#	ARTICLE	IF	CITATIONS
1	Public perceptions, anxiety, and behaviour change in relation to the swine flu outbreak: cross sectional telephone survey. <i>BMJ: British Medical Journal</i> , 2009, 339, b2651-b2651.	2.3	859
2	COVID-19 vaccination intention in the UK: results from the COVID-19 vaccination acceptability study (CoVAccS), a nationally representative cross-sectional survey. <i>Human Vaccines and Immunotherapeutics</i> , 2021, 17, 1612-1621.	3.3	517
3	Applying principles of behaviour change to reduce SARS-CoV-2 transmission. <i>Nature Human Behaviour</i> , 2020, 4, 451-459.	12.0	437
4	A Systematic, Thematic Review of Social and Occupational Factors Associated With Psychological Outcomes in Healthcare Employees During an Infectious Disease Outbreak. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, 248-257.	1.7	415
5	A systematic review of factors affecting vaccine uptake in young children. <i>Vaccine</i> , 2017, 35, 6059-6069.	3.8	294
6	Factors associated with adherence to self-isolation and lockdown measures in the UK: a cross-sectional survey. <i>Public Health</i> , 2020, 187, 41-52.	2.9	174
7	Adherence to the test, trace, and isolate system in the UK: results from 37 nationally representative surveys. <i>BMJ, The</i> , 2021, 372, n608.	6.0	170
8	Psychological resilience and post-traumatic growth in disaster-exposed organisations: overview of the literature. <i>BMJ Military Health</i> , 2020, 166, 52-56.	0.9	148
9	Harnessing behavioural science in public health campaigns to maintain "social distancing" in response to the COVID-19 pandemic: key principles. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, 617-619.	3.7	141
10	Facilitating Collective Psychosocial Resilience in the Public in Emergencies: Twelve Recommendations Based on the Social Identity Approach. <i>Frontiers in Public Health</i> , 2019, 7, 141.	2.7	123
11	Social and occupational factors associated with psychological distress and disorder among disaster responders: a systematic review. <i>BMC Psychology</i> , 2016, 4, 18.	2.1	112
12	Risk and resilience factors affecting the psychological wellbeing of individuals deployed in humanitarian relief roles after a disaster. <i>Journal of Mental Health</i> , 2015, 24, 385-413.	1.9	110
13	What is the value of health emergency preparedness exercises? A scoping review study. <i>International Journal of Disaster Risk Reduction</i> , 2017, 21, 274-283.	3.9	86
14	Effect of evacuation and displacement on the association between flooding and mental health outcomes: a cross-sectional analysis of UK survey data. <i>Lancet Planetary Health, The</i> , 2017, 1, e134-e141.	11.4	85
15	The English national cohort study of flooding and health: cross-sectional analysis of mental health outcomes at year one. <i>BMC Public Health</i> , 2017, 17, 129.	2.9	83
16	Infection prevention behaviour and infectious disease modelling: a review of the literature and recommendations for the future. <i>BMC Public Health</i> , 2018, 18, 336.	2.9	81
17	Mediating the social and psychological impacts of terrorist attacks: The role of risk perception and risk communication. <i>International Review of Psychiatry</i> , 2007, 19, 279-288.	2.8	80
18	Emergent social identities in a flood: Implications for community psychosocial resilience. <i>Journal of Community and Applied Social Psychology</i> , 2018, 28, 3-14.	2.4	80

#	ARTICLE	IF	CITATIONS
19	Multimodal visualâ€“somatosensory integration in saccade generation. <i>Neuropsychologia</i> , 2003, 41, 1-15.	1.6	62
20	Reducing SARSâ€“CoVâ€“2 transmission in the UK: A behavioural science approach to identifying options for increasing adherence to social distancing and shielding vulnerable people. <i>British Journal of Health Psychology</i> , 2020, 25, 945-956.	3.5	59
21	Social and occupational factors associated with psychological wellbeing among occupational groups affected by disaster: a systematic review. <i>Journal of Mental Health</i> , 2017, 26, 373-384.	1.9	54
22	Psychological factors associated with uptake of the childhood influenza vaccine and perception of post-vaccination side-effects: A cross-sectional survey in England. <i>Vaccine</i> , 2017, 35, 1936-1945.	3.8	53
23	The role of religious fundamentalism in terrorist violence: A social psychological analysis. <i>International Review of Psychiatry</i> , 2007, 19, 253-262.	2.8	51
24	Examining the application of behaviour change theories in the context of infectious disease outbreaks and emergency response: a review of reviews. <i>BMC Public Health</i> , 2020, 20, 1483.	2.9	48
25	Reducing risks from coronavirus transmission in the homeâ€“the role of viral load. <i>BMJ, The</i> , 2020, 369, m1728.	6.0	48
26	Applying Crowd Psychology to Develop Recommendations for the Management of Mass Decontamination. <i>Health Security</i> , 2015, 13, 45-53.	1.8	46
27	Comparative Analysis of Showering Protocols for Mass-Casualty Decontamination. <i>Prehospital and Disaster Medicine</i> , 2010, 25, 435-439.	1.3	45
28	Effective Responder Communication Improves Efficiency and Psychological Outcomes in a Mass Decontamination Field Experiment: Implications for Public Behaviour in the Event of a Chemical Incident. <i>PLoS ONE</i> , 2014, 9, e89846.	2.5	45
29	The English National Cohort Study of Flooding and Health: the change in the prevalence of psychological morbidity at year two. <i>BMC Public Health</i> , 2018, 18, 330.	2.9	44
30	Protecting the psychological wellbeing of staff exposed to disaster or emergency at work: a qualitative study. <i>BMC Psychology</i> , 2019, 7, 78.	2.1	43
31	Ticking All the Boxes? A Systematic Review of Education and Communication Interventions to Prevent Tick-Borne Disease. <i>Vector-Borne and Zoonotic Diseases</i> , 2012, 12, 817-825.	1.5	42
32	Collective resilience in the disaster recovery period: Emergent social identity and observed social support are associated with collective efficacy, wellâ€“being, and the provision of social support. <i>British Journal of Social Psychology</i> , 2021, 60, 1075-1095.	2.8	42
33	Training and post-disaster interventions for the psychological impacts on disaster-exposed employees: a systematic review. <i>Journal of Mental Health</i> , 2018, , 1-25.	1.9	40
34	The role of emergency preparedness exercises in the response to a mass casualty terrorist incident: A mixed methods study. <i>International Journal of Disaster Risk Reduction</i> , 2020, 46, 101503.	3.9	39
35	Anxiety, distress and anger among British nationals in Japan following the Fukushima nuclear accident. <i>British Journal of Psychiatry</i> , 2012, 201, 400-407.	2.8	36
36	Early Post-trauma Interventions in Organizations: A Scoping Review. <i>Frontiers in Psychology</i> , 2020, 11, 1176.	2.1	31

#	ARTICLE	IF	CITATIONS
37	Community resilience and flooding in UK guidance: A critical review of concepts, definitions, and their implications. <i>Journal of Contingencies and Crisis Management</i> , 2019, 27, 2-13.	2.8	30
38	Volunteer trials of a novel improvised dry decontamination protocol for use during mass casualty incidents as part of the UK's Initial Operational Response (IOR). <i>PLoS ONE</i> , 2017, 12, e0179309.	2.5	28
39	COVID-19 vaccination acceptability in the UK at the start of the vaccination programme: a nationally representative cross-sectional survey (CoVAccS "wave 2). <i>Public Health</i> , 2022, 202, 1-9.	2.9	27
40	Public Experiences of Mass Casualty Decontamination. <i>Biosecurity and Bioterrorism</i> , 2012, 10, 280-289.	1.2	26
41	What lies beyond social capital? The role of social psychology in building community resilience to climate change.. <i>Traumatology</i> , 2020, 26, 253-265.	2.4	26
42	Methodological challenges in assessing general population reactions in the immediate aftermath of a terrorist attack. <i>International Journal of Methods in Psychiatric Research</i> , 2008, 17, S29-S35.	2.1	25
43	The effect of communication during mass decontamination. <i>Disaster Prevention and Management</i> , 2013, 22, 132-147.	1.2	25
44	Social Identity and Intergroup Relationships in the Management of Crowds during Mass Emergencies and Disasters: Recommendations for Emergency Planners and Responders1. <i>Policing (Oxford)</i> , 2021, 14, 931-944.	1.4	25
45	A social model of secondary stressors in relation to disasters, major incidents and conflict: Implications for practice. <i>International Journal of Disaster Risk Reduction</i> , 2021, 63, 102436.	3.9	25
46	Evaluation of absorbent materials for use as ad hoc dry decontaminants during mass casualty incidents as part of the UK's Initial Operational Response (IOR). <i>PLoS ONE</i> , 2017, 12, e0170966.	2.5	25
47	Communication during mass casualty decontamination: highlighting the gaps. <i>International Journal of Emergency Services</i> , 2013, 2, 29-48.	1.1	24
48	Effective responder communication, perceived responder legitimacy, and group identification predict public cooperation and compliance in a mass decontamination visualization experiment. <i>Journal of Applied Social Psychology</i> , 2015, 45, 173-189.	2.0	24
49	Engagement with daily testing instead of self-isolating in contacts of confirmed cases of SARS-CoV-2. <i>BMC Public Health</i> , 2021, 21, 1067.	2.9	23
50	Perceived Responder Legitimacy and Group Identification Predict Cooperation and Compliance in a Mass Decontamination Field Exercise. <i>Basic and Applied Social Psychology</i> , 2013, 35, 575-585.	2.1	20
51	Adapting Behavioral Interventions for a Changing Public Health Context: A Worked Example of Implementing a Digital Intervention During a Global Pandemic Using Rapid Optimisation Methods. <i>Frontiers in Public Health</i> , 2021, 9, 668197.	2.7	20
52	Is My Cough a Cold or Covid? A Qualitative Study of COVID-19 Symptom Recognition and Attitudes Toward Testing in the UK. <i>Frontiers in Public Health</i> , 2021, 9, 716421.	2.7	20
53	THE LONDON POLONIUM INCIDENT: LESSONS IN RISK COMMUNICATIONS. <i>Health Physics</i> , 2011, 101, 545-550.	0.5	19
54	Who is engaging with lateral flow testing for COVID-19 in the UK? The COVID-19 Rapid Survey of Adherence to Interventions and Responses (CORSAIR) study. <i>BMJ Open</i> , 2022, 12, e058060.	1.9	19

#	ARTICLE	IF	CITATIONS
55	Parental Expectation of Side Effects Following Vaccination Is Self-fulfilling: A Prospective Cohort Study. <i>Annals of Behavioral Medicine</i> , 2019, 53, 267-282.	2.9	18
56	Infection Control Behavior at Home During the COVID-19 Pandemic: Observational Study of a Web-Based Behavioral Intervention (Germ Defence). <i>Journal of Medical Internet Research</i> , 2021, 23, e22197.	4.3	18
57	Psychological and Physical Impacts of Extreme Events on Older Adults: Implications for Communications. <i>Disaster Medicine and Public Health Preparedness</i> , 2017, 11, 127-134.	1.3	17
58	UK healthcare staff experiences and perceptions of a mass casualty terrorist incident response: a mixed-methods study. <i>Emergency Medicine Journal</i> , 2021, 38, 756-764.	1.0	17
59	Design and characterisation of a novel in vitro skin diffusion cell system for assessing mass casualty decontamination systems. <i>Toxicology in Vitro</i> , 2014, 28, 492-501.	2.4	16
60	How to inform the public about protective actions in a nuclear or radiological incident: a systematic review. <i>Lancet Psychiatry</i> , 2019, 6, 72-80.	7.4	15
61	A controlled cross-over study to evaluate the efficacy of improvised dry and wet emergency decontamination protocols for chemical incidents. <i>PLoS ONE</i> , 2020, 15, e0239845.	2.5	15
62	Worry and behaviour at the start of the COVID-19 outbreak: Results from three UK surveys (the Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 4 Medicine Reports, 2022, 25, 101686.	1.8	15
63	Chemical warfare agent simulants for human volunteer trials of emergency decontamination: A systematic review. <i>Journal of Applied Toxicology</i> , 2018, 38, 113-121.	2.8	14
64	Mass Casualty Decontamination for Chemical Incidents: Research Outcomes and Future Priorities. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3079.	2.6	14
65	Mass Casualty Decontamination Guidance and Psychosocial Aspects of CBRN Incident Management: A Review and Synthesis. <i>PLOS Currents</i> , 2016, 8, .	1.4	14
66	Holding a stigmatizing attitude at the start of the COVID-19 outbreak: A cross-sectional survey. <i>British Journal of Health Psychology</i> , 2022, 27, 588-604.	3.5	14
67	Engagement with protective behaviours in the UK during the COVID-19 pandemic: a series of cross-sectional surveys (the COVID-19 rapid survey of adherence to interventions and responses) Tj ETQq1 1 0.7843.14 rgBT /Overlock	3.4	14
68	An individual-based simulation of pneumonic plague transmission following an outbreak and the significance of intervention compliance. <i>Epidemics</i> , 2011, 3, 95-102.	3.0	13
69	Communicating Public Health Advice After a Chemical Spill: Results From National Surveys in the United Kingdom and Poland. <i>Disaster Medicine and Public Health Preparedness</i> , 2013, 7, 65-74.	1.3	13
70	Understanding public responses to chemical, biological, radiological and nuclear incidents â€” Driving factors, emerging themes and research gaps. <i>Environment International</i> , 2014, 72, 66-74.	10.0	13
71	Are somatosensory saccades voluntary or reflexive?. <i>Experimental Brain Research</i> , 2006, 168, 557-565.	1.5	12
72	Perceptions and Reactions with Regard to Pneumonic Plague. <i>Emerging Infectious Diseases</i> , 2010, 16, 120-122.	4.3	12

#	ARTICLE	IF	CITATIONS
73	Communicating with the Public Following Radiological Terrorism: Results from a Series of Focus Groups and National Surveys in Britain and Germany. <i>Prehospital and Disaster Medicine</i> , 2013, 28, 110-119.	1.3	12
74	Public perceptions of emergency decontamination: Effects of intervention type and responder management strategy during a focus group study. <i>PLoS ONE</i> , 2018, 13, e0195922.	2.5	12
75	Do members of the public think they should use lateral flow tests (LFT) or polymerase chain reaction (PCR) tests when they have COVID-19-like symptoms? The COVID-19 Rapid Survey of Adherence to Interventions and Responses study. <i>Public Health</i> , 2021, 198, 260-262.	2.9	11
76	Recent advances to address European Union Health Security from cross border chemical health threats. <i>Environment International</i> , 2014, 72, 3-14.	10.0	10
77	GC-MS/MS quantification of benzyl salicylate on skin and hair: A novel chemical simulant for human decontamination studies. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2019, 1129, 121818.	2.3	10
78	Intention to adhere to test, trace, and isolate during the COVID-19 pandemic (the COVID-19 Rapid Survey) <i>Tj ETQq0 0 0 rgBT /Overl</i> 1100-1118.	3.5	10
79	Responding to a Radiological Crisis: Experiences of British Foreign Office Staff in Japan After the Fukushima Nuclear Meltdown. <i>Disaster Medicine and Public Health Preparedness</i> , 2014, 8, 397-403.	1.3	9
80	Mass Casualty Decontamination in the United States: An Online Survey of Current Practice. <i>Health Security</i> , 2016, 14, 226-236.	1.8	9
81	Recommendations for improving public engagement with pre-incident information materials for initial response to a chemical, biological, radiological or nuclear (CBRN) incident: A systematic review. <i>International Journal of Disaster Risk Reduction</i> , 2020, 51, 101796.	3.9	9
82	Why do parents not re-vaccinate their child for influenza? A prospective cohort study. <i>Vaccine</i> , 2020, 38, 4230-4235.	3.8	9
83	What influences whether parents recognise COVID-19 symptoms, request a test and self-isolate: A qualitative study. <i>PLoS ONE</i> , 2022, 17, e0263537.	2.5	9
84	Analysis of Chemical Simulants in Urine: A Useful Tool for Assessing Emergency Decontamination Efficacy in Human Volunteer Studies. <i>Prehospital and Disaster Medicine</i> , 2020, 35, 482-487.	1.3	8
85	Intention to have the seasonal influenza vaccination during the COVID-19 pandemic among eligible adults in the UK: a cross-sectional survey. <i>BMJ Open</i> , 2021, 11, e049369.	1.9	8
86	What components of emergency preparedness exercises improve healthcare practitioners' emergency response learning?. <i>International Journal of Disaster Risk Reduction</i> , 2021, 62, 102357.	3.9	8
87	Effects of threat and efficacy messages on expected adherence to decontamination protocols in an immersive simulated chemical incident: A randomized controlled experiment. <i>Journal of Contingencies and Crisis Management</i> , 2021, 29, 54-76.	2.8	8
88	A scoping review of evaluation methods for health emergency preparedness exercises. <i>American Journal of Disaster Medicine</i> , 2018, 13, 107-127.	0.3	8
89	Emergency responders' experiences of and expectations regarding decontamination. <i>International Journal of Emergency Services</i> , 2014, 3, 179-192.	1.1	7
90	Optimisation and validation of a GC-MS/MS method for the analysis of methyl salicylate in hair and skin samples for use in human-volunteer decontamination studies. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2019, 1109, 84-89.	2.3	7

#	ARTICLE	IF	CITATIONS
91	Public responses to the Salisbury Novichok incident: a cross-sectional survey of anxiety, anger, uncertainty, perceived risk and avoidance behaviour in the local community. <i>BMJ Open</i> , 2020, 10, e036071.	1.9	7
92	Human volunteer study of the decontamination of chemically contaminated hair and the consequences for systemic exposure. <i>Scientific Reports</i> , 2020, 10, 20822.	3.3	7
93	Effectiveness of digital interventions to improve household and community infection prevention and control behaviours and to reduce incidence of respiratory and/or gastro-intestinal infections: a rapid systematic review. <i>BMC Public Health</i> , 2021, 21, 1180.	2.9	7
94	Experiences of supported isolation in returning travellers during the early COVID-19 response: a qualitative interview study. <i>BMJ Open</i> , 2021, 11, e050405.	1.9	7
95	Understanding the psychological impacts of responding to a terrorist incident. <i>HÄggr Utbildning</i> , 2021, 12, 1959116.	3.0	7
96	Patterns of social mixing in England changed in line with restrictions during the COVID-19 pandemic (September 2020 to April 2022). <i>Scientific Reports</i> , 2022, 12, .	3.3	7
97	Assessing Perceptions About Hazardous Substances (PATHS): The PATHS questionnaire. <i>Journal of Health Psychology</i> , 2013, 18, 1100-1113.	2.3	6
98	Public Perceptions of the "Remove, Remove, Remove" Information Campaign Before and During a Hazardous Materials Incident: A Survey. <i>Health Security</i> , 2021, 19, 100-107.	1.8	6
99	Public health information on COVID-19 for international travellers: lessons learned from a mixed-method evaluation. <i>Public Health</i> , 2021, 193, 116-123.	2.9	6
100	Staying "Covid-safe": Proposals for embedding behaviours that protect against Covid-19 transmission in the UK. <i>British Journal of Health Psychology</i> , 2021, 26, 1238-1257.	3.5	6
101	Tiered restrictions for COVID-19 in England: knowledge, motivation and self-reported behaviour. <i>Public Health</i> , 2022, 204, 33-39.	2.9	6
102	A Qualitative Study Evaluating the Factors Affecting Families' Adherence to the First COVID-19 Lockdown in England Using the COM-B Model and TDF. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7305.	2.6	6
103	Learning about COVID-19 across borders: public health information and adherence among international travellers to the UK. <i>Public Health</i> , 2022, 203, 9-14.	2.9	5
104	Psychological wellbeing in the English population during the COVID-19 pandemic: A series of cross-sectional surveys. <i>Journal of Psychiatric Research</i> , 2022, 153, 254-259.	3.1	5
105	Public attitudes in England towards the sharing of personal data following a mass casualty incident: a cross-sectional study. <i>BMJ Open</i> , 2018, 8, e022852.	1.9	4
106	Evaluating a pilot mental health awareness for managers' training course. <i>Occupational Medicine</i> , 2019, 69, 251-257.	1.4	4
107	A randomized controlled trial to test the effect of simplified guidance with visuals on comprehension of COVID-19 guidelines and intention to stay home if symptomatic. <i>BMC Public Health</i> , 2021, 21, 892.	2.9	4
108	Evaluating the impact of decontamination interventions performed in sequence for mass casualty chemical incidents. <i>Scientific Reports</i> , 2021, 11, 14995.	3.3	4

#	ARTICLE	IF	CITATIONS
109	Impact of residual risk messaging to reduce false reassurance following test-negative results from asymptomatic coronavirus (SARS-CoV-2) testing: an online experimental study of a hypothetical test. <i>BMJ Open</i> , 2022, 12, e056533.	1.9	4
110	Public communication needs during incidents involving emergency decontamination. <i>Lancet, The</i> , 2012, 380, S28.	13.7	3
111	Public perceptions of pre-incident information campaign materials for the initial response to a chemical incident. <i>Disaster Prevention and Management</i> , 2019, , .	1.2	3
112	Factors associated with non-essential workplace attendance during the COVID-19 pandemic in the UK in early 2021: evidence from cross-sectional surveys. <i>Public Health</i> , 2021, 198, 106-113.	2.9	3
113	Mental Health Presentations Across Health Care Settings During the First 9 Months of the COVID-19 Pandemic in England: Retrospective Observational Study. <i>JMIR Public Health and Surveillance</i> , 2022, 8, e32347.	2.6	3
114	COVID-19 and Ventilation in the Home; Investigating Peoplesâ€™ Perceptions and Self-Reported Behaviour (the COVID-19 Rapid Survey of Adherence to Interventions and Responses [CORSAIR] Study). <i>Environmental Health Insights</i> , 2021, 15, 117863022110155.	1.7	1
115	Acceptability of, and barriers and facilitators to, a pilot physical health service for people who inject drugs: A qualitative study with service users and providers. <i>International Journal of Drug Policy</i> , 2022, 99, 103437.	3.3	1
116	Do people with symptoms of an infectious illness follow advice to stay at home? Evidence from a series of cross-sectional surveys about presenteeism in the UK. <i>BMJ Open</i> , 2022, 12, e060511.	1.9	1
117	Communicating Public Health Advice After a Chemical Spill: Results From National Surveys in the United Kingdom and Polandâ€™ERRATUM. <i>Disaster Medicine and Public Health Preparedness</i> , 2013, 7, 112-112.	1.3	0
118	P346â€™...Psychosocial factors associated with chlamydia retesting among young people in the UK. , 2019, , .		0
119	Evaluation of emergency preparedness exercises: the design of a questionnaire to measure staff perceptions. <i>International Journal of Emergency Management</i> , 2020, 16, 317.	0.0	0
120	Corrigendum to â€™Tiered restrictions for COVID-19 in England: Knowledge, motivation and self-reported behaviourâ€™ [Public Health 204 (2022) 33â€™39]. <i>Public Health</i> , 2022, 209, 1-3.	2.9	0
