

Bannikuppe S Vishwanath

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8752942/bannikuppe-s-vishwanath-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

38
papers

1,016
citations

#	Paper	IF	Citations
38	Phenolic Rich Extract Of Finger Millet Bran Attenuates Lung Inflammation And Fibrosis In A Mouse Model Of Ovalbumin Induced Asthma. <i>International Journal of Pharma and Bio Sciences</i> , 2022 , 12, 238-246 ^{1,2}		
37	Drupin, a thrombin-like protease prompts platelet activation and aggregation through protease-activated receptors. <i>Journal of Cellular Biochemistry</i> , 2021 , 122, 870-881	4.7	
36	Thrombin-like serine protease, antiquorin from <i>Euphorbia antiquorum</i> latex induces platelet aggregation via PAR1-Akt/p38 signaling axis. <i>Biochimica Et Biophysica Acta - Molecular Cell Research</i> , 2021 , 1868, 118925	4.9	2
35	<i>Echis carinatus</i> snake venom metalloprotease-induced toxicities in mice: Therapeutic intervention by a repurposed drug, Tetraethyl thiuram disulfide (Disulfiram). <i>PLoS Neglected Tropical Diseases</i> , 2021 , 15, e0008596	4.8	5
34	Serine protease from <i>Tricosanthus tricuspidata</i> accelerates healing of <i>Echis carinatus</i> venom-induced necrotic wound. <i>Toxicon</i> , 2020 , 183, 1-10	2.8	3
33	Combinatorial inhibition of Angiotensin converting enzyme, Neutral endopeptidase and Aminopeptidase N by N-methylated peptides alleviates blood pressure and fibrosis in rat model of dexamethasone-induced hypertension. <i>Peptides</i> , 2020 , 123, 170180	3.8	4
32	Drupin, a cysteine protease from <i>Ficus drupacea</i> latex accelerates excision wound healing in mice. <i>International Journal of Biological Macromolecules</i> , 2020 , 165, 691-700	7.9	1
31	Evaluation of mechanisms of action of re-purposed drugs for treatment of COVID-19. <i>Cellular Immunology</i> , 2020 , 358, 104240	4.4	4
30	Plant latex thrombin-like cysteine proteases alleviates bleeding by bypassing factor VIII in murine model. <i>Journal of Cellular Biochemistry</i> , 2019 , 120, 12843-12858	4.7	10
29	Active-site directed peptide l-Phe-d-His-l-Leu inhibits angiotensin converting enzyme activity and dexamethasone-induced hypertension in rats. <i>Peptides</i> , 2019 , 112, 34-42	3.8	5
28	Plant DNases are potent therapeutic agents against <i>Echis carinatus</i> venom-induced tissue necrosis in mice. <i>Journal of Cellular Biochemistry</i> , 2019 , 120, 8319-8332	4.7	5
27	Purification and characterization of an anti-hemorrhagic protein from <i>Naja naja</i> (Indian cobra) venom. <i>Toxicon</i> , 2017 , 140, 83-93	2.8	9
26	Plant Latex Proteases: Natural Wound Healers 2017 , 297-323		9
25	Differential action of medically important Indian BIG FOUR snake venoms on rodent blood coagulation. <i>Toxicon</i> , 2016 , 110, 19-26	2.8	19
24	Quercetin-3-O-rhamnoside from <i>Euphorbia hirta</i> protects against snake Venom induced toxicity. <i>Biochimica Et Biophysica Acta - General Subjects</i> , 2016 , 1860, 1528-40	4	27
23	<i>Albizia lebbeck</i> seed methanolic extract as a complementary therapy to manage local toxicity of <i>Echis carinatus</i> venom in a murine model. <i>Pharmaceutical Biology</i> , 2016 , 54, 2568-2574	3.8	8
22	Dimethyl ester of bilirubin exhibits anti-inflammatory activity through inhibition of secretory phospholipase A2, lipoxygenase and cyclooxygenase. <i>Archives of Biochemistry and Biophysics</i> , 2016 , 598, 28-39	4.1	8

21	Celastrol modulates inflammation through inhibition of the catalytic activity of mediators of arachidonic acid pathway: Secretory phospholipase A group IIA, 5-lipoxygenase and cyclooxygenase-2. <i>Pharmacological Research</i> , 2016 , 113, 265-275	10.2	23
20	Virtual analysis of structurally diverse synthetic analogs as inhibitors of snake venom secretory phospholipase A2. <i>Journal of Molecular Recognition</i> , 2016 , 29, 22-32	2.6	8
19	Protective effect of <i>Euphorbia hirta</i> and its components against snake venom induced lethality. <i>Journal of Ethnopharmacology</i> , 2015 , 165, 180-90	5	23
18	Local and systemic toxicity of <i>Echis carinatus</i> venom: neutralization by <i>Cassia auriculata</i> L. leaf methanol extract. <i>Journal of Natural Medicines</i> , 2015 , 69, 111-22	3.3	12
17	Progressive Hemorrhage and Myotoxicity Induced by <i>Echis carinatus</i> Venom in Murine Model: Neutralization by Inhibitor Cocktail of N,N,N,N-Tetrakis (2-Pyridylmethyl) Ethane-1,2-Diamine and Silymarin. <i>PLoS ONE</i> , 2015 , 10, e0135843	3.7	14
16	Topical application of serine proteases from <i>Wrightia tinctoria</i> R. Br. (Apocyanaceae) latex augments healing of experimentally induced excision wound in mice. <i>Journal of Ethnopharmacology</i> , 2013 , 149, 377-83	5	42
15	Biochemical and biological characterization of <i>Naja kaouthia</i> venom from North-East India and its neutralization by polyvalent antivenom. <i>Journal of Venom Research</i> , 2013 , 4, 31-8	0.6	13
14	An overview on genus <i>Garcinia</i> : phytochemical and therapeutical aspects. <i>Phytochemistry Reviews</i> , 2011 , 10, 325-351	7.7	104
13	Characterization of major zinc containing myonecrotic and procoagulant metalloprotease <i>Vnalarin</i> from non lethal <i>Trimeresurus malabaricus</i> snake venom with thrombin like activity: its neutralization by chelating agents. <i>Current Topics in Medicinal Chemistry</i> , 2011 , 11, 2578-88	3	14
12	<i>Pergularin</i> is a plant cysteine protease with thrombin-like activity from <i>Pergularia extensa</i> latex. <i>Thrombosis Research</i> , 2010 , 125, e100-5	8.2	32
11	Cysteine proteases from the Asclepiadaceae plants latex exhibited thrombin and plasmin like activities. <i>Journal of Thrombosis and Thrombolysis</i> , 2009 , 28, 304-8	5.1	28
10	Thrombin like activity of <i>Asclepias curassavica</i> L. latex: action of cysteine proteases. <i>Journal of Ethnopharmacology</i> , 2009 , 123, 106-9	5	33
9	Comparative study on plant latex proteases and their involvement in hemostasis: a special emphasis on clot inducing and dissolving properties. <i>Planta Medica</i> , 2007 , 73, 1061-7	3.1	46
8	Purification and characterization of a 34-kDa, heat stable glycoprotein from <i>Synadenium grantii</i> latex: action on human fibrinogen and fibrin clot. <i>Biochimie</i> , 2006 , 88, 1313-22	4.6	73
7	Alpha-lipoic acid: an inhibitor of secretory phospholipase A2 with anti-inflammatory activity. <i>Life Sciences</i> , 2006 , 80, 146-53	6.8	17
6	Procoagulant activity of <i>Calotropis gigantea</i> latex associated with fibrin(ogen)olytic activity. <i>Toxicon</i> , 2005 , 46, 84-92	2.8	74
5	Inhibition of secretory phospholipase A(2) enzyme by bilirubin: a new role as endogenous anti-inflammatory molecule. <i>Molecular and Cellular Biochemistry</i> , 2005 , 276, 219-25	4.2	18
4	Edema-inducing activity of phospholipase A2 purified from human synovial fluid and inhibition by aristolochic acid. <i>Inflammation</i> , 1988 , 12, 549-61	5.1	139

3	Purification and partial biochemical characterization of an edema inducing phospholipase A2 from <i>Vipera russelli</i> (Russell's viper) snake venom. <i>Toxicon</i> , 1988 , 26, 713-20	2.8	53
2	Interaction of aristolochic acid with <i>Vipera russelli</i> phospholipase A2: its effect on enzymatic and pathological activities. <i>Toxicon</i> , 1987 , 25, 929-37	2.8	75
1	Interaction of phospholipase A2 from <i>Vipera russelli</i> venom with aristolochic acid: a circular dichroism study. <i>Toxicon</i> , 1987 , 25, 939-46	2.8	55
