SÃ DEN MÃLLED

#	Article	IF	CITATIONS
1	Research Data Management Challenges in Citizen Science Projects and Recommendations for Library Support Services. A Scoping Review and Case Study. Data Science Journal, 2021, 20, 25.	1.3	3
2	Review: A bibliometric survey of live feed for marine finfish and shrimp larval production. Aquaculture Research, 2021, 52, 5124.	1.8	7
3	Status and trends of circumpolar peregrine falcon and gyrfalcon populations. Ambio, 2020, 49, 762-783.	5.5	11
4	A nationwide assessment of plastic pollution in the Danish realm using citizen science. Scientific Reports, 2020, 10, 17773.	3.3	41
5	Perfluoroalkyl substances (PFASs) and polychlorinated naphthalenes (PCNs) add to the chemical cocktail in peregrine falcon eggs. Science of the Total Environment, 2019, 648, 894-901.	8.0	25
6	Regulated and Unregulated Halogenated Flame Retardants in Peregrine Falcon Eggs from Greenland. Environmental Science & Technology, 2018, 52, 474-483.	10.0	18
7	Extreme weather affects Peregrine Falcon (Falco peregrinus tundrius) breeding success in South Greenland. Ornis Hungarica, 2018, 26, 38-50.	0.4	6
8	The Danish Peregrine Falcon population: Reestablishment and eggshell thinning. Ornis Hungarica, 2018, 26, 159-163.	0.4	3
9	Raptors are still affected by environmental pollutants: Greenlandic Peregrines will not have normal eggshell thickness until 2034. Ornis Hungarica, 2018, 26, 171-176.	0.4	5
10	Levels and trends of toxaphene and chlordane-related pesticides in peregrine falcon eggs from South Greenland. Science of the Total Environment, 2014, 468-469, 614-621.	8.0	10
11	Persistent organochlorine compounds in peregrine falcon (Falco peregrinus) eggs from South Greenland: Levels and temporal changes between 1986 and 2003. Environment International, 2009, 35, 336-341.	10.0	21
12	Eggshell Thickness Variation in Red-legged Partridge (Alectoris rufa) from Spain. Wilson Journal of Ornithology, 2009, 121, 167-170.	0.2	10
13	Time Trends of Mercury in Feathers of West Greenland Birds of Prey During 1851â^'2003. Environmental Science & Technology, 2006, 40, 5911-5916.	10.0	52
14	The vibrational structure of (E,E′)-1,4-diphenyl-1,3-butadiene. Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy, 2006, 65, 770-778.	3.9	4
15	A long-term increase in eggshell thickness of Greenlandic Peregrine Falcons Falco peregrinus tundrius. Science of the Total Environment, 2006, 355, 127-134.	8.0	18
16	Temporal Development of Brominated Flame Retardants in Peregrine Falcon(Falco peregrinus) Eggs from South Greenland (1986â^'2003). Environmental Science & Technology, 2005, 39, 8199-8206.	10.0	104
17	Excited-state intramolecular proton transfer in anthralin Chemical Physics Letters, 1998, 291, 51-56.	2.6	23
18	Seabirds utilizing the Northeast Water polynya. Journal of Marine Systems, 1997, 10, 47-65.	2.1	24

SÃ,ren MÃ,ller

#	Article	IF	CITATIONS
19	Breeding ecology of the Fulmar <i>Fulmarus glacialis</i> and the Kittiwake <i>Rissa tridactyla</i> in highâ€arctic northeastern Greenland, 1993. Ibis, 1997, 139, 270-281.	1.9	31
20	Biexponential fluorescence decay of diphenylbutadiene rotational conformers after extreme red edge excitation. Chemical Physics Letters, 1995, 243, 579-585.	2.6	10
21	Satellite tracking of high-arctic northern fulmars. Polar Biology, 1995, 15, 495.	1.2	45
22	Colonies of Northern Fulmars and Black-legged Kittiwakes Associated with the Northeast Water Polynya, Northeast Greenland. Arctic, 1995, 48, .	0.4	7
23	SOLVENT AND TEMPERATURE EFFECTS ON THE EXCITED SINGLET STATE ABSORPTION OF DIPHENYLBUTADIENE. Photochemistry and Photobiology, 1992, 56, 953-958.	2.5	5
24	Sensitized triplet photochemistry of E- and Z-1,3,5-hexatriene. Journal of Photochemistry and Photobiology A: Chemistry, 1991, 62, 93-106.	3.9	11
