#	Paper	IF	Citations
49	Rethinking Social Relationships in Adulthood: The Differential Investment of Resources Model.. <i>Personality and Social Psychology Review</i> , 2022 , 10888683211067035	13.4	4
48	Older and more mindful? Age differences in mindfulness components and well-being. <i>Aging and Mental Health</i> , 2021 , 25, 1320-1331	3.5	13
47	Feasibility, Acceptability, and Preliminary Efficacy of an App-Based Mindfulness-Meditation Program Among Older Adults. <i>Gerontologist, The</i> , 2021 , 61, 775-786	5	3
46	Conscientiousness, Activity Engagement, and Momentary Affect in Oldest-Old Adulthood. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2021 , 76, 1049-1059	4.6	1
45	"Calm Down," "Cheer Up": How Age Influences the Way We Manage Emotion in Social Partners. <i>Research on Aging</i> , 2021 , 43, 74-84	3	1
44	Awareness of age-related change, future time perspective, and implications for goal adjustment in older adulthood. <i>Aging and Mental Health</i> , 2021 , 1-9	3.5	5
43	State mindfulness and affective well-being in the daily lives of middle-aged and older adults. <i>Psychology and Aging</i> , 2021 , 36, 642-659	3.6	5
42	The Increasing Importance of Friendship in Late Life: Understanding the Role of Sociohistorical Context in Social Development. <i>Gerontology</i> , 2020 , 66, 286-294	5.5	12
41	Social Resources as Compensatory Cognitive Reserve? Interactions of Social Resources With Education in Predicting Late-Life Cognition. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020 , 75, 1451-1461	4.6	3
40	Perceived ease of activity (but not strategy use) mediates the relationship between self-efficacy and activity engagement in midlife and older adults. <i>Aging and Mental Health</i> , 2019 , 23, 1367-1376	3.5	3
39	Perceived Control and Social Activity in Midlife and Older Age: A Reciprocal Association? Findings From the German Ageing Survey. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2018 , 73, 807-815	4.6	7
38	There's More than Meets the Eye: Complex Associations of Daily Pain, Physical Symptoms, and Self-Efficacy with Activity in Middle and Older Adulthood. <i>Gerontology</i> , 2017 , 63, 157-168	5.5	7
37	Is Occupational Complexity Associated with Cognitive Performance or Decline? Results from the Australian Longitudinal Study of Ageing. <i>Gerontology</i> , 2017 , 63, 550-559	5.5	21
36	Perceived Control Moderates the Effects of Functional Limitation on Older Adults' Social Activity: Findings From the Australian Longitudinal Study of Ageing. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2017 , 72, 571-581	4.6	5
35	Self-Forgiveness in Older Adulthood 2017 , 327-340		
34	Cohort Profile: The Australian Longitudinal Study of Ageing (ALSA). <i>International Journal of Epidemiology</i> , 2016 , 45, 1054-1063	7.8	26
33	Structural and functional social network attributes moderate the association of self-rated health with mental health in midlife and older adults. <i>International Psychogeriatrics</i> , 2016 , 28, 49-61	3.4	26

32	Social resource correlates of levels and time-to-death-related changes in late-life affect. <i>Psychology and Aging</i> , 2015 , 30, 136-48	3.6	12
31	The relationship between Big-5 personality traits and cognitive ability in older adults - a review. <i>Aging, Neuropsychology, and Cognition</i> , 2015 , 22, 42-71	2.1	93
30	Adapting to Retirement Community Life: Changes in Social Networks and Perceived Loneliness. <i>Journal of Relationships Research</i> , 2015 , 6,	1.1	8
29	Sense of purpose as a psychological resource for aging well. <i>Developmental Psychology</i> , 2015 , 51, 975-86	3.7	80
28	Positive and negative social exchanges and cognitive aging in young-old adults: differential associations across family, friend, and spouse domains. <i>Psychology and Aging</i> , 2014 , 29, 28-43	3.6	30
27	Normative data and longitudinal invariance of the Life Engagement Test (LET) in a community sample of older adults. <i>Quality of Life Research</i> , 2013 , 22, 327-31	3.7	5
26	What are older adults seeking? Factors encouraging or discouraging retirement village living. <i>Australasian Journal on Ageing</i> , 2013 , 32, 163-70	1.5	40
25	Can positive social exchanges buffer the detrimental effects of negative social exchanges? Age and gender differences. <i>Gerontology</i> , 2013 , 59, 40-52	5.5	16
24	Longitudinal change in spousal similarities in mental health: between-couple and within-couple perspectives. <i>Psychology and Aging</i> , 2013 , 28, 540-54	3.6	20
23	Age, physical functioning, and affect in midlife and older adulthood. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2013 , 68, 395-9	4.6	17
22	The dynamic interplay of social network characteristics, subjective well-being, and health: the costs and benefits of socio-emotional selectivity. <i>Psychology and Aging</i> , 2013 , 28, 3-16	3.6	108
21	Considering relocation to a retirement village: predictors from a community sample. <i>Australasian Journal on Ageing</i> , 2013 , 32, 97-102	1.5	14
20	Age group differences and longitudinal changes in approach-avoidance sensitivity: Findings from an 8-year longitudinal study. <i>Journal of Research in Personality</i> , 2012 , 46, 646-654	2.8	5
19	Activity engagement is related to level, but not change in cognitive ability across adulthood. <i>Psychology and Aging</i> , 2012 , 27, 219-28	3.6	62
18	Personal and neighborhood resources, future time perspective, and social relations in middle and older adulthood. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2012 , 67, 423-31	4.6	16
17	Cohort profile: the PATH through life project. <i>International Journal of Epidemiology</i> , 2012 , 41, 951-60	7.8	163
16	Volunteering and subjective well-being in midlife and older adults: the role of supportive social networks. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2012 , 67, 249-60	4.6	82
15	Are ecstasy users biased toward endorsing somatic mental health symptoms? Results from a general community sample. <i>Psychopharmacology</i> , 2011 , 214, 901-9	4.7	2

14	Disability and depressive symptoms in later life: the stress-buffering role of informal and formal support. <i>Gerontology</i> , 2011 , 57, 180-9	5.5	25
13	Factors that explain the poorer mental health of caregivers: Results from a community survey of older Australians. <i>Australian and New Zealand Journal of Psychiatry</i> , 2010 , 44, 616-24	2.6	40
12	Supportive, aversive, ambivalent, and indifferent partner evaluations in midlife and young-old adulthood. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2010 , 65B, 287-95	4.6	13
11	Age differences in psychosocial predictors of positive and negative affect: a longitudinal investigation of young, midlife, and older adults. <i>Psychology and Aging</i> , 2010 , 25, 641-52	3.6	40
10	Persistence in goal striving and positive reappraisal as psychosocial resources for ageing well: a dyadic analysis. <i>Aging and Mental Health</i> , 2009 , 13, 874-84	3.5	17
9	Individual well-being in middle and older adulthood: do spousal beliefs matter?. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2009 , 64, 586-96	4.6	15
8	Financial hardship, socio-economic position and depression: results from the PATH Through Life Survey. <i>Social Science and Medicine</i> , 2009 , 69, 229-37	5.1	164
7	Older drivers in Australia: trends in driving status and cognitive and visual impairment. <i>Journal of the American Geriatrics Society</i> , 2009 , 57, 1868-73	5.6	47
6	Cardiovascular risk factors and life events as antecedents of depressive symptoms in middle and early-old age: PATH Through Life Study. <i>Psychosomatic Medicine</i> , 2009 , 71, 937-43	3.7	10
5	Behavioral approach and behavioral inhibition as moderators of the association between negative life events and perceived control in midlife. <i>Personality and Individual Differences</i> , 2008 , 44, 1080-1092	3.3	14
4	Hippocampal volume is positively associated with behavioural inhibition (BIS) in a large community-based sample of mid-life adults: the PATH through life study. <i>Social Cognitive and Affective Neuroscience</i> , 2008 , 3, 262-9	4	50
3	A longitudinal investigation of perceived control and cognitive performance in young, midlife and older adults. <i>Aging, Neuropsychology, and Cognition</i> , 2008 , 15, 744-63	2.1	32
2	The value of comparing health outcomes in cohort studies: An example of self-rated health in seven studies including 79653 participants. <i>Australasian Journal on Ageing</i> , 2007 , 26, 194-200	1.5	4
1	Revised manuscript: Factor structure and measurement invariance of the older people's quality of life scale. <i>Current Psychology</i> , 1	1.4
