#	ARTICLE	IF	CITATIONS
1	Pre-pandemic mental health and disruptions to healthcare, economic and housing outcomes during the COVID-19 pandemic: evidence from 12 UK longitudinal studies. <i>British Journal of Psychiatry</i> , 2022, 220, 21-30.	1.7	29
2	Roles of participation in social activities in the association between adverse childhood experiences and health among older Japanese adults. <i>SSM - Population Health</i> , 2022, 17, 101000.	1.3	2
3	Comparing population-level mental health of UK workers before and during the COVID-19 pandemic: a longitudinal study using Understanding Society. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 527-536.	2.0	10
4	Effects of depression on employment and social outcomes: a Mendelian randomisation study. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 563-571.	2.0	17
5	The UK Coronavirus Job Retention Scheme and diet, physical activity, and sleep during the COVID-19 pandemic: evidence from eight longitudinal population surveys. <i>BMC Medicine</i> , 2022, 20, 147.	2.3	8
6	Psychological Distress Before and During the COVID-19 Pandemic Among Adults in the United Kingdom Based on Coordinated Analyses of 11 Longitudinal Studies. <i>JAMA Network Open</i> , 2022, 5, e227629.	2.8	116
7	Association between home working and mental health by key worker status during the Covid-19 pandemic. Evidence from four British longitudinal studies. <i>Industrial Health</i> , 2022, 60, 345-359.	0.4	4
8	Long COVID burden and risk factors in 10 UK longitudinal studies and electronic health records. <i>Nature Communications</i> , 2022, 13, .	5.8	243
9	Mental health and health behaviours before and during the initial phase of the COVID-19 lockdown: longitudinal analyses of the UK Household Longitudinal Study. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, jech-2020-215060.	2.0	323
10	Can centre-based childcare buffer against the negative effects of family adversity on child socio-emotional wellbeing?. <i>European Journal of Public Health</i> , 2021, 31, 474-481.	0.1	0
11	Potential biases when observing increased mortality risk in association with smoking cessation among older adults. <i>Age and Ageing</i> , 2021, 50, 1069-1070.	0.7	0
12	Social contact and inequalities in depressive symptoms and loneliness among older adults: A mediation analysis of the English Longitudinal Study of Ageing. <i>SSM - Population Health</i> , 2021, 13, 100726.	1.3	18
13	Predictors of COVID-19 vaccine hesitancy in the UK household longitudinal study. <i>Brain, Behavior, and Immunity</i> , 2021, 94, 41-50.	2.0	473
14	Pre-school childcare and inequalities in child development. <i>SSM - Population Health</i> , 2021, 14, 100776.	1.3	7
15	Effects of increased body mass index on employment status: a Mendelian randomisation study. <i>International Journal of Obesity</i> , 2021, 45, 1790-1801.	1.6	4
16	OP63â€¦The mental health of UK workers during the COVID-19 pandemic: a longitudinal analysis of differential impacts across industries and social class categories*. , 2021, , .		0
17	Which is most important for mental health: Money, poverty, or paid work? A fixed-effects analysis of the UK Household Longitudinal Study. <i>SSM - Population Health</i> , 2021, 15, 100909.	1.3	13
18	OP65â€¦Mental health inequalities in disruptions to healthcare, economic activity and housing during COVID-19: findings from 12 UK longitudinal population surveys. , 2021, , .		0

#	ARTICLE	IF	CITATIONS
19	OP34â€¦Ethnic and educational inequalities in COVID-19 vaccine hesitancy: cross-sectional analysis of the UK household longitudinal study. , 2021, , .		2
20	Evidence synthesis for constructing directed acyclic graphs (ESC-DAGs): a novel and systematic method for building directed acyclic graphs. <i>International Journal of Epidemiology</i> , 2020, 49, 322-329.	0.9	77
21	Do bedroom screens and the mealtime environment shape different trajectories of child overweight and obesity? Research using the Growing Up in Scotland study. <i>International Journal of Obesity</i> , 2020, 44, 790-802.	1.6	11
22	Youth vaping and smoking and parental vaping: a panel survey. <i>BMC Public Health</i> , 2020, 20, 1111.	1.2	3
23	Impact of UK Tobacco Control Policies on Inequalities in Youth Smoking Uptake: A Natural Experiment Study. <i>Nicotine and Tobacco Research</i> , 2020, 22, 1973-1980.	1.4	12
24	The causal effects of health conditions and risk factors on social and socioeconomic outcomes: Mendelian randomization in UK Biobank. <i>International Journal of Epidemiology</i> , 2020, 49, 1661-1681.	0.9	33
25	Socioeconomic patterning of vaping by smoking status among UK adults and youth. <i>BMC Public Health</i> , 2020, 20, 183.	1.2	19
26	Interpreting mutual adjustment for multiple indicators of socioeconomic position without committing mutual adjustment fallacies. <i>BMC Public Health</i> , 2019, 19, 10.	1.2	31
27	Coparenting and parenting pathways from the couple relationship to childrenâ€™s behavior problems.. <i>Journal of Family Psychology</i> , 2019, 33, 215-225.	1.0	58
28	Applying recommended evidence standards to understand the impact of eâ€™cigarettes on youth smoking and reporting of weak scientific evidence. <i>Addiction</i> , 2018, 113, 405-406.	1.7	4
29	Assessing causal relationships using genetic proxies for exposures: an introduction to Mendelian randomization. <i>Addiction</i> , 2018, 113, 764-774.	1.7	41
30	Timing of poverty in childhood and adolescent health: Evidence from the US and UK. <i>Social Science and Medicine</i> , 2018, 197, 136-143.	1.8	33
31	Calculating Versus Estimating Causal Effects. <i>American Journal of Public Health</i> , 2018, 108, e4-e5.	1.5	2
32	Life course models: improving interpretation by consideration of total effects. <i>International Journal of Epidemiology</i> , 2017, 46, dyw329.	0.9	10
33	Causal effects of transitions to adult roles on early adult smoking and drinking: Evidence from three cohorts. <i>Social Science and Medicine</i> , 2017, 187, 193-202.	1.8	16
34	Insomnia symptoms as a cause of type 2 diabetes Incidence: a 20Â¥year cohort study. <i>BMC Psychiatry</i> , 2017, 17, 94.	1.1	27
35	Adolescent smoking and tertiary education: opposing pathways linking socioâ€™economic background to alcohol consumption. <i>Addiction</i> , 2016, 111, 1457-1465.	1.7	11
36	Socioeconomic position and early adolescent smoking development: evidence from the British Youth Panel Survey (1994â€™2008). <i>Tobacco Control</i> , 2016, 25, 203-210.	1.8	35

#	ARTICLE	IF	CITATIONS
37	The emergence of health inequalities in early adulthood: evidence on timing and mechanisms from a West of Scotland cohort. <i>BMC Public Health</i> , 2015, 16, 41.	1.2	20
38	Differences in adiposity trajectories by birth cohort and childhood social class: evidence from cohorts born in the 1930s, 1950s and 1970s in the west of Scotland. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 550-556.	2.0	12
39	Latent class analysis was accurate but sensitive in data simulations. <i>Journal of Clinical Epidemiology</i> , 2014, 67, 1157-1162.	2.4	16
40	Social class and gender patterning of insomnia symptoms and psychiatric distress: a 20-year prospective cohort study. <i>BMC Psychiatry</i> , 2014, 14, 152.	1.1	30
41	The development of socioeconomic inequalities in anxiety and depression symptoms over the lifecourse. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2013, 48, 1951-1961.	1.6	45
42	Socioeconomic Position and Adolescent Trajectories in Smoking, Drinking, and Psychiatric Distress. <i>Journal of Adolescent Health</i> , 2013, 53, 202-208.e2.	1.2	26
43	Does Perceived Physical Attractiveness in Adolescence Predict Better Socioeconomic Position in Adulthood? Evidence from 20 Years of Follow Up in a Population Cohort Study. <i>PLoS ONE</i> , 2013, 8, e63975.	1.1	75
44	Is Telomere Length Socially Patterned? Evidence from the West of Scotland Twenty-07 Study. <i>PLoS ONE</i> , 2012, 7, e41805.	1.1	30
45	Is Telomere Length a Biomarker for Aging: Cross-Sectional Evidence from the West of Scotland?. <i>PLoS ONE</i> , 2012, 7, e45166.	1.1	47
46	The Longitudinal Course of Insomnia Symptoms: Inequalities by Sex and Occupational Class Among Two Different Age Cohorts Followed for 20 Years in the West of Scotland. <i>Sleep</i> , 2012, 35, 815-823.	0.6	44
47	“Getting sicker quicker”: Does living in a more deprived neighbourhood mean your health deteriorates faster?. <i>Health and Place</i> , 2012, 18, 132-137.	1.5	48
48	Do social inequalities in health widen or converge with age? Longitudinal evidence from three cohorts in the West of Scotland. <i>BMC Public Health</i> , 2011, 11, 947.	1.2	52
49	Ageing, social class and common mental disorders: longitudinal evidence from three cohorts in the West of Scotland. <i>Psychological Medicine</i> , 2011, 41, 565-574.	2.7	40
