Maria Cristina Gagliardi

List of Publications by Year
in descending order

32 papers	1,342 citations	361413 20 h-index	414414 32 g-index
33 all docs	33 docs citations	33 times ranked	2289 citing authors

#	Article	IF	Citations
1	Broadly reactive human CD4⁺ T cells against Enterobacteriaceae are found in the naÃ¯ve repertoire and are clonally expanded in the memory repertoire. European Journal of Immunology, 2021, 51, 648-661.	2.9	13
2	Synergy Between Vitamin D and Sex Hormones in Respiratory Functionality of Patients Affected by COVID-19. Frontiers in Pharmacology, 2021, 12, 683529.	3.5	4
3	Predicting respiratory failure in patients infected by SARS-CoV-2 by admission sex-specific biomarkers. Biology of Sex Differences, 2021, 12, 63.	4.1	10
4	Amphotericin B Inhibits Mycobacterium tuberculosis Infection of Human Alveolar Type II Epithelial A549 Cells. Antimicrobial Agents and Chemotherapy, 2020, 64, .	3.2	2
5	Vitamin D and Sex Differences in COVID-19. Frontiers in Endocrinology, 2020, 11, 567824.	3.5	21
6	ACE2 expression and sex disparity in COVID-19. Cell Death Discovery, 2020, 6, 37.	4.7	99
7	Sex-Dependent Outcome of Hepatitis B and C Viruses Infections: Synergy of Sex Hormones and Immune Responses?. Frontiers in Immunology, 2018, 9, 2302.	4.8	103
8	The Natural Agonist of Estrogen Receptor Î² Silibinin Plays an Immunosuppressive Role Representing a Potential Therapeutic Tool in Rheumatoid Arthritis. Frontiers in Immunology, 2018, 9, 1903.	4.8	39
9	A method permissive to fixation and permeabilization for the multiparametric analysis of apoptotic and necrotic cell phenotype by flow cytometry. Cytometry Part A: the Journal of the International Society for Analytical Cytology, 2017, 91, 1115-1124.	1.5	11
10	Candida albicans Targets a Lipid Raft/Dectin-1 Platform to Enter Human Monocytes and Induce Antigen Specific T Cell Responses. PLoS ONE, 2015, 10, e0142531.	2.5	16
11	DormantMycobacterium tuberculosisFails To Block Phagosome Maturation and Shows Unexpected Capacity To Stimulate Specific Human T Lymphocytes. Journal of Immunology, 2013, 191, 274-282.	0.8	28
12	Mycobacterium tuberculosis may escape helper T cell recognition by infecting human fibroblasts. Human Immunology, 2013, 74, 722-729.	2.4	18
13	Neisseria gonorrhoeae triggers the PGE2/IL-23 pathway and promotes IL-17 production by human memory T cells. Prostaglandins and Other Lipid Mediators, 2012, 99, 24-29.	1.9	5
14	Infection of human THP-1 cells with dormant Mycobacterium tuberculosis. Microbes and Infection, 2012, 14, 959-967.	1.9	31
15	Circulating levels of interleukin-17A and interleukin-23 are increased in patients with gonococcal infection. FEMS Immunology and Medical Microbiology, 2011, 61, 129-132.	2.7	26
16	Bystander inhibition of dendritic cell differentiation by Mycobacterium tuberculosis â€induced ILâ€10. Immunology and Cell Biology, 2011, 89, 437-446.	2.3	23
17	Endogenous PGE2 promotes the induction of human Th17 responses by fungal Î²-glucan. Journal of Leukocyte Biology, 2010, 88, 947-954.	3.3	41
18	Mycobacteria Exploit p38 Signaling To Affect CD1 Expression and Lipid Antigen Presentation by Human Dendritic Cells. Infection and Immunity, 2009, 77, 4947-4952.	2.2	22

#	Article	IF	Citations
19	Cytometric detection of antigen-specific IFN-Î³/IL-2 secreting cells in the diagnosis of tuberculosis. BMC Infectious Diseases, 2009, 9, 99.	2.9	74
20	Tâ€cellâ€mediated and antigenâ€dependent differentiation of human monocyte into different dendritic cell subsets: a feedback control of Th1/Th2 responses. FASEB Journal, 2008, 22, 3370-3379.	0.5	12
21	Î²-Glucan ofCandida albicanscell wall causes the subversion of human monocyte differentiation into dendritic cells. Journal of Leukocyte Biology, 2007, 82, 1136-1142.	3.3	37
22	In vitro infection of human dendritic cells by Aspergillus fumigatus conidia triggers the secretion of chemokines for neutrophil and Th1 lymphocyte recruitment. Microbes and Infection, 2007, 9, 971-980.	1.9	39
23	Cell wall-associated alpha-glucan is instrumental for Mycobacterium tuberculosis to block CD1 molecule expression and disable the function of dendritic cell derived from infected monocyte. Cellular Microbiology, 2007, 9, 2081-2092.	2.1	78
24	Interleukin-4 inhibits cyclo-oxygenase-2 expression and prostaglandin E2production by human mature dendritic cells. Immunology, 2007, 120, 83-9.	4.4	20
25	Human Dendritic Cells following Aspergillus fumigatus Infection Express the CCR7 Receptor and a Differential Pattern of Interleukin-12 (IL-12), IL-23, and IL-27 Cytokines, Which Lead to a Th1 Response. Infection and Immunity, 2006, 74, 1480-1489.	2.2	74
26	Mycobacterium bovis Bacillus Calmette-Guerin infects DC-SIGN- dendritic cell and causes the inhibition of IL-12 and the enhancement of IL-10 production. Journal of Leukocyte Biology, 2005, 78, 106-113.	3.3	51
27	Mycobacterium tuberculosis Diverts Alpha Interferon-Induced Monocyte Differentiation from Dendritic Cells into Immunoprivileged Macrophage-Like Host Cells. Infection and Immunity, 2004, 72, 4385-4392.	2.2	48
28	Bacillus Calmette-Guï¿½rin shares with virulent the capacity to subvert monocyte differentiation into dendritic cell: implication for its efficacy as a vaccine preventing tuberculosis. Vaccine, 2004, 22, 3848-3857.	3.8	28
29	Maturation of human dendritic cells induced by the adjuvant cholera toxin: role of cAMP on chemokine receptor expression. Vaccine, 2003, 21, 856-861.	3.8	34
30	Cholera toxin induces maturation of human dendritic cells and licences them for Th2 priming. European Journal of Immunology, 2000, 30, 2394-2403.	2.9	287
31	Presentation of peptides by cultured monocytes or activated T cells allows specific priming of human cytotoxic T lymphocytes in vitro. International Immunology, 1995, 7, 1741-1752.	4.0	29
32	Soluble transferrin mediates targeting of hepatitis B envelope antigen to transferrin receptor and its presentation by activated T cells. European Journal of Immunology, 1994, 24, 1372-1376.	2.9	19
