#	ARTICLE	IF	CITATIONS
1	Is there anything else to fish out of this "fishy" electrocardiogram?. Netherlands Heart Journal, 2022, 30, 121-122.	0.8	0
2	Bifid coronary artery with double origin: A clinically relevant coronary artery anomaly. Journal of Cardiac Surgery, 2022, , .	0.7	0
3	Transitory R wave growth in the midst of ST-segment elevation myocardial infarction: A case of left septal fascicular block with atypical electrocardiographic presentation. Journal of Electrocardiology, 2022, 72, 39-43.	0.9	3
4	Electrocardiographic ST-segment elevation with prominent R waves in precordial leads. Netherlands Heart Journal, 2022, 30, 490-492.	0.8	2
5	Electrocardiographic ST-segment elevation with prominent R waves in precordial leads. Netherlands Heart Journal, 2022, 30, 486-487.	0.8	1
6	Ischaemia-induced J waves. European Heart Journal - Case Reports, 2022, 6, .	0.6	1
7	A patient with an hourglass shaped fractured coronary stent. Postepy W Kardiologii Interwencyjnej, 2021, 17, 116-121.	0.2	0
8	Acute coronary syndrome featuring dynamic J waves. Cardiology Journal, 2021, 28, 638-639.	1.2	1
9	Electrocardiographic presentation of acute left main coronary artery occlusion misinterpreted as ventricular tachycardia. Journal of Electrocardiology, 2021, 68, 7-10.	0.9	2
10	Bifid left main coronary artery with double origin. Coronary Artery Disease, 2021, Publish Ahead of Print, .	0.7	0
11	A patient with chest pain and a pulsating left main coronary artery. Netherlands Heart Journal, 2020, 28, 108-109.	0.8	0
12	Catheter-induced coronary artery dissection: the role of exhalation during contrast medium injection. Cor Et Vasa, 2019, 61, 547-550.	0.1	1
13	A patient with simultaneous anterior and inferior ST-segment elevation after percutaneous coronary intervention. Journal of Electrocardiology, 2019, 57, 24-26.	0.9	1
14	Double perforation of an anomalous radial artery tackled with balloon-assisted tracking and guide catheter tamponade. Hellenic Journal of Cardiology, 2018, 59, 241-243.	1.0	0
15	Excimer laser-facilitated stent expansion: The effect of contrast enhancement. Hellenic Journal of Cardiology, 2017, 58, 303-305.	1.0	3
16	A case of dynamic segmental saphenous vein graft compression during diastole. Cor Et Vasa, 2016, 58, e444-e447.	0.1	0
17	Meta-Analysis of the Prognostic Impact of Anemia in Patients Undergoing Percutaneous Coronary Intervention. American Journal of Cardiology, 2016, 118, 610-620.	1.6	58
18	Bilateral earlobe creases and left main coronary artery disease. Kardiologia Polska, 2016, 74, 85-85.	0.6	0

#	ARTICLE	IF	CITATIONS
19	Bilaterally originating double left circumflex artery: what is the course of the right-sided branch?. Netherlands Heart Journal, 2014, 22, 411-412.	0.8	0
20	Letter to the Editor: Intraseptal versus interarterial anomalous coronary artery course: A recurrent challenge. Journal of Cardiology Cases, 2014, 9, 245-246.	0.5	0
21	Twin left circumflex arteries in a patient undergoing aortic valve replacement. European Review for Medical and Pharmacological Sciences, 2014, 18, 71-3.	0.7	4
22	Coronary artery anomaly: what does not fit the patient or the interpretation?. European Review for Medical and Pharmacological Sciences, 2014, 18, 1682-3.	0.7	0
23	Angiographically "Missing" Coronary Artery: Occluded or Aberrant?. Journal of Cardiac Surgery, 2013, 28, 278-279.	0.7	1
24	Coronary Extramural Haematoma Caused by Perforation during Left Main Coronary Artery Intervention. Heart Lung and Circulation, 2013, 22, 970-972.	0.4	1
25	Symptomatic anomalous right coronary artery originating superior to the left aortic sinus with interarterial course in a young adult. Diagnosis with multislice computed tomographic coronary angiography. Journal of Cardiovascular Medicine, 2012, 13, 148-151.	1.5	6
26	A case of crossing coronary arteries. Journal of Cardiovascular Medicine, 2012, 13, 332-333.	1.5	6
27	Isolated right ventricular infarction during percutaneous coronary intervention. Herz, 2012, 37, 222-224.	1.1	2
28	Complex coronary artery anatomy in a patient with prolapsing left atrial myxoma. Herz, 2012, 37, 342-346.	1.1	2
29	Isolated single coronary artery with dual right coronary artery distribution. Herz, 2012, 37, 432-436.	1.1	3
30	Epsilon waves in right ventricular myocardial infarction. Texas Heart Institute Journal, 2012, 39, 306.	0.3	1
31	Letter to the editor. Experimental and Clinical Cardiology, 2012, 17, 155.	1.3	0
32	Stenting for an internal mammary artery graft kink. Archives of Cardiovascular Diseases, 2011, 104, 423-424.	1.6	2
33	Improper aortic sinus-connected coronary artery: Ascertaining the course is essential (Comment on) Tj ETQq1 1 0.784314 rgBT /Overbo	1.1	0
34	Right-sided coronary artery origin: interarterial or intraseptal course?. Acta Cardiologica, 2011, 66, 275-276.	0.9	2
35	Preinfarction angina entailing precordial ST segment depression with positive T wave. Journal of Cardiovascular Medicine, 2011, 12, 828-832.	1.5	1
36	Update on disease: percutaneous coronary intervention of bifurcation lesions. Interventional Cardiology, 2011, 3, 213-221.	0.0	1

#	ARTICLE	IF	CITATIONS
37	A patient with multiple vascular atherosclerotic distributions. <i>Experimental and Clinical Cardiology</i> , 2011, 16, 27-9.	1.3	0
38	Split right coronary artery. <i>Journal of Cardiovascular Medicine</i> , 2010, 11, 399-400.	1.5	7
39	Dominant right coronary artery occlusion entailing diffuse ST-segment elevation in the precordial leads. <i>Journal of Cardiovascular Medicine</i> , 2010, 11, 843-847.	1.5	5
40	Right posterior sinoatrial node artery showing a pericaval course: a previously undescribed mode of termination. <i>Surgical and Radiologic Anatomy</i> , 2010, 32, 609-612.	1.2	0
41	Dual anterior interventricular artery type IV: a rare anatomical variation. <i>Surgical and Radiologic Anatomy</i> , 2010, 32, 699-702.	1.2	4
42	The parallel left anterior descending coronary artery. <i>International Journal of Cardiology</i> , 2010, 138, 219-220.	1.7	3
43	Diffuse precordial ST-segment elevation in inferior-right myocardial infarction. <i>Cardiology Journal</i> , 2010, 17, 628-31.	1.2	1
44	Short branch of type IV dual left anterior descending coronary artery running as an aberrant obtuse marginal branch: A previously undescribed arrangement. <i>Clinical Anatomy</i> , 2009, 22, 873-875.	2.7	9
45	Aberrant right coronary artery origin from the left aortic sinus with interarterial course manifesting acute myocardial infarction. <i>Experimental and Clinical Cardiology</i> , 2009, 14, 50-2.	1.3	7
46	Spontaneous coronary artery dissection: Report of two unsuspected cases initially treated with thrombolysis. <i>Experimental and Clinical Cardiology</i> , 2009, 14, e89-92.	1.3	7
