#	ARTICLE	IF	CITATIONS
1	Metformin Mediates Protection against <i>Legionella</i> Pneumonia through Activation of AMPK and Mitochondrial Reactive Oxygen Species. <i>Journal of Immunology</i> , 2018, 200, 623-631.	0.8	61
2	Endogenous IL-17 as a factor determining the severity of <i>Clostridium difficile</i> infection in mice. <i>Journal of Medical Microbiology</i> , 2016, 65, 821-827.	1.8	25
3	N-acetyl-cysteine mediates protection against <i>Mycobacterium avium</i> through induction of human β 2-defensin-2 in a mouse lung infection model. <i>Microbes and Infection</i> , 2020, 22, 567-575.	1.9	9
4	Pneumococcal conjugate vaccine modulates macrophage-mediated innate immunity in pneumonia caused by <i>Streptococcus pneumoniae</i> following influenza. <i>Microbes and Infection</i> , 2020, 22, 312-321.	1.9	8
5	Analysis of synergy between beta-lactams and anti-methicillin-resistant <i>Staphylococcus aureus</i> agents from the standpoint of strain characteristics and binding action. <i>Journal of Infection and Chemotherapy</i> , 2019, 25, 273-280.	1.7	7
6	Evidence of latent molecular diversity determining the virulence of community-associated MRSA USA300 clones in mice. <i>Immunity, Inflammation and Disease</i> , 2018, 6, 402-412.	2.7	4
7	Traditional Japanese Herbal Medicine Hochu-Ekki-to Promotes Pneumococcal Colonization Clearance via Macrophage Activation and Interleukin 17A Production in Mice. <i>Frontiers in Cellular and Infection Microbiology</i> , 2020, 10, 569158.	3.9	4
8	<i>Clostridioides difficile</i> toxins enhanced the in vitro production of CXC chemokine ligand 2 and tumor necrosis factor- α via Toll-like receptors in macrophages. <i>Journal of Medical Microbiology</i> , 2021, 70, .	1.8	3
9	Tissue Damage Caused by Impaired Phagocytosis of Dead Cells: A Previously Unrecognized Adverse Effect Contributing to the Pathogenesis of β 1 T Cells in <i>Legionella</i> Pneumonia. <i>ImmunoHorizons</i> , 2020, 4, 402-414.	1.8	1
