46 papers	411 citations	1163117 8 h-index	940533 16 g-index
49 all docs	49 docs citations	49 times ranked	399 citing authors

#	ARTICLE	IF	CITATIONS
1	Multidisciplinary team meetings and their impact on workflow in radiology and pathology departments. BMC Medicine, 2007, 5, 15.	5.5	78
2	Multidisciplinary Medical Team Meetings: An Analysis of Collaborative Working with Special Attention to Timing and Teleconferencing. Computer Supported Cooperative Work, 2007, 15, 501-535.	2.9	55
3	Achieving Diagnosis by Consensus. Computer Supported Cooperative Work, 2009, 18, 357-392.	2.9	49
4	Information Sharing at Multidisciplinary Medical Team Meetings. Group Decision and Negotiation, 2011, 20, 437-464.	3.3	23
5	Exfoliated malignant cells in glove and instrument washings following head and neck surgery. Clinical Otolaryngology, 1996, 21, 281-283.	1.2	21
6	A novel methodology for evaluating user interfaces in health care. , 2011, , .		21
7	Medical team meetings: utilising technology to enhance communication, collaboration and decision-making. Behaviour and Information Technology, 2011, 30, 437-442.	4.0	15
8	Argumentation theory in health care. , 2012, , .		14
9	â€œDo no harmâ€ Fortifying MDT collaboration in changing technological times. International Journal of Medical Informatics, 2013, 82, 613-625.	3.3	13
10	Shared decision making needs a communication record. , 2013, , .		13
11	An evaluation of three designs to engage users when providing their consent on smartphones. Behaviour and Information Technology, 2021, 40, 398-414.	4.0	12
12	Machine Learningâ€"Based Analysis of Encrypted Medical Data in the Cloud: Qualitative Study of Expert Stakeholdersâ€™ Perspectives. JMIR Human Factors, 2021, 8, e21810.	2.0	12
13	Transition to telehealth. Irish Journal of Medical Science, 2022, 191, 2405-2422.	1.5	10
14	Probing the Use and Value of Video for Multi-Disciplinary Medical Teams in Teleconference. , 2006, , .		8
15	Assessing support requirements for multidisciplinary team meetings. , 2010, , .		6
16	A Qualitative Analysis of the Needs and Experiences of Hospital-based Clinicians when Accessing Medical Imaging. Journal of Digital Imaging, 2021, 34, 385-396.	2.9	6
17	Citizen-Patient Involvement in the Development of mHealth Technology: Protocol for a Systematic Scoping Review. JMIR Research Protocols, 2020, 9, e16781.	1.0	6
18	On record keeping at multidisciplinary team meetings. , 2011, , .		5

#	Article	IF	Citations
19	Variation in resource allocation in urgent and emergency Care Systems in Ireland. BMC Health Services Research, 2019, 19, 657.	2.2	5
20	Taking Lessons from Teleconference to Improve Same Time, Same Place Interaction. , 2008, , .		4
21	Using PAPAYA for eHealth - Use Case Analysis and Requirements. , 2020, , .		4
22	Enabling Change in Healthcare Structures through Teleconferencing. , 0, , .		3
23	Assimilating information and offering a medical opinion in remote and co-located meetings. , 2009, , .		3
24	Classification of patient case discussions through analysis of vocalisation graphs. , 2009, , .		3
25	Perspectives on record-keeping practices in MDT meetings and meeting record utility. International Journal of Medical Informatics, 2022, 161, 104711.	3.3	3
26	Automatic content segmentation of audio recordings at multidisciplinary medical team meetings. , 2008, , .		2
27	Developing a framework for evaluation of technology use at multidisciplinary meetings in healthcare. , 2013, , .		2
28	Multidisciplinary Work Practices: A Comparison of Three Major European Hospitals. , 2014, , .		2
29	The Use of a Digital Structured Format for Nursing Shift Handover to Improve Communication. , 2016, , .		2
30	The environmental impact of research communities. Xrds, 2021, 27, 46-51.	0.3	2
31	Sharing patient radiological imaging studies and pathological samples. , 2011, , .		1
32	Collaboration and multimedia. , 2012, , .		1
33	Electronic Health Records: A Survey of the Experiences and Expectations of Irish Dermatologists. , 2014, , .		1
34	Clinical Training and Teamwork: Learning and Feedback. , 2015, , .		1
35	Medical teamwork, collaboration and patient-centred care. Behaviour and Information Technology, 2015, 34, 543-547.	4.0	1
36	The Impact of Application System Messages on the Usability of Healthcare Software Applications. , 2016, , .		1

#	ARTICLE	IF	CITATIONS
37	Health Information Seeking among Young Adults in Sweden. , 2018, , .		1
38	Determining User Requirements for an Audiology Information System. , 2018, , .		1
39	Human computer interaction issues in eliciting user requirements for an Electronic Patient Record with multiple users. , 2011, , .		0
40	Expanding the HCI Agenda in Healthcare. , 2014, , .		0
41	Development of Minimum Dataset (MDS) for Postnatal Discharge Summaries (PDS). , 2016, , .		0
42	Trust, Ethics and Access: Challenges in Studying the Work of Multi-disciplinary Medical Teams. , 2017, , .		0
43	Wearable Devices and Measurement Data: An Empirical Study on eHealth and Data Sharing. , 2020, , .		0
44	A Study of the Impact of Collaborative Tools on the Effectiveness of Clinical Pathology Conferences. Lecture Notes in Computer Science, 2004, , 656-660.	1.3	0
45	Using Critical Incidents in Workshops to Inform eHealth Design. Lecture Notes in Computer Science, 2017, , 364-373.	1.3	0
46	Concepts for Analysis and Design of Mobile Healthcare Applications. Lecture Notes in Computer Science, 2008, , 229-236.	1.3	0
