

Brandon J Schmeichel

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8869549/brandon-j-schmeichel-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
73	A Multisite Preregistered Paradigmatic Test of the Ego-Depletion Effect. <i>Psychological Science</i> , 2021 , 32, 1566-1581	7.9	19
72	After-effects of self-control: The reward responsivity hypothesis. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2019 , 19, 600-618	3.5	10
71	Higher trait self-control is associated with less intense visceral states. <i>Self and Identity</i> , 2019 , 18, 576-588.	7	3
70	Sweet Nothings. <i>Social Psychology</i> , 2019 , 50, 322-331	2.5	7
69	Aftereffects of Self-Control on Positive Emotional Reactivity. <i>Personality and Social Psychology Bulletin</i> , 2019 , 45, 1011-1027	4.1	4
68	Ego Depletion Reduces Attention Control: Evidence From Two High-Powered Preregistered Experiments. <i>Personality and Social Psychology Bulletin</i> , 2019 , 45, 728-739	4.1	32
67	Effects of emotional content on working memory capacity. <i>Cognition and Emotion</i> , 2019 , 33, 370-377	2.3	11
66	Stimulating Self-Regulation: A Review of Non-invasive Brain Stimulation Studies of Goal-Directed Behavior. <i>Frontiers in Behavioral Neuroscience</i> , 2018 , 12, 337	3.5	19
65	Self-affirmation enhances processing of negative stimuli among threat-prone individuals. <i>Social Cognitive and Affective Neuroscience</i> , 2018 , 13, 569-577	4	4
64	Effects of prior mental effort on picture processing: An ERP investigation. <i>Psychophysiology</i> , 2017 , 54, 1714-1725	4.1	11
63	Comparing cognitive load and self-regulatory depletion: Effects on emotions and cognitions. <i>Learning and Instruction</i> , 2017 , 51, 74-84	5.8	23
62	The Influence of Agreeableness and Ego Depletion on Emotional Responding. <i>Journal of Personality</i> , 2017 , 85, 643-657	4.4	6
61	Exercising self-control increases relative left frontal cortical activation. <i>Social Cognitive and Affective Neuroscience</i> , 2016 , 11, 282-8	4	17
60	Approach motivation and cognitive resources combine to influence memory for positive emotional stimuli. <i>Cognition and Emotion</i> , 2016 , 30, 389-97	2.3	6
59	Noninvasive stimulation over the dorsolateral prefrontal cortex facilitates the inhibition of motivated responding. <i>Journal of Experimental Psychology: General</i> , 2016 , 145, 1702-1712	4.7	16
58	Embodying Power: A Preregistered Replication and Extension of the Power Pose Effect. <i>Social Psychological and Personality Science</i> , 2016 , 7, 623-630	4.3	40
57	A Multilab Preregistered Replication of the Ego-Depletion Effect. <i>Perspectives on Psychological Science</i> , 2016 , 11, 546-73	9.8	488

56	Mortality salience increases personal optimism among individuals higher in trait self-control. <i>Motivation and Emotion</i> , 2015 , 39, 926-931	2.5	4
55	Look Me in the Eye: Manipulated Eye Gaze Affects Dominance Mindsets. <i>Journal of Nonverbal Behavior</i> , 2015 , 39, 181-194	3.4	17
54	Individual Differences in Executive Functioning and Their Relationship to Emotional Processes and Responses. <i>Current Directions in Psychological Science</i> , 2015 , 24, 93-98	6.5	95
53	Self-affirmation facilitates cardiovascular recovery following interpersonal evaluation. <i>Biological Psychology</i> , 2015 , 104, 108-15	3.2	9
52	Disgust sensitivity predicts defensive responding to mortality salience. <i>Emotion</i> , 2015 , 15, 590-602	4.1	10
51	Self-affirmation breaks the link between the behavioral inhibition system and the threat-potentiated startle response. <i>Emotion</i> , 2015 , 15, 146-50	4.1	5
50	Jealousy increased by induced relative left frontal cortical activity. <i>Emotion</i> , 2015 , 15, 550-5	4.1	18
49	Rational Versus Experiential Processing of Negative Feedback Reduces Defensiveness but Induces Ego Depletion. <i>Self and Identity</i> , 2015 , 14, 75-89	1.7	3
48	Revisiting the Relationship between Individual Differences in Analytic Thinking and Religious Belief: Evidence That Measurement Order Moderates Their Inverse Correlation. <i>PLoS ONE</i> , 2015 , 10, e0138922	3.7	8
47	Thinking about Death Reduces Delay Discounting. <i>PLoS ONE</i> , 2015 , 10, e0144228	3.7	15
46	Why self-control seems (but may not be) limited. <i>Trends in Cognitive Sciences</i> , 2014 , 18, 127-33	14	502
45	Mortality salience biases attention to positive versus negative images among individuals higher in trait self-control. <i>Cognition and Emotion</i> , 2014 , 28, 550-9	2.3	14
44	Stopping anger and anxiety: evidence that inhibitory ability predicts negative emotional responding. <i>Cognition and Emotion</i> , 2014 , 28, 132-42	2.3	17
43	The effects of negative emotions on sensory perception: fear but not anger decreases tactile sensitivity. <i>Frontiers in Psychology</i> , 2014 , 5, 942	3.4	16
42	Trait approach motivation moderates the aftereffects of self-control. <i>Frontiers in Psychology</i> , 2014 , 5, 1112	3.4	15
41	Improving Self-control by Practicing Logical Reasoning. <i>Self and Identity</i> , 2014 , 13, 419-431	1.7	15
40	Making choices impairs subsequent self-control: A limited-resource account of decision making, self-regulation, and active initiative.. <i>Motivation Science</i> , 2014 , 1, 19-42	3.4	42
39	Creativity and Consciousness 2014 , 185-198		3

38	Self-affirmation can enable goal disengagement. <i>Journal of Personality and Social Psychology</i> , 2013 , 104, 14-27	6.5	44
37	Erratum to Motivation, personal beliefs, and limited resources all contribute to self-control [J. Exp. Soc. Psychol. 48 (2012) 943-947]. <i>Journal of Experimental Social Psychology</i> , 2013 , 49, 183	2.6	2
36	Beyond simple utility in predicting self-control fatigue: a proximate alternative to the opportunity cost model. <i>Behavioral and Brain Sciences</i> , 2013 , 36, 695-6; discussion 707-26	0.9	12
35	Executive functions and self-regulation. <i>Trends in Cognitive Sciences</i> , 2012 , 16, 174-80	14	1126
34	What Is Ego Depletion? Toward a Mechanistic Revision of the Resource Model of Self-Control. <i>Perspectives on Psychological Science</i> , 2012 , 7, 450-63	9.8	595
33	Self-regulatory depletion and attachment avoidance: Increasing the accessibility of negative attachment-related memories. <i>Journal of Experimental Social Psychology</i> , 2012 , 48, 375-378	2.6	14
32	Motivation, personal beliefs, and limited resources all contribute to self-control. <i>Journal of Experimental Social Psychology</i> , 2012 , 48, 943-947	2.6	162
31	The expression of determination: similarities between anger and approach-related positive affect. <i>Journal of Personality and Social Psychology</i> , 2011 , 100, 172-81	6.5	79
30	Imbuing Everyday Actions with Meaning in Response to Existential Threat. <i>Self and Identity</i> , 2011 , 10, 64-76	1.7	26
29	Evidence that thinking about death relates to time-estimation behavior. <i>Death Studies</i> , 2011 , 35, 504-24	3.9	6
28	Self-Control at High and Low Levels of Mental Construal. <i>Social Psychological and Personality Science</i> , 2011 , 2, 182-189	4.3	36
27	Trait Approach Motivation Relates to Dissonance Reduction. <i>Social Psychological and Personality Science</i> , 2011 , 2, 21-28	4.3	32
26	Cardiac vagal control predicts spontaneous regulation of negative emotional expression and subsequent cognitive performance. <i>Biological Psychology</i> , 2010 , 84, 531-540	3.2	54
25	Exercising self-control increases approach motivation. <i>Journal of Personality and Social Psychology</i> , 2010 , 99, 162-73	6.5	129
24	Working memory capacity and spontaneous emotion regulation: high capacity predicts self-enhancement in response to negative feedback. <i>Emotion</i> , 2010 , 10, 739-44	4.1	100
23	A Cognitive Control Perspective of Self-Control Strength and Its Depletion. <i>Social and Personality Psychology Compass</i> , 2010 , 4, 189-200	3	71
22	Effortful Attention Control 2010 , 29-50		48
21	Self-affirmation and self-control: affirming core values counteracts ego depletion. <i>Journal of Personality and Social Psychology</i> , 2009 , 96, 770-82	6.5	386

20	Symbolic self-completion in academia: evidence from department web pages and email signature files. <i>European Journal of Social Psychology</i> , 2009 , 39, 311-316	2.9	29
19	Terror management theory and self-esteem revisited: the roles of implicit and explicit self-esteem in mortality salience effects. <i>Journal of Personality and Social Psychology</i> , 2009 , 96, 1077-87	6.5	115
18	Working memory capacity and the self-regulation of emotional expression and experience. <i>Journal of Personality and Social Psychology</i> , 2008 , 95, 1526-40	6.5	341
17	Making choices impairs subsequent self-control: a limited-resource account of decision making, self-regulation, and active initiative. <i>Journal of Personality and Social Psychology</i> , 2008 , 94, 883-98	6.5	593
16	Mortality salience increases adherence to salient norms and values. <i>Personality and Social Psychology Bulletin</i> , 2008 , 34, 993-1003	4.1	107
15	Trait self-control predicts performance on behavioral tests of self-control. <i>Journal of Personality</i> , 2007 , 75, 743-55	4.4	86
14	Attention control, memory updating, and emotion regulation temporarily reduce the capacity for executive control. <i>Journal of Experimental Psychology: General</i> , 2007 , 136, 241-55	4.7	425
13	Differentiating the effects of self-control and self-esteem on reactions to mortality salience. <i>Journal of Experimental Social Psychology</i> , 2007 , 43, 894-901	2.6	40
12	Self-control relies on glucose as a limited energy source: willpower is more than a metaphor. <i>Journal of Personality and Social Psychology</i> , 2007 , 92, 325-36	6.5	841
11	Predicting facial valence to negative stimuli from resting RSA: Not a function of active emotion regulation. <i>Cognition and Emotion</i> , 2006 , 20, 161-176	2.3	32
10	Self-regulatory processes defend against the threat of death: Effects of self-control depletion and trait self-control on thoughts and fears of dying. <i>Journal of Personality and Social Psychology</i> , 2006 , 91, 49-62	6.5	255
9	Up- and down-regulating facial disgust: affective, vagal, sympathetic, and respiratory consequences. <i>Biological Psychology</i> , 2006 , 71, 90-9	3.2	67
8	Ego depletion by response exaggeration. <i>Journal of Experimental Social Psychology</i> , 2006 , 42, 95-102	2.6	55
7	Self-affirmation and mortality salience: affirming values reduces worldview defense and death-thought accessibility. <i>Personality and Social Psychology Bulletin</i> , 2005 , 31, 658-67	4.1	148
6	Behavioural, affective, and physiological effects of negative and positive emotional exaggeration. <i>Cognition and Emotion</i> , 2004 , 18, 1079-1097	2.3	62
5	Collectors and Collecting: A Social Psychological Perspective. <i>Leisure Sciences</i> , 2004 , 26, 85-97	1.4	81
4	Resting RSA is associated with natural and self-regulated responses to negative emotional stimuli. <i>Brain and Cognition</i> , 2004 , 56, 14-23	2.7	65
3	Self-regulation and the extended now: controlling the self alters the subjective experience of time. <i>Journal of Personality and Social Psychology</i> , 2003 , 85, 217-30	6.5	165

2	Intellectual performance and ego depletion: role of the self in logical reasoning and other information processing. <i>Journal of Personality and Social Psychology</i> , 2003 , 85, 33-46	6.5	520
1	Making memorable choices: Cognitive control and the self-choice effect in memory. <i>Self and Identity</i> , 1-24	1.7	0
