#	ARTICLE	IF	CITATIONS
1	Change in health, wellbeing and physical activity levels during the COVID-19 pandemic: a longitudinal cohort of <i>parkrun</i> participants in the United Kingdom. <i>Health Promotion International</i> , 2023, 38, .	0.9	5
2	Integrating physical activity into the treatment of depression in adults: A qualitative enquiry. <i>Health and Social Care in the Community</i> , 2022, 30, 1006-1017.	0.7	5
3	Exploring inequalities in health with young people through online focus groups: navigating the methodological and ethical challenges. <i>Qualitative Research Journal</i> , 2022, 22, 197-208.	0.4	4
4	Evaluation of the uptake, retention and effectiveness of exercise referral schemes for the management of mental health conditions in primary care: a systematic review. <i>BMC Public Health</i> , 2022, 22, 249.	1.2	2
5	â€œIt All Kind of Links Reallyâ€™: Young Peopleâ€™s Perspectives on the Relationship between Socioeconomic Circumstances and Health. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 3679.	1.2	9
6	Evidence to support delivery of effective health services: a responsive programme of rapid evidence synthesis. <i>Evidence and Policy</i> , 2021, 17, 173-187.	0.5	7
7	Should screening for risk of gambling-related harm be undertaken in health, care and support settings? A systematic review of the international evidence. <i>Addiction Science &amp; Clinical Practice</i> , 2021, 16, 35.	1.2	3
8	Understanding the Implementation of â€œSit Less at Workâ€•Interventions in Three Organisations: A Mixed Methods Process Evaluation. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7361.	1.2	7
9	Using Co-Production to Develop â€œSit Less at Workâ€•Interventions in a Range of Organisations. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7751.	1.2	3
10	Synthesis for health services and policy: case studies in the scoping of reviews. <i>Health Services and Delivery Research</i> , 2021, 9, 1-84.	1.4	1
11	Socioeconomic inequalities in distance to and participation in a community-based running and walking activity: A longitudinal ecological study of parkrun 2010 to 2019. <i>Health and Place</i> , 2021, 71, 102626.	1.5	6
12	Exploring the benefits of participation in community-based running and walking events: a cross-sectional survey of parkrun participants. <i>BMC Public Health</i> , 2021, 21, 1978.	1.2	18
13	Developing a theory-driven framework for a football intervention for men with severe, moderate or enduring mental health problems: a participatory realist synthesis. <i>Journal of Mental Health</i> , 2020, 29, 277-288.	1.0	9
14	Does ethnic density influence community participation in mass participation physical activity events? The case of parkrun in England. <i>Wellcome Open Research</i> , 2020, 5, 9.	0.9	13
15	Does ethnic density influence community participation in mass participation physical activity events? The case of parkrun in England. <i>Wellcome Open Research</i> , 2020, 5, 9.	0.9	6
16	Sitting less at work: a qualitative study of barriers and enablers in organisations of different size and sector. <i>BMC Public Health</i> , 2019, 19, 884.	1.2	15
17	Towards greater understanding of implementation during systematic reviews of complex healthcare interventions: the framework for implementation transferability applicability reporting (FITAR). <i>BMC Medical Research Methodology</i> , 2019, 19, 80.	1.4	2
18	A scoping study of interventions to increase the uptake of physical activity (PA) amongst individuals with mild-to-moderate depression (MMD). <i>BMC Public Health</i> , 2018, 18, 392.	1.2	15

#	ARTICLE	IF	CITATIONS
19	Tackling obesity in mental health secure units: a mixed method synthesis of available evidence. <i>BJPsych Open</i> , 2018, 4, 294-301.	0.3	17
20	The development, implementation and evaluation of interventions to reduce workplace sitting: a qualitative systematic review and evidence-based operational framework. <i>BMC Public Health</i> , 2018, 18, 833.	1.2	17
21	What evidence is there for the identification and management of frail older people in the emergency department? A systematic mapping review. <i>Health Services and Delivery Research</i> , 2018, 6, 1-142.	1.4	31
22	Understanding new models of integrated care in developed countries: a systematic review. <i>Health Services and Delivery Research</i> , 2018, 6, 1-132.	1.4	35
23	Incorporation of a health economic modelling tool into public health commissioning: Evidence use in a politicised context. <i>Social Science and Medicine</i> , 2017, 186, 122-129.	1.8	7
24	Expectations and patients' experiences of obesity prior to bariatric surgery: a qualitative study. <i>BMJ Open</i> , 2016, 6, e009389.	0.8	75
25	Acceptability and feasibility of a low-cost, theory-based and co-produced intervention to reduce workplace sitting time in desk-based university employees. <i>BMC Public Health</i> , 2015, 15, 1294.	1.2	50
26	What evidence is there on the effectiveness of different models of delivering urgent care? A rapid review. <i>Health Services and Delivery Research</i> , 2015, 3, 1-134.	1.4	43
27	Bayesian hierarchical modelling of noisy spatial rates on a modestly large and discontinuous irregular lattice. <i>Statistical Methods in Medical Research</i> , 2014, 23, 552-571.	0.7	3
28	Referral interventions from primary to specialist care: a systematic review of international evidence. <i>British Journal of General Practice</i> , 2014, 64, e765-e774.	0.7	33
29	Using logic model methods in systematic review synthesis: describing complex pathways in referral management interventions. <i>BMC Medical Research Methodology</i> , 2014, 14, 62.	1.4	72
30	Assessing the health benefits of advice services: using research evidence and logic model methods to explore complex pathways. <i>Health and Social Care in the Community</i> , 2013, 21, 59-68.	0.7	34
31	Exploring the relationship between baseline physical activity levels and mortality reduction associated with increases in physical activity: a modelling study. <i>BMJ Open</i> , 2013, 3, e003509.	0.8	19
32	Inequalities in breast cancer stage at diagnosis in the Trent region, and implications for the NHS Breast Screening Programme. <i>Journal of Public Health</i> , 2009, 31, 398-405.	1.0	25
33	CKD and Poverty: A Growing Global Challenge. <i>American Journal of Kidney Diseases</i> , 2009, 53, 166-174.	2.1	126
34	Should we stop patients with non-insulin treated diabetes using self monitoring of blood glucose?. <i>Primary Care Diabetes</i> , 2008, 2, 91-93.	0.9	4
35	Screening for and prevention of type 2 diabetes. <i>BMJ: British Medical Journal</i> , 2008, 336, 1140-1141.	2.4	13
36	Evaluating the impact of a national pilot screening programme for type 2 diabetes in deprived areas of England. <i>Family Practice</i> , 2008, 25, 370-375.	0.8	34

#	ARTICLE	IF	CITATIONS
37	A pilot survey of socio-economic differences in child-feeding behaviours among parents of primary-school children. <i>Public Health Nutrition</i> , 2008, 11, 1030-1036.	1.1	26
38	How do parents' child-feeding behaviours influence child weight? Implications for childhood obesity policy. <i>Journal of Public Health</i> , 2007, 29, 132-141.	1.0	301
39	Community-based lifestyle interventions: changing behaviour and improving health. <i>Journal of Public Health</i> , 2007, 29, 236-245.	1.0	33
40	Impact of self monitoring of blood glucose in the management of patients with non-insulin treated diabetes: open parallel group randomised trial. <i>BMJ: British Medical Journal</i> , 2007, 335, 132.	2.4	354
41	Physical activity and health: evidence from a study of deprived communities in England. <i>Journal of Public Health</i> , 2007, 29, 27-34.	1.0	9
42	A review and critique of modelling in prioritising and designing screening programmes. <i>Health Technology Assessment</i> , 2007, 11, iii-iv, ix-xi, 1-145.	1.3	83
43	Preventing type 2 diabetes: evidence-based guidelines and systematic audit are needed. <i>Practical Diabetes International: the International Journal for Diabetes Care Teams Worldwide</i> , 2006, 23, 151-151.	0.2	0
44	Diabetes prevalence in England, 2001-estimates from an epidemiological model. <i>Diabetic Medicine</i> , 2006, 23, 189-197.	1.2	120
45	The incidence of visual impairment due to diabetic retinopathy in Leeds. <i>Eye</i> , 2006, 20, 455-459.	1.1	20
46	Patient and professional perspectives on prescribed therapeutic footwear for people with diabetes: A vignette study. <i>Patient Education and Counseling</i> , 2006, 64, 167-172.	1.0	30
47	Meeting the educational needs of people at risk of diabetes-related amputation: a vignette study with patients and professionals. <i>Health Expectations</i> , 2005, 8, 324-333.	1.1	26
48	The DiGEM trial protocol – a randomised controlled trial to determine the effect on glycaemic control of different strategies of blood glucose self-monitoring in people with type 2 diabetes [ISRCTN47464659]. <i>BMC Family Practice</i> , 2005, 6, 25.	2.9	34
49	Reducing inequalities in access to health care: developing a toolkit through action research. <i>Quality and Safety in Health Care</i> , 2005, 14, 336-339.	2.5	5
50	Active life expectancy in people with and without diabetes. <i>Journal of Public Health</i> , 2003, 25, 42-46.	1.0	44
51	Yes: This dichotomy can be misleading. <i>Western Journal of Medicine</i> , 2001, 174, 372-372.	0.3	0
52	Screening for Type 2 diabetes mellitus: a decision analytic approach. <i>Diabetic Medicine</i> , 2000, 17, 469-477.	1.2	19
53	Inequalities in access to diabetes care: evidence from a historical cohort study. <i>Quality in Health Care: QHC</i> , 2000, 9, 85-89.	1.2	25
54	Telling people about screening programmes and screening test results: how can we do it better?. <i>Journal of Medical Screening</i> , 2000, 7, 123-126.	1.1	33

#	ARTICLE	IF	CITATIONS
55	Do diabetes clinic attendees stay out of hospital? A matched case-control study. Diabetic Medicine, 1999, 16, 687-691.	1.2	18
56	Can the Distance Fallen Predict Serious Injury after a Fall from a Height?. Arteriosclerosis, Thrombosis, and Vascular Biology, 1999, 46, 1055-1058.	1.1	40
57	Screening for diabetes: what are we really doing?. BMJ: British Medical Journal, 1998, 317, 1644-1646.	2.4	24
58	Shifting of care for diabetes from secondary to primary care, 1990-5: review of general practices. BMJ: British Medical Journal, 1998, 316, 1505-1506.	2.4	70
59	How do individuals with diabetes use the accident and emergency department?. Emergency Medicine Journal, 1997, 14, 371-374.	0.4	8
60	The pregnant smoker: a preliminary investigation of the social and psychological influences. Journal of Public Health, 1997, 19, 187-192.	1.0	42
61	Trauma triage: a comparison of CRAMS and TRTS in a UK population. Injury, 1997, 28, 97-101.	0.7	16
62	Why don't all general practices offer structured diabetes care? a comparison of practices that do not with those that do. Public Health, 1996, 110, 357-360.	1.4	8
63	Insulin treated diabetes mellitus: causes of death determined from record linkage of population based registers in Leicestershire, UK.. Journal of Epidemiology and Community Health, 1995, 49, 570-574.	2.0	24
64	A comparison of the World Health Organisation's HEAT model results using a non-linear physical activity dose response function with results from the existing tool. Wellcome Open Research, 0, 7, 7.	0.9	0
65	A comparison of the World Health Organisation's HEAT model results using a non-linear physical activity dose response function with results from the existing tool. Wellcome Open Research, 0, 7, 7.	0.9	0
