List of Publications by Citations

Source: <https://exaly.com/author-pdf/8908146/zhe-he-publications-by-citations.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
90	Explainable artificial intelligence models using real-world electronic health record data: a systematic scoping review. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2020 , 27, 1173-1185	8.6	55
89	Mining Twitter to Assess the Public Perception of the "Internet of Things". <i>PLoS ONE</i> , 2016 , 11, e0158459	7.7	41
88	Assessing the practice of biomedical ontology evaluation: Gaps and opportunities. <i>Journal of Biomedical Informatics</i> , 2018 , 80, 1-13	10.2	40
87	Prevalence of Multiple Chronic Conditions Among Older Adults in Florida and the United States: Comparative Analysis of the OneFlorida Data Trust and National Inpatient Sample. <i>Journal of Medical Internet Research</i> , 2018 , 20, e137	7.6	34
86	Enriching consumer health vocabulary through mining a social Q&A site: A similarity-based approach. <i>Journal of Biomedical Informatics</i> , 2017 , 69, 75-85	10.2	29
85	Using Social Media Data to Understand the Impact of Promotional Information on Laypeople's Discussions: A Case Study of Lynch Syndrome. <i>Journal of Medical Internet Research</i> , 2017 , 19, e414	7.6	29
84	Clinical Trial Generalizability Assessment in the Big Data Era: A Review. <i>Clinical and Translational Science</i> , 2020 , 13, 675-684	4.9	24
83	The readiness of SNOMED problem list concepts for meaningful use of electronic health records. <i>Artificial Intelligence in Medicine</i> , 2013 , 58, 73-80	7.4	24
82	Consumers' Use of UMLS Concepts on Social Media: Diabetes-Related Textual Data Analysis in Blog and Social Q&A Sites. <i>JMIR Medical Informatics</i> , 2016 , 4, e41	3.6	21
81	A comparative analysis of the density of the SNOMED CT conceptual content for semantic harmonization. <i>Artificial Intelligence in Medicine</i> , 2015 , 64, 29-40	7.4	20
80	Assessing the Collective Population Representativeness of Related Type 2 Diabetes Trials by Combining Public Data from ClinicalTrials.gov and NHANES. <i>Studies in Health Technology and Informatics</i> , 2015 , 216, 569-73	0.5	20
79	Extracting chemical-protein interactions from literature using sentence structure analysis and feature engineering. <i>Database: the Journal of Biological Databases and Curation</i> , 2019 , 2019,	5	18
78	Visual aggregate analysis of eligibility features of clinical trials. <i>Journal of Biomedical Informatics</i> , 2015 , 54, 241-55	10.2	17
77	Multivariate analysis of the population representativeness of related clinical studies. <i>Journal of Biomedical Informatics</i> , 2016 , 60, 66-76	10.2	17
76	Rule-based support system for multiple UMLS semantic type assignments. <i>Journal of Biomedical Informatics</i> , 2013 , 46, 97-110	10.2	16
75	A method for analyzing commonalities in clinical trial target populations 2014 , 2014, 1777-86	0.7	16
74	OC-2-KB: integrating crowdsourcing into an obesity and cancer knowledge base curation system. <i>BMC Medical Informatics and Decision Making</i> , 2018 , 18, 55	3.6	14

73	A family-based framework for supporting quality assurance of biomedical ontologies in BioPortal 2013 , 2013, 581-90	0.7	14
72	Topological-Pattern-Based Recommendation of UMLS Concepts for National Cancer Institute Thesaurus 2016 , 2016, 618-627	0.7	14
71	Utilizing a structural meta-ontology for family-based quality assurance of the BioPortal ontologies. <i>Journal of Biomedical Informatics</i> , 2016 , 61, 63-76	10.2	14
70	Categorizing the Relationships between Structurally Congruent Concepts from Pairs of Terminologies for Semantic Harmonization. <i>AMIA Summits on Translational Science Proceedings</i> , 2014 , 2014, 48-53	1.1	13
69	Evaluating semantic relations in neural word embeddings with biomedical and general domain knowledge bases. <i>BMC Medical Informatics and Decision Making</i> , 2018 , 18, 65	3.6	12
68	Towards an Obesity-Cancer Knowledge Base: Biomedical Entity Identification and Relation Detection 2016 , 2016, 1081-1088	0.8	12
67	ALOHA: developing an interactive graph-based visualization for dietary supplement knowledge graph through user-centered design. <i>BMC Medical Informatics and Decision Making</i> , 2019 , 19, 150	3.6	10
66	Quality Assurance of UMLS Semantic Type Assignments Using SNOMED CT Hierarchies. <i>Methods of Information in Medicine</i> , 2016 , 55, 158-65	1.5	10
65	Building Computational Models to Predict One-Year Mortality in ICU Patients with Acute Myocardial Infarction and Post Myocardial Infarction Syndrome. <i>AMIA Summits on Translational Science Proceedings</i> , 2019 , 2019, 407-416	1.1	10
64	Biomedical word sense disambiguation with bidirectional long short-term memory and attention-based neural networks. <i>BMC Bioinformatics</i> , 2019 , 20, 502	3.6	10
63	Assessing the Comorbidity Gap between Clinical Studies and Prevalence in Elderly Patient Populations. <i>IEEE-EMBS International Conference on Biomedical and Health Informatics</i> , 2016 , 2016, 136-139	1.9	9
62	Simulation-based Evaluation of the Generalizability Index for Study Traits 2015 , 2015, 594-603	0.7	9
61	Preliminary Analysis of Difficulty of Importing Pattern-Based Concepts into the National Cancer Institute Thesaurus. <i>Studies in Health Technology and Informatics</i> , 2016 , 228, 389-93	0.5	9
60	Computable Eligibility Criteria through Ontology-driven Data Access: A Case Study of Hepatitis C Virus Trials 2018 , 2018, 1601-1610	0.7	9
59	Sculpting the UMLS Refined Semantic Network. <i>Online Journal of Public Health Informatics</i> , 2014 , 6, e1810.3	10.3	9
58	Similarity-Based Recommendation of New Concepts to a Terminology 2015 , 2015, 386-95	0.7	6
57	Understanding Patient Information Needs About Their Clinical Laboratory Results: A Study of Social Q&A Site. <i>Studies in Health Technology and Informatics</i> , 2019 , 264, 1403-1407	0.5	6
56	A deep learning approach for identifying cancer survivors living with post-traumatic stress disorder on Twitter. <i>BMC Medical Informatics and Decision Making</i> , 2020 , 20, 254	3.6	5

55	DREAM: Classification scheme for dialog acts in clinical research query mediation. <i>Journal of Biomedical Informatics</i> , 2016 , 59, 89-101	10.2	5
54	Perceiving the Usefulness of the National Cancer Institute Metathesaurus for Enriching NCIt with Topological Patterns. <i>Studies in Health Technology and Informatics</i> , 2017 , 245, 863-867	0.5	5
53	Leveraging Horizontal Density Differences between Ontologies to Identify Missing Child Concepts: A Proof of Concept 2018 , 2018, 644-653	0.7	5
52	Understanding Perceptions and Attitudes in Breast Cancer Discussions on Twitter. <i>Studies in Health Technology and Informatics</i> , 2019 , 264, 1293-1297	0.5	5
51	Trend and Network Analysis of Common Eligibility Features for Cancer Trials in ClinicalTrials.gov. <i>Lecture Notes in Computer Science</i> , 2014 , 8549, 130-141	0.9	5
50	How do mothers exchange parenting-related information in online communities? A meta-synthesis. <i>Computers in Human Behavior</i> , 2021 , 115, 106631	7.7	5
49	Auditing the Assignments of Top-Level Semantic Types in the UMLS Semantic Network to UMLS Concepts 2017 , 2017, 1262-1269	0.8	4
48	Comparing and Contrasting A Priori and A Posteriori Generalizability Assessment of Clinical Trials on Type 2 Diabetes Mellitus 2017 , 2017, 849-858	0.7	4
47	Enhancing Prediction Models for One-Year Mortality in Patients with Acute Myocardial Infarction and Post Myocardial Infarction Syndrome. <i>Studies in Health Technology and Informatics</i> , 2019 , 264, 273-277	0.5	4
46	Analyzing Social Media Data to Understand Consumer Information Needs on Dietary Supplements. <i>Studies in Health Technology and Informatics</i> , 2019 , 264, 323-327	0.5	4
45	Assessing the Validity of a Patient-Trial Generalizability Score using Real-world Data from a Large Clinical Data Research Network: A Colorectal Cancer Clinical Trial Case Study 2019 , 2019, 1101-1110	0.7	4
44	An Informatics Framework to Assess Consumer Health Language Complexity Differences: Proof-of-Concept Study. <i>Journal of Medical Internet Research</i> , 2020 , 22, e16795	7.6	4
43	A review of auditing techniques for the Unified Medical Language System. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2020 , 27, 1625-1638	8.6	4
42	DeepConsensus: Consensus-based Interpretable Deep Neural Networks with Application to Mortality Prediction 2020 , 2020,		4
41	Alternative classification of identical concepts in different terminologies: Different ways to view the world. <i>Journal of Biomedical Informatics</i> , 2019 , 94, 103193	10.2	3
40	Clinical Clarity versus Terminological Order - The Readiness of SNOMED CT Concept Descriptors for Primary Care 2012 , 2012, 1-6		3
39	Patient Challenges and Needs in Comprehending Laboratory Test Results: Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2020 , 22, e18725	7.6	3
38	Assessing the population representativeness of colorectal cancer treatment clinical trials. <i>Annual International Conference of the IEEE Engineering in Medicine and Biology Society IEEE Engineering in Medicine and Biology Society Annual International Conference</i> , 2016 , 2016, 2970-2973	0.9	3

37	Layered Multistep Bidirectional Long Short-Term Memory Networks for Biomedical Word Sense Disambiguation 2018 ,		3
36	Extended Analysis of Topological-Pattern-Based Ontology Enrichment 2018 , 2018, 1641-1648	0.8	3
35	Machine learning-based prediction of health outcomes in pediatric organ transplantation recipients. <i>JAMIA Open</i> , 2021 , 4, ooab008	2.9	3
34	Validating UMLS Semantic Type Assignments Using SNOMED CT Semantic Tags. <i>Methods of Information in Medicine</i> , 2018 , 57, 43-53	1.5	2
33	Exploratory textual analysis of consumer health languages for people who are D/deaf and hard of hearing 2017 ,		2
32	OC-2-KB: A software pipeline to build an evidence-based obesity and cancer knowledge base 2017 , 2017, 1284-1287	0.8	2
31	Comparing the Study Populations in Dietary Supplement and Drug Clinical Trials for Metabolic Syndrome and Related Disorders. <i>AMIA Summits on Translational Science Proceedings</i> , 2019 , 2019, 799-808 ¹		2
30	Using Real-World Data to Rationalize Clinical Trials Eligibility Criteria Design: A Case Study of Alzheimer [®] Disease Trials 2020 , 2020, 717-726	0.7	2
29	Patient Engagement in Medical Research Among Older Adults: Analysis of the Health Information National Trends Survey. <i>Journal of Medical Internet Research</i> , 2019 , 21, e15035	7.6	2
28	Understanding and Bridging the Language and Terminology Gap Between Health Professionals and Consumers Using Social Media 2019 , 103-121		2
27	Assessing the Impact of Imputation on the Interpretations of Prediction Models: A Case Study on Mortality Prediction for Patients with Acute Myocardial Infarction		2
26	Reporting results in U.S. clinical trials for obstructive sleep apnea and insomnia: How transparent are they?. <i>Sleep Health</i> , 2020 , 6, 529-533	4	2
25	Triage of documents containing protein interactions affected by mutations using an NLP based machine learning approach. <i>BMC Genomics</i> , 2020 , 21, 773	4.5	2
24	Exploring the feasibility of using real-world data from a large clinical data research network to simulate clinical trials of Alzheimer [®] disease. <i>Npj Digital Medicine</i> , 2021 , 4, 84	15.7	2
23	Analysis of Temporal Constraints in Qualitative Eligibility Criteria of Cancer Clinical Studies 2016 , 2016, 717-722	0.8	2
22	Prototyping an Interactive Visualization of Dietary Supplement Knowledge Graph 2018 , 2018, 1649-1652.8		2
21	Multivariate Multi-step Deep Learning Time Series Approach in Forecasting Parkinson [®] Disease Future Severity Progression 2019 ,		1
20	Exploring text classification of social support in online health communities for people who are D/deaf and hard of hearing. <i>Proceedings of the Association for Information Science and Technology</i> , 2017 , 54, 840-841	0.4	1

19	Comparative Analysis of Geriatric and Adult Drug Clinical Trials on ClinicalTrials.gov. <i>Studies in Health Technology and Informatics</i> , 2017 , 245, 1265	0.5	1
18	Improving Patient Participation in Cancer Clinical Trials: A Qualitative Analysis of HSRProj & RePORTER. <i>Studies in Health Technology and Informatics</i> , 2019 , 264, 1925-1926	0.5	1
17	Assessing the Use and Perception of Dietary Supplements Among Obese Patients with National Health and Nutrition Examination Survey. <i>AMIA Summits on Translational Science Proceedings</i> , 2020 , 2020, 231-240	1.1	1
16	How the clinical research community responded to the COVID-19 pandemic: An analysis of the COVID-19 clinical studies in ClinicalTrials.gov 2020 ,		1
15	How the clinical research community responded to the COVID-19 pandemic: an analysis of the COVID-19 clinical studies in ClinicalTrials.gov. <i>JAMIA Open</i> , 2021 , 4, ooab032	2.9	1
14	Pregnancy-Related Information Seeking in Online Health Communities: A Qualitative Study.. <i>Lecture Notes in Computer Science</i> , 2021 , 12646, 18-36	0.9	1
13	Understanding Information Needs and Barriers to Accessing Health Information Across All Stages of Pregnancy: Systematic Review.. <i>JMIR Pediatrics and Parenting</i> , 2022 , 5, e32235	4.2	1
12	Emergent trends in research to increase participation of underrepresented populations in cancer clinical trials: A qualitative analysis of the HSRProj database. <i>Proceedings of the Association for Information Science and Technology</i> , 2017 , 54, 677-678	0.4	0
11	Beliefs and Information Seeking in Patients With Cancer in Southwest China: Survey Study. <i>JMIR Cancer</i> , 2020 , 6, e16138	3.2	0
10	User-Centered System Design for Communicating Clinical Laboratory Test Results: Design and Evaluation Study. <i>JMIR Human Factors</i> , 2021 , 8, e26017	2.5	0
9	Making Sense of Clinical Laboratory Results: An Analysis of Questions and Replies in a Social Q&A Community. <i>Studies in Health Technology and Informatics</i> , 2019 , 264, 2009-2010	0.5	0
8	Assessing the use of prescription drugs and dietary supplements in obese respondents in the National Health and Nutrition Examination Survey. <i>PLoS ONE</i> , 2022 , 17, e0269241	3.7	0
7	Predicting New Target Conditions for Drug Retesting Using Temporal Patterns in Clinical Trials: A Proof of Concept. <i>AMIA Summits on Translational Science Proceedings</i> , 2015 , 2015, 445-9	1.1	
6	Deep Learning Approach to Parse Eligibility Criteria in Dietary Supplements Clinical Trials Following OMOP Common Data Model 2020 , 2020, 243-252	0.7	
5	Retrieving Lab Test Related Questions from Social Q&A Sites by Combining Shallow Features and Deep Representations 2020 , 2020, 783-792	0.7	
4	Assessing the Impact of Imputation on the Interpretations of Prediction Models: A Case Study on Mortality Prediction for Patients with Acute Myocardial Infarction. <i>AMIA Summits on Translational Science Proceedings</i> , 2021 , 2021, 465-474	1.1	
3	Selected articles from the Fourth International Workshop on Semantics-Powered Data Mining and Analytics (SEPDA 2019). <i>BMC Medical Informatics and Decision Making</i> , 2020 , 20, 315	3.6	
2	Natural Language Processing Empowered Mobile Computing. <i>Wireless Communications and Mobile Computing</i> , 2018 , 2018, 1-2	1.9	

- 1 Identification of Cancer Survivors Living with PTSD on Social Media. *Studies in Health Technology and Informatics*, **2019**, 264, 1468-1469 0.5
