#	Article	IF	CITATIONS
1	Endophytes isolated from ginger rhizome exhibit growth promoting potential for <i>Zea mays</i> Archives of Agronomy and Soil Science, 2018, 64, 1302-1314.	2.6	25
2	Demulsification of oily wastewater using a nano carbon black modified with polyethyleneimine. Chemosphere, 2022, 295, 133857.	8.2	17
3	Amine functional cellulose derived from wastepaper toward oily wastewater treatment and its demulsification mechanism. Journal of Molecular Liquids, 2022, 360, 119459.	4.9	9
4	Co9S8 nanoparticles encapsulated in N,S co-doped hierarchical carbon as an efficient oxygen reduction electrocatalyst for microbial fuel cells. Journal of Electroanalytical Chemistry, 2022, 909, 116130.	3.8	8
5	The Cropping Obstacle of Garlic Was Associated With Changes in Soil Physicochemical Properties, Enzymatic Activities and Bacterial and Fungal Communities. Frontiers in Microbiology, 2022, 13, 828196.	3.5	6
6	Combined Microbial Consortium Inoculation and Black Locust Planting Is Effective in the Bioremediation of Waste Drill Cuttings. Frontiers in Microbiology, 2020, 11, 536787.	3.5	4
7	Diethylenetriamine modified biological waste for disposing oily wastewater. Environmental Research, 2022, 212, 113395.	7.5	4
8	Synthesis, performance and mechanism of a hyperbranched polymer with diethyl diphenyl-p-phenylenediamine as centronucleus. Colloids and Surfaces A: Physicochemical and Engineering Aspects, 2022, 645, 128888.	4.7	3
9	Biodegradation of Sulfonated Lignite (SL) by fungi from waste drilling mud. IOP Conference Series: Earth and Environmental Science, 2020, 601, 012038.	0.3	1
10	Screening and characterization of high performance synthetic-based drilling fluids degrading bacteria. IOP Conference Series: Earth and Environmental Science, 2020, 467, 012143.	0.3	0
11	Bio-Matrix Pot Addition Enhanced the Vegetation Process of Iron Tailings by Pennisetum giganteum. Frontiers in Microbiology, 2022, 13, 825660.	3.5	O
