#	Paper	IF	Citations
95	Living with severe obesity: adults' physical activity preferences, self-efficacy to overcome barriers and motives.. <i>Disability and Rehabilitation</i> , 2022 , 44, 590-599	2.4	2
94	Exploring the Effects of Yoga Therapy on Heart Rate Variability and Patient-Reported Outcomes After Cancer Treatment: A Study Protocol.. <i>Integrative Cancer Therapies</i> , 2022 , 21, 15347354221075576 ³		
93	Understanding rural-living young adult cancer survivors' motivation during a telehealth behavior change intervention within a single-arm feasibility trial.. <i>Health Informatics Journal</i> , 2022 , 28, 14604582221075560		
92	Change in the social context of physical activity across adolescence and its association with moderate-to-vigorous intensity physical activity. <i>Psychology of Sport and Exercise</i> , 2022 , 60, 102170	4.2	
91	Exploring the effect of an eHealth intervention on women's physical activity: Design and rationale for a randomized controlled trial.. <i>Digital Health</i> , 2022 , 8, 20552076221093134	4	0
90	Body image in women diagnosed with breast cancer: A grounded theory study.. <i>Body Image</i> , 2022 , 41, 417-431	7.4	1
89	Using a dyadic approach to explore parental support for physical activity among young cancer survivors. <i>Disability and Rehabilitation</i> , 2021 , 43, 2704-2712	2.4	4
88	Work-related factors predict changes in physical activity among nurses participating in a web-based worksite intervention: A randomized controlled trial. <i>BMC Nursing</i> , 2021 , 20, 224	3.2	0
87	Childhood Sports Participation and Adolescent Sport Profile 2021 , 288-297		
86	Feasibility and acceptability of study methods and psychosocial interventions for body image targeting women diagnosed with breast cancer: a protocol for a systematic review. <i>BMJ Open</i> , 2021 , 11, e057309	3	
85	Women's Preferences for Body Image Programming: A Qualitative Study to Inform Future Programs Targeting Women Diagnosed With Breast Cancer. <i>Frontiers in Psychology</i> , 2021 , 12, 720178	3.4	0
84	Feasibility and acceptability of a telehealth behavior change intervention for promoting physical activity and fruit and vegetable consumption among rural-living young adult cancer survivors. <i>Journal of Psychosocial Oncology</i> , 2021 , 39, 715-733	2.8	1
83	Preliminary Evidence of Improvement in Adolescent and Young Adult Cancer Survivors' Brain Health Following Physical Activity: A Proof-of-Concept Sub-Study. <i>Brain Plasticity</i> , 2021 , 7, 97-109	3.5	0
82	Exploring adolescent girls' experiences of body talk in non-aesthetic sport. <i>Journal of Adolescence</i> , 2021 , 89, 63-73	3.4	4
81	Associations between physical activity motives and trends in moderate-to-Vigorous physical activity among adolescents over five years. <i>Journal of Sports Sciences</i> , 2021 , 39, 2147-2160	3.6	1
80	Investigating physical activity knowledge and beliefs as correlates of behaviour in the general population: a cross-sectional study. <i>Psychology, Health and Medicine</i> , 2021 , 26, 433-443	2.1	1
79	Health beliefs and engagement in moderate-to-vigorous-intensity physical activity among cancer survivors: a cross-sectional study. <i>Supportive Care in Cancer</i> , 2021 , 29, 477-484	3.9	3

78	Understanding adolescents' and young adults' self-perceptions after cancer treatment in the context of a two-arm, mixed-methods pilot randomized controlled physical activity trial. <i>Supportive Care in Cancer</i> , 2021 , 29, 4439-4450	3.9	1
77	An exercise trial for adults undergoing neoadjuvant chemoradiotherapy for rectal cancer proves not feasible: recommendations for future trials. <i>Trials</i> , 2021 , 22, 26	2.8	2
76	A scoping review of measures used to assess body image in women with breast cancer. <i>Psycho-Oncology</i> , 2021 , 30, 669-680	3.9	5
75	Physical activity behaviors and attitudes among women with an eating disorder: a qualitative study. <i>Journal of Eating Disorders</i> , 2021 , 9, 20	4.1	1
74	Boxing with Parkinson's Disease: findings from a qualitative study using self-determination theory. <i>Disability and Rehabilitation</i> , 2021 , 1-10	2.4	3
73	A qualitative study exploring middle-aged women's experiences with yoga. <i>Journal of Women and Aging</i> , 2021 , 1-13	1.4	
72	A proof-of-concept sub-study exploring feasibility and preliminary evidence for the role of physical activity on neural activity during executive functioning tasks among young adults after cancer treatment. <i>BMC Neurology</i> , 2021 , 21, 300	3.1	1
71	Exploring cancer survivors' experiences in a group-based walking program before and during the COVID-19 pandemic: a qualitative study. <i>Supportive Care in Cancer</i> , 2021 , 1	3.9	0
70	A Wearable Activity Tracker Intervention With and Without Weekly Behavioral Support Emails to Promote Physical Activity Among Women Who Are Overweight or Obese: Randomized Controlled Trial.. <i>JMIR MHealth and UHealth</i> , 2021 , 9, e28128	5.5	0
69	A systematic review summarizing the effect of health care provider-delivered physical activity interventions on physical activity behaviour in cancer survivors. <i>Patient Education and Counseling</i> , 2020 , 103, 1287-1301	3.1	
68	Motivation Predicts Change in Nurses' Physical Activity Levels During a Web-Based Worksite Intervention: Results From a Randomized Trial. <i>Journal of Medical Internet Research</i> , 2020 , 22, e11543	7.6	1
67	A classification of motivation and behavior change techniques used in self-determination theory-based interventions in health contexts.. <i>Motivation Science</i> , 2020 , 6, 438-455	3.4	132
66	Describing and exploring self-esteem, physical self-perceptions, physical activity and self-efficacy in adolescent and young adult cancer survivors. <i>European Journal of Cancer Care</i> , 2020 , 29, e13179	2.4	5
65	Exploring tensions within young breast cancer survivors' physical activity, nutrition and weight management beliefs and practices. <i>Disability and Rehabilitation</i> , 2020 , 42, 685-691	2.4	3
64	What Motivates Nurses to Exercise? Determinants of Physical Activity Among Canadian Nurses Using Self-Determination Theory. <i>Annals of Behavioral Medicine</i> , 2020 , 54, 381-390	4.5	2
63	Fitness- and appearance-related self-conscious emotions and sport experiences: A prospective longitudinal investigation among adolescent girls. <i>Psychology of Sport and Exercise</i> , 2020 , 47, 101641	4.2	11
62	Family history of cancer as a cue to action for physical activity behaviour and beliefs. <i>Psychology and Health</i> , 2020 , 35, 933-945	2.9	4
61	Study protocol of the Aerobic exercise and CogniTiVe functioning in women with breAsT cancer (ACTIVATE) trial: a two-arm, two-centre randomized controlled trial. <i>BMC Cancer</i> , 2020 , 20, 711	4.8	1

60	Predictors of cancer survivors' response to a community-based exercise program. <i>Psychology of Sport and Exercise</i> , 2020 , 47, 101529	4.2	4
59	Telehealth coaching for rural-living young adult cancer survivors: A protocol. <i>Health Education Journal</i> , 2020 , 79, 212-224	1.5	4
58	Posttraumatic growth and its correlates among survivors of adolescent and young adult cancer: A brief report. <i>Journal of Psychosocial Oncology</i> , 2020 , 38, 228-234	2.8	3
57	Years Participating in Sports During Childhood Predicts Mental Health in Adolescence: A 5-Year Longitudinal Study. <i>Journal of Adolescent Health</i> , 2019 , 64, 790-796	5.8	18
56	Systematic review and meta-analysis of maintenance of physical activity behaviour change in cancer survivors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 37	8.4	59
55	Exploring Physical Self-Perceptions Among Survivors of Adolescent and Young Adult Cancer. <i>Journal of Adolescent and Young Adult Oncology</i> , 2019 , 8, 373-378	2.2	
54	Exploring the feasibility and acceptability of a mixed-methods pilot randomized controlled trial testing a 12-week physical activity intervention with adolescent and young adult cancer survivors. <i>Pilot and Feasibility Studies</i> , 2019 , 5, 154	1.9	8
53	A qualitative study exploring what it takes to be physically active with a stoma after surgery for rectal cancer. <i>Supportive Care in Cancer</i> , 2019 , 27, 1481-1489	3.9	12
52	Parents' participation in physical activity predicts maintenance of some, but not all, types of physical activity in offspring during early adolescence: A prospective longitudinal study. <i>Journal of Sport and Health Science</i> , 2019 , 8, 273-279	8.2	6
51	A systematic review and meta-analysis of the effect of exercise on psychosocial outcomes in adults with obesity: A call for more research. <i>Mental Health and Physical Activity</i> , 2018 , 14, 1-10	5	8
50	A scoping review of studies exploring physical activity among adolescents and young adults diagnosed with cancer. <i>Psycho-Oncology</i> , 2018 , 27, 1875-1888	3.9	15
49	An exploratory qualitative study of the meaning and value of a running/walking program for women after a diagnosis of breast cancer. <i>Disability and Rehabilitation</i> , 2018 , 40, 1041-1048	2.4	2
48	The Impact of Web-Based Feedback on Physical Activity and Cardiovascular Health of Nurses Working in a Cardiovascular Setting: A Randomized Trial. <i>Frontiers in Physiology</i> , 2018 , 9, 142	4.6	12
47	The effects of exercise on pain, fatigue, insomnia, and health perceptions in patients with operable advanced stage rectal cancer prior to surgery: a pilot trial. <i>BMC Cancer</i> , 2017 , 17, 153	4.8	17
46	Evaluating Questionnaires Used to Assess Self-Reported Physical Activity and Psychosocial Outcomes Among Survivors of Adolescent and Young Adult Cancer: A Cognitive Interview Study. <i>Journal of Adolescent and Young Adult Oncology</i> , 2017 , 6, 482-488	2.2	5
45	"What Goes Around Comes Around": Antecedents, Mediators, and Consequences of Controlling vs. Need-Supportive Motivational Strategies Used by Exercise Professionals. <i>Annals of Behavioral Medicine</i> , 2017 , 51, 707-717	4.5	5
44	Physical Activity and Quality of Life in Cancer Survivors: A Meta-Synthesis of Qualitative Research. <i>Cancers</i> , 2017 , 9,	6.6	44
43	Longitudinal qualitative study describing family physicians' experiences with attempting to integrate physical activity prescriptions in their practice: 'It's not easy to change habits'. <i>BMJ Open</i> , 2017 , 7, e017265	3	5

42	Childhood Sports Participation and Adolescent Sport Profile. <i>Pediatrics</i> , 2017 , 140,	7.4	22
41	What Is Known About the Correlates and Impact of Excess Skin After Bariatric Surgery: a Scoping Review. <i>Obesity Surgery</i> , 2017 , 27, 2488-2498	3.7	6
40	The effectiveness of health care provider physical activity recommendations in cancer survivors: a systematic review and meta-analysis protocol. <i>Systematic Reviews</i> , 2017 , 6, 66	3	3
39	Linking Parental Influences and Youth Participation in Physical Activity In- and Out-of-school: The Mediating Role of Self-efficacy and Enjoyment. <i>American Journal of Health Behavior</i> , 2016 , 40, 31-7	1.9	13
38	Fostering positive experiences of group-based exercise classes after breast cancer: what do women have to say?. <i>Disability and Rehabilitation</i> , 2016 , 38, 1500-8	2.4	12
37	The Effects of Physical Activity on Health and Quality of Life in Adolescent Cancer Survivors: A Systematic Review. <i>JMIR Cancer</i> , 2016 , 2, e6	3.2	27
36	A Systematic Review Protocol to Assess the Effects of Physical Activity on Health and Quality of Life Outcomes in Adolescent Cancer Survivors. <i>JMIR Research Protocols</i> , 2016 , 5, e54	2	5
35	Linking Psychological Need Satisfaction and Physical Activity to Dimensions of Health-Related Quality of Life During Adolescence: A Test of Direct, Reciprocal, and Mediating Effects. <i>Journal of Sport and Exercise Psychology</i> , 2016 , 38, 367-380	1.5	7
34	Breast cancer survivors' barriers and motives for participating in a group-based physical activity program offered in the community. <i>Supportive Care in Cancer</i> , 2015 , 23, 2407-16	3.9	53
33	Exploring the experience of adhering to a prescribed pre-surgical exercise program for patients with advanced rectal cancer: A phenomenological study. <i>Psychology of Sport and Exercise</i> , 2015 , 16, 88-95	4.2	11
32	Measuring Perceived Barriers to Physical Activity in Adolescents. <i>Pediatric Exercise Science</i> , 2015 , 27, 252-61	2	8
31	Does proximity to physical activity infrastructures predict maintenance of organized and unorganized physical activities in youth?. <i>Preventive Medicine Reports</i> , 2015 , 2, 777-82	2.6	8
30	An integrative analytical framework for understanding the effects of autonomous and controlled motivation. <i>Personality and Individual Differences</i> , 2015 , 84, 2-15	3.3	28
29	Stress and physical activity in young adults treated for cancer: the moderating role of social support. <i>Supportive Care in Cancer</i> , 2014 , 22, 689-95	3.9	33
28	Identification and prediction of physical activity trajectories in women treated for breast cancer. <i>Annals of Epidemiology</i> , 2014 , 24, 837-42	6.4	23
27	Perceived parental social support and moderate-to-vigorous physical activity in children at risk of obesity. <i>Research Quarterly for Exercise and Sport</i> , 2014 , 85, 198-207	1.9	15
26	Measurement invariance of the depressive symptoms scale during adolescence. <i>BMC Psychiatry</i> , 2014 , 14, 95	4.2	22
25	Prospective examination of objectively assessed physical activity and sedentary time after breast cancer treatment: sitting on the crest of the teachable moment. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2014 , 23, 1324-30	4	73

24	School sport participation during adolescence and mental health in early adulthood. <i>Journal of Adolescent Health</i> , 2014 , 55, 640-4	5.8	100
23	Physical activity motivation mediates the association between depression symptoms and moderate-to-vigorous physical activity. <i>Preventive Medicine</i> , 2014 , 66, 45-8	4.3	24
22	Symptoms of depression are longitudinally associated with sedentary behaviors among young men but not among young women. <i>Preventive Medicine</i> , 2014 , 60, 16-20	4.3	25
21	Linking depression symptom trajectories in adolescence to physical activity and team sports participation in young adults. <i>Preventive Medicine</i> , 2013 , 56, 95-8	4.3	46
20	Surviving breast cancer: women's experiences with their changed bodies. <i>Body Image</i> , 2013 , 10, 344-51	7.4	66
19	Symptoms of specific anxiety disorders may relate differentially to different physical activity modalities in young adults. <i>Mental Health and Physical Activity</i> , 2013 , 6, 155-161	5	4
18	The association between past and current physical activity and depressive symptoms in young adults: a 10-year prospective study. <i>Annals of Epidemiology</i> , 2013 , 23, 25-30	6.4	42
17	A qualitative exploration of barriers and motivators to physical activity participation in women treated for breast cancer. <i>Disability and Rehabilitation</i> , 2013 , 35, 2038-45	2.4	80
16	The benefits of being self-determined in promoting physical activity and affective well-being among women recently treated for breast cancer. <i>Psycho-Oncology</i> , 2013 , 22, 2245-52	3.9	18
15	The Role of Physical Activity across the Cancer Survivorship Continuum 2013 , 491-503		1
14	Heterogeneity of Depressive Symptom Trajectories through Adolescence: Predicting Outcomes in Young Adulthood. <i>Journal of the Canadian Academy of Child and Adolescent Psychiatry</i> , 2013 , 22, 96-105	0.7	19
13	The association between physical self-discrepancies and women's physical activity: the mediating role of motivation. <i>Journal of Sport and Exercise Psychology</i> , 2012 , 34, 102-23	1.5	17
12	Reviewing the Benefits of Physical Activity During Cancer Survivorship. <i>American Journal of Lifestyle Medicine</i> , 2012 , 6, 167-177	1.9	54
11	Physical Activity and Breast Cancer Survivorship: Evidence-Based Recommendations. <i>American Journal of Lifestyle Medicine</i> , 2012 , 6, 224-240	1.9	15
10	Pain, movement, and mind: does physical activity mediate the relationship between pain and mental health among survivors of breast cancer?. <i>Clinical Journal of Pain</i> , 2012 , 28, 489-95	3.5	25
9	Exploring motivation for physical activity across the adult lifespan. <i>Psychology of Sport and Exercise</i> , 2011 , 12, 99-105	4.2	78
8	Self-presentation and physical activity in breast cancer survivors: the moderating effect of social cognitive constructs. <i>Journal of Sport and Exercise Psychology</i> , 2011 , 33, 759-78	1.5	16
7	Stop Staring!. <i>Journal of Physical Education, Recreation and Dance</i> , 2011 , 82, 39-43	0.7	6

6	In the company we keep: social physique anxiety levels differ around parents and peers. <i>Journal of Health Psychology</i> , 2011 , 16, 42-9	3.1	8
5	Exploring a model linking social physique anxiety, drive for muscularity, drive for thinness and self-esteem among adolescent boys and girls. <i>Body Image</i> , 2010 , 7, 137-42	7.4	51
4	The Posttraumatic Growth Inventory: an examination of the factor structure and invariance among breast cancer survivors. <i>Psycho-Oncology</i> , 2010 , 19, 830-8	3.9	66
3	The role of body-related self-conscious emotions in motivating women's physical activity. <i>Journal of Sport and Exercise Psychology</i> , 2010 , 32, 417-37	1.5	73
2	Invariance test of the Multidimensional Body Self-Relations Questionnaire: do women with breast cancer interpret this measure differently?. <i>Quality of Life Research</i> , 2010 , 19, 1171-80	3.7	15
1	Social physique anxiety and physical activity: A self-determination theory perspective. <i>Psychology of Sport and Exercise</i> , 2009 , 10, 329-335	4.2	69
