#	ARTICLE	IF	CITATIONS
1	Overuse of diagnostic testing in healthcare: a systematic review. <i>BMJ Quality and Safety</i> , 2022, 31, 54-63.	1.8	33
2	Increased adherence to perioperative safety guidelines associated with improved patient safety outcomes: a stepped-wedge, cluster-randomised multicentre trial. <i>British Journal of Anaesthesia</i> , 2022, 128, 562-573.	1.5	6
3	Low-value pharmaceutical care among Dutch general practitioners: a retrospective cohort study. <i>British Journal of General Practice</i> , 2022, , BJGP.2021.0625.	0.7	2
4	Advance care planning in primary care: a retrospective medical record study among patients with different illness trajectories. <i>BMC Palliative Care</i> , 2022, 21, 21.	0.8	7
5	Guideline adherence of physiotherapists in the treatment of patients with low back pain: A qualitative study. <i>Journal of Evaluation in Clinical Practice</i> , 2022, 28, 1147-1156.	0.9	7
6	Effects of access to radiology in out-of-hours primary care on patient satisfaction and length of stay. <i>European Journal of General Practice</i> , 2021, 27, 221-227.	0.9	4
7	Uniform criteria for total hip replacement surgery in patients with hip osteoarthritis: a decision tool to guide treatment decisions. <i>International Journal for Quality in Health Care</i> , 2021, 33, .	0.9	1
8	Dutch shared savings program targeted at primary care: Reduced expenditures in its first year. <i>Health Policy</i> , 2021, 125, 489-494.	1.4	6
9	Key Factors that Promote Low-Value Care: Views of Experts From the United States, Canada, and the Netherlands. <i>International Journal of Health Policy and Management</i> , 2021, , .	0.5	9
10	Web-Based Educational Intervention for Patients With Uninvestigated Dyspepsia Referred for Upper Gastrointestinal Tract Endoscopy. <i>JAMA Internal Medicine</i> , 2021, 181, 825.	2.6	15
11	The Effect of Noninvasive Telemonitoring for Chronic Heart Failure on Health Care Utilization: Systematic Review. <i>Journal of Medical Internet Research</i> , 2021, 23, e26744.	2.1	14
12	Budget Impact of Restrictive Strategy Versus Usual Care for Cholecystectomy (SECURE-Trial). <i>Journal of Surgical Research</i> , 2021, 268, 59-70.	0.8	0
13	Euthanasia in the Netherlands: a claims data cross-sectional study of geographical variation. <i>BMJ Supportive and Palliative Care</i> , 2021, , bmjspcare-2020-002573.	0.8	16
14	Complexity and involvement as implementation challenges: results from a process analysis. <i>BMC Health Services Research</i> , 2021, 21, 1149.	0.9	1
15	Hospitals Bending the Cost Curve With Increased Quality: A Scoping Review Into Integrated Hospital Strategies. <i>International Journal of Health Policy and Management</i> , 2021, , .	0.5	9
16	Measuring Patient-Reported Shared Decision-Making to Promote Performance Transparency and Value-Based Payment: Assessment of collaboRATE™s Group-Level Reliability. <i>Journal of Patient Experience</i> , 2020, 7, 742-748.	0.4	5
17	Do collaboRATE Scores Reflect Differences in Perceived Shared Decision-Making Across Diverse Patient Populations? Evidence From a Large-Scale Patient Experience Survey in the United States. <i>Journal of Patient Experience</i> , 2020, 7, 778-787.	0.4	9
18	Need for post-operative outpatient appointments after discharge following cervical spinal surgery - a narrative review. <i>BMC Musculoskeletal Disorders</i> , 2020, 21, 614.	0.8	1

#	ARTICLE	IF	CITATIONS
19	Identifying and de-implementing low-value care in primary care: the GP's perspective—a cross-sectional survey. <i>BMJ Open</i> , 2020, 10, e037019.	0.8	22
20	Regional variation in hospital care at the end-of-life of Dutch patients with lung cancer exists and is not correlated with primary and long-term care. <i>International Journal for Quality in Health Care</i> , 2020, 32, 190-195.	0.9	2
21	Selecting interventions to improve patient-relevant outcomes in health care for aortic valve disease—the Intervention Selection Toolbox. <i>BMC Health Services Research</i> , 2020, 20, 232.	0.9	9
22	Reducing work pressure and IT problems and facilitating IT integration and audit & feedback help adherence to perioperative safety guidelines: a survey among 95 perioperative professionals. <i>Implementation Science Communications</i> , 2020, 1, 49.	0.8	1
23	Assessing volume and variation of low-value care practices in the Netherlands. <i>European Journal of Public Health</i> , 2020, 30, 236-240.	0.1	8
24	Understanding unwarranted variation in clinical practice: a focus on network effects, reflective medicine and learning health systems. <i>International Journal for Quality in Health Care</i> , 2020, 32, 271-274.	0.9	49
25	Preferences in end of life care substantially differ between the Netherlands and Japan. <i>Medicine (United States)</i> , 2020, 99, e22743.	0.4	9
26	Cost-Effectiveness of Restrictive Strategy Versus Usual Care for Cholecystectomy in Patients With Gallstones and Abdominal Pain (SECURE-Trial). <i>Annals of Surgery</i> , 2020, Publish Ahead of Print, .	2.1	1
27	Medicalization Defined in Empirical Contexts—A Scoping Review. <i>International Journal of Health Policy and Management</i> , 2020, 9, 327-334.	0.5	6
28	Effects of patient safety auditing in hospital care: results of a mixed-method evaluation (part 1). <i>International Journal for Quality in Health Care</i> , 2019, 31, 8-15.	0.9	14
29	Characteristics and health care utilization among patients with chronic heart failure: a longitudinal claim database analysis. <i>ESC Heart Failure</i> , 2019, 6, 1243-1251.	1.4	10
30	Care trajectories of chronically ill older adult patients discharged from hospital: a quantitative cross-sectional study using health insurance claims data. <i>BMC Geriatrics</i> , 2019, 19, 266.	1.1	3
31	The implementation of change model adds value to value-based healthcare: a qualitative study. <i>BMC Health Services Research</i> , 2019, 19, 643.	0.9	15
32	Does the Patient-Reported Apnea Questionnaire (PRAQ) increase patient-centredness in the daily practice of sleep centres? a mixed-methods study. <i>BMJ Open</i> , 2019, 9, e025963.	0.8	5
33	The Intensity of Hospital Care Utilization by Dutch Patients With Lung or Colorectal Cancer in their Final Months of Life. <i>Cancer Control</i> , 2019, 26, 107327481984657.	0.7	14
34	Goal setting is insufficiently recognised as an essential part of shared decision-making in the complex care of older patients: a framework analysis. <i>BMC Family Practice</i> , 2019, 20, 76.	2.9	23
35	Patient-reported outcome measures in subarachnoid hemorrhage. <i>Neurology</i> , 2019, 92, 1096-1112.	1.5	16
36	Value based competition in health care's ethical drawbacks and the need for a values-driven approach. <i>BMC Health Services Research</i> , 2019, 19, 256.	0.9	19

#	ARTICLE	IF	CITATIONS
37	Restrictive strategy versus usual care for cholecystectomy in patients with gallstones and abdominal pain (SECURE): a multicentre, randomised, parallel-arm, non-inferiority trial. <i>Lancet</i> , The, 2019, 393, 2322-2330.	6.3	49
38	What is the impact on the readmission ratio of taking into account readmissions to other hospitals? A cross-sectional study. <i>BMJ Open</i> , 2019, 9, e025740.	0.8	9
39	Public needs for information disclosure on healthcare performance. <i>Medicine (United States)</i> , 2019, 98, e17690.	0.4	2
40	Process evaluation of the effects of patient safety auditing in hospital care (part 2). <i>International Journal for Quality in Health Care</i> , 2019, 31, 433-441.	0.9	7
41	Re-admission patterns in England and the Netherlands: a comparison based on administrative data of all hospitals. <i>European Journal of Public Health</i> , 2019, 29, 202-207.	0.1	1
42	Evidence in Neurosurgery: Perspectives. , 2019, , 361-371.		0
43	Evidence in Neurosurgery. , 2019, , 1-4.		0
44	Assessment of goals and priorities in patients with a chronic condition: a secondary quantitative analysis of determinants across 11 countries. <i>Scandinavian Journal of Primary Health Care</i> , 2018, 36, 80-88.	0.6	5
45	Persistent abdominal pain after laparoscopic cholecystectomy is associated with increased healthcare consumption and sick leave. <i>Surgery</i> , 2018, 163, 661-666.	1.0	18
46	Exploring Dutch surgeons' views on volume-based policies: a qualitative interview study. <i>Journal of Health Services Research and Policy</i> , 2018, 23, 185-192.	0.8	5
47	A three-goal model for patients with multimorbidity: A qualitative approach. <i>Health Expectations</i> , 2018, 21, 528-538.	1.1	48
48	To what degree can variations in readmission rates be explained on the level of the hospital? a multilevel study using a large Dutch database.. <i>BMC Health Services Research</i> , 2018, 18, 999.	0.9	7
49	Health outcomes measurement and organizational readiness support quality improvement: a systematic review. <i>BMC Health Services Research</i> , 2018, 18, 1005.	0.9	51
50	Medical practice variation: public reporting a first necessary step to spark change. <i>International Journal for Quality in Health Care</i> , 2018, 30, 731-735.	0.9	39
51	Statistical analysis plan of a randomized controlled trial to compare a restrictive strategy to usual care for the effectiveness of cholecystectomy (SECURE trial). <i>Trials</i> , 2018, 19, 604.	0.7	8
52	Important factors for effective patient safety governance auditing: a questionnaire survey. <i>BMC Health Services Research</i> , 2018, 18, 798.	0.9	3
53	Systematic review of high-cost patients' characteristics and healthcare utilisation. <i>BMJ Open</i> , 2018, 8, e023113.	0.8	163
54	Limit, lean or listen? A typology of low-value care that gives direction in de-implementation. <i>International Journal for Quality in Health Care</i> , 2018, 30, 736-739.	0.9	63

#	ARTICLE	IF	CITATIONS
55	The COPDnet integrated care model. <i>International Journal of COPD</i> , 2018, Volume 13, 2225-2235.	0.9	18
56	Instrument completion and validation of the patient-reported apnea questionnaire (PRAQ). <i>Health and Quality of Life Outcomes</i> , 2018, 16, 158.	1.0	3
57	Evaluation of the COPDnet integrated care model in patients with COPD: the study protocol. <i>International Journal of COPD</i> , 2018, Volume 13, 2237-2244.	0.9	5
58	Low-value care in nursing: A systematic assessment of clinical practice guidelines. <i>International Journal of Nursing Studies</i> , 2018, 87, 34-39.	2.5	19
59	Importance and Presence of High-Quality Evidence for Clinical Decisions in Neurosurgery: International Survey of Neurosurgeons. <i>Interactive Journal of Medical Research</i> , 2018, 7, e16.	0.6	9
60	Using Patient Reported Outcomes Measures to Promote Integrated Care. <i>International Journal of Integrated Care</i> , 2018, 18, 8.	0.1	49
61	Consistency of patient-reported outcomes after cholecystectomy and their implications on current surgical practice: a prospective multicenter cohort study. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2017, 31, 215-224.	1.3	29
62	Patient-reported health outcomes after total hip and knee surgery in a Dutch University Hospital Setting: results of twenty years clinical registry. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 97.	0.8	55
63	The Development and Performance of After-Hours Primary Care in the Netherlands. <i>Annals of Internal Medicine</i> , 2017, 166, 737.	2.0	89
64	Choosing Wisely should bring the cost of unnecessary care back into the discussion. <i>BMJ Quality and Safety</i> , 2017, 26, 775-776.	1.8	5
65	Evaluation of minimum volume standards for surgery in the Netherlands (2003–2017): A successful policy?. <i>Health Policy</i> , 2017, 121, 1263-1273.	1.4	19
66	The Patient-Reported Apnea Questionnaire (PRAQ): A Prom Optimized For Use On Both Individual Patient And Aggregate Level. <i>Value in Health</i> , 2017, 20, A762-A763.	0.1	0
67	Getting back on track: a systematic review of the outcomes of remediation and rehabilitation programmes for healthcare professionals with performance concerns. <i>BMJ Quality and Safety</i> , 2017, 26, 1004-1014.	1.8	16
68	Barriers and facilitators to improve safety and efficiency of the ICU discharge process: a mixed methods study. <i>BMC Health Services Research</i> , 2017, 17, 251.	0.9	28
69	Cost-effectiveness of a new strategy to identify uncomplicated gallstone disease patients that will benefit from a cholecystectomy. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2017, 31, 2534-2540.	1.3	5
70	The role of physicians and their professional bodies in containing health care costs. <i>Family Practice</i> , 2017, 34, 637-638.	0.8	0
71	Characteristics and healthcare utilisation patterns of high-cost beneficiaries in the Netherlands: a cross-sectional claims database study. <i>BMJ Open</i> , 2017, 7, e017775.	0.8	22
72	How to identify potentially preventable readmissions by classifying them using a national administrative database. <i>International Journal for Quality in Health Care</i> , 2017, 29, 826-832.	0.9	6

#	ARTICLE	IF	CITATIONS
73	Prevention of and dealing with poor performance: an interview study about how professional associations aim to support healthcare professionals. <i>International Journal for Quality in Health Care</i> , 2017, 29, 838-844.	0.9	10
74	Collaborative goal setting with elderly patients with chronic disease or multimorbidity: a systematic review. <i>BMC Geriatrics</i> , 2017, 17, 167.	1.1	71
75	The development of a patient-reported outcome measure for patients with obstructive sleep apnea: the Patient-Reported Apnea Questionnaire (PRAQ). <i>Journal of Patient-Reported Outcomes</i> , 2017, 1, 14.	0.9	5
76	Stewardship of primary care physicians to contain cost in health care: an international cross-sectional survey. <i>Family Practice</i> , 2017, 34, 717-722.	0.8	3
77	Optimal governance of patient safety: A qualitative study on barriers to and facilitators for effective internal audit. <i>Journal of Hospital Administration</i> , 2017, 6, 15.	0.0	6
78	Evaluation of the organisation and effectiveness of internal audits to govern patient safety in hospitals: a mixed-methods study. <i>BMJ Open</i> , 2017, 7, e015506.	0.8	14
79	Define and Conquer: How Semantics Foster Progress; A Response to Recent Commentaries. <i>International Journal of Health Policy and Management</i> , 2017, 6, 681-682.	0.5	1
80	Medicalisation and Overdiagnosis: What Society Does to Medicine. <i>International Journal of Health Policy and Management</i> , 2016, 5, 619-622.	0.5	51
81	Trends towards stronger primary care in three western European countries; 2006-2012. <i>BMC Family Practice</i> , 2016, 17, 59.	2.9	26
82	Inter-practice variation in polypharmacy prevalence amongst older patients in primary care. <i>Pharmacoepidemiology and Drug Safety</i> , 2016, 25, 1033-1041.	0.9	23
83	Identifying and prioritizing lower value services from Dutch specialist guidelines and a comparison with the UK do-not-do list. <i>BMC Medicine</i> , 2016, 14, 196.	2.3	24
84	Feasibility and Added Value of Executive WalkRounds in Long Term Care Organizations in the Netherlands. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2016, 42, 545-AP3.	0.4	5
85	Medication management strategy for older people with polypharmacy in general practice: a qualitative study on prescribing behaviour in primary care. <i>British Journal of General Practice</i> , 2016, 66, e540-e551.	0.7	26
86	Episodic Abdominal Pain Characteristics Are Not Associated with Clinically Relevant Improvement of Health Status After Cholecystectomy. <i>Journal of Gastrointestinal Surgery</i> , 2016, 20, 1350-1358.	0.9	3
87	Sociological Model for Understanding Medical Practice Variations. , 2016, , 25-39.		4
88	Medical Practice Variations in Primary Care. , 2016, , 113-122.		0
89	The impact of primary care organization on avoidable hospital admissions for diabetes in 23 countries. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 5-12.	0.6	55
90	Accessible and continuous primary care may help reduce rates of emergency department use. An international survey in 34 countries. <i>Family Practice</i> , 2016, 33, 42-50.	0.8	97

#	ARTICLE	IF	CITATIONS
91	Measurement properties of patient-reported outcome measures (PROMs) in adults with obstructive sleep apnea (OSA): A systematic review. <i>Sleep Medicine Reviews</i> , 2016, 28, 18-31.	3.8	36
92	The Relationship Between the Scope of Essential Health Benefits and Statutory Financing: An International Comparison Across Eight European Countries. <i>International Journal of Health Policy and Management</i> , 2016, 5, 13-22.	0.5	16
93	The disciplined healthcare professional: a qualitative interview study on the impact of the disciplinary process and imposed measures in the Netherlands. <i>BMJ Open</i> , 2015, 5, e009275.	0.8	35
94	Implementation of multiple-domain covering computerized decision support systems in primary care: a focus group study on perceived barriers. <i>BMC Medical Informatics and Decision Making</i> , 2015, 15, 82.	1.5	43
95	Incorporating shared savings programs into primary care: from theory to practice. <i>BMC Health Services Research</i> , 2015, 15, 580.	0.9	14
96	A multifaceted feedback strategy alone does not improve the adherence to organizational guideline-based standards: a cluster randomized trial in intensive care. <i>Implementation Science</i> , 2015, 10, 95.	2.5	6
97	Exposure to and experiences with a computerized decision support intervention in primary care: results from a process evaluation. <i>BMC Family Practice</i> , 2015, 16, 141.	2.9	25
98	Propensity to seek healthcare in different healthcare systems: analysis of patient data in 34 countries. <i>BMC Health Services Research</i> , 2015, 15, 465.	0.9	33
99	Improving patient-centredness in partnership with female patients: a cluster RCT in fertility care. <i>Human Reproduction</i> , 2015, 30, 1137-1145.	0.4	18
100	Am I my brother's keeper? A survey of 10 healthcare professions in the Netherlands about experiences with impaired and incompetent colleagues. <i>BMJ Quality and Safety</i> , 2015, 24, 56-64.	1.8	21
101	Development and measurement of perioperative patient safety indicators. <i>British Journal of Anaesthesia</i> , 2015, 114, 963-972.	1.5	14
102	Improving clinical handover between intensive care unit and general ward professionals at intensive care unit discharge. <i>Intensive Care Medicine</i> , 2015, 41, 589-604.	3.9	93
103	Value of EGD in patients referred for cholecystectomy: a systematic review and meta-analysis. <i>Gastrointestinal Endoscopy</i> , 2015, 82, 24-31.	0.5	17
104	Why do high-volume hospitals achieve better outcomes? A systematic review about intermediate factors in volume-outcome relationships. <i>Health Policy</i> , 2015, 119, 1055-1067.	1.4	77
105	Improving the implementation of perioperative safety guidelines using a multifaceted intervention approach: protocol of the IMPROVE study, a stepped wedge cluster randomized trial. <i>Implementation Science</i> , 2015, 10, 3.	2.5	16
106	Aneurysm diameter as a risk factor for pretreatment rebleeding: a meta-analysis. <i>Journal of Neurosurgery</i> , 2015, 122, 921-928.	0.9	39
107	Multimorbidity patterns in a primary care population aged 55 years and over. <i>Family Practice</i> , 2015, 32, 505-513.	0.8	50
108	Sociological Model for Understanding Medical Practice Variations. , 2015, , 1-15.		4

#	ARTICLE	IF	CITATIONS
109	Medical Practice Variations in Primary Care. , 2015, , 1-11.		0
110	Comparative performance information plays no role in the referral behaviour of GPs. BMC Family Practice, 2014, 15, 146.	2.9	15
111	Patients'™ expectations of variation in quality of care relates to their search for comparative performance information. BMC Health Services Research, 2014, 14, 617.	0.9	8
112	Why Dutch general practitioners do not put the squeeze on access to hospital care?. Family Practice, 2014, 31, 499-501.	0.8	4
