#	Paper	IF	Citations
14	International Nosocomial Infection Control Consortium (INICC) report, data summary of 45 countries for 2013-2018, Adult and Pediatric Units, Device-associated Module. <i>American Journal of Infection Control</i> , 2021 , 49, 1267-1274	3.8	6
13	International Nosocomial Infection Control Consortium report, data summary of 50 countries for 2010-2015: Device-associated module. <i>American Journal of Infection Control</i> , 2016 , 44, 1495-1504	3.8	177
12	International Nosocomial Infection Control Consortium (INICC) report, data summary of 43 countries for 2007-2012. Device-associated module. <i>American Journal of Infection Control</i> , 2014 , 42, 942-946	3.8	166
11	Impact of the International Nosocomial Infection Control Consortium (INICC) multidimensional hand hygiene approach in three cities of Colombia. <i>International Journal of Infectious Diseases</i> , 2014 , 19, 67-73	10.5	17
10	Impact of the International Nosocomial Infection Control Consortium (INICC) multidimensional hand hygiene approach over 13 years in 51 cities of 19 limited-resource countries from Latin America, Asia, the Middle East, and Europe. <i>Infection Control and Hospital Epidemiology</i> , 2013 , 34, 415-23	2	55
9	Impact of a multidimensional infection control strategy on central line-associated bloodstream infection rates in pediatric intensive care units of five developing countries: findings of the International Nosocomial Infection Control Consortium (INICC). <i>Infection</i> , 2012 , 40, 415-23	5.8	62
8	Impact of a multidimensional infection control strategy on catheter-associated urinary tract infection rates in the adult intensive care units of 15 developing countries: findings of the International Nosocomial Infection Control Consortium (INICC). <i>Infection</i> , 2012 , 40, 517-26	5.8	56
7	International Nosocomial Infection Control Consortium (INICC) report, data summary of 36 countries, for 2004-2009. <i>American Journal of Infection Control</i> , 2012 , 40, 396-407	3.8	294
6	Socioeconomic impact on device-associated infections in pediatric intensive care units of 16 limited-resource countries: international Nosocomial Infection Control Consortium findings. <i>Pediatric Critical Care Medicine</i> , 2012 , 13, 399-406	3	59
5	Effectiveness of a multidimensional approach for prevention of ventilator-associated pneumonia in adult intensive care units from 14 developing countries of four continents: findings of the International Nosocomial Infection Control Consortium. <i>Critical Care Medicine</i> , 2012 , 40, 3121-8	1.4	93
4	Findings of the International Nosocomial Infection Control Consortium (INICC), Part I: Effectiveness of a multidimensional infection control approach on catheter-associated urinary tract infection rates in pediatric intensive care units of 6 developing countries. <i>Infection Control and Hospital Epidemiology</i> , 2012 , 33, 101-7	2	46
3	Time-dependent analysis of extra length of stay and mortality due to ventilator-associated pneumonia in intensive-care units of ten limited-resources countries: findings of the International Nosocomial Infection Control Consortium (INICC). <i>Epidemiology and Infection</i> , 2011 , 139, 1757-63	4.3	19
2	Time-dependent analysis of length of stay and mortality due to urinary tract infections in ten developing countries: INICC findings. <i>Journal of Infection</i> , 2011 , 62, 136-41	18.9	23
1	Impact of International Nosocomial Infection Control Consortium (INICC) strategy on central line-associated bloodstream infection rates in the intensive care units of 15 developing countries. <i>Infection Control and Hospital Epidemiology</i> , 2010 , 31, 1264-72	2	111
