#	Paper	IF	Citations
9	Comparing Genetic Variation among Latin American Immigrants: Implications for Forensic Casework in the Arizona- and Texas-Mexico Borderlands.. <i>Human Biology</i> , 2022 , 93, 33-50	1.2	
8	Molecular Evolution and Epidemiological Characteristics of SARS COV-2 in (Northwestern) Poland. <i>Viruses</i> , 2021 , 13,	6.2	5
7	Genetic and phylogeographic evidence for Jewish Holocaust victims at the Sobibór death camp. <i>Genome Biology</i> , 2021 , 22, 200	18.3	1
6	The challenge of predicting human pigmentation traits in degraded bone samples with the MPS-based HirisPlex-S system. <i>Forensic Science International: Genetics</i> , 2020 , 47, 102301	4.3	10
5	Y-Chromosome Genetic Analysis of Modern Polish Population. <i>Frontiers in Genetics</i> , 2020 , 11, 567309	4.5	3
4	Is MPS always the answer? Use of two PCR-based methods for Y-chromosomal haplotyping in highly and moderately degraded bone material. <i>Forensic Science International: Genetics</i> , 2019 , 42, 181-189	4.3	8
3	Analysis of male specific region of the human Y chromosome sheds light on historical events in Nazi occupied eastern Poland. <i>International Journal of Legal Medicine</i> , 2019 , 133, 395-409	3.1	4
2	Population analysis and forensic evaluation of 21 autosomal loci included in GlobalFiler [®] PCR Kit in Poland. <i>Forensic Science International: Genetics</i> , 2017 , 29, e38-e39	4.3	12
1	A case study of an unknown mass grave - Hostages killed 70 years ago by a Nazi firing squad identified thanks to genetics. <i>Forensic Science International</i> , 2017 , 278, 173-176	2.6	8
