#	ARTICLE	IF	CITATIONS
1	Gastroesophageal Reflux Disease and Idiopathic Lung Fibrosis. From Heartburn to Lung Transplant, and Beyond. <i>American Surgeon</i> , 2022, 88, 297-302.	0.4	3
2	Software-Based Mathematical Recalibration for Position Change in Water-Perfused Esophageal High-Resolution Manometry System. <i>Journal of Gastrointestinal Surgery</i> , 2022, 26, 1084-1086.	0.9	0
3	Double-checking esophageal function tests. Comment on: Carlson et al. evaluating esophageal motility beyond primary peristalsis: assessing esophagogastric junction opening mechanics and secondary peristalsis in patients with normal manometry. <i>Neurogastroenterology and Motility</i> , 2022, 34, e14293.	1.6	0
4	Evaluation and Treatment of Esophageal Achalasia. <i>World Journal of Surgery</i> , 2022, 46, 1515-1515.	0.8	0
5	Treatment of Achalasia and Epiphrenic Diverticulum. <i>World Journal of Surgery</i> , 2022, 46, 1547-1553.	0.8	4
6	Esophageal Achalasia: Evaluation and Treatment of Recurrent Symptoms. <i>World Journal of Surgery</i> , 2022, 46, 1561-1566.	0.8	3
7	Per-Oral Endoscopic Myotomy Has a Role in the Treatment Algorithm of Esophageal Achalasia. <i>JAMA Surgery</i> , 2022, 157, 498.	2.2	1
8	Reporting Characteristics of cadaver training and surgical studies: The CACTUS guidelines. <i>International Journal of Surgery</i> , 2022, 101, 1066-1069.	1.1	7
9	The Evolution of the Treatment of Esophageal Achalasia: From the Open to the Minimally Invasive Approach. <i>World Journal of Surgery</i> , 2022, 46, 1522-1526.	0.8	1
10	The prevalence of gastroesophageal reflux disease in named manometric patterns of dysmotility according to the Chicago Classification 4.0. <i>Ecological Management and Restoration</i> , 2022, , .	0.2	2
11	Roux-en-Y Gastric Bypass and Gastroesophageal Reflux Disease: an Infallible Anti-Reflux Operation?. <i>Obesity Surgery</i> , 2022, 32, 2481-2483.	1.1	4
12	Laparoscopic Heller Myotomy with Dor Fundoplication: An Operation that has Withstood the Test of Time. <i>World Journal of Surgery</i> , 2022, 46, 1531-1534.	0.8	0
13	Fourteen Crutches for Mediocrity. The logismoi that jeopardize good research and publication. <i>Cirug�a Espa�ola (English Edition)</i> , 2022, 100, 262-265.	0.1	0
14	Magnetic Sphincter Augmentation for the Treatment of Gastroesophageal Reflux Disease. <i>World Journal of Surgery</i> , 2022, 46, 2251-2252.	0.8	0
15	NORMATIVE VALUES FOR EGJ-CI FOR A WATER-PERFUSED ESOPHAGEAL MANOMETRY SYSTEM. <i>Arquivos De Gastroenterologia</i> , 2022, 59, 314-314.	0.3	1
16	Pharyngeal motility in patients submitted to type I thyroplasty. <i>Brazilian Journal of Otorhinolaryngology</i> , 2021, 87, 538-544.	0.4	3
17	When should we use mesh in laparoscopic hiatal hernia repair? A systematic review. <i>Ecological Management and Restoration</i> , 2021, 34, .	0.2	11
18	High-Resolution Manometry as a Tool for Biofeedback in Vertical Laryngeal Positioning. <i>Journal of Voice</i> , 2021, 35, 418-421.	0.6	4

#	ARTICLE	IF	CITATIONS
19	Chicago classification version 4.0© from surgeonsâ€™ point of view. Neurogastroenterology and Motility, 2021, 33, e14090.	1.6	5
20	Changes in the Treatment of Primary Esophageal Motility Disorders Imposed by the New Classification for Esophageal Motility Disorders on High Resolution Manometry (Chicago Classification 4.0). Advances in Therapy, 2021, 38, 2017-2026.	1.3	12
21	Safety of Neoadjuvant Chemoradiotherapy Followed by Surgery for Patients With Locally Advanced Esophageal Squamous Cell Carcinoma. JAMA Surgery, 2021, 156, 452.	2.2	0
22	Lyon Consensus pH Monitoring Gray Zone Is more Prone to be Actual Gastroesophageal Reflux Disease According to the DeMeester Score. Journal of Gastrointestinal Surgery, 2021, 25, 2218-2220.	0.9	2
23	Influence of Gastric Bypass on Obese Women Sexual Functionâ€™ a Prospective Study. Obesity Surgery, 2021, 31, 3793-3798.	1.1	1
24	Fourteen Crutches for Mediocrity. The logismoi that jeopardize good research and publication. CirugÃa EspaÃ±ola, 2021, , .	0.1	0
25	Editorial: Impact of Human Learning and Ergonomics on Medical Education in Minimally Invasive Surgery. Frontiers in Surgery, 2021, 8, 744154.	0.6	0
26	The upper esophageal sphincter in the high-resolution manometry era. Langenbeck's Archives of Surgery, 2021, 406, 2611-2619.	0.8	5
27	Pitfalls in the Interpretation of Chicago Classification for Esophageal Motility Disorders. Journal of Neurogastroenterology and Motility, 2021, 27, 513-517.	0.8	1
28	Optimal site for fluoroscopic tracer injection for laparoscopic lymphadenectomy. BMC Medicine, 2021, 19, 272.	2.3	0
29	PHARYNGEAL, UPPER ESOPHAGEAL SPHINCTERIC AND ESOPHAGEAL PRESSURES RESPONSES RELATED TO VOCAL TASKS AT THE LIGHT OF HIGH RESOLUTION MANOMETRY. Arquivos De Gastroenterologia, 2021, 58, 296-301.	0.3	4
30	The Impact of Bariatric Procedures on Esophageal Motility. Foregut, 2021, 1, 268-276.	0.3	1
31	Outcomes of Laparoscopic Redo Fundoplication in Patients With Failed Antireflux Surgery. Annals of Surgery, 2021, 274, 78-85.	2.1	10
32	One-Anastomosis and Roux-en-Y Gastric Bypass Promote Similar Weight Loss, Patient Satisfaction, Quality of Life, Inflammation Grade, and Cellular Damage in the Esophagus and Gastric Pouch in a Short-term Follow-up. Journal of Obesity and Metabolic Syndrome, 2021, 30, 396-402.	1.5	9
33	Disparities in esophageal cancer: less treatment, less surgical resection, and poorer survival in disadvantaged patients. Ecological Management and Restoration, 2020, 33, .	0.2	31
34	Surgical lessons learned by conducting an orchestra. Surgery, 2020, 167, 679-680.	1.0	3
35	Transdiaphragmatic Pressure Gradient (TPG) Has a Central Role in the Pathophysiology of Gastroesophageal Reflux Disease (GERD) in the Obese and it Correlates with Abdominal Circumference but Not with Body Mass Index (BMI). Obesity Surgery, 2020, 30, 1424-1428.	1.1	30
36	The Treatment of Esophageal Achalasia: At the Intersection Between Innovation and Patient's Care. Journal of Laparoendoscopic and Advanced Surgical Techniques - Part A, 2020, 30, 233-235.	0.5	4

#	ARTICLE	IF	CITATIONS
37	Commentary on: Robotic surgery for gastric cancer in the west: A systematic review and meta-analyses of short-and long-term outcomes. International Journal of Surgery, 2020, 84, 51-52.	1.1	1
38	Roux-en-Y Gastric Bypass for Obesity. How We Do It. Journal of Laparoendoscopic and Advanced Surgical Techniques - Part A, 2020, 30, 623-626.	0.5	6
39	Lessons Learned from the History of Fundoplication. SN Comprehensive Clinical Medicine, 2020, 2, 775-781.	0.3	1
40	Indocyanine Green Tracer-Guided Lymph Node Retrieval During Radical Dissection in Gastric Cancer Surgery. JAMA Surgery, 2020, 155, 312.	2.2	8
41	Achalasia Treatment in Patients over 80 Years of Age: A Multicenter Survey. Journal of Laparoendoscopic and Advanced Surgical Techniques - Part A, 2020, 30, 358-362.	0.5	2
42	Upper Esophageal Sphincter Motility and Thoracic Pressure are Determinants of Pressurized Waves in Achalasia Subtypes According to the Chicago Classification. World Journal of Surgery, 2020, 44, 1932-1938.	0.8	5
43	University Hospital Financial Status Does Not Influence Subjective Perception of General Surgery Residents on Training Adequacy. World Journal of Surgery, 2020, 44, 2495-2500.	0.8	0
44	The applicability of high resolution manometry in total laryngectomy. CoDAS, 2020, 32, e20190006.	0.2	3
