i> , 2018, 32, 676-686.	3.6	22
21	Genome Sequence of a Single-Stranded DNA Virus Identified in Gila Monster Feces. <i>Microbiology Resource Announcements</i> , 2018, 7, .	0.6	4
22	Evidence for atypical nest overwintering by hatchling lizards, <i>Heloderma suspectum</i> . <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2018, 285, 20180632.	2.6	5
23	Muscles provide an internal water reserve for reproduction. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2018, 285, 20180752.	2.6	21
24	No Effect of Human Presence at Night on Disease, Body Mass, or Metabolism in Rural and Urban House Finches ( <i>Haemorrhous mexicanus</i> ). <i>Integrative and Comparative Biology</i> , 2018, 58, 977-985.	2.0	5
25	Metabolic responses to different immune challenges and varying resource availability in the side-blotched lizard ( <i>Uta stansburiana</i> ). <i>Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology</i> , 2017, 187, 1173-1182.	1.5	29
26	Too much of a good thing? Human disturbance linked to ecotourism has a dose-dependent impact on innate immunity and oxidative stress in marine iguanas, <i>Amblyrhynchus cristatus</i> . <i>Biological Conservation</i> , 2017, 210, 37-47.	4.1	42
27	When less means more: dehydration improves innate immunity in rattlesnakes. <i>Journal of Experimental Biology</i> , 2017, 220, 2287-2295.	1.7	18
28	Dehydration enhances multiple physiological defense mechanisms in a desert lizard, <i>Heloderma suspectum</i> . <i>Journal of Experimental Biology</i> , 2017, 220, 2166-2174.	1.7	10
29	Anesthesia and Euthanasia of Amphibians and Reptiles Used in Scientific Research: Should Hypothermia and Freezing Be Prohibited?. <i>BioScience</i> , 2017, 67, 53-61.	4.9	44
30	Reproduction Alters Hydration State but Does Not Impact the Positive Effects of Dehydration on Innate Immune Function in Children's Pythons ( <i>Antaresia childreni</i> ). <i>Physiological and Biochemical Zoology</i> , 2017, 90, 646-654.	1.5	19
31	Water availability and environmental temperature correlate with geographic variation in water balance in common lizards. <i>Oecologia</i> , 2017, 185, 561-571.	2.0	40
32	Hydric Costs of Reproduction: Pregnancy Increases Evaporative Water Loss in the Snake <i>Vipera aspis</i> . <i>Physiological and Biochemical Zoology</i> , 2017, 90, 663-672.	1.5	27
33	Modeling the costs and benefits associated with the evolution of endothermy using a robotic python. <i>Journal of Experimental Biology</i> , 2017, 220, 2409-2417.	1.7	1
34	The Agassiz's desert tortoise genome provides a resource for the conservation of a threatened species. <i>PLoS ONE</i> , 2017, 12, e0177708.	2.5	33
35	Water deprivation increases maternal corticosterone levels and enhances offspring growth in the snake <i>Vipera aspis</i> . <i>Journal of Experimental Biology</i> , 2016, 219, 658-67.	1.7	21
36	Intergenerational trade-off for water may induce a mother-offspring conflict in favour of embryos in a viviparous snake. <i>Functional Ecology</i> , 2015, 29, 414-422.	3.6	39

#	ARTICLE	IF	CITATIONS
37	Urban heat island mitigation strategies and lizard thermal ecology: landscaping can quadruple potential activity time in an arid city. <i>Urban Ecosystems</i> , 2015, 18, 1447-1459.	2.4	36
38	Facultative thermogenesis during brooding is not the norm among pythons. <i>Journal of Comparative Physiology A: Neuroethology, Sensory, Neural, and Behavioral Physiology</i> , 2015, 201, 817-825.	1.6	5
39	Embryonic water uptake during pregnancy is stage- and fecundity-dependent in the snake <i>Vipera aspis</i> . <i>Comparative Biochemistry and Physiology Part A, Molecular &amp; Integrative Physiology</i> , 2015, 189, 102-106.	1.8	25
40	Transcriptomic Analysis of Tail Regeneration in the Lizard <i>Anolis carolinensis</i> Reveals Activation of Conserved Vertebrate Developmental and Repair Mechanisms. <i>PLoS ONE</i> , 2014, 9, e105004.	2.5	112
41	Microclimate preferences correlate with contrasted evaporative water loss in parapatric vipers at their contact zone. <i>Canadian Journal of Zoology</i> , 2014, 92, 81-86.	1.0	45
42	Inflammatory Effects of <i>Edwardsiella ictaluri</i> Lipopolysaccharide Modifications in Catfish Gut. <i>Infection and Immunity</i> , 2014, 82, 3394-3404.	2.2	23
43	Influence of reproductive mode on metabolic costs of reproduction: insight from the bimodal lizard <i>Zootoca vivipara</i> . <i>Journal of Experimental Biology</i> , 2014, 217, 4049-56.	1.7	33
44	The effect of hydration state and energy balance on innate immunity of a desert reptile. <i>Frontiers in Zoology</i> , 2013, 10, 23.	2.0	38
45	Revisiting Python Thermogenesis: Brooding Burmese Pythons ( <i>Python bivittatus</i> ) Cue on Body, not Clutch, Temperature. <i>Journal of Herpetology</i> , 2013, 47, 440-444.	0.5	15
46	Cold climate specialization: Adaptive covariation between metabolic rate and thermoregulation in pregnant vipers. <i>Physiology and Behavior</i> , 2013, 119, 149-155.	2.1	44
47	Stage Dependence of Phenotypical and Phenological Maternal Effects: Insight into Squamate Reptile Reproductive Strategies. <i>American Naturalist</i> , 2013, 182, 223-233.	2.1	33
48	Thermal Sensitivity of Immune Function: Evidence against a Generalist-Specialist Trade-Off among Endothermic and Ectothermic Vertebrates. <i>American Naturalist</i> , 2013, 181, 761-774.	2.1	62
49	Structural and Performance Costs of Reproduction in a Pure Capital Breeder, the Children's Python <i>Antaresia childreni</i> . <i>Physiological and Biochemical Zoology</i> , 2013, 86, 176-183.	1.5	26
50	Morphological and Physiological Changes during Reproduction and Their Relationships to Reproductive Performance in a Capital Breeder. <i>Physiological and Biochemical Zoology</i> , 2013, 86, 398-409.	1.5	22
51	Meal consumption is ineffective at maintaining or correcting water balance in a desert lizard, <i>Heloderma suspectum</i> . <i>Journal of Experimental Biology</i> , 2013, 216, 1439-1447.	1.7	34
52	Temporal and Spatial Complexity of Maternal Thermoregulation in Tropical Pythons. <i>Physiological and Biochemical Zoology</i> , 2012, 85, 219-230.	1.5	8
53	Maternal influences on early development: preferred temperature prior to oviposition hastens embryogenesis and enhances offspring traits in the Children's python, <i>Antaresia childreni</i> . <i>Journal of Experimental Biology</i> , 2012, 215, 1346-1353.	1.7	44
54	Are Females Maternal Manipulators, Selfish Mothers, Or Both? Insight from Pythons. <i>Herpetologica</i> , 2012, 68, 299-307.	0.4	10

#	ARTICLE	IF	CITATIONS
55	The consequences of alternative parental care tactics in free-ranging pythons in tropical Australia. <i>Functional Ecology</i> , 2012, 26, 812-821.	3.6	11
56	Somitogenesis in the anole lizard and alligator reveals evolutionary convergence and divergence in the amniote segmentation clock. <i>Developmental Biology</i> , 2012, 363, 308-319.	2.0	52
57	Do Brooding Pythons Recognize their Clutches? Investigating External Cues for Offspring Recognition in the Children's Python, <i>Antaresia childreni</i> . <i>Ethology</i> , 2012, 118, 793-798.	1.1	3
58	Hematology, leukocyte cytochemical analysis, plasma biochemistry, and plasma electrophoresis of wild-caught and captive-bred Gila monsters ( <i>Heloderma suspectum</i> ). <i>Veterinary Clinical Pathology</i> , 2011, 40, 316-323.	0.7	32
59	The use of ultrasonography to assess reproductive investment and output in pythons. <i>Biological Journal of the Linnean Society</i> , 2011, 103, 772-778.	1.6	29
60	Sexual variation in assimilation efficiency: its link to phenotype and potential role in sexual dimorphism. <i>Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology</i> , 2011, 181, 383-389.	1.5	9
61	Molecular Convergence of Infrared Vision in Snakes. <i>Molecular Biology and Evolution</i> , 2011, 28, 45-48.	8.9	12
62	Parental behavior in pythons is responsive to both the hydric and thermal dynamics of the nest. <i>Journal of Experimental Biology</i> , 2010, 213, 1691-1696.	1.7	22
63	Seasonal Patterns of Body Condition, Hydration State, and Activity of Gila Monsters ( <i>Heloderma</i> ) <i>Tj ETQq1 1 0.784314 rgBT /Overlock</i>	0.5	36
64	The Role of Python Eggshell Permeability Dynamics in a Respiration-Hydration Trade-Off. <i>Physiological and Biochemical Zoology</i> , 2010, 83, 576-586.	1.5	5
65	Human disturbance alters endocrine and immune responses in the Galapagos marine iguana ( <i>Amblyrhynchus cristatus</i> ). <i>Hormones and Behavior</i> , 2010, 58, 792-799.	2.1	132
66	Water Supplementation Affects the Behavioral and Physiological Ecology of Gila Monsters ( <i>Heloderma suspectum</i> ) in the Sonoran Desert. <i>Physiological and Biochemical Zoology</i> , 2009, 82, 739-748.	1.5	54
67	Effect of nest temperature on egg-brooding dynamics in Children's pythons. <i>Physiology and Behavior</i> , 2009, 98, 302-306.	2.1	21
68	Water storage compromises walking endurance in an active forager: evidence of a trade-off between osmoregulation and locomotor performance. <i>Journal of Comparative Physiology A: Neuroethology, Sensory, Neural, and Behavioral Physiology</i> , 2008, 194, 713-718.	1.6	5
69	Postural Shifts During Egg-Brooding and Their Impact on Egg Water Balance in Children's Pythons ( <i>Antaresia childreni</i> ). <i>Ethology</i> , 2008, 114, 1113-1121.	1.1	21
70	Alternating egg-brooding behaviors create and modulate a hypoxic developmental micro-environment in Children's pythons ( <i>Antaresia childreni</i> ). <i>Journal of Experimental Biology</i> , 2008, 211, 1535-1540.	1.7	18
71	The urinary bladder as a physiological reservoir that moderates dehydration in a large desert lizard, the Gila monster <i>Heloderma suspectum</i> . <i>Journal of Experimental Biology</i> , 2007, 210, 1472-1480.	1.7	51
72	Cloacal evaporation: an important and previously undescribed mechanism for avian thermoregulation. <i>Journal of Experimental Biology</i> , 2007, 210, 741-749.	1.7	25

#	ARTICLE	IF	CITATIONS
73	Tribute to Icons of the American Southwest. <i>Conservation Biology</i> , 2007, 21, 564-565.	4.7	0
74	Maternal brooding in the children's python ( <i>Antaresia childreni</i> ) promotes egg water balance. <i>Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology</i> , 2007, 177, 569-577.	1.5	37
75	Absence of exendin-4 effects on postprandial glucose and lipids in the Gila monster, <i>Heloderma suspectum</i> . <i>Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology</i> , 2006, 177, 129-134.	1.5	11
76	Winter profile of plasma sex steroid levels in free-living male western diamond-backed rattlesnakes, <i>Crotalus atrox</i> (Serpentes: Viperidae). <i>General and Comparative Endocrinology</i> , 2006, 149, 72-80.	1.8	23
77	Effects of food supplementation on the physiological ecology of female Western diamond-backed rattlesnakes ( <i>Crotalus atrox</i> ). <i>Oecologia</i> , 2005, 144, 206-213.	2.0	79
78	Reproductive Ecology of Western Diamond-Backed Rattlesnakes ( <i>Crotalus atrox</i> ) in the Sonoran Desert. <i>Copeia</i> , 2005, 2005, 152-158.	1.3	39
79	Cloacal evaporative cooling: a previously undescribed means of increasing evaporative water loss at higher temperatures in a desert ectotherm, the Gila monster <i>Heloderma suspectum</i> . <i>Journal of Experimental Biology</i> , 2004, 207, 945-953.	1.7	32
80	Seasonal steroid hormone levels and their relation to reproduction in the Western Diamond-backed Rattlesnake, <i>Crotalus atrox</i> (Serpentes: Viperidae). <i>General and Comparative Endocrinology</i> , 2004, 136, 328-337.	1.8	99
81	A comparison between point- and semi-continuous sampling for assessing body temperature in a free-ranging ectotherm. <i>Journal of Thermal Biology</i> , 2004, 29, 91-96.	2.5	41
82	Ambient Temperature Activity of Horned Adders, <i>Bitis caudalis</i> : How Cold Is Too Cold?. <i>Journal of Herpetology</i> , 2002, 36, 688-691.	0.5	6
83	Capital breeding and reproductive effort in a variable environment: a longitudinal study of a viviparous snake. <i>Journal of Animal Ecology</i> , 2002, 71, 470-479.	2.8	112
84	Effect of Male Presence on Reproductive Activity in Captive Female Blood Pythons, <i>Python curtus</i> . <i>Copeia</i> , 2001, 2001, 1138-1141.	1.3	23
85	The Use of Hormone Antagonists to Inhibit Reproduction in the Lizard, <i>Eublepharus macularius</i> . <i>Journal of Herpetological Medicine and Surgery</i> , 2001, 11, 4-7.	0.4	4
86	Testosterone, Endurance, and Darwinian Fitness: Natural and Sexual Selection on the Physiological Bases of Alternative Male Behaviors in Side-Blotched Lizards. <i>Hormones and Behavior</i> , 2000, 38, 222-233.	2.1	313
87	Ectoparasites. <i>Journal of Herpetological Medicine and Surgery</i> , 2000, 10, 15-21.	0.4	5
88	The Biology, Clinical Significance and Control of the Common Snake Mite, <i>Ophionyssus natricis</i> , in Captive Reptiles. <i>Journal of Herpetological Medicine and Surgery</i> , 2000, 10, 4-10.	0.4	10
89	Dystocia. <i>Journal of Herpetological Medicine and Surgery</i> , 2000, 10, 8-17.	0.4	6
90	Phylogeography of the California mountain kingsnake, <i>Lampropeltis zonata</i> (Colubridae). <i>Molecular Ecology</i> , 1999, 8, 1923-1934.	3.9	71

#	ARTICLE	IF	CITATIONS
91	The Biology of Reptilian Hepatozoon Species and their Potential Influence on the Health Status of Captive Reptiles. Bulletin of the Association of Reptilian and Amphibian Veterinarians, 1996, 6, 8-12.	0.1	1
92	Amphibians as Laboratory Animals. ILAR Journal, 1995, 37, 173-181.	1.8	9
93	Effects of Corticosterone on Activity and Home-Range Size of Free-Ranging Male Lizards. Hormones and Behavior, 1994, 28, 53-65.	2.1	101
94	Effects of Steroid Hormone Interaction on Activity and Home-Range Size of Male Lizards. Hormones and Behavior, 1994, 28, 273-287.	2.1	140
95	Effects of Corticosterone on Social Behavior of Male Lizards. Hormones and Behavior, 1993, 27, 184-199.	2.1	136
96	Thermoregulation during gravidity in the children's python ( <i>Antaresia childreni</i> ): a test of the preadaptation hypothesis for maternal thermophily in snakes. Biological Journal of the Linnean Society, 0, 93, 499-508.	1.6	46
97	Obligate costs of parental care to offspring: egg brooding-induced hypoxia creates smaller, slower and weaker python offspring. Biological Journal of the Linnean Society, 0, 98, 414-421.	1.6	21
