#	ARTICLE	IF	CITATIONS
1	COPD in Smoking and Non-Smoking Community Members Exposed to the World Trade Center Dust and Fumes. International Journal of Environmental Research and Public Health, 2022, 19, 4249.	1.2	4
2	Respiratory impedance measured using impulse oscillometry in a healthy urban population. ERJ Open Research, 2021, 7, 00560-2020.	1.1	14
3	Enabling a learning healthcare system with automated computer protocols that produce replicable and personalized clinician actions. Journal of the American Medical Informatics Association: JAMIA, 2021, 28, 1330-1344.	2.2	22
4	Increased Dead Space Ventilation and Refractory Hypercapnia in Patients With Coronavirus Disease 2019: A Potential Marker of Thrombosis in the Pulmonary Vasculature. , 2020, 2, e0208.		8
5	Characterization of Persistent Uncontrolled Asthma Symptoms in Community Members Exposed to World Trade Center Dust and Fumes. International Journal of Environmental Research and Public Health, 2020, 17, 6645.	1.2	7
6	Bronchodilator Response Predicts Longitudinal Improvement in Small Airway Function in World Trade Center Dust Exposed Community Members. International Journal of Environmental Research and Public Health, 2019, 16, 1421.	1.2	6
7	Serum perfluoroalkyl substances and lung function in adolescents exposed to the World Trade Center disaster. Environmental Research, 2019, 172, 266-272.	3.7	16
8	Cournand and Richards: The Nobel Prize. Annals of the American Thoracic Society, 2018, 15, S1-S3.	1.5	3
9	Respiratory Health and Lung Function in Children Exposed to the World Trade Center Disaster. Journal of Pediatrics, 2018, 201, 134-140.e6.	0.9	11
10	Response. Neuromuscular Disorders, 2017, 27, 202.	0.3	0
11	Risk factors for persistence of lower respiratory symptoms among community members exposed to the 2001 World Trade Center terrorist attacks. Occupational and Environmental Medicine, 2017, 74, 449-455.	1.3	23
12	Distal airway dysfunction identifies pulmonary inflammation in asymptomatic smokers. ERJ Open Research, 2016, 2, 00066-2016.	1.1	19
13	Improvement in severe lower respiratory symptoms and small airway function in World Trade Center dust exposed community members. American Journal of Industrial Medicine, 2016, 59, 777-787.	1.0	9
14	Isolated small airway reactivity during bronchoprovocation as a mechanism for respiratory symptoms in WTC dust-exposed community members. American Journal of Industrial Medicine, 2016, 59, 767-776.	1.0	14
15	Progression from respiratory dysfunction to failure in late-onset Pompe disease. Neuromuscular Disorders, 2016, 26, 481-489.	0.3	29
16	POINT: Should Oscillometry Be Used to Screen for Airway Disease? Yes. Chest, 2015, 148, 1131-1135.	0.4	18
17	Rebuttal From Dr Berger et al. Chest, 2015, 148, 1137-1138.	0.4	0
18	Diagnosis of Carbon Monoxide Poisoning: Which Oxygen Saturation Is Correct. Chest, 2015, 148, 760A.	0.4	0

#	ARTICLE	IF	CITATIONS
19	Oscillometry complements spirometry in evaluation of subjects following toxic inhalation. ERJ Open Research, 2015, 1, 00043-2015.	1.1	21
20	Systemic Inflammation Associated With World Trade Center Dust Exposures and Airway Abnormalities in the Local Community. Journal of Occupational and Environmental Medicine, 2015, 57, 610-616.	0.9	28
21	Enrichment of Lung Microbiome with Supraglottic Microbes Is Associated with Increased Pulmonary Inflammation. Annals of the American Thoracic Society, 2014, 11, S71-S71.	1.5	3
22	Elevated Peripheral Eosinophils Are Associated with New-Onset and Persistent Wheeze and Airflow Obstruction in World Trade Center-Exposed Individuals. Journal of Asthma, 2013, 50, 25-32.	0.9	36
23	Airways Disease Presenting as Restrictive Impairment: Response. Chest, 2013, 144, 1978-1979.	0.4	0
24	Lessons From the World Trade Center Disaster. Chest, 2013, 144, 249-257.	0.4	53
25	Chronic and Acute Exposures to the World Trade Center Disaster and Lower Respiratory Symptoms: Area Residents and Workers. American Journal of Public Health, 2012, 102, 1186-1194.	1.5	39
26	Longitudinal Spirometry Among Patients in a Treatment Program for Community Members With World Trade Center-Related Illness. Journal of Occupational and Environmental Medicine, 2012, 54, 1208-1213.	0.9	18
27	Lung Pathologic Findings in a Local Residential and Working Community Exposed to World Trade Center Dust, Gas, and Fumes. Journal of Occupational and Environmental Medicine, 2011, 53, 981-991.	0.9	68
28	Case-Control Study of Lung Function in World Trade Center Health Registry Area Residents and Workers. American Journal of Respiratory and Critical Care Medicine, 2011, 184, 582-589.	2.5	86
29	Obstructive Airways Disease With Air Trapping Among Firefighters Exposed to World Trade Center Dust. Chest, 2010, 137, 566-574.	0.4	103
30	Characteristics of a Residential and Working Community With Diverse Exposure to World Trade Center Dust, Gas, and Fumes. Journal of Occupational and Environmental Medicine, 2009, 51, 534-541.	0.9	64
31	Distal Airway Function Assessed by Oscillometry at Varying Respiratory Rate: Comparison with Dynamic Compliance. COPD: Journal of Chronic Obstructive Pulmonary Disease, 2009, 6, 162-170.	0.7	48
32	Distal Airway Function in Symptomatic Subjects With Normal Spirometry Following World Trade Center Dust Exposure. Chest, 2007, 132, 1275-1282.	0.4	135
