#	ARTICLE	IF	CITATIONS
1	Recruiting Military Veterans into Alcohol Misuse Research: The Role of Social Media and Facebook Advertising. <i>Telemedicine Journal and E-Health</i> , 2023, 29, 93-101.	1.6	8
2	Trajectories of alcohol misuse among the UK Armed Forces over a 12-year period. <i>Addiction</i> , 2022, 117, 57-67.	1.7	4
3	Prevalence of at-risk drinking recognition: A systematic review and meta-analysis. <i>Drug and Alcohol Dependence</i> , 2022, 235, 109449.	1.6	5
4	Evaluating the Efficacy of the Drinks:Ration Mobile App to Reduce Alcohol Consumption in a Help-Seeking Military Veteran Population: Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2022, 10, e38991.	1.8	17
5	Smartphone-Based Alcohol Interventions: A Systematic Review on the Role of Notifications in Changing Behaviors toward Alcohol. <i>Substance Abuse</i> , 2022, 43, 1231-1244.	1.1	9
6	Military and demographic predictors of mental ill-health and socioeconomic hardship among UK veterans. <i>BMC Psychiatry</i> , 2021, 21, 304.	1.1	5
7	Contribution of mental ill health during military service to postservice benefit claims in the UK. <i>Occupational and Environmental Medicine</i> , 2021, 78, 643-647.	1.3	0
8	Long-Term Correlates of Mild Traumatic Brain Injury on Postconcussion Symptoms After Deployment to Iraq and Afghanistan in the UK Military. <i>Journal of Head Trauma Rehabilitation</i> , 2020, 35, 46-56.	1.0	8
9	Pre-service Military-related and Mental Disorder Factors Associated with Leaving the UK Armed Forces. <i>Psychiatry (New York)</i> , 2020, 83, 262-277.	0.3	1
10	Evaluating the Efficacy of a Mobile App (Drinks:Ration) and Personalized Text and Push Messaging to Reduce Alcohol Consumption in a Veteran Population: Protocol for a Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2020, 9, e19720.	0.5	13
11	Cost of post-deployment screening for mental illness in the UK military: findings from a cluster randomised controlled trial. <i>Journal of Mental Health</i> , 2019, , 1-8.	1.0	1
12	Author's reply. <i>British Journal of Psychiatry</i> , 2019, 214, 237-238.	1.7	0
13	Unemployment and benefit claims by UK veterans in the new millennium: results from a record linkage study. <i>Occupational and Environmental Medicine</i> , 2019, 76, 726-732.	1.3	7
14	Do serving and ex-serving personnel of the UK armed forces seek help for perceived stress, emotional or mental health problems?. <i>HÅrgre Utbildning</i> , 2019, 10, 1556552.	1.4	58
15	Fourteen-year trajectories of posttraumatic stress disorder (PTSD) symptoms in UK military personnel, and associated risk factors. <i>Journal of Psychiatric Research</i> , 2019, 109, 156-163.	1.5	21
16	A Qualitative Evaluation of the Acceptability of a Tailored Smartphone Alcohol Intervention for a Military Population: Information About Drinking for Ex-Serving Personnel (InDEx) App. <i>JMIR MHealth and UHealth</i> , 2019, 7, e12267.	1.8	29
17	High prevalence of somatic symptoms in a semi-rural Chilean population and its association with depression and anxiety. <i>International Journal of Culture and Mental Health</i> , 2018, 11, 564-573.	0.6	1
18	Mental health outcomes at the end of the British involvement in the Iraq and Afghanistan conflicts: a cohort study. <i>British Journal of Psychiatry</i> , 2018, 213, 690-697.	1.7	169

#	ARTICLE	IF	CITATIONS
19	A Smartphone App and Personalized Text Messaging Framework (InDEx) to Monitor and Reduce Alcohol Use in Ex-Serving Personnel: Development and Feasibility Study. JMIR MHealth and UHealth, 2018, 6, e10074.	1.8	47
20	InDEx: Open Source iOS and Android Software for Self-Reporting and Monitoring of Alcohol Consumption. Journal of Open Research Software, 2018, 6, 13.	2.7	15
21	Post-deployment screening for mental disorders and tailored advice about help-seeking in the UK military: a cluster randomised controlled trial. Lancet, The, 2017, 389, 1410-1423.	6.3	53
22	Post-deployment screening for mental disorders and help-seeking in the UK military – Authors’ reply. Lancet, The, 2017, 390, 554.	6.3	1
23	Does the association between birth weight and blood pressure increase with age? A longitudinal study in young adults. Journal of Hypertension, 2016, 34, 1062-1067.	0.3	4
24	Use of a two-phase process to identify possible cases of mental ill health in the UK military. International Journal of Methods in Psychiatric Research, 2016, 25, 168-177.	1.1	8
25	Changes in symptoms of asthma and rhinitis by sensitization status over ten years in a cohort of young Chilean adults. BMC Pulmonary Medicine, 2016, 16, 116.	0.8	7
26	Prevalence of PTSD and other mental disorders in UK service personnel by time since end of deployment: a meta-analysis. BMC Psychiatry, 2016, 16, 333.	1.1	14
27	Ventilatory Function in Young Adults and Dietary Antioxidant Intake. Nutrients, 2015, 7, 2879-2896.	1.7	28
28	Aggressive and Violent Behavior Among Military Personnel Deployed to Iraq and Afghanistan: Prevalence and Link With Deployment and Combat Exposure. Epidemiologic Reviews, 2015, 37, 196-212.	1.3	103
29	Stigma as a Barrier to Seeking Health Care Among Military Personnel With Mental Health Problems. Epidemiologic Reviews, 2015, 37, 144-162.	1.3	258
30	Anger in the UK Armed Forces. Journal of Nervous and Mental Disease, 2015, 203, 15-22.	0.5	18
31	Medical and Welfare Officers beliefs about post-deployment screening for mental health disorders in the UK Armed Forces: a qualitative study. BMC Public Health, 2015, 15, 338.	1.2	2
32	Alcohol misuse in the United Kingdom Armed Forces: A longitudinal study. Drug and Alcohol Dependence, 2015, 156, 78-83.	1.6	32
33	The mental health of the UK Armed Forces: where facts meet fiction. HÅrgre Utbildning, 2014, 5, .	1.4	46
34	Mild traumatic brain injury (mTBI) among UK military personnel whilst deployed in Afghanistan in 2011. Brain Injury, 2014, 28, 896-899.	0.6	15
35	Factors Affecting Help Seeking for Mental Health Problems After Deployment to Iraq and Afghanistan. Psychiatric Services, 2014, 65, 98-105.	1.1	59
36	Mental health consequences of overstretch in the UK Armed Forces, 2007–09: a population-based cohort study. Lancet Psychiatry, the, 2014, 1, 531-538.	3.7	18

#	ARTICLE	IF	CITATIONS
37	Ventilatory function and cardiovascular disease risk factors: a cross-sectional study in young adults. <i>BMC Pulmonary Medicine</i> , 2014, 14, 206.	0.8	4
38	Cohort Profile: The Limache, Chile, birth cohort study. <i>International Journal of Epidemiology</i> , 2014, 43, 1031-1039.	0.9	14
39	Posttraumatic Stress Disorder Post Iraq and Afghanistan: Prevalence among Military Subgroups. <i>Canadian Journal of Psychiatry</i> , 2014, 59, 468-479.	0.9	109
40	Irritable bowel syndrome in the UK military after deployment to Iraq: what are the risk factors?. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2013, 48, 1755-1765.	1.6	12
41	Risk Factors for Headache in the <sc>UK</sc> Military: Cross-Sectional and Longitudinal Analyses. <i>Headache</i> , 2013, 53, 787-798.	1.8	3
42	Violent offending by UK military personnel deployed to Iraq and Afghanistan: a data linkage cohort study. <i>Lancet, The</i> , 2013, 381, 907-917.	6.3	167
43	Violent offending by UK veterans – Authors' reply. <i>Lancet, The</i> , 2013, 381, 2252.	6.3	3
44	PTSD in the armed forces: What have we learned from the recent cohort studies of Iraq/Afghanistan?. <i>Journal of Mental Health</i> , 2013, 22, 397-401.	1.0	7
45	Frequency of Mild Traumatic Brain Injury in Iraq and Afghanistan. <i>Journal of Head Trauma Rehabilitation</i> , 2012, 27, 75-82.	1.0	11
46	Mild Traumatic Brain Injury in UK Military Personnel Returning From Afghanistan and Iraq. <i>Journal of Head Trauma Rehabilitation</i> , 2012, 27, 33-44.	1.0	84
47	Maternal smoking during pregnancy and primary headache in school-aged children: a cohort study. <i>Cephalgia</i> , 2012, 32, 317-327.	1.8	8
48	Contrasting Beliefs About Screening for Mental Disorders Among Uk Military Personnel Returning from Deployment to Afghanistan. <i>Journal of Medical Screening</i> , 2012, 19, 206-211.	1.1	7
49	Prevalence of Delayed-Onset Posttraumatic Stress Disorder in Military Personnel. <i>Journal of Nervous and Mental Disease</i> , 2012, 200, 429-437.	0.5	40
50	Long-term consequences of mild traumatic brain injury. <i>British Journal of Psychiatry</i> , 2012, 201, 172-174.	1.7	8
51	Application of scientific criteria to food allergens of public health importance. <i>Regulatory Toxicology and Pharmacology</i> , 2012, 64, 315-323.	1.3	5
52	Birth weight, current body mass index, and insulin sensitivity and secretion in young adults in two Latin American populations. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2012, 22, 533-539.	1.1	11
53	Predicting persistent posttraumatic stress disorder (PTSD) in UK military personnel who served in Iraq: A longitudinal study. <i>Journal of Psychiatric Research</i> , 2012, 46, 1191-1198.	1.5	36
54	Is waist circumference a better predictor of blood pressure, insulin resistance and blood lipids than body mass index in young Chilean adults?. <i>BMC Public Health</i> , 2012, 12, 638.	1.2	24

#	ARTICLE	IF	CITATIONS
55	Agreement between body mass index, waist circumference and skin-fold thickness in the United Kingdom Army. <i>Annals of Human Biology</i> , 2011, 38, 257-264.	0.4	22
56	Obesity in the United Kingdom Armed Forces: Prevalence Based on Measured and Self-Reported Data. <i>Military Medicine</i> , 2011, 176, 44-49.	0.4	24
57	Obesity in the UK Armed Forces: Risk Factors. <i>Military Medicine</i> , 2011, 176, 507-512.	0.4	13
58	Evaluation of scientific criteria for identifying allergenic foods of public health importance. <i>Regulatory Toxicology and Pharmacology</i> , 2011, 60, 281-289.	1.3	13
59	The impact of perinatal and socioeconomic factors on mental health problems of children from a poor Brazilian city: a longitudinal study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2011, 46, 381-391.	1.6	33
60	Health of national service veterans: an analysis of a community-based sample using data from the 2007 Adult Psychiatric Morbidity Survey of England. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2011, 46, 559-566.	1.6	15
61	The stigma of mental health problems and other barriers to care in the UK Armed Forces. <i>BMC Health Services Research</i> , 2011, 11, 31.	0.9	156
62	Mental health and health service use among post-national service veterans: results from the 2007 Adult Psychiatric Morbidity Survey of England. <i>Psychological Medicine</i> , 2011, 41, 363-372.	2.7	54
63	Help-seeking and receipt of treatment among UK service personnel. <i>British Journal of Psychiatry</i> , 2010, 197, 149-155.	1.7	98
64	Rewarding and unrewarding aspects of deployment to Iraq and its association with psychological health in UK military personnel. <i>International Archives of Occupational and Environmental Health</i> , 2010, 83, 653-663.	1.1	9
65	Upward trends in symptom reporting in the UK Armed Forces. <i>European Journal of Epidemiology</i> , 2010, 25, 87-94.	2.5	6
66	Size at birth and lipoprotein concentrations in adulthood: two prospective studies in Latin American cities. <i>Journal of Epidemiology and Community Health</i> , 2010, 64, 855-859.	2.0	14
67	PTSD after deployment to Iraq: conflicting rates, conflicting claims. <i>Psychological Medicine</i> , 2010, 40, 367-382.	2.7	169
68	Alcohol misuse and functional impairment in the UK Armed Forces: A population-based study. <i>Drug and Alcohol Dependence</i> , 2010, 108, 37-42.	1.6	35
69	Smoking among males in the UK Armed Forces: Changes over a seven year period. <i>Preventive Medicine</i> , 2010, 50, 282-284.	1.6	23
70	What are the consequences of deployment to Iraq and Afghanistan on the mental health of the UK armed forces? A cohort study. <i>Lancet</i> , The, 2010, 375, 1783-1797.	6.3	489
71	Job Strain, Rank, and Mental Health in the UK Armed Forces. <i>International Journal of Occupational and Environmental Health</i> , 2009, 15, 291-298.	1.2	21
72	Is Previous Psychological Health Associated With the Likelihood of Iraq War Deployment? An Investigation of the "Healthy Warrior Effect". <i>American Journal of Epidemiology</i> , 2009, 169, 1362-1369.	1.6	71

#	ARTICLE	IF	CITATIONS
73	The impact of posttraumatic stress disorder on impairment in the UK military at the time of the Iraq war. <i>Journal of Psychiatric Research</i> , 2009, 43, 649-655.	1.5	91
