

Juan de Dios Ortzar

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8833543/juan-de-dios-ortzar-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
177	Characterizing the impact of discrete indicators to correct for endogeneity in discrete choice models. <i>Journal of Choice Modelling</i> , 2022 , 42, 100342	3.8	0
176	Quantifying behavioural difference in latent class models to assess empirical identifiability: Analytical development and application to multiple heuristics. <i>Journal of Choice Modelling</i> , 2022 , 100356	3.8	0
175	Revisiting the Benefits of Combining Data of a Different Nature: Strategic Forecasting of New Mode Alternatives. <i>Journal of Advanced Transportation</i> , 2021 , 2021, 1-15	1.9	0
174	Estimating bicycle demand in an aggressive environment. <i>International Journal of Sustainable Transportation</i> , 2021 , 15, 259-272	3.6	11
173	Addressing endogeneity in strategic urban mode choice models. <i>Transportation</i> , 2021 , 48, 2081-2102	4	5
172	How to categorize individuals on the basis of underlying attitudes? A discussion on latent variables, latent classes and hybrid choice models. <i>Transportmetrica A: Transport Science</i> , 2021 , 17, 856-877	2.5	1
171	Using hybrid choice models to capture the impact of attitudes on residential greywater reuse preferences. <i>Resources, Conservation and Recycling</i> , 2021 , 164, 105171	11.9	6
170	A semi-compensatory choice model with probabilistic choice set: combining implicit choice set within probabilistic choice set formation. <i>Transportmetrica A: Transport Science</i> , 2021 , 17, 974-975	2.5	
169	The Value of Security, Access Time, Waiting Time, and Transfers in Public Transport 2021 , 122-126		1
168	A Geography of Road Transport in Cities 2021 , 300-305		
167	Assessing the potential acceptability of road pricing in Santiago. <i>Transportation Research, Part A: Policy and Practice</i> , 2021 , 144, 153-169	3.7	5
166	Is there room for a room-tax in the Canary Islands?. <i>International Journal of Tourism Research</i> , 2021 , 23, 743-756	3.7	
165	Capturing and analysing heterogeneity in residential greywater reuse preferences using a latent class model. <i>Journal of Environmental Management</i> , 2021 , 279, 111673	7.9	2
164	Forecasting with a joint mode/time-of-day choice model based on combined RP and SC data. <i>Transportation Research, Part A: Policy and Practice</i> , 2021 , 150, 302-316	3.7	2
163	From mathematical models to policy design: Predicting greywater reuse scheme effectiveness and water reclamation benefits based on individuals preferences. <i>Sustainable Cities and Society</i> , 2021 , 74, 103132	10.1	1
162	Understanding the preferences for different types of urban greywater uses and the impact of qualitative attributes. <i>Water Research</i> , 2020 , 184, 116007	12.5	11
161	Traffic accident risk perception among drivers: a latent variable approach. <i>Transportation Planning and Technology</i> , 2020 , 43, 313-324	1.6	2

160	The role of habit and the built environment in the willingness to commute by bicycle. <i>Travel Behaviour & Society</i> , 2020 , 20, 62-73	5.3	25
159	Forecasting the Quality of Service of Bogota's Sidewalks from Pedestrian Perceptions: An Ordered Probit MIMIC Approach. <i>Transportation Research Record</i> , 2020 , 2674, 205-216	1.7	13
158	Subjective valuation of tangible and intangible heritage neighbourhood attributes. <i>Habitat International</i> , 2020 , 105, 102249	4.6	0
157	Effect of critical incidents on public transport satisfaction and loyalty: an Ordinal Probit SEM-MIMIC approach. <i>Transportation</i> , 2020 , 47, 827-863	4	57
156	On the effect of operational service attributes on transit satisfaction. <i>Transportation</i> , 2020 , 47, 2307-2336	3.6	10
155	Pedestrian safety perception and urban street settings: a comment. <i>International Journal of Sustainable Transportation</i> , 2020 , 14, 914-916	3.6	3
154	Heterogeneity and college choice: Latent class modelling for improved policy making. <i>Journal of Choice Modelling</i> , 2019 , 33, 100185	3.8	1
153	Understanding public transport satisfaction: Using Maslow's hierarchy of (transit) needs. <i>Transport Policy</i> , 2019 , 81, 75-94	5.7	32
152	Preferences for sustainable mobility in natural areas: The case of Teide National Park. <i>Journal of Transport Geography</i> , 2019 , 76, 42-51	5.2	18
151	Demand for environmentally friendly vehicles: A review and new evidence. <i>International Journal of Sustainable Transportation</i> , 2019 , 13, 210-223	3.6	10
150	Sustainable Urban Mobility: What Can Be Done to Achieve It?. <i>Journal of the Indian Institute of Science</i> , 2019 , 99, 683-693	2.4	6
149	On evasion behaviour in public transport: Dissatisfaction or contagion?. <i>Transportation Research, Part A: Policy and Practice</i> , 2019 , 130, 626-651	3.7	1
148	Shared taxis: modelling the choice of a paratransit mode in Santiago de Chile. <i>Transportation</i> , 2019 , 46, 2243-2268	4	6
147	Fifty years of Transportation Research journals: A bibliometric overview. <i>Transportation Research, Part A: Policy and Practice</i> , 2019 , 120, 188-223	3.7	26
146	The role of critical incidents and involvement in transit satisfaction and loyalty. <i>Transport Policy</i> , 2019 , 75, 57-69	5.7	61
145	A comparison of bus passengers' and car drivers' valuation of casualty risk reductions in their routes. <i>Accident Analysis and Prevention</i> , 2019 , 122, 63-75	6.1	6
144	Modelling consumers' heterogeneous preferences: a case study with Chilean wine consumers. <i>Australian Journal of Grape and Wine Research</i> , 2018 , 24, 51-61	2.4	4
143	The Stochastic Satisficing model: A bounded rationality discrete choice model. <i>Journal of Choice Modelling</i> , 2018 , 27, 74-87	3.8	6

142	Estimating the value of risk reductions for car drivers when pedestrians are involved: a case study in Spain. <i>Transportation</i> , 2018 , 45, 499-521	4	4
141	Extended Methodology for the Estimation of a Zonal Origin-Destination Matrix: A Planning Software Application Based on Smartcard Trip Data. <i>Transportation Research Record</i> , 2018 , 2672, 859-869	3.7	3
140	Modelling service-specific and global transit satisfaction under travel and user heterogeneity. <i>Transportation Research, Part A: Policy and Practice</i> , 2018 , 113, 509-528	3.7	40
139	About attitudes and perceptions: finding the proper way to consider latent variables in discrete choice models. <i>Transportation</i> , 2017 , 44, 475-493	4	63
138	Predicting the Potential Market for Electric Vehicles. <i>Transportation Science</i> , 2017 , 51, 427-440	4.4	40
137	Modelling correlation patterns in mode choice models estimated on multiday travel data. <i>Transportation Research, Part A: Policy and Practice</i> , 2017 , 96, 146-153	3.7	17
136	Analyzing the continuity of attitudinal and perceptual indicators in hybrid choice models. <i>Journal of Choice Modelling</i> , 2017 , 25, 28-39	3.8	9
135	Towards a sustainable city: Applying urban renewal incentives according to the social and urban characteristics of the area. <i>Habitat International</i> , 2017 , 68, 15-23	4.6	10
134	If you choose not to decide, you still have made a choice. <i>Journal of Choice Modelling</i> , 2017 , 22, 13-23	3.8	7
133	Decreasing fare evasion without fines? A microeconomic analysis. <i>Research in Transportation Economics</i> , 2016 , 59, 151-158	2.4	18
132	Designing incentive packages for increased density and social inclusion in the neighbourhood of mass transit stations. <i>Habitat International</i> , 2016 , 55, 133-147	4.6	7
131	What is behind fare evasion in urban bus systems? An econometric approach. <i>Transportation Research, Part A: Policy and Practice</i> , 2016 , 84, 55-71	3.7	11
130	Modelling choice when price is a cue for quality: a case study with Chinese consumers. <i>Journal of Choice Modelling</i> , 2016 , 19, 24-39	3.8	23
129	Valuing crowding in public transport: Implications for cost-benefit analysis. <i>Transportation Research, Part A: Policy and Practice</i> , 2016 , 91, 358-378	3.7	29
128	Burying the Highway: The Social Valuation of Community Severance and Amenity. <i>International Journal of Sustainable Transportation</i> , 2015 , 9, 298-309	3.6	16
127	Accounting for stochastic variables in discrete choice models. <i>Transportation Research Part B: Methodological</i> , 2015 , 78, 222-237	7.2	7
126	Car drivers' valuation of landslide risk reductions. <i>Safety Science</i> , 2015 , 77, 1-9	5.8	5
125	Methodological challenges in modelling the choice of mode for a new travel alternative using binary stated choice data – The case of high speed rail in Norway. <i>Transportation Research, Part A: Policy and Practice</i> , 2015 , 78, 438-451	3.7	5

124	Asymmetric preferences for road safety: Evidence from a stated choice experiment among car drivers. <i>Transportation Research Part F: Traffic Psychology and Behaviour</i> , 2015 , 31, 112-123	4.5	3
123	A joint best-worst scaling and stated choice model considering observed and unobserved heterogeneity: An application to residential location choice. <i>Journal of Choice Modelling</i> , 2015 , 16, 1-14	3.8	18
122	Use of Mixed Stated and Revealed Preference Data for Crowding Valuation on Public Transport in Santiago, Chile. <i>Transportation Research Record</i> , 2015 , 2535, 73-78	1.7	32
121	Reflections on citizen-technical dialogue as part of cycling-inclusive planning in Santiago, Chile. <i>Research in Transportation Economics</i> , 2015 , 53, 20-30	2.4	6
120	About Attitudes and Perceptions: Finding the Proper Way to Consider Latent Variables in Discrete Choice Models. <i>SSRN Electronic Journal</i> , 2015 ,	1	2
119	Dealing with collinearity in travel time valuation. <i>Transportmetrica A: Transport Science</i> , 2015 , 11, 317-332	2.5	2
118	Increasing the acceptability of a congestion charging scheme. <i>Transport Policy</i> , 2015 , 39, 37-47	5.7	45
117	Modelling parking choices considering user heterogeneity. <i>Transportation Research, Part A: Policy and Practice</i> , 2014 , 70, 41-49	3.7	25
116	Exploring the role of social capital influence variables on travel behaviour. <i>Transportation Research, Part A: Policy and Practice</i> , 2014 , 68, 46-55	3.7	9
115	A long panel survey to elicit variation in preferences and attitudes in the choice of electric vehicles. <i>Transportation</i> , 2014 , 41, 973-993	4	70
114	Valuation of travel time savings for intercity travel: The Madrid-Barcelona corridor. <i>Transport Policy</i> , 2014 , 36, 105-117	5.7	27
113	Is Sequential Estimation a Suitable Second Best for Estimation of Hybrid Choice Models?. <i>Transportation Research Record</i> , 2014 , 2429, 51-58	1.7	21
112	Importance of Dwelling, Neighbourhood Attributes in Residential Location Modelling: Best Worst Scaling vs. Discrete Choice. <i>Procedia, Social and Behavioral Sciences</i> , 2014 , 160, 92-101		2
111	Restricting the use of cars by license plate numbers: A misguided urban transport policy. <i>DYNA (Colombia)</i> , 2014 , 81, 75-82	0.6	26
110	On the variability of hybrid discrete choice models. <i>Transportmetrica A: Transport Science</i> , 2014 , 10, 74-88	2.5	14
109	Modeling the Effects of Pro Bicycle Infrastructure and Policies Toward Sustainable Urban Mobility. <i>Journal of the Urban Planning and Development Division, ASCE</i> , 2014 , 140, 04014001	2.2	13
108	Subjective valuation of the transit transfer experience: The case of Santiago de Chile. <i>Transport Policy</i> , 2013 , 25, 138-147	5.7	33
107	Valuation of housing and neighbourhood attributes for city centre location: A case study in Santiago. <i>Habitat International</i> , 2013 , 39, 62-74	4.6	26

106	Valuing casualty risk reductions from estimated baseline risk. <i>Research in Transportation Economics</i> , 2013 , 43, 50-61	2.4	15
105	Integration of Spatial Correlation into a Combined Travel Model with Hierarchical Levels. <i>Spatial Economic Analysis</i> , 2013 , 8, 71-91	1.6	4
104	Survey Data to Model Time-of-Day Choice: Methodology and Findings 2013 , 479-506		3
103	Workshop Synthesis: Survey Methods to Inform Policy Makers on Energy, Environment, Climate and Natural Disasters 2013 , 523-536		
102	Practical and empirical identifiability of hybrid discrete choice models. <i>Transportation Research Part B: Methodological</i> , 2012 , 46, 1374-1383	7.2	36
101	Sea urchin: From plague to market opportunity. <i>Food Quality and Preference</i> , 2012 , 25, 46-56	5.8	14
100	Development of Surveys for Study of Departure Time Choice: Two-Stage Approach to Efficient Design. <i>Transportation Research Record</i> , 2012 , 2303, 9-18	1.7	34
99	Information processing in choice-based conjoint experiments. <i>European Journal of Marketing</i> , 2012 , 46, 422-446	4.4	6
98	Estimating the Value of Risk Reduction for Pedestrians in the Road Environment: An Exploratory Analysis. <i>Journal of Choice Modelling</i> , 2011 , 4, 70-94	3.8	13
97	Modal Split and Direct Demand Models 2011 , 207-225		3
96	On the Treatment of Repeated Observations in Panel Data: Efficiency of Mixed Logit Parameter Estimates. <i>Networks and Spatial Economics</i> , 2011 , 11, 393-418	1.9	23
95	Continuous Mobility Surveys: The State of Practice. <i>Transport Reviews</i> , 2011 , 31, 293-312	9.9	42
94	Mathematical Prerequisites 2011 , 29-53		
93	On the Use of Mixed RP/SP Models in Prediction: Accounting for Systematic and Random Taste Heterogeneity. <i>Transportation Science</i> , 2011 , 45, 98-108	4.4	20
92	2011 ,		627
91	Modelling Choice in a Changing Environment: Assessing the Shock Effects of a New Transport System 2010 , 445-460		4
90	Estimating individual preferences with flexible discrete-choice-models. <i>Food Quality and Preference</i> , 2010 , 21, 262-269	5.8	16
89	Forecasting vs. observed outturn: Studying choice in faster inter-island connections. <i>Transportation Research, Part A: Policy and Practice</i> , 2010 , 44, 159-168	3.7	4

88	Inclusion of latent variables in Mixed Logit models: Modelling and forecasting. <i>Transportation Research, Part A: Policy and Practice</i> , 2010 , 44, 744-753	3.7	64
87	Thresholds and indifference in stated choice surveys. <i>Transportation Research Part B: Methodological</i> , 2010 , 44, 753-763	7.2	20
86	Methodological advancements in constructing designs and understanding respondent behaviour related to stated preference experiments. <i>Transportation Research Part B: Methodological</i> , 2010 , 44, 717-719	7.2	2
85	Sequential and Simultaneous Estimation of Hybrid Discrete Choice Models: Some New Findings. <i>Transportation Research Record</i> , 2010 , 2156, 131-139	1.7	76
84	Defining Interalternative Error Structures for Joint Revealed Preference-Stated Preference Modeling: New Evidence. <i>Transportation Research Record</i> , 2010 , 2175, 65-73	1.7	2
83	The Santiago Panel: measuring the effects of implementing Transantiago. <i>Transportation</i> , 2010 , 37, 125-149	3.7	37
82	Can mixed logit reveal the actual data generating process? Some implications for environmental assessment. <i>Transportation Research, Part D: Transport and Environment</i> , 2010 , 15, 428-442	6.4	11
81	Die Schätzung externer Effekte im Verkehrswesen mithilfe von Stated-Choice-Experimenten. <i>Quarterly Journal of Economic Research</i> , 2010 , 79, 39-60	0.4	1
80	Estimating the willingness to pay and value of risk reduction for car occupants in the road environment. <i>Transportation Research, Part A: Policy and Practice</i> , 2009 , 43, 692-707	3.7	40
79	Identifying differences in willingness to pay due to dimensionality in stated choice experiments: a cross country analysis. <i>Journal of Transport Geography</i> , 2009 , 17, 21-29	5.2	45
78	Large-Scale Ongoing Mobility Surveys: The State of Practice 2009 , 503-531		3
77	Modelling the demand for medium distance air travel with the mixed data estimation method. <i>Journal of Air Transport Management</i> , 2008 , 14, 297-303	5.1	31
76	Identifying Transit Driver Preferences for Work Shift Structures: An Econometric Analysis. <i>Transportation Science</i> , 2008 , 42, 70-86	4.4	2
75	On Confounding Preference Heterogeneity and Income Effect in Discrete Choice Models. <i>Networks and Spatial Economics</i> , 2008 , 8, 97-108	1.9	14
74	Empirical Identification in the Mixed Logit Model: Analysing the Effect of Data Richness. <i>Networks and Spatial Economics</i> , 2008 , 8, 109-124	1.9	32
73	Modeling Discrete Choices in the Presence of Inertia and Serial Correlation. <i>Transportation Science</i> , 2007 , 41, 195-205	4.4	106
72	Understanding suburban travel demand: Flexible modelling with revealed and stated choice data. <i>Transportation Research, Part A: Policy and Practice</i> , 2007 , 41, 899-912	3.7	16
71	Valuation of Transport Externalities by Stated Choice Methods 2007 , 249-272		2

70	Costing School Transport in Spain. <i>Transportation Planning and Technology</i> , 2006 , 29, 483-501	1.6	10
69	Estimating the Willingness-to-Pay for Road Safety Improvements. <i>Transport Reviews</i> , 2006 , 26, 471-485	9.9	25
68	Implications of Thresholds in Discrete Choice Modelling. <i>Transport Reviews</i> , 2006 , 26, 667-691	9.9	20
67	On fitting mode specific constants in the presence of new options in RP/SP models. <i>Transportation Research, Part A: Policy and Practice</i> , 2006 , 40, 1-18	3.7	18
66	A discrete choice model incorporating thresholds for perception in attribute values. <i>Transportation Research Part B: Methodological</i> , 2006 , 40, 807-825	7.2	71
65	Use of Mixed Revealed-Preference and Stated-Preference Models with Nonlinear Effects in Forecasting. <i>Transportation Research Record</i> , 2006 , 1977, 27-34	1.7	4
64	Travel Survey Methods in Latin America 2006 , 1-18		3
63	Analysing Demand for Suburban Trips: A Mixed RP/SP Model with Latent Variables and Interaction Effects. <i>Transportation</i> , 2006 , 33, 241-261	4	33
62	Income, Time Effects and Direct Preferences in a Multimodal Choice Context: Application of Mixed RP/SP Models with Non-Linear Utilities. <i>Networks and Spatial Economics</i> , 2006 , 6, 7-23	1.9	8
61	Confidence Interval for Willingness to Pay Measures in Mode Choice Models. <i>Networks and Spatial Economics</i> , 2006 , 6, 81-96	1.9	28
60	Cuantificando la Percepci3n de Inseguridad Ciudadana en Barrios de Escasos Recursos. <i>Eure</i> , 2006 , 32,	1.1	5
59	Assessing the influence of design dimensions on stated choice experiment estimates. <i>Transportation Research Part B: Methodological</i> , 2005 , 39, 621-640	7.2	316
58	A semi-compensatory discrete choice model with explicit attribute thresholds of perception. <i>Transportation Research Part B: Methodological</i> , 2005 , 39, 641-657	7.2	83
57	Valuing noise level reductions in a residential location context. <i>Transportation Research, Part D: Transport and Environment</i> , 2005 , 10, 305-322	6.4	41
56	On the joint valuation of averting fatal and severe injuries in highway accidents. <i>Journal of Safety Research</i> , 2005 , 36, 377-86	4	43
55	Preference Heterogeneity and Willingness to Pay for Travel Time Savings. <i>Transportation</i> , 2005 , 32, 627-647	4.7	45
54	Willingness-to-Pay Estimation with Mixed Logit Models: Some New Evidence. <i>Environment and Planning A</i> , 2005 , 37, 525-550	2.7	188
53	On Best Practice in Continuous Large-scale Mobility Surveys. <i>Transport Reviews</i> , 2004 , 24, 337-363	9.9	26

52	Willingness-to-pay for reducing fatal accident risk in urban areas: an Internet-based Web page stated preference survey. <i>Accident Analysis and Prevention</i> , 2004 , 36, 513-24	6.1	90
51	From Respondent Burden to Respondent Delight 2003 , 523-528		1
50	El problema de modelaci3n de demanda desde una perspectiva desagregada: el caso del transporte. <i>Eure</i> , 2003 , 29, 149	1.1	5
49	Stated preference in the valuation of interurban road safety. <i>Accident Analysis and Prevention</i> , 2003 , 35, 9-22	6.1	128
48	Microeconomic Formulation and Estimation of a Residential Location Choice Model: Implications for the Value of Time. <i>Journal of Regional Science</i> , 2003 , 43, 771-789	1.8	35
47	Valuation Case Studies. <i>Handbooks in Transport</i> , 2003 , 391-409		1
46	Valuing reductions in environmental pollution in a residential location context. <i>Transportation Research, Part D: Transport and Environment</i> , 2002 , 7, 407-427	6.4	16
45	Mixed RP/SP models incorporating interaction effects. <i>Transportation</i> , 2002 , 29, 371-395	4	52
44	Review and assessment of the nested logit model. <i>Transport Reviews</i> , 2002 , 22, 197-218	9.9	34
43	Willingness to Pay for Social Housing Attributes: A Case Study from Chile. <i>International Planning Studies</i> , 2002 , 7, 55-87	1.6	26
42	On the development of the nested logit model. <i>Transportation Research Part B: Methodological</i> , 2001 , 35, 213-216	7.2	13
41	Confidence intervals to bound the value of time. <i>Transportation Research, Part E: Logistics and Transportation Review</i> , 2001 , 37, 143-161	9	78
40	Valuation of Road Fatalities 2001 , 855-868		
39	Application of Willingness-to-Pay Methods to Value Transport Externalities in Less Developed Countries. <i>Environment and Planning A</i> , 2000 , 32, 2007-2018	2.7	30
38	Stated Preferences in Modelling Accessibility. <i>International Planning Studies</i> , 2000 , 5, 65-85	1.6	31
37	Valuing Accidents Using Stated Preference Methods 2000 , 36		2
36	Representation of heteroskedasticity in discrete choice models. <i>Transportation Research Part B: Methodological</i> , 2000 , 34, 219-240	7.2	35
35	Estimating demand for a cycle-way network. <i>Transportation Research, Part A: Policy and Practice</i> , 2000 , 34, 353-373	3.7	43

34	Mixed modelling of interurban trips by coach and train. <i>Transportation Research, Part A: Policy and Practice</i> , 1998 , 32, 345-357	3.7	7
33	Modelling new pricing strategies for the Santiago Metro. <i>Transport Policy</i> , 1998 , 5, 223-232	5.7	17
32	On the semantic scale problem in stated preference rating experiments. <i>Transportation</i> , 1994 , 21, 185-201		7
31	A practical assessment of stated preferences methods. <i>Transportation</i> , 1994 , 21, 289-305	4	16
30	Deriving Public Transport Level of Service Weights from a Multiple Comparison of Latent and Observable Variables. <i>Journal of the Operational Research Society</i> , 1994 , 45, 1099-1107	2	14
29	Flexible long range planning using low cost information. <i>Transportation</i> , 1991 , 18, 151-173	4	4
28	Value of time sensitivity to model specification. <i>Transportation Research Part B: Methodological</i> , 1989 , 23, 151-158	7.2	65
27	The crisis for transportation planning modelling: A comment. <i>Transport Reviews</i> , 1988 , 8, 373-375	9.9	
26	Discussion of [A Game/Simulation for Transportation Management [by Aaron Adiv (January, 1986, Vol. 112, No. 1)]. <i>Journal of Transportation Engineering</i> , 1987 , 113, 225-227		
25	On the stability of discrete choice models in different environments. <i>Transportation Planning and Technology</i> , 1985 , 10, 209-218	1.6	5
24	Intuition and models in transport management. <i>Transportation Research Part A: Policy and Practice</i> , 1985 , 19, 51-57		3
23	Modal Choice Modelling for Several Alternatives: Application of Disaggregate Demand Models in Santiago, Chile. <i>Lecture Notes in Economics and Mathematical Systems</i> , 1985 , 249-261	0.4	1
22	Nested logit models for mixed-mode travel in urban corridors. <i>Transportation Research Part A: Policy and Practice</i> , 1983 , 17, 283-299		42
21	Fundamentals of discrete multimodal choice modelling. <i>Transport Reviews</i> , 1982 , 2, 47-78	9.9	18
20	Travel demand and response analysis: Some integrating themes. <i>Transportation Research Part A: Policy and Practice</i> , 1982 , 16, 345-362		11
19	Modelling park'n ride and kiss'n ride as submodal choices. <i>Transportation</i> , 1980 , 9, 287-291	4	4
18	Mixed-mode travel demand forecasting techniques. <i>Transportation Planning and Technology</i> , 1980 , 6, 81-95	1.6	5
17	On the perception of safety in low income neighbourhoods: using digital images in a stated choice experiment		193-210

16	Obtaining Public Transport Level-of-Service Measures Using In-Vehicle GPS Data and Freely Available GIS Web-Based Tools. <i>Advances in Data Mining and Database Management Book Series</i> ,258-275	0.6	1
15	Use of Mixed Revealed-Preference and Stated-Preference Models with Nonlinear Effects in Forecasting		8
14	Model Aggregation and Transferability	333-347	
13	Freight Demand Models	461-471	
12	Specification and Estimation of Discrete Choice Models	269-331	1
11	Simplified Transport Demand Models	429-459	
10	Trip Generation Modelling	139-173	
9	Key Parameters, Planning Variables and Value Functions	489-531	
8	Data and Space	55-137	2
7	Pricing and Revenue	533-549	
6	Assignment	349-390	
5	Activity Based Models	473-487	2
4	Forecasting with strategic transport models corrected for endogeneity. <i>Transportmetrica A: Transport Science</i> ,1-28		2.5 1
3	Equilibrium and Dynamic Assignment	391-427	1
2	Trip Distribution Modelling	175-206	4
1	Discrete Choice Models	227-268	2
