#	ARTICLE	IF	CITATIONS
1	Why food insecurity persists in sub-Saharan Africa: A review of existing evidence. <i>Food Security</i> , 2022, 14, 845-864.	5.3	42
2	Addressing water security through catchment water stewardship partnerships: experiences from the Pangani Basin, Tanzania. <i>Water International</i> , 2022, 47, 540-564.	1.0	1
3	Beyond fertilizer for closing yield gaps in sub-Saharan Africa. <i>Nature Food</i> , 2021, 2, 756-757.	14.0	4
4	Is Smart Water Management really smart? What experts tell us. <i>Water International</i> , 2020, 45, 604-607.	1.0	0
5	Exploring the factors causing the poor performance of most irrigation schemes in post-independence sub-Saharan Africa. <i>International Journal of Water Resources Development</i> , 2020, 36, S54-S101.	2.0	29
6	Transforming failing smallholder irrigation schemes in Africa: a theory of change. <i>International Journal of Water Resources Development</i> , 2020, 36, S1-S19.	2.0	16
7	The report that sparked this special issue. <i>Water International</i> , 2020, 45, 520-525.	1.0	0
8	Before you go: the editors'™ checklist of what we now know about Smart Water Management. <i>Water International</i> , 2020, 45, 702-703.	1.0	1
9	Growth and inequality at the micro scale: an empirical analysis of farm incomes within smallholder irrigation systems in Zimbabwe, Tanzania and Mozambique. <i>International Journal of Water Resources Development</i> , 2020, 36, S224-S245.	2.0	6
10	Institutional innovation and smart water management technologies in small-scale irrigation schemes in southern Africa. <i>Water International</i> , 2020, 45, 621-650.	1.0	8
11	Smart Water Management: the way to (artificially) intelligent water management, or just another pretty name?. <i>Water International</i> , 2020, 45, 515-519.	1.0	3
12	Identifying leverage points to transition dysfunctional irrigation schemes towards complex adaptive systems. <i>International Journal of Water Resources Development</i> , 2020, 36, S171-S198.	2.0	19
13	Why agricultural production in sub-Saharan Africa remains low compared to the rest of the world – a historical perspective. <i>International Journal of Water Resources Development</i> , 2020, 36, S20-S53.	2.0	108
14	Do agricultural innovation platforms and soil moisture and nutrient monitoring tools improve the production and livelihood of smallholder irrigators in Mozambique?. <i>International Journal of Water Resources Development</i> , 2020, 36, S127-S147.	2.0	16
15	Irrigators'™ willingness to pay for the adoption of soil moisture monitoring tools in South-Eastern Africa. <i>International Journal of Water Resources Development</i> , 2020, 36, S246-S267.	2.0	14
16	The importance of learning processes in transitioning small-scale irrigation schemes. <i>International Journal of Water Resources Development</i> , 2020, 36, S199-S223.	2.0	27
17	The role of soil water monitoring tools and agricultural innovation platforms in improving food security and income of farmers in smallholder irrigation schemes in Tanzania. <i>International Journal of Water Resources Development</i> , 2020, 36, S148-S170.	2.0	24
18	The dynamics between irrigation frequency and soil nutrient management: transitioning smallholder irrigation towards more profitable and sustainable systems in Zimbabwe. <i>International Journal of Water Resources Development</i> , 2020, 36, S102-S126.	2.0	19

#	ARTICLE	IF	CITATIONS
19	Intertemporal Preferences of Potable Water Supply Consumers. <i>Journal of Water Resources Planning and Management - ASCE</i> , 2019, 145, 04019009.	2.6	3
20	Understanding agricultural water management in a historical context using a socioeconomic and biophysical framework. <i>Agricultural Water Management</i> , 2019, 213, 454-467.	5.6	19
21	The dynamics of the relationship between household decision-making and farm household income in small-scale irrigation schemes in southern Africa. <i>Agricultural Water Management</i> , 2019, 213, 135-145.	5.6	37
22	The social discourses on market-based instruments to manage non-point-source water pollution in the Oldman River basin, southern Alberta. <i>Water International</i> , 2018, 43, 385-403.	1.0	4
23	Poor water service quality in developed countries may have a greater impact on lower-income households. <i>Water International</i> , 2018, 43, 436-459.	1.0	7
24	The wicked problems of water quality governance. <i>Water International</i> , 2018, 43, 323-326.	1.0	7
25	Wicked problems facing integrated water quality management: what IWRA experts tell us. <i>Water International</i> , 2018, 43, 336-348.	1.0	5
26	Irrigation development in Zimbabwe: understanding productivity barriers and opportunities at Mkoba and Silalatshani irrigation schemes. <i>International Journal of Water Resources Development</i> , 2017, 33, 740-754.	2.0	44
27	Barriers to and opportunities for improving productivity and profitability of the Kiwere and Magozi irrigation schemes in Tanzania. <i>International Journal of Water Resources Development</i> , 2017, 33, 725-739.	2.0	49
28	Irrigation and crop diversification in the 25 de Setembro irrigation scheme, Mozambique. <i>International Journal of Water Resources Development</i> , 2017, 33, 705-724.	2.0	20
29	Exploring the productivity and profitability of small-scale communal irrigation systems in Sub-Saharan Africa. <i>International Journal of Water Resources Development</i> , 2017, 33, 685-689.	2.0	17
30	Communal irrigation systems in South-Eastern Africa: findings on productivity and profitability. <i>International Journal of Water Resources Development</i> , 2017, 33, 839-847.	2.0	15
31	Profitability and productivity barriers and opportunities in small-scale irrigation schemes. <i>International Journal of Water Resources Development</i> , 2017, 33, 690-704.	2.0	52
32	Irrigating Africa: policy barriers and opportunities for enhanced productivity of smallholder farmers. <i>International Journal of Water Resources Development</i> , 2017, 33, 824-838.	2.0	23
33	Theory and application of Agricultural Innovation Platforms for improved irrigation scheme management in Southern Africa. <i>International Journal of Water Resources Development</i> , 2017, 33, 804-823.	2.0	50
34	An overview of extension use in irrigated agriculture and case studies in south-eastern Africa. <i>International Journal of Water Resources Development</i> , 2017, 33, 755-769.	2.0	40
35	A table for five: Stakeholder perceptions of water governance in Alberta. <i>Agricultural Water Management</i> , 2016, 174, 11-21.	5.6	9
36	Factors that Influence the Rate and Intensity of Adoption of Improved Irrigation Technologies in Alberta, Canada. <i>Water Economics and Policy</i> , 2016, 02, 1650026.	1.0	5

#	ARTICLE	IF	CITATIONS
37	Lessons to Be Learned from Groundwater Trading in Australia and the United States. , 2016, , 493-517.		10
38	The Impact of Water and Soil Salinity on Water Market Trading in the Southern Murrayâ€“Darling Basin. Water Economics and Policy, 2016, 02, 1650004.	1.0	8
39	The Returns from Investing in Water Markets in Australia. , 2016, , 371-384.		4
40	Exploring Generational Differences Towards Water Resources and Policy Preferences of Water Re-Allocation in Alberta, Canada. Water Resources Management, 2015, 29, 5073-5089.	3.9	6
41	Changing to more efficient irrigation technologies in southern Alberta (Canada): an empirical analysis. Water International, 2015, 40, 1040-1058.	1.0	5
42	Adoption of improved irrigation scheduling methods in Alberta: An empirical analysis. Canadian Water Resources Journal, 2015, 40, 47-61.	1.2	35
43	Segmenting and Targeting Irrigatorsâ€™ Preferences Regarding Proposed Water Transfers. Society and Natural Resources, 2015, 28, 423-438.	1.9	3
44	A framework for assessing capacity in water governance. , 2015, , .		0
45	Understanding Irrigator Bidding Behavior in Australian Water Markets in Response to Uncertainty. Water (Switzerland), 2014, 6, 3457-3477.	2.7	10
46	Australian irrigators' recognition of the need for more environmental water flows and intentions to donate water allocations. Journal of Environmental Planning and Management, 2014, 57, 104-122.	4.5	17
47	Irrigator preferences for water recovery budget expenditure in the Murray-Darling Basin, Australia. Land Use Policy, 2014, 36, 396-404.	5.6	30
48	An overview of water sharing and participation issues for irrigators and their communities in Alberta: Implications for water policy. Agricultural Water Management, 2014, 145, 171-180.	5.6	9
49	Effects of â€œGrain for Greenâ€•reforestation program on rural sustainability in China: an AHP approach to peasant consensus of public land use policies. Stochastic Environmental Research and Risk Assessment, 2014, 28, 867-880.	4.0	16
50	Exploring some of the socio-economic realities of sustainable water management in irrigation: An overview. Agricultural Water Management, 2014, 145, 1-4.	5.6	1
51	Reviewing the adoption and impact of water markets in the Murrayâ€“Darling Basin, Australia. Journal of Hydrology, 2014, 518, 28-41.	5.4	127
52	Investigating the delayed on-farm consequences of selling water entitlements in the Murray-Darling Basin. Agricultural Water Management, 2014, 145, 72-82.	5.6	36
53	Water Trading in Australia: Tracing itsâ€™ Development and Impact Over the Past Three Decades. Global Issues in Water Policy, 2014, , 179-202.	0.1	2
54	Exploring the Reluctance to Embrace Water Markets in Alberta, Canada. Global Issues in Water Policy, 2014, , 215-237.	0.1	5

#	ARTICLE	IF	CITATIONS
55	Water governance for sustainable irrigation: the role of civil society. , 2014, , .		0
56	Farmersâ€™ climate change beliefs and adaptation strategies for a water scarce future in Australia. Global Environmental Change, 2013, 23, 537-547.	7.8	193
57	Extending stakeholder theory to promote resource management initiatives to key stakeholders: A case study of water transfers in Alberta, Canada. Journal of Environmental Management, 2013, 129, 81-91.	7.8	29
58	Segmenting the Urban and Rural Populations of Southern Alberta for Improved Understanding of Policy Preferences for Water Reallocation. Society and Natural Resources, 2013, 26, 1330-1350.	1.9	11
59	Policy preferences for water sharing in Alberta, Canada. Water Resources and Economics, 2013, 1, 93-110.	2.2	11
60	Evaluating water market products to acquire water for the environment in Australia. Land Use Policy, 2013, 30, 427-436.	5.6	66
61	Acquiring Water for the Environment: Lessons from Natural Resources Management. Journal of Environmental Policy and Planning, 2013, 15, 513-532.	2.8	23
62	Generational differences in policy preferences for water sharing: implications for the future. , 2013, , .		2
63	Economic incentives: successful in expansion, will it also be successful in contraction?. International Journal of Sustainable Development and Planning, 2013, 8, 422-439.	0.7	0
64	Handing down the farm? The increasing uncertainty of irrigated farm succession in Australia. Journal of Rural Studies, 2012, 28, 266-275.	4.7	70
65	Selling the Farm Silver? Understanding Water Sales to the Australian Government. Environmental and Resource Economics, 2012, 52, 133-154.	3.2	47
66	Allocation trade in Australia: a qualitative understanding of irrigator motives and behaviour*. Australian Journal of Agricultural and Resource Economics, 2012, 56, 42-60.	2.6	48
67	Case study, scenarios and the exploration of humansâ€™ subjectivity for market-based instrument success: an integrated framework. WIT Transactions on Ecology and the Environment, 2012, , .	0.0	0
68	Selling water for the environment: how sustainable is it for irrigators?. WIT Transactions on Ecology and the Environment, 2012, , .	0.0	0
69	Recreational value of irrigation infrastructure: a case study of Chestermere Lake, Alberta, Canada. , 2012, , .		0
70	Market based instruments: issues and opportunities for agriculture and water quality services in Alberta, Canada. WIT Transactions on Ecology and the Environment, 2012, , .	0.0	0
71	Sustainable irrigation: Alberta perspectives. , 2012, , .		0
72	Against the grain: segmenting and profiling irrigators opposed to water transfers in Alberta, Canada. WIT Transactions on Ecology and the Environment, 2012, , .	0.0	3

#	ARTICLE	IF	CITATIONS
73	The association between farm management strategies and irrigators' farm profits over time in the Murray-Darling Basin. WIT Transactions on Ecology and the Environment, 2012, , .	0.0	0
74	Achieving Targeted Environmental Flows: Alternative Allocation and Trading Models under Scarce Supply' Lessons from the Australian Reform Process. Environment and Planning C: Urban Analytics and City Science, 2011, 29, 745-760.	1.5	9
75	Exploring links between policy preferences for water reallocation and beliefs, values, attitudes, and social norms in Alberta, Canada. WIT Transactions on Ecology and the Environment, 2011, , .	0.0	4
76	Understanding the acceptance of market-based instruments for the ecosystem service of water quality. WIT Transactions on Ecology and the Environment, 2011, , .	0.0	2
77	Analysing the drivers of irrigator drought strategies in the Southern Murray Darling Basin. , 2011, , .		1
78	New wine in old bottles: a brief history of the use of economic incentives in natural resources management. , 2011, , .		0
