SARA KING-DOWLING

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 1  | Sociodemographics, Health Competence, and Transition Readiness Among Adolescent/Young Adult<br>Cancer Survivors. Journal of Pediatric Psychology, 2022, 47, 1096-1106.  | 1.1 | 6         |
| 2  | COVID-19 Exposure and Family Impact Scales for Adolescents and Young Adults. Journal of Pediatric Psychology, 2022, 47, 631-640.  | 1.1 | 9         |
| 3  | Associations Between Fitness, Physical Activity, and Fatness in Preschool Children With Typical and Atypical Motor Coordination. Frontiers in Pediatrics, 2022, 10, 756862.   | 0.9 | 2         |
| 4  | Investigating the mediating role of internalizing and externalizing problems on physical fitness in<br>children at risk for Developmental Coordination Disorder. Applied Physiology, Nutrition and<br>Metabolism, 2022, 47, 575-581.                      | 0.9 | 0         |
| 5  | Correlates of Moderate-to-Vigorous Physical Activity in Children With Physical Illness and Physical–Mental Multimorbidity. Health Education and Behavior, 2022, 49, 780-788.  | 1.3 | 2         |
| 6  | Acceptability and feasibility of survivorship care plans and an accompanying mobile health<br>intervention for adolescent and young adult survivors of childhood cancer. Pediatric Blood and<br>Cancer, 2021, 68, e28884.                                 | 0.8 | 12        |
| 7  | Does physical activity and BMI mediate the association between DCD and internalizing problems in early childhood? A partial test of the Environmental Stress Hypothesis. Human Movement Science, 2021, 75, 102744.  | 0.6 | 8         |
| 8  | Contextual Predictors of Engagement in a Tailored mHealth Intervention for Adolescent and Young Adult Cancer Survivors. Annals of Behavioral Medicine, 2021, 55, 1220-1230.   | 1.7 | 11        |
| 9  | Effects of Comorbid Developmental Coordination Disorder and Symptoms of Attention Deficit<br>Hyperactivity Disorder on Physical Activity in Children Aged 4–5 Years. Child Psychiatry and Human<br>Development, 2021, , 1.                                | 1.1 | 2         |
| 10 | Examining Device-Assessed Physical Activity During the Transition Into Emerging Adulthood: Results<br>From the MovingU Study. Journal of Adolescent Health, 2021, 69, 477-481.  | 1.2 | 1         |
| 11 | Physical Activity and Trajectories of Cardiovascular Health Indicators During Early Childhood. , 2021, , 277-287.   |     | 0         |
| 12 | Cross-Sectional Associations Between Wake-Time Movement Compositions and Mental Health in<br>Preschool Children With and Without Motor Coordination Problems. Frontiers in Pediatrics, 2021, 9,<br>752333.  | 0.9 | 4         |
| 13 | Motor Competence, Physical Activity, and Fitness across Early Childhood. Medicine and Science in Sports and Exercise, 2020, 52, 2342-2348.  | 0.2 | 25        |
| 14 | Perceptions of Ability Mediate the Effect of Motor Coordination on Aerobic and Musculoskeletal<br>Exercise Performance in Young Children at Risk for Developmental Coordination Disorder. Journal of<br>Sport and Exercise Psychology, 2020, 42, 407-416. | 0.7 | 2         |
| 15 | Comorbidity Among Chronic Physical Health Conditions and Neurodevelopmental Disorders in Childhood. Current Developmental Disorders Reports, 2019, 6, 248-258.  | 0.9 | 11        |
| 16 | Physical Activity and Trajectories of Cardiovascular Health Indicators During Early Childhood.<br>Pediatrics, 2019, 144, .  | 1.0 | 37        |
| 17 | Assessing the Validity of Standing Long Jump to Predict Muscle Power in Children With and Without<br>Motor Delays. Pediatric Exercise Science, 2019, 31, 432-437.   | 0.5 | 4         |
| 18 | Physical activity in young children at risk for developmental coordination disorder. Developmental<br>Medicine and Child Neurology, 2019, 61, 1302-1308.  | 1.1 | 9         |

SARA KING-DOWLING

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 19 | Cohort profile: the Canadian coordination and activity tracking in children (CATCH) longitudinal cohort. BMJ Open, 2019, 9, e029784.   | 0.8 | 18        |
| 20 | Health-related Fitness in Preschool Children with and without Motor Delays. Medicine and Science in Sports and Exercise, 2018, 50, 1442-1448.  | 0.2 | 24        |
| 21 | A Longitudinal Study of the Effect of Organized Physical Activity on Free Active Play. Medicine and Science in Sports and Exercise, 2018, 50, 1772-1779.   | 0.2 | 11        |
| 22 | The longitudinal relationship between generalized selfâ€efficacy and physical activity in schoolâ€aged children. European Journal of Sport Science, 2018, 18, 569-578.   | 1.4 | 5         |
| 23 | Validity of field assessments to predict peak muscle power in preschoolers. Applied Physiology,<br>Nutrition and Metabolism, 2017, 42, 850-854.  | 0.9 | 11        |
| 24 | Tracking cardiorespiratory fitness and physical activity in children with and without motor coordination problems. Journal of Science and Medicine in Sport, 2017, 20, 380-385.  | 0.6 | 30        |
| 25 | Understanding Environmental and Contextual Influences of Physical Activity During First-Year<br>University: The Feasibility of Using Ecological Momentary Assessment in the MovingU Study. JMIR<br>Public Health and Surveillance, 2017, 3, e32. | 1.2 | 11        |
| 26 | Validity of the Ages and Stages Questionnaire to detect risk of Developmental Coordination Disorder in preschoolers. Child: Care, Health and Development, 2016, 42, 188-194.   | 0.8 | 25        |
| 27 | MovingU: A prospective cohort study to understand behavioural and environmental contexts<br>influencing physical activity during the transition into emerging adulthood. BMC Public Health, 2016,<br>16, 728.                                    | 1.2 | 2         |
| 28 | Longitudinal examination of objectively-measured physical activity and sedentary time among children with and without significant movement impairments. Human Movement Science, 2016, 47, 159-165.   | 0.6 | 22        |
| 29 | Tracking of physical activity and fitness during the early years. Applied Physiology, Nutrition and Metabolism, 2016, 41, 504-510.   | 0.9 | 21        |
| 30 | Developmental Coordination Disorder. Autism and Child Psychopathology Series, 2016, , 303-322.   | 0.1 | 3         |
| 31 | The Coordination and Activity Tracking in CHildren (CATCH) study: rationale and design. BMC Public<br>Health, 2015, 15, 1266.  | 1.2 | 23        |
| 32 | Reprint of "Co-occurring motor, language and emotional–behavioral problems in children 3–6years<br>of age― Human Movement Science, 2015, 42, 344-351.  | 0.6 | 15        |
| 33 | Co-occurring motor, language and emotional–behavioral problems in children 3–6years of age.<br>Human Movement Science, 2015, 39, 101-108.  | 0.6 | 28        |
