#	ARTICLE	IF	CITATIONS
1	Occupational physical activity, mortality and CHD events in the Italian Longitudinal Study. <i>International Archives of Occupational and Environmental Health</i> , 2022, 95, 607-619.	1.1	4
2	Working Conditions and Health Among Italian Ageing Workers. <i>Social Indicators Research</i> , 2022, 162, 1043-1067.	1.4	5
3	Work-related stress and well-being in association with epigenetic age acceleration: A Northern Finland Birth Cohort 1966 Study. <i>Aging</i> , 2022, 14, 1128-1156.	1.4	11
4	Long-term sick leave for back pain, exposure to physical workload and psychosocial factors at work, and risk of disability and early-age retirement among aged Swedish workers. <i>International Archives of Occupational and Environmental Health</i> , 2022, 95, 1521-1535.	1.1	9
5	Association of neighbourhood disadvantage and individual socioeconomic position with all-cause mortality: a longitudinal multicohort analysis. <i>Lancet Public Health</i> , The, 2022, 7, e447-e457.	4.7	13
6	Exposure to occupational hazards and risk of sinonasal epithelial cancer: results from an extended Italian case-control study. <i>Occupational and Environmental Medicine</i> , 2021, 78, 323-329.	1.3	3
7	Agreement between observed and interview-based exposure to ergonomics factors for the upper extremities in employees of a package sorting plant. <i>Ergonomics</i> , 2021, 64, 512-520.	1.1	0
8	Working conditions as risk factors for early exit from work in a cohort of 2351 employees in Germany. <i>International Archives of Occupational and Environmental Health</i> , 2021, 94, 117-138.	1.1	16
9	Unemployment and mortality in a large Italian cohort. <i>Journal of Public Health</i> , 2021, 43, 361-369.	1.0	12
10	Impact of different work organizational models on gender differences in exposure to psychosocial and ergonomic hazards at work and in mental and physical health. <i>International Archives of Occupational and Environmental Health</i> , 2021, 94, 1889-1904.	1.1	1
11	Self-Rated Health and Psychological Distress among Emerging Adults in Italy: A Comparison between Data on University Students, Young Workers and Working Students Collected through the 2005 and 2013 National Health Surveys. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 6403.	1.2	12
12	The contribution of sleep to social inequalities in cardiovascular disorders: a multi-cohort study. <i>Cardiovascular Research</i> , 2020, 116, 1514-1524.	1.8	9
13	Reducing socio-economic inequalities in all-cause mortality: a counterfactual mediation approach. <i>International Journal of Epidemiology</i> , 2020, 49, 497-510.	0.9	29
14	Lifetime Duration of Exposure to Biomechanical Factors at Work as a Mediator of the Relationship Between Socioeconomic Position and Walking Speed. <i>Frontiers in Public Health</i> , 2020, 8, 412.	1.3	0
15	To Work or Not to Work? The Effect of Higher Pension Age on Cardiovascular Health. <i>Industrial Relations</i> , 2020, 59, 399-434.	0.9	14
16	Promoting health equity through social capital in deprived communities: a natural policy experiment in Trieste, Italy. <i>SSM - Population Health</i> , 2020, 12, 100677.	1.3	9
17	Special Report: The Biology of Inequalities in Health: The Lifepath Consortium. <i>Frontiers in Public Health</i> , 2020, 8, 118.	1.3	44
18	Use of Antidepressants and Risk of Incident Stroke: A Systematic Review and Meta-Analysis. <i>Neuroepidemiology</i> , 2019, 53, 142-151.	1.1	34

#	ARTICLE	IF	CITATIONS
19	Is the association between precarious employment and mental health mediated by economic difficulties in males? Results from two Italian studies. <i>BMC Public Health</i> , 2019, 19, 869.	1.2	14
20	Maternal educational inequalities in measured body mass index trajectories in three European countries. <i>Paediatric and Perinatal Epidemiology</i> , 2019, 33, 226-237.	0.8	17
21	Multi-cohort study identifies social determinants of systemic inflammation over the life course. <i>Nature Communications</i> , 2019, 10, 773.	5.8	70
22	Cancer mortality and exposure to nickel and chromium compounds in a cohort of Italian electroplaters. <i>American Journal of Industrial Medicine</i> , 2019, 62, 99-110.	1.0	21
23	New insights on occupational exposure and bladder cancer risk: a pooled analysis of two Italian case-control studies. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 347-359.	1.1	4
24	The contribution of behavioural and metabolic risk factors to socioeconomic inequalities in mortality: the Italian Longitudinal Study. <i>International Journal of Public Health</i> , 2018, 63, 325-335.	1.0	12
25	Socioeconomic status, non-communicable disease risk factors, and walking speed in older adults: multi-cohort population based study. <i>BMJ: British Medical Journal</i> , 2018, 360, k1046.	2.4	87
26	The role of pre-morbid diabetes on developing amyotrophic lateral sclerosis. <i>European Journal of Neurology</i> , 2018, 25, 164-170.	1.7	45
27	Internal migration and mental health of the second generation. The case of Turin in the age of the Italian economic miracle. <i>Social Science and Medicine</i> , 2018, 208, 142-149.	1.8	8
28	The dark side of work life extension: health, welfare and equity concerns. <i>Sociologia Del Lavoro</i> , 2018, , 101-119.	0.0	10
29	Priority, methodological and conceptual issues regarding epidemiological research of occupational psychosocial risk factors for poor mental health and coronary heart disease. <i>Sociologia Del Lavoro</i> , 2018, , 159-181.	0.0	4
30	Socioeconomic status and the 25Å—25 risk factors as determinants of premature mortality: a multicohort study and meta-analysis of 1Å·7 million men and women. <i>Lancet, The</i> , 2017, 389, 1229-1237.	6.3	825
31	Occupations and amyotrophic lateral sclerosis: are jobs exposed to the general public at higher risk?. <i>European Journal of Public Health</i> , 2017, 27, 643-647.	0.1	7
32	Scar on my heart: effects of unemployment experiences on coronary heart disease. <i>International Journal of Manpower</i> , 2017, 38, 62-92.	2.5	14
33	Socioeconomic indicators in epidemiologic research: A practical example from the LIFEPATH study. <i>PLoS ONE</i> , 2017, 12, e0178071.	1.1	40
34	The biology of inequalities in health: the LIFEPATH project. <i>Longitudinal and Life Course Studies</i> , 2017, 8, .	0.3	21
35	Work organization, exposure to workplace hazards and sickness presenteeism in the European employed population. <i>American Journal of Industrial Medicine</i> , 2016, 59, 57-72.	1.0	23
36	Amyotrophic Lateral Sclerosis Incidence and Previous Prescriptions of Drugs for the Nervous System. <i>Neuroepidemiology</i> , 2016, 47, 59-66.	1.1	16

#	ARTICLE	IF	CITATIONS
37	Increased incidence of coronary heart disease associated with "double burden" in a cohort of Italian women. <i>Social Science and Medicine</i> , 2015, 135, 40-46.	1.8	12
38	Association between chronic morbidity and early retirement in Italy. <i>International Archives of Occupational and Environmental Health</i> , 2013, 86, 295-303.	1.1	23
39	Trends in mortality by labour market position around retirement ages in three European countries with different welfare regimes. <i>International Journal of Public Health</i> , 2013, 58, 99-108.	1.0	5
40	Occupational risk factors for sinonasal inverted papilloma: a case-control study. <i>Occupational and Environmental Medicine</i> , 2013, 70, 703-708.	1.3	34
41	Low Back Pain and Associated Presenteeism among Hospital Nursing Staff. <i>Journal of Occupational Health</i> , 2013, 55, 276-283.	1.0	70
42	Socio-demographic and work-related risk factors for medium- and long-term sickness absence among Italian workers. <i>European Journal of Public Health</i> , 2012, 22, 683-688.	0.1	31
43	Workplace stress and prescription of antidepressant medications: a prospective study on a sample of Italian workers. <i>International Archives of Occupational and Environmental Health</i> , 2011, 84, 413-424.	1.1	23
44	Risk Factors for Upper Extremity Musculoskeletal Symptoms among Call Center Employees. <i>Journal of Occupational Health</i> , 2010, 52, 115-124.	1.0	35
45	Healthy hire effect, job selection and inhalation exposure among young adults with asthma. <i>European Respiratory Journal</i> , 2010, 36, 517-523.	3.1	23
46	Occupational Exposure to High Molecular Weight Allergens and Lymphoma Risk Among Italian Adults. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2009, 18, 2650-2654.	1.1	11
47	An international prospective general population-based study of respiratory work disability. <i>Thorax</i> , 2009, 64, 339-344.	2.7	46
48	Specific and non-specific upper extremity musculoskeletal disorder syndromes in automobile manufacturing workers. <i>American Journal of Industrial Medicine</i> , 2009, 52, 124-132.	1.0	45
49	Ergonomic and socioeconomic risk factors for hospital workers' compensation injury claims. <i>American Journal of Industrial Medicine</i> , 2009, 52, 551-562.	1.0	51
50	Educational inequalities in cancer incidence in Turin, Italy. <i>European Journal of Cancer Prevention</i> , 2009, 18, 169-178.	0.6	37
51	A case-control study on occupational risk factors for sino-nasal cancer. <i>Occupational and Environmental Medicine</i> , 2009, 66, 448-455.	1.3	76
52	JCQ scale reliability and responsiveness to changes in manufacturing process. <i>American Journal of Industrial Medicine</i> , 2008, 51, 138-147.	1.0	7
53	Job strain predicts survey response in healthcare industry workers. <i>American Journal of Industrial Medicine</i> , 2008, 51, 281-289.	1.0	37
54	Hospital injury rates in relation to socioeconomic status and working conditions. <i>Occupational and Environmental Medicine</i> , 2007, 64, 325-333.	1.3	58

#	ARTICLE	IF	CITATIONS
55	Exposure to substances in the workplace and new-onset asthma: an international prospective population-based study (ECRHS-II). <i>Lancet, The</i> , 2007, 370, 336-341.	6.3	359
56	Inter-method agreement between O*NET and survey measures of psychosocial exposure among healthcare industry employees. <i>American Journal of Industrial Medicine</i> , 2007, 50, 545-553.	1.0	33
57	Medium- and long-term reproducibility of self-reported exposure to physical ergonomics factors at work. <i>Applied Ergonomics</i> , 2007, 38, 167-175.	1.7	19
58	Inequalities in health: do occupational risks matter?. <i>European Journal of Public Health</i> , 2006, 16, 340-340.	0.1	2
59	Lung Function Decline, Chronic Bronchitis, and Occupational Exposures in Young Adults. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2005, 172, 1139-1145.	2.5	91
60	Biomarkers of exposure to polycyclic aromatic hydrocarbons from environmental air pollution. <i>Occupational and Environmental Medicine</i> , 2004, 61, 12e-12.	1.3	158
61	Mortality of a cohort of road construction and maintenance workers with work disability compensation. <i>Medicina Del Lavoro</i> , 2002, 93, 519-26.	0.3	5
62	Genetic metabolic polymorphisms and the risk of cancer: a review of the literature. <i>Biomarkers</i> , 1996, 1, 149-173.	0.9	168
