#	ARTICLE	IF	CITATIONS
1	FTO-rs9939609 Polymorphism is a Predictor of Future Type 2 Diabetes: A Population-Based Prospective Study. <i>Biochemical Genetics</i> , 2022, 60, 707-719.	0.8	4
2	Incidence and prediction nomogram for metabolic syndrome in a middle-aged Vietnamese population: a 5-year follow-up study. <i>Endocrine</i> , 2022, 75, 108-118.	1.1	4
3	High incidence of type 2 diabetes in a population with normal range body mass index and individual prediction nomogram in Vietnam. <i>Diabetic Medicine</i> , 2022, 39, e14680.	1.2	1
4	Allopurinol-induced severe cutaneous adverse reactions in Vietnamese: the role of <i>HLA</i> alleles and other risk factors. <i>Pharmacogenomics</i> , 2022, 23, 303-313.	0.6	3
5	A Novel Allele-Specific PCR Protocol for the Detection of the HLA-C*03:02 Allele, a Pharmacogenetic Marker, in Vietnamese Kinh People. <i>The Application of Clinical Genetics</i> , 2021, Volume 14, 27-35.	1.4	3
6	A simple nomogram for identifying individuals at high risk of undiagnosed diabetes in rural population. <i>Diabetes Research and Clinical Practice</i> , 2021, 180, 109061.	1.1	1
7	Clinical Patterns and Risk Factors for Pneumonia Caused by Atypical Bacteria in Vietnamese Children. <i>Indian Pediatrics</i> , 2021, 58, 1056-1058.	0.2	1
8	Clinical Patterns and Risk Factors for Pneumonia Caused by Atypical Bacteria in Vietnamese Children. <i>Indian Pediatrics</i> , 2021, 58, 1056-1058.	0.2	1
9	Antimicrobial Resistance Profile and Molecular Characteristics of &lt;i>Staphylococcus aureus</i> Isolates from Hospitalized Adults in Three Regions of Vietnam. <i>Japanese Journal of Infectious Diseases</i> , 2020, 73, 193-200.	0.5	5
10	The APOA5 rs662799 Polymorphism Is a Determinant of Dyslipidemia in Vietnamese Primary School Children. <i>Lipids</i> , 2020, 55, 683-691.	0.7	2
11	First Report on Association of Hyperuricemia with Type 2 Diabetes in a Vietnamese Population. <i>International Journal of Endocrinology</i> , 2019, 2019, 1-7.	0.6	7
12	First Report on Multidrug-Resistant Methicillin-Resistant <i>Staphylococcus aureus</i> Isolates in Children Admitted to Tertiary Hospitals in Vietnam. <i>Journal of Microbiology and Biotechnology</i> , 2019, 29, 1460-1469.	0.9	7
13	The Brain-Derived Neurotrophic Factor Val66Met Polymorphism, Delivery Method, Birth Weight, and Night Sleep Duration as Determinants of Obesity in Vietnamese Children of Primary School Age. <i>Childhood Obesity</i> , 2017, 13, 392-399.	0.8	6
14	Association of apolipoprotein E polymorphism with plasma lipid disorders, independent of obesity-related traits in Vietnamese children. <i>Lipids in Health and Disease</i> , 2016, 15, 176.	1.2	8
15	Prevalence and risk factors of type 2 diabetes in middle-aged women in Northern Vietnam. <i>International Journal of Diabetes in Developing Countries</i> , 2016, 36, 150-157.	0.3	8
16	Optimal protocol for genotyping APOA5 rs662799 polymorphism in boys aged 6 - 11 years in Hanoi. <i>Journal of Science Natural Science</i> , 2016, 61, 130-136.	0.0	1
17	CDKN2A-rs10811661 polymorphism, waist-hip ratio, systolic blood pressure, and dyslipidemia are the independent risk factors for prediabetes in a Vietnamese population. <i>BMC Genetics</i> , 2015, 16, 107.	2.7	8
18	Knowledge and associated factors towards type 2 diabetes among a rural population in the Red River Delta region, Vietnam. <i>Rural and Remote Health</i> , 2015, 15, 3275.	0.4	15

#	ARTICLE	IF	CITATIONS
19	First report on prevalence and risk factors of severe atypical pneumonia in Vietnamese children aged 1–15 years. <i>BMC Public Health</i> , 2014, 14, 1304.	1.2	32
20	Metabolic syndrome among a middle-aged population in the Red River Delta region of Vietnam. <i>BMC Endocrine Disorders</i> , 2014, 14, 77.	0.9	40
21	Pre-Germinated Brown Rice Reduced Both Blood Glucose Concentration and Body Weight in Vietnamese Women with Impaired Glucose Tolerance. <i>Journal of Nutritional Science and Vitaminology</i> , 2014, 60, 183-187.	0.2	38
22	Association of the common FTO-rs9939609 polymorphism with type 2 diabetes, independent of obesity-related traits in a Vietnamese population. <i>Gene</i> , 2013, 513, 31-35.	1.0	29
23	Prevalence and correlates of hyperglycemia in a rural population, Vietnam: implications from a cross-sectional study. <i>BMC Public Health</i> , 2012, 12, 939.	1.2	19
24	Correlations between genetic variance and adiposity measures, and gene–gene interactions for obesity in postmenopausal Vietnamese women. <i>Journal of Genetics</i> , 2011, 90, 1-9.	0.4	36
25	Correlations between genetic variance and adiposity measures, and gene x gene interactions for obesity in postmenopausal Vietnamese women. <i>Journal of Genetics</i> , 2011, 90, 1-9.	0.4	14
26	Relationship between vitamin D receptor gene polymorphisms and anemia in postmenopausal Vietnamese women. <i>Asian Biomedicine</i> , 2010, 4, 869-875.	0.2	0
27	Association of estrogen receptor alpha gene polymorphisms and lifestyle factors with calcaneal quantitative ultrasound and osteoporosis in postmenopausal Vietnamese women. <i>Journal of Human Genetics</i> , 2006, 51, 1022-1029.	1.1	10
