

# Metin Eren

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/8893138/metin-eren-publications-by-year.pdf>

**Version:** 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

109  
papers

2,241  
citations

27  
h-index

42  
g-index

122  
ext. papers

2,807  
ext. citations

#	Paper	IF	Citations
109	Late Holocene radiocarbon dates for the Welling site (33CS441): A multi-component site in Coshocton County, Ohio. <i>Journal of Archaeological Science: Reports</i> , <b>2022</b> , 41, 103345	0.7	0
108	On the Presumed Clovis-Age Structure at the Paleo Crossing Site, Ohio. <i>Journal of Field Archaeology</i> , <b>2022</b> , 47, 1-12	2	1
107	Experimental assessment of lanceolate projectile point and haft robustness. <i>Journal of Archaeological Science: Reports</i> , <b>2022</b> , 42, 103399	0.7	0
106	Current Evidence Supports Welling as an Outcrop-Related Base Camp. <i>American Antiquity</i> , <b>2021</b> , 86, 867-870	2.7	2
105	Antelope Springs: A Folsom Site in South Park, Colorado. <i>PaleoAmerica</i> , <b>2021</b> , 7, 114-132	1.3	4
104	Was Welling, Ohio (33-Co-2), a Clovis Basecamp or Lithic Workshop? Employing Experimental Models to Interpret Old Collections. <i>American Antiquity</i> , <b>2021</b> , 86, 183-198	0.9	5
103	Clovis Technology is not Unique to Clovis. <i>PaleoAmerica</i> , <b>2021</b> , 7, 226-241	1.3	4
102	The Nelson stone tool cache, North-Central Ohio, U.S.A.: Assessing its cultural affiliation. <i>Journal of Archaeological Science: Reports</i> , <b>2021</b> , 37, 102972	0.7	1
101	Modern thermoplastic (hot glue) versus organic-based adhesives and haft bond failure rate in experimental prehistoric ballistics. <i>International Journal of Adhesion and Adhesives</i> , <b>2021</b> , 104, 102717	3.4	10
100	Validating chronograph photo sensor measurement accuracy of stone-tipped projectile velocity. <i>Measurement: Sensors</i> , <b>2021</b> , 13, 100037	0.5	4
99	Why invent the handle? Electromyography (EMG) and efficiency of use data investigating the prehistoric origin and selection of hafted stone knives. <i>Archaeological and Anthropological Sciences</i> , <b>2021</b> , 13, 1	1.8	3
98	On the efficacy of Clovis fluted points for hunting proboscideans. <i>Journal of Archaeological Science: Reports</i> , <b>2021</b> , 39, 103166	0.7	5
97	The non-invention of the ceramic arrowhead in world archaeology. <i>Journal of Archaeological Science: Reports</i> , <b>2020</b> , 31, 102283	0.7	4
96	Miniaturization optimized weapon killing power during the social stress of late pre-contact North America (AD 600-1600). <i>PLoS ONE</i> , <b>2020</b> , 15, e0230348	3.7	18
95	The Effect of Heat on Lithic Microwear Traces: An Experimental Assessment. <i>Lithic Technology</i> , <b>2020</b> , 45, 38-47	1.2	3
94	North American Clovis Point Form and Performance: An Experimental Assessment of Penetration Depth. <i>Lithic Technology</i> , <b>2020</b> , 45, 263-282	1.2	12
93	Underestimating Kanzi? Exploring Kanzi-Oldowan comparisons in light of recent human stone tool replication. <i>Evolutionary Anthropology</i> , <b>2020</b> , 29, 310-316	4.7	4

92	Tip cross-sectional geometry predicts the penetration depth of stone-tipped projectiles. <i>Scientific Reports</i> , <b>2020</b> , 10, 13289	4.9	17
91	Description, Geometric Morphometrics, and Microwear of Five Clovis Fluted Projectile Points from Lucas and Wood Counties, Northwest Ohio, USA. <i>Journal of Paleolithic Archaeology</i> , <b>2020</b> , 3, 1034-1047	2.4	3
90	Human behavior or taphonomy? On the breakage of Eastern North American Paleoindian endscrapers. <i>Archaeological and Anthropological Sciences</i> , <b>2020</b> , 12, 1	1.8	2
89	Experimental replication shows knives manufactured from frozen human feces do not work. <i>Journal of Archaeological Science: Reports</i> , <b>2019</b> , 27, 102002	0.7	3
88	The Cerutti Mastodon site and experimental archaeology's quiet coming of age. <i>Antiquity</i> , <b>2019</b> , 93, 796-797		5
87	Robert J. Patten (1944-2017): Life, Legacy, and Contributions to Archaeology, Lithic Technology, and Flintknapping. <i>Lithic Technology</i> , <b>2019</b> , 44, 120-131	1.2	1
86	The exceptional abandonment of metal tools by North American hunter-gatherers, 3000 B.P. <i>Scientific Reports</i> , <b>2019</b> , 9, 5756	4.9	11
85	The Black Diamond Site, Northeast Ohio, USA: a New Clovis Occupation in a Proposed Secondary Staging Area. <i>Journal of Paleolithic Archaeology</i> , <b>2019</b> , 2, 211-233	2.4	10
84	Early- and middle-stage fluted stone tool bases found near Fox Lake, Wayne County Ohio: Clovis or not?. <i>Journal of Archaeological Science: Reports</i> , <b>2019</b> , 25, 1-6	0.7	6
83	Nine-thousand years of optimal toolstone selection through the North American Holocene. <i>Antiquity</i> , <b>2019</b> , 93, 313-324	1	6
82	Controlled ballistics tests of ground, percussion-flaked, and pressure-flaked projectile point impact durability: Implications for archaeological method and theory. <i>Journal of Archaeological Science: Reports</i> , <b>2019</b> , 24, 677-682	0.7	9
81	Hunter-gatherer gatherings: stone-tool microwear from the Welling Site (33-Co-2), Ohio, U.S.A. supports Clovis use of outcrop-related base camps during the Pleistocene Peopling of the Americas. <i>World Archaeology</i> , <b>2019</b> , 51, 47-75	1.4	19
80	Why Are Clovis Fluted Points More Resilient than Non-Fluted Lanceolate Points? A Quantitative Assessment of Breakage Patterns Between Experimental Models. <i>Archaeometry</i> , <b>2019</b> , 61, 1-13	1.6	17
79	Assessing raw material's role in bipolar and freehand miniaturized flake shape, technological structure, and fragmentation rates. <i>Archaeological and Anthropological Sciences</i> , <b>2019</b> , 11, 5893-5907	1.8	7
78	Controlled experiments support the role of function in the evolution of the North American copper tool repertoire. <i>Journal of Archaeological Science: Reports</i> , <b>2019</b> , 26, 101917	0.7	4
77	Thermal engineering of stone increased prehistoric toolmaking skill. <i>Scientific Reports</i> , <b>2019</b> , 9, 14591	4.9	18
76	Built-in Misdirection: On the Difficulties of Learning to Knap. <i>Lithic Technology</i> , <b>2019</b> , 44, 8-21	1.2	8
75	Settling into the country: Comparison of Clovis and Folsom lithic networks in western North America shows increasing redundancy of toolstone use. <i>Journal of Anthropological Archaeology</i> , <b>2019</b> , 53, 32-42	1.9	13

74	Toward Recognizing the Prehistoric Butchery of Frozen Meat: An Archaeological Experiment and Stone Tool Microwear Analysis. <i>Lithic Technology</i> , <b>2019</b> , 44, 1-7	1.2	2
73	Invention or diffusion: on the appearance of limestone temper in the late Holocene archeological record of southern Ohio, USA. <i>Archaeological and Anthropological Sciences</i> , <b>2019</b> , 11, 2771-2779	1.8	2
72	Experimental assessment of proximal-lateral edge grinding on haft damage using replicated Late Pleistocene (Clovis) stone projectile points. <i>Archaeological and Anthropological Sciences</i> , <b>2019</b> , 11, 5833-5849	1.8	18
71	Nicholas Ashton. Early humans. 2017. London: HarperCollins; 978-0-00-8150341-8 #35.. <i>Antiquity</i> , <b>2018</b> , 92, 541-542	1	
70	Thermoluminescence (TL) and Optically Stimulated Luminescence (OSL) Dating of Two Burned Clovis Wyandotte Chert Lithic Specimens from Paleo Crossing (33ME274), Ohio, USA. <i>Lithic Technology</i> , <b>2018</b> , 43, 18-25	1.2	4
69	Early stage blunting causes rapid reductions in stone tool performance. <i>Journal of Archaeological Science</i> , <b>2018</b> , 91, 1-11	2.9	21
68	Comparing the use of meat and clay during cutting and projectile research. <i>Engineering Fracture Mechanics</i> , <b>2018</b> , 192, 163-175	4.2	16
67	Description and Thermoluminescence (TL) Dating of An Alleged Hopewell Mobiliary Clay Human Figurine from Hopeton Earthworks, Ross County, Ohio. <i>Midcontinental Journal of Archaeology</i> , <b>2018</b> , 43, 112-132	0.6	4
66	A New Look at Flaked Stone Projectiles from the Mixer Site (33-ER-4), Erie County, Ohio, USA. <i>Lithic Technology</i> , <b>2018</b> , 43, 166-171	1.2	3
65	Toward a functional understanding of the North American Old Copper Culture Technomic devolution. <i>Journal of Archaeological Science</i> , <b>2018</b> , 98, 34-44	2.9	23
64	Description, morphometrics, and microwear of Late Pleistocene-Early Holocene artifacts from Southwestern Kentucky, U.S.A.. <i>Journal of Archaeological Science: Reports</i> , <b>2018</b> , 20, 516-523	0.7	9
63	Is Clovis Technology Unique to Clovis?. <i>PaleoAmerica</i> , <b>2018</b> , 4, 202-218	1.3	20
62	AN ASSESSMENT OF STONE WEAPON TIP STANDARDIZATION DURING THE CLOVIS-BOLSON TRANSITION IN THE WESTERN UNITED STATES. <i>American Antiquity</i> , <b>2018</b> , 83, 721-734	0.9	17
61	On the Late Paleoindian temporal assignment for the Honey Run Site (33-Co-3), Coshocton County, Ohio: A morphometric assessment of flaked stone stemmed lanceolate projectile points. <i>Journal of Archaeological Science: Reports</i> , <b>2018</b> , 20, 588-595	0.7	4
60	Explaining the origin of fluting in North American Pleistocene weaponry. <i>Journal of Archaeological Science</i> , <b>2017</b> , 81, 23-30	2.9	39
59	Environment-induced changes in selective constraints on social learning during the peopling of the Americas. <i>Scientific Reports</i> , <b>2017</b> , 7, 44431	4.9	13
58	The morphometrics and microwear of a small Clovis assemblage from Guernsey County, Southeastern Ohio, U.S.A.. <i>Journal of Archaeological Science: Reports</i> , <b>2017</b> , 15, 318-329	0.7	12
57	Quantifying and Comparing Bipolar Versus Freehand Flake Morphologies, Production Currencies, and Reduction Energetics During Lithic Miniaturization. <i>Lithic Technology</i> , <b>2017</b> , 42, 90-108	1.2	20

56	Description and microwear analysis of Clovis artifacts on a glacially-deposited secondary chert source near the Hartley Mastodon discovery, Columbiana County, Northeastern Ohio, U.S.A.. <i>Journal of Archaeological Science: Reports</i> , <b>2017</b> , 12, 543-552	0.7	13
55	Developing a stable point: Evaluating the temporal and geographic consistency of Late Prehistoric unnotched triangular point functional design in Midwestern North America. <i>Journal of Anthropological Archaeology</i> , <b>2017</b> , 47, 72-82	1.9	19
54	Factors affecting Acheulean handaxe variation: Experimental insights, microevolutionary processes, and macroevolutionary outcomes. <i>Quaternary International</i> , <b>2016</b> , 411, 386-401	2	43
53	Design Space and Cultural Transmission: Case Studies from Paleoindian Eastern North America. <i>Journal of Archaeological Method and Theory</i> , <b>2016</b> , 23, 692-740	2.8	27
52	A Statistical Examination of Flake Edge Angles Produced During Experimental Lineal Levallois Reductions and Consideration of Their Functional Implications. <i>Journal of Archaeological Method and Theory</i> , <b>2016</b> , 23, 379-398	2.8	31
51	Test, Model, and Method Validation: The Role of Experimental Stone Artifact Replication in Hypothesis-driven Archaeology. <i>Ethnoarchaeology</i> , <b>2016</b> , 8, 103-136	0.5	110
50	Statistical Analysis of Paradigmatic Class Richness Supports Greater Paleoindian Projectile-Point Diversity in the Southeast. <i>American Antiquity</i> , <b>2016</b> , 81, 174-192	0.9	23
49	Clovis Technology <b>2016</b> , 1-9		15
48	Clovis Colonization of Eastern North America: A Phylogenetic Approach. <i>Science and Technology of Archaeological Research</i> , <b>2016</b> , 2, 67-89	1.2	6
47	On Identifying Stone Tool Production Techniques: An Experimental and Statistical Assessment of Pressure Versus Soft Hammer Percussion Flake Form. <i>American Antiquity</i> , <b>2016</b> , 81, 737-751	0.9	4
46	Levallois: Potential Implications for Learning and Cultural Transmission Capacities. <i>Lithic Technology</i> , <b>2016</b> , 1-20	1.2	3
45	The Wauseon Clovis fluted point preform, Northwest Ohio, U.S.A.: Observations, geometric morphometrics, microwear, and toolstone procurement distance. <i>Journal of Archaeological Science: Reports</i> , <b>2016</b> , 10, 147-154	0.7	13
44	Social learning and technological evolution during the Clovis colonization of the New World. <i>Journal of Human Evolution</i> , <b>2015</b> , 80, 159-70	3.1	65
43	Neutron activation analysis of 12,900-year-old stone artifacts confirms 450B10+ km Clovis tool-stone acquisition at Paleo Crossing (33ME274), northeast Ohio, U.S.A.. <i>Journal of Archaeological Science</i> , <b>2015</b> , 53, 550-558	2.9	51
42	On the Inferred Age and Origin of Lithic Bi-Points from the Eastern Seaboard and their Relevance to the Pleistocene Peopling of North America. <i>American Antiquity</i> , <b>2015</b> , 80, 134-145	0.9	11
41	Size, shape, scars, and spatial patterning: A quantitative assessment of late Pleistocene (Clovis) point resharpening. <i>Journal of Archaeological Science: Reports</i> , <b>2015</b> , 3, 11-21	0.7	25
40	The three lives of a uniface. <i>Journal of Archaeological Science</i> , <b>2015</b> , 54, 228-236	2.9	17
39	The Cinmar discovery and the proposed pre-Late Glacial Maximum occupation of North America. <i>Journal of Archaeological Science: Reports</i> , <b>2015</b> , 2, 708-713	0.7	8

38	Transmission of Cultural Variants in the North American Paleolithic <b>2015</b> , 121-143		9
37	DISSECTING QUARTZITE AND BASALT BIPOLAR FLAKE SHAPE: A MORPHOMETRIC COMPARISON OF EXPERIMENTAL REPLICATIONS FROM OLDUVAI GORGE, TANZANIA. <i>Lithic Technology</i> , <b>2015</b> , 40, 332-341	1.2	14
36	The role of raw material differences in stone tool shape variation: an experimental assessment. <i>Journal of Archaeological Science</i> , <b>2014</b> , 49, 472-487	2.9	95
35	Middle Stone Age archaeology at Olduvai Gorge, Tanzania. <i>Quaternary International</i> , <b>2014</b> , 322-323, 292-313	3	14
34	Solutrean-ism. <i>Antiquity</i> , <b>2014</b> , 88, 622-624	1	8
33	MORE ON THE RUMOR OF INTENTIONAL OVERSHOT FLAKING AND THE PURPORTED ICE-AGE ATLANTIC CROSSING. <i>Lithic Technology</i> , <b>2014</b> , 39, 55-63	1.2	39
32	On thin ice: problems with Stanford and Bradley's proposed Solutrean colonisation of North America. <i>Antiquity</i> , <b>2014</b> , 88, 606-613	1	32
31	Lower Paleolithic bipolar reduction and hominin selection of quartz at Olduvai Gorge, Tanzania: What's the connection?. <i>Quaternary International</i> , <b>2014</b> , 322-323, 285-291	2	45
30	Levallois lessons: the challenge of integrating mathematical models, quantitative experiments and the archaeological record. <i>World Archaeology</i> , <b>2013</b> , 45, 519-538	1.4	44
29	Refuting the technological cornerstone of the Ice-Age Atlantic crossing hypothesis. <i>Journal of Archaeological Science</i> , <b>2013</b> , 40, 2934-2941	2.9	68
28	The technology of Stone Age colonization: an empirical, regional-scale examination of Clovis unifacial stone tool reduction, allometry, and edge angle from the North American Lower Great Lakes region. <i>Journal of Archaeological Science</i> , <b>2013</b> , 40, 2101-2112	2.9	46
27	An empirical test of the relative frequency of bipolar reduction in Beds VI, V, and III at Mumba Rockshelter, Tanzania: implications for the East African Middle to Late Stone Age transition. <i>Journal of Archaeological Science</i> , <b>2013</b> , 40, 248-256	2.9	55
26	Levallois economics: an examination of waste production in experimentally produced Levallois reduction sequences. <i>Journal of Archaeological Science</i> , <b>2013</b> , 40, 2384-2392	2.9	46
25	Were Bifaces used as Mobile Cores by Clovis Foragers in the North American Lower Great Lakes Region? An Archaeological Test of Experimentally Derived Quantitative Predictions. <i>American Antiquity</i> , <b>2013</b> , 78, 166-180	0.9	34
24	Paleoindian unifacial stone tool 'spurs': intended accessories or incidental accidents?. <i>PLoS ONE</i> , <b>2013</b> , 8, e78419	3.7	11
23	Preface to Faunal Extinctions and Introductions <i>World Archaeology</i> , <b>2012</b> , 44, 1-2	1.4	10
22	Were bamboo tools made in prehistoric Southeast Asia? An experimental view from South China. <i>Quaternary International</i> , <b>2012</b> , 269, 9-21	2	60
21	Why Levallois? A morphometric comparison of experimental 'preferential' Levallois flakes versus debitage flakes. <i>PLoS ONE</i> , <b>2012</b> , 7, e29273	3.7	99

20	Estimating the richness of a population when the maximum number of classes is fixed: a nonparametric solution to an archaeological problem. <i>PLoS ONE</i> , <b>2012</b> , 7, e34179	3.7	34
19	Toolstone constraints on knapping skill: Levallois reduction with two different raw materials. <i>Journal of Archaeological Science</i> , <b>2011</b> , 38, 2731-2739	2.9	77
18	Middle Paleolithic Skill Level and the Individual Knapper: An Experiment. <i>American Antiquity</i> , <b>2011</b> , 76, 229-251	0.9	55
17	Clovis Blades at Paleo Crossing (33ME274), Ohio. <i>Midcontinental Journal of Archaeology</i> , <b>2011</b> , 36, 173-196	1.4	24
16	Overshot Flaking at the Arc Site, Genesee County, New York: Examining the Clovis-Gainey Connection. <i>The Open Anthropology Journal</i> , <b>2011</b> , 4, 40-52		20
15	Experimental examination of animal trampling effects on artifact movement in dry and water saturated substrates: a test case from South India. <i>Journal of Archaeological Science</i> , <b>2010</b> , 37, 3010-3027	2.9	56
14	Dynamic Approaches to Teaching Lithic Technology. <i>Ethnoarchaeology</i> , <b>2010</b> , 2, 223-234	0.5	5
13	Kuhn's Geometric Index of Unifacial Stone Tool Reduction (GIUR): does it measure missing flake mass?. <i>Journal of Archaeological Science</i> , <b>2009</b> , 36, 1243-1247	2.9	27
12	Experimental Evaluation of the Levallois Core Shape Maintenance Hypothesis. <i>Lithic Technology</i> , <b>2009</b> , 34, 119-125	1.2	19
11	Are Upper Paleolithic blade cores more productive than Middle Paleolithic discoidal cores? A replication experiment. <i>Journal of Human Evolution</i> , <b>2008</b> , 55, 952-61	3.1	97
10	Does butchering fish leave cut marks?. <i>Journal of Archaeological Science</i> , <b>2008</b> , 35, 1438-1444	2.9	36
9	Defining and measuring reduction in unifacial stone tools. <i>Journal of Archaeological Science</i> , <b>2005</b> , 32, 1190-1201	2.9	74
8	The Early Acheulean in Africa: Past paradigms, current ideas, and future directions		11
7	Comparing and Synthesizing Unifacial Stone Tool Reduction Indices		14
6	Another tool in the experimental toolbox: On the use of aluminum as a substitute for chert in North American prehistoric ballistics research and beyond. <i>North American Archaeologist</i> , 019769312210743	0.2	0
5	Plains Paleoindian Projectile Point Penetration Potential. <i>Journal of Anthropological Research</i> , 000-000	0.6	2
4	North American Clovis Point Form and Performance II: An Experimental Assessment of Point, Haft, and Shaft Durability. <i>Lithic Technology</i> , 1-14	1.2	3
3	The Effect of Isometric Scaling on Flaked Stone Projectile Point Impact Durability: An Experimental Assessment. <i>Lithic Technology</i> , 1-10	1.2	1

2	Rock Music: An Auditory Assessment of Knapping. <i>Lithic Technology</i> ,1-16	1.2	1
1	North American Clovis Point Form and Performance III: An Experimental Assessment of Knife Cutting Efficiency. <i>Lithic Technology</i> ,1-18	1.2	4
