#	ARTICLE	IF	CITATIONS
1	Does wait time during acute care for transfer to rehabilitation admission impact the outcomes following a traumatic spinal cord injury? A retrospective cohort study. American Journal of Physical Medicine and Rehabilitation, 2022, Publish Ahead of Print, .	0.7	1
2	Decreasing pressure injuries and acute care length of stay in patients with acute traumatic spinal cord injury. Journal of Spinal Cord Medicine, 2021, 44, 949-957.	0.7	7
3	Use of Regression Tree Analysis for Predicting the Functional Outcome after Traumatic Spinal Cord Injury. Journal of Neurotrauma, 2021, 38, 1285-1291.	1.7	26
4	Clinical Protocol for Identifying and Managing Bladder Dysfunction during Acute Care after Traumatic Spinal Cord Injury. Journal of Neurotrauma, 2021, 38, 718-724.	1.7	5
5	Factors associated with discharge destination following inpatient functional rehabilitation in patients with traumatic spinal cord injury. Spinal Cord, 2021, 59, 642-648.	0.9	6
6	Early Predictors of Neurological Outcomes After Traumatic Spinal Cord Injury. American Journal of Physical Medicine and Rehabilitation, 2021, 100, 700-711.	0.7	14
7	An evaluation of the representativeness of a national spinal cord injury registry: a population-based cohort study. Spinal Cord, 2021, 59, 1072-1078.	0.9	1
8	Clinical judgment is a cornerstone for validating and using clinical prediction rules: a head-to-head study on ambulation outcomes for spinal cord injured patients. Spinal Cord, 2021, 59, 1104-1110.	0.9	4
9	Early Clinical Prediction of Independent Outdoor Functional Walking Capacity in a Prospective Cohort of Traumatic Spinal Cord Injury Patients. American Journal of Physical Medicine and Rehabilitation, 2021, 100, 1034-1041.	0.7	5
10	Are early clinical manifestations of spasticity associated with long-term functional outcome following spinal cord injury? A retrospective study. Spinal Cord, 2021, 59, 910-916.	0.9	6
11	Who recovers independent bowel management during the first year following a traumatic spinal cord injury? A case-control study.. American Journal of Physical Medicine and Rehabilitation, 2021, Publish Ahead of Print, .	0.7	1
12	Protocol for rapid onset of mobilisation in patients with traumatic spinal cord injury (PROMPT-SCI) study: a single-arm proof-of-concept trial of early in-bed leg cycling following acute traumatic spinal cord injury. BMJ Open, 2021, 11, e049884.	0.8	2
13	Determining priorities in functional rehabilitation related to quality of life one-year following a traumatic spinal cord injury. Journal of Spinal Cord Medicine, 2020, 43, 241-246.	0.7	7
14	The impact of early spasticity on the intensive functional rehabilitation phase and community reintegration following traumatic spinal cord injury. Journal of Spinal Cord Medicine, 2020, 43, 435-443.	0.7	14
15	Patterns and predictors of functional recovery from the subacute to the chronic phase following a traumatic spinal cord injury: a prospective study. Spinal Cord, 2020, 58, 43-52.	0.9	12
16	The Functional Impact of the Absence of a Bulbocavernosus Reflex in the Postoperative Period After a Motor-Complete Traumatic Spinal Cord Injury. American Journal of Physical Medicine and Rehabilitation, 2020, 99, 712-718.	0.7	2
17	The use of classification and regression tree analysis to identify the optimal surgical timing for improving neurological outcomes following motor-complete thoracolumbar traumatic spinal cord injury. Spinal Cord, 2020, 58, 682-688.	0.9	4
18	The relevance of MRI for predicting neurological recovery following cervical traumatic spinal cord injury. Spinal Cord, 2019, 57, 866-873.	0.9	23

#	ARTICLE	IF	CITATIONS
19	Relationships Between Specific Functional Abilities and Health-Related Quality of Life in Chronic Traumatic Spinal Cord Injury. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2019, 98, 14-19.	0.7	24
20	Early Predictors of Global Functional Outcome after Traumatic Spinal Cord Injury: A Systematic Review. <i>Journal of Neurotrauma</i> , 2018, 35, 1705-1725.	1.7	38
21	The use of classification tree analysis to assess the influence of surgical timing on neurological recovery following severe cervical traumatic spinal cord injury. <i>Spinal Cord</i> , 2018, 56, 687-694.	0.9	6
22	Prediction of functional recovery six months following traumatic spinal cord injury during acute care hospitalization. <i>Journal of Spinal Cord Medicine</i> , 2018, 41, 309-317.	0.7	40
23	The impact of acute management on the occurrence of medical complications during the specialized spinal cord injury acute hospitalization following motor-complete cervical spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , 2018, 41, 388-396.	0.7	15
24	The impact of a specialized spinal cord injury center as compared with non-specialized centers on the acute respiratory management of patients with complete tetraplegia: an observational study. <i>Spinal Cord</i> , 2018, 56, 142-150.	0.9	10
25	Quality of life in the subacute period following a cervical traumatic spinal cord injury based on the initial severity of the injury: a prospective cohort study. <i>Spinal Cord</i> , 2018, 56, 1042-1050.	0.9	9
26	Effectiveness of a multi-layer foam dressing in preventing sacral pressure ulcers for the early acute care of patients with a traumatic spinal cord injury: comparison with the use of a gel mattress. <i>International Wound Journal</i> , 2017, 14, 874-881.	1.3	10
27	Costs and Length of Stay for the Acute Care of Patients with Motor-Complete Spinal Cord Injury Following Cervical Trauma. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2017, 96, 449-456.	0.7	25
28	Reply to: Effectiveness of a multi-layer foam dressing in preventing sacral pressure ulcers in the early acute care of patients with a traumatic spinal cord injury: comparison with the use of a gel mattress by Gefen and Santamaria. <i>International Wound Journal</i> , 2017, 14, 885-885.	1.3	1
29	Does the Acute Care Spinal Cord Injury Setting Predict the Occurrence of Pressure Ulcers at Arrival to Intensive Rehabilitation Centers?. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2016, 95, 300-308.	0.7	17
